## 3640 WILDLIFE CONSERVATION BOARD

## Program Objectives Statement

The Wildlife Conservation Board is involved in acquiring, conserving, developing, improving and providing access to our natural resources to accommodate the needs of the people who use and enjoy the State's fish and wildlife resources and compatible activities.

The Board is composed of the Director of Finance, the Director of the Department of Fish and Game, and the President of the Fish and Game Commission. The Board is advised by a joint interim investigating committee consisting of three Members of the Senate and three Members of the Assembly. Annually, \$750,000 is transferred to the Wildlife Restoration Fund from license fees collected for conducting horseraces. The Board is charged with the administration of this fund. Additional funding for the Board's activities result from the Fish and Wildlife Habitat Enhancement Act of 1984 and the California Park and Recreational Facilities Act of 1984, both approved by the voters in June, 1984. These Bond Acts provide a total of \$90,000,000 for the acquisition and development of the State's natural resources. In addition, the California Wildlife, Coastal, and Park Land Conservation Act (Proposition 70) was passed by the voters in June, 1988 and provides \$81.3 million in directly appropriated funds to the Board for the acquisition, preservation, protection, restoration, enhancement, or development of wetlands, riparian lands, and wildlife habitat. The Act also provides \$50 million for the Board to acquire, enhance, restore, or protect lands supporting California's unique, threatened or endangered plants, animals, and natural communities, all in accordance with the provisions of the Wildlife Conservation Law of 1947. Funding is also provided from the California Environmental License Plate Fund for acquisition and preservation of valuable wildlife habitat for ecological reserves. For further project detail, please see the Capital Outlay budget section which follows.

Through its staff, the Board conducts necessary investigations and studies to determine the areas within the State most essential and suitable for wildlife production and preservation and which will provide recreational advantages. As a result of such studies, the Board determines which lands or rights in lands or waters should be acquired by the State to further the wildlife conservation and recreation program. The Board develops fishing piers and fishing access sites at lakes, on the ocean, and along the State's waterways and aqueducts. Development includes, as necessary, features such as boat ramps, parking areas, water supply, and sanitary facilities. Protection and improvement of the resource is accomplished by building fish screens, fish ladders and fish hatcheries, and preserving wildlife marshlands or ecological areas.

## Summary of Program Requirements

	1988-89*	1989-90*	1990-91*
10 Wildlife Conservation Board .....	\$837	\$1,098	\$913

## Major Budget Adjustment

For 1990-91, the following budget adjustment is proposed:

- 1.0 position (1.0 personnel year) and \$58,000 from the Public Resources Account, Cigarette and Tobacco Products Surtax Fund for activity associated with waterfowl and wildlife habitat acquisitions.

## Authority

Fish and Game Code, Division 2, Chapter 4, Article 1, Section 1300 (Wildlife Conservation Law of 1947).

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

TOTALS, PUBLIC RESOURCES ACCOUNT, CIGARETTE AND TOBACCO PRODUCTS SURTAX FUND .....		-	\$5,500	\$1,500

## Wildlife Restoration Fund

Continuation of the acquisition and improvement of wildlife conservation projects is planned. The revenue of \$750,000 each fiscal year, as provided by the Business and Professions Code, Section 19632(a), has been or will be allocated to projects by the Wildlife Conservation Board. Fish and Game Code Section 1352 authorizes expenditures for the Wildlife Restoration Fund. The schedule reflects the estimated expenditures, based on anticipated allocations by the Wildlife Conservation Board. Commencing with the 1983-84 fiscal year, however, funds for these purposes are appropriated by the Legislature.

In addition to the Wildlife Conservation Board's regular funding, it is expected that federal funds will become available on a reimbursable basis for qualifying projects, and such funds will be reported annually as received.

\* Dollars in thousands, excluding salary range.

3680 DEPARTMENT OF BOATING AND WATERWAYS

The program objectives and responsibilities of the Department of Boating and Waterways are to develop and improve boating facilities throughout the State, to promote safety of persons and property connected with the operation of vessels on State waters and promote uniformity of law relating thereto, and to conduct a beach erosion control program in cooperation with the Federal Government and local governmental agencies.

The Department makes loans for small craft harbor development and grants for boat launching facilities, plans and provides funding for capital outlay projects, licenses yacht and ship brokers and for-hire vessel operators, and conducts a program of boating safety and regulation. The Department also participates with the U.S. Corps of Engineers and local agencies in the construction of beach erosion control projects.

The Department has a seven-person commission appointed by the Governor.

MAJOR BUDGET ADJUSTMENT		1990-91	
Program	Description	Personnel years	Dollars*
10.10	Local assistance grants for launching facilities grants .....	-	\$5,869

## 10 BOATING FACILITIES

## Program Objectives Statements

The objective of this program is to continue to plan, develop, and construct environmentally sound boating facilities in areas of demonstrated need throughout California.

To accomplish this objective, the Department functions as a central source of boating information by conducting special studies, assembling and compiling existing data, and disseminating the information to both public and private groups; contacts and meets with local governmental planning agencies and private individuals to plan local boating facilities development; provides technical assistance for new boating facilities projects; provides financial assistance to local governments in the form of loans for small craft harbors and grants for boat launching facilities and floating restrooms; provides financial assistance in the form of loans to private marina owners for development of recreational marinas; ensures that proper environmental safeguards are met in developing all boating facility projects; and acts as the lead agency for the State in the control of water hyacinth in the Sacramento-San Joaquin Delta and the Suisun Marsh.

The Department also plans, designs, and constructs boating facilities throughout the State Park System, on state water project reservoirs, and on other State lands. These projects are planned and coordinated to ensure proper recreational and environmental utilization. In addition, because marina-related concessions contribute to the financial feasibility of department-financed projects, the Department of Boating and Waterways reviews and approves concession proposals to ensure compatibility with departmental policies and objectives. Coordination with federal, state, and local governmental agencies, as well as private concerns, is maintained on all matters affecting navigation, boating, and boating's relationship with the environment.

## Budget Adjustments

In 1990-91, the following adjustments are included:

- \$5,869,000 is proposed for local assistance launching facility grants from the Harbors and Watercraft Revolving Fund.
- \$26,300,000 is proposed for local assistance small craft harbor loans from the Harbors and Watercraft Revolving Fund.
- 1.0 position (0.9 personnel year) and \$26,000 from the Harbors and Watercraft Revolving Fund to increase temporary help for seasonal spraying to control water hyacinth infestation in the Sacramento-San Joaquin Delta and Suisun Marsh.

3680 DEPARTMENT OF BOATING AND WATERWAYS—Continued

10.10 Grant Program

This program provides grants to local governments and funds for joint State/federal projects in an effort to alleviate the shortage of safe and convenient boat launching facilities.

Grant expenditures are used to fund boat launching ramps and ancillary facilities including restrooms, lighting, car-trailer parking, ramp extensions, drinking fountains, utilities, boarding floats, safety signs, erosion protection, environmental enhancement and landscaping. In addition, the Department may grant funds to governmental agencies for the construction of floating restrooms when conventional restrooms cannot meet the needs of boaters and the presence of floating restrooms could lessen environmental degradation.

Performance Measures				1988-89	1989-90	1990-91
Number of completed projects.....				18	19	19
Number of launching lanes constructed .....				20	24	24

Less transfers from the Federal Trust Fund (reimbursement for previously com- pleted projects) .....	—	—	—	—982	—3,400	—1,700

10.20 Loan Program—Local Government

This program provides loans to local governments in an effort to alleviate the shortage of safe and convenient small craft harbor facilities. California continues to experience increases in the boating population with its attendant demand for berthing spaces in small craft harbors throughout the State, especially in the south coastal area.

In addition to developing new small craft harbors, the Department places a high priority on the expansion of existing berthing facilities.

Loan program expenditures indicate the level of funding to local governmental jurisdictions. A harbor development project may include dredging, excavation, erosion control, environmental enhancement, landscaping and irrigation, as well as the construction of breakwaters, harbor master offices, rest rooms, boarding floats, fuel docks, sewage pump-out stations, mooring buoys, berths, public access areas, and utilities.

Performance Measures				1988-89	1989-90	1990-91
Number of completed projects.....				7	6	7
Number of berths constructed.....				900	950	950

Expenditures (Harbors and Watercraft Re- volving Fund *) .....	6.0	5.3	5.3	\$8,159	\$18,398	\$19,033

10.30 Loan Program—Private Recreational Marinas

Chapter 1307, Statutes of 1985 (Johnston), created a private marina loan program. The objective of the private marina loan program is to provide financial assistance to private marina owners to develop, expand, and improve the berthing and ancillary facilities in recreational marinas.

Performance Measures				1988-89	1989-90	1990-91
Number of loan applications processed.....				6	7	6
Number of loans approved and made.....				3	5	5
Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (Harbors and Watercraft Re- volving Fund *) .....	2.0	2.5	2.5	\$1,927	\$4,306	\$8,321

10.40 Capital Outlay Administration

The Capital outlay program consists of boating facilities development in the State park system, on State water project reservoirs, and on other State lands. The Department is responsible for the project location, scope, planning, and design of environmentally sound boating facilities within units of the State park system and at state water project reservoirs.

Surveys of boating facility needs throughout the State park system and the State water project reservoirs are conducted and priorities established by the Department in cooperation with the Departments of Parks and Recreation and Water Resources. The Department schedules the construction of boating facilities to meet the needs of the boating population in the various areas of the State.

Performance Measures				1988-89	1989-90	1990-91
Number of completed projects.....				11	10	11
Number of launching lanes constructed .....				7	7	8

## 20 BOATING OPERATIONS

## Program Objectives Statement

The primary objective of the boating operations program is to reduce the loss of life, personal injury, and property damage resulting from boating accidents.

This program includes activities in uniform boating law enforcement, boater education, and boating safety. Problems of increased boating activity necessitate study and recommendations in waterway use and management practices. Aspects of the program involve gathering statistical information concerning boating accidents to enable the Department to monitor accident trends, and problem areas, and to research causal factors in such accidents. Additionally, the Department develops and implements programs for the elimination or marking of waterway hazards. Boating safety literature is also published and distributed to prevent problems before they occur. Coordination of boating educational programs is of major importance, too, in reducing accidents. Continuous coordination with over 700 municipal and justice courts and over 150 enforcing agencies ensures an acceptable level of uniformity in boating law enforcement.

## Authority

Division 1, Chapter 4 of the Harbors and Navigation Code.

## Budget Adjustment

In 1990-91 the following budget adjustment is proposed:

- \$51,000 from the Harbors and Watercraft Revolving Fund for increased printing costs for boating safety and education publications.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing program costs .....	16.8	16.3	16.3	\$5,251	\$6,691	\$6,922
Workload and administrative adjustments ...	—	—	—	—	—	51
Totals, Boating Operations.....	16.8	16.3	16.3	\$5,251	\$6,691	\$6,973
Harbors and Watercraft Revolving Fund <sup>c</sup> .....				4,549	4,976	5,226
Federal Trust Fund <sup>f</sup> .....				646	1,700	1,732

## Program Elements

20.10 Boating Safety .....	4.0	3.0	3.0	438	595	635
20.20 Boating Regulations.....	2.4	3.0	3.0	233	340	368
20.30 Boating Education .....	3.2	3.0	3.0	448	977	1,029
20.40 Boating Enforcement .....	3.5	3.5	3.5	3,853	4,442	4,607
20.50 Yacht and Ship Brokers Licensing.	3.7	3.8	3.8	279	337	334

## 20.10 Boating Safety

Work in boating safety includes identification of potential problem areas either through local contact or review of accident statistics, recommending changes in the law and regulations governing the marking or removing of boating hazards, helping local agencies warn boaters of hazardous conditions, and recommending improvements in boating equipment. Presentations on boating safety are given to schools, boating clubs, public service organizations, and others interested in boating. Safety literature is disseminated statewide. In addition new projects are reviewed for compliance with State laws, and local entities are assisted in proper zoning and marking of waterways. In spite of a continual increase in the number of boaters, the number of boat related deaths has declined both in raw numbers and accident rates in California.

Performance Measures				1988-89	1989-90	1990-91	
1.	Total number of boating accidents <sup>3</sup> .....			745	750	775	
2.	Fatalities <sup>1,3</sup> .....			51	55	60

<sup>1</sup> Includes all boats, registered, nonregistered, powered, and nonpowered.

<sup>2</sup> Boat-use days are based on figures compiled by Arthur Young and Company in their 1972 Boat Gasoline Tax Study. These figures only include registered boats.

<sup>3</sup> Calendar year data.

\* Dollars in thousands, excluding salary range.

3680 DEPARTMENT OF BOATING AND WATERWAYS—Continued

20.20 Boating Regulations

This element maintains liaison with appropriate federal, state, and local agencies promulgating boating regulations. Federal regulations and regulatory proposals are reviewed, and where appropriate, changes are made to State regulations. State and local boating regulations are reviewed to ensure consistency. In some instances, assistance is provided to local agencies in the development of boating ordinances. This element also reviews public notices of development projects affecting the State's waterways, and provides comments relative to safety and navigation. Where appropriate, State regulations are added, revised or deleted under authority provided in the Harbors and Navigation Code.

Performance Measures	1988-89	1989-90	1990-91
Number of regulatory proposals reviewed.....	569	597	626
Number of public notices reviewed .....	860	903	948

Expenditures (Harbors and Watercraft Revolving Fund) <sup>c</sup> .....	2.4	3.0	3.0
	1988-89*	1989-90*	1990-91*
	\$233	\$340	\$368

20.30 Boating Education

The boating education element develops safety leaflets and posters; develops news releases, radio and television public service announcements; and coordinates the publicity of boating instruction with the State Department of Education, United States Coast Guard Auxiliary, United States Power Squadrons, and other boating organizations to promote better boating safety education. A public school boating course was developed by the Department and made available to schools throughout the state.

Performance Measures	1988-89	1989-90	1990-91
News releases .....	58	60	65
Public service announcements .....	1	1	1
Safety leaflets distributed.....	1,000,000	1,000,000	1,000,000
Films loaned to boating organizations.....	350	377	400
Students educated by State correspondence course.....	15,750	15,750	15,750
Students completing public school course.....	420,000	445,000	470,000
Input	88-89	89-90	90-91
Expenditures .....	3.2	3.0	3.0

Federal Trust Fund <sup>f</sup> .....	251	324	352
Reimbursements.....	141	638	662
	56	15	15

20.40 Boating Enforcement

This element administers the state and federal aid programs which provide funds to qualifying local agencies involved in boating safety and enforcement. Additionally, it monitors local programs for effectiveness. To ensure uniform law enforcement statewide, annual training is provided to enforcement officers. Local boating ordinances are reviewed to ensure conformity with State law.

Performance Measures	1988-89	1989-90	1990-91
Number of patrol boats (estimated).....	200	210	212
Number of citations .....	5,600	5,880	6,100

Federal Trust Fund <sup>f</sup> .....	3,395	3,592	3,757
	458	850	850

20.50 Yacht and Ship Brokers Licensing

The objectives of this program are to protect the public from fraudulent acts by persons engaged in the sale or resale of used vessels, and to provide a minimum level of competence among such brokers and their salespersons. To accomplish this, yacht brokers and salespersons are licensed, and complaints resolved through arbitration or legal action. In addition, for-hire vessel operators are licensed by this program.

## 3680 DEPARTMENT OF BOATING AND WATERWAYS—Continued

## 30 BEACH EROSION CONTROL

## Program Objectives Statement

The objective of the beach erosion control program is to mitigate coastal erosion and develop shoreline protection measures to preserve and enhance the beach and shoreline developments of the State. The Department is responsible for advising local, State, and federal governments on the need to protect critical areas from erosion, and for cooperating with all levels of government in programs to provide protection.

The program involves cooperative efforts with the federal government, state agencies, and local agencies to study and report on problems of beach erosion. Major beach erosion projects are constructed by the U.S. Corps of Engineers in cooperation with State and local agencies. Small beach erosion projects are constructed by local agencies with State cooperation.

California's marine shoreline was seriously damaged during the winters of 1978, 1980 and 1982, particularly the beaches in San Diego, Los Angeles, Santa Cruz, Marin and in San Francisco Counties. Mitigation of severe storm damage has been achieved, but remedial works are needed to protect coastal developments against future high energy storm waves. Corrective measures to preserve recreational beaches and to protect existing shoreline developments will require the cooperative participation of federal, State, local, and private agencies.

## Authority

Sections 65 through 67.3 of the Harbors and Navigation Code.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$1,000,000 from the Public Resources Account, Cigarette and Tobacco Products Surtax Fund for a local assistance beach erosion control project to preserve recreational value and to protect the existing shoreline at Ocean Beach in San Francisco.
- \$4,706,000 from the Outer Continental Shelf Land Act, Section 8(g) Revenue Fund for local assistance beach erosion projects in San Diego, San Luis Obispo and Santa Cruz Counties.
- \$80,000 from the Outer Continental Shelf Land Act, Section 8(g) Revenue Fund to conduct a study of offshore sand and gravel resources in Santa Barbara and Ventura Counties.

## 40 ADMINISTRATION

## Program Objectives Statement

Administration consists of executive direction and administrative services essential to the operation of the line programs.

The executive direction provides policy formulation, administrative direction, and guidance in policy implementation; overall planning and program management; coordination of line programs; and evaluations of program results.

The Legislative, Public Information and Environmental Unit, provides executive services for the Department, including: (1) the analysis, tracking, and representation before the Legislature of all bills pertaining to boating and beach erosion control; (2) implementation of a public information program to provide news releases, boating brochures, public service announcements for television and radio, and other communication tools; and (3) coordination of environmental documents and providing comments on developmental projects that impact Department interests.

The administrative services provide accounting, budgeting, personnel, and business management services to the line programs, as well as financial audits of expenditures for small craft harbor planning and construction loans, launching facility grants, and boating law enforcement subventions.

## 3720 CALIFORNIA COASTAL COMMISSION

In 1972, the voters of California passed Proposition 20, which established a temporary State Agency—the California Coastal Zone Conservation Commission—and required it to prepare a long-range plan for the conservation and development of the State's 1,100-mile coastline and to regulate virtually all development along the coast while the plan was being prepared. The California Coastal Zone Conservation Commission completed its plan in 1975 and, based on the recommendations contained in the plan, the Legislature enacted the California Coastal Act of 1976 to provide for the permanent State management of California's coastal resources. The 1976 Coastal Act established the California Coastal Commission to succeed the California Coastal Zone Conservation Commission, which expired at the end of 1976 under the provisions of Proposition 20. The Commission is composed of 15 members, 12 voting members and three nonvoting members. The Governor, the Senate Rules Committee, and the Speaker of the Assembly, each appoints two public members and two locally elected officials. The three nonvoting ex-officio members are the Secretary for Resources, the Secretary for Business, Transportation and Housing, and the Chairperson of the State Lands Commission. From 1977 through June 1981, six regional coastal commissions assisted the state coastal commission in carrying out its responsibilities. Under the provisions of the Coastal Act, the regional commissions were terminated on July 1, 1981.

The Coastal Act established policies with which "coastal zone" conservation and development decisions must comply. The "coastal zone" is defined on maps incorporated into the Coastal Act. The zone extends three miles seaward and generally about 1,000 yards inland. In particularly important and generally undeveloped areas where there can be a considerable impact on the coastline from inland development, the coastal zone extends as much as five miles inland. In developed urban areas, the coastal zone extends considerably less than 1,000 yards inland. The Commission's jurisdiction does not extend into or around San Francisco Bay, where development is regulated by the San Francisco Bay Conservation and Development Commission which is governed under a different State law.

The policies of the Coastal Act deal with public access to the coast, coastal recreation, the marine environment, coastal land resources, and coastal development of various types, including energy facilities and other industrial development. To carry out these policies, each local government within the coastal zone is required to prepare a local coastal program (LCP) that reflects the policies of the Coastal Act. An LCP is composed of a land use plan (LUP) and implementing ordinances. Each LCP must be submitted to the Commission for review and certification of its adequacy. Until the LCP has been certified, virtually all development within the coastal zone requires a coastal permit from the Commission as well as a local permit from the city or county in which the development would be located. After certification of an LCP, the Commission's regulatory authority over most types of development is delegated to the local government, subject to limited appeal to the Commission. In 1981, legislation was passed (Chapter 1173, Statutes of 1981) to modify the procedures for the preparation and certification of LCPs. Under these amendments, a local government can take over

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3720 CALIFORNIA COASTAL COMMISSION—Continued

the authority for regulating most coastal development upon the certification of the LUP portion of its LCP. However, if a local government elects to use this early transfer option, all local decisions on coastal development permits are subject to appeal to the Commission.

The Coastal Commission is also the designated State coastal management agency for the purpose of administering the federal Coastal Zone Management Act in California. Under the federal law, California receives financial assistance to develop and implement the federally approved California Coastal Management Program, which is based on the policies of the California Coastal Act. The federal coastal act gives the Commission authority over federal activities that would not otherwise be subject to State control under California law.

## 10 COASTAL MANAGEMENT PROGRAM

## Program Objectives Statement

The elements of this program implement the California Coastal Act and the California Coastal Management Program under the federal Coastal Zone Management Act. The objective of this program is to provide for the permanent management and protection of California's coastal resources. This objective is being accomplished by: the preparation and certification of local coastal programs (LCPs) to bring the general plans and implementing ordinances of coastal local governments into conformity with the policies of the California Coastal Act; the interim regulation of coastal zone development by the Commission while the LCPs are being prepared to ensure that all development is consistent with the policies of the Coastal Act; the permanent regulation by the Commission of development on tidelands, submerged lands, and public trust lands and the Commission's monitoring, enforcement, and handling of appeals of certain types of local regulatory decisions made under certified LCPs to protect State and national interests; the review of federal projects and activities to ensure that these activities are consistent with the California Coastal Management Program; the Commission's involvement in addressing those coastal issues that cannot be adequately handled by local governments alone; the operation of a program to protect and increase usable areas for public access to the coastline; and the provision of technical information and assistance to local governments in the implementation of their LCPs.

## Authority

Public Resources Code, Division 20, Sections 30000 et seq.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$22,000 from the General Fund to purchase an electronic key telephone system for the Commission's Long Beach office.
- \$15,000 from the General Fund to replace a vehicle in the Commission's San Diego office.

## 10.10 Regulation of Coastal Development

## Program Element Statement

The California Coastal Act of 1976 requires all new development in the coastal zone to be consistent with the Coastal Act policies. To achieve this, the Commission is authorized to regulate new coastal development through the issuance of permits. This authority applies to all proposed development except for powerplants, electric transmission lines, and certain other specified uses which are excluded from the Commission's jurisdiction by the Coastal Act. The Commission's coastal permit authority can be delegated to local governments under one of three methods. First, a local government may elect at any time to take over the permit review authority for all coastal zone development. However, local decisions can be appealed to the Commission and development in certain areas (tidelands, submerged lands, estuaries, public trust lands, the area between the first public road and the sea, and the area within the first 300 feet inland from the sea) continue to be subject to direct regulation by the Commission.

The second method was provided by 1981 amendments to the Coastal Act. Under this method, a local government may take over the coastal permit authority when the land use plan (LUP) portion of its local coastal program (LCP) has been certified by the Commission as being in conformity with the policies of the Coastal Act. As with the first method, development offshore and along the immediate shoreline also requires a permit from the

\* Dollars in thousands, excluding salary range.

## 3720 CALIFORNIA COASTAL COMMISSION—Continued

Commission and all local decisions on development within the coastal zone can be appealed to the Commission.

The third method covers areas where a local government does not choose to assume the coastal permit responsibility until it has completed its LCP. Here the Commission retains regulatory authority until the local government has completed its entire LCP (the LUP and its implementing ordinances) and the Commission has certified that the LCP complies with the requirements of the Coastal Act. During this interim period, the Commission may issue a permit only if a proposed development will be in conformity with the provisions of the Coastal Act and will not prejudice the ability of the local government to prepare its LCP. Upon certification of an LCP, the local government must take over the permit authority for the entire coastal zone within its jurisdiction. Development proposed in tidelands, submerged lands, or public trust lands continues to require a permit from the Commission. Local decisions or permits for development between the first public road and the sea and along the immediate shoreline can be appealed to the Commission.

The Commission carries out permit monitoring and enforcement activities to ensure that coastal development does not occur without a coastal development permit, that conditions placed upon coastal development permits are met, and that locally issued permits comply with the provisions of certified local coastal programs.

The Commission also administers the federally-approved California Coastal Management Program, which was established by the Coastal Act. Under the requirements of federal law, federal agencies are required to carry out their activities and programs in a manner generally consistent with the Coastal Act policies. To implement these requirements, federal agencies and applicants for federal permits, licenses, or local financial assistance must submit their proposals to the Commission for its review and approval.

Federal Trust Fund <sup>f</sup> .....				859	1,004	925

## 10.20 Local Coastal Programs

## Program Element Statement

Each coastal city and county is required to prepare a local coastal program (LCP) for the portion of the local government's jurisdiction that is within the coastal zone, and to submit the LCP to the Commission for certification. An LCP includes a land use plan (LUP) which is the relevant portion of the local general plan, including any maps necessary to administer it, and the zoning ordinances, zoning district maps, and any other legal instruments necessary to implement the land use plan. The policies specified in the Coastal Act are the standards by which the LCPs are judged for their adequacy.

The entire LCP may be submitted at one time, or the land use plan can be submitted first and certified before work is begun on the implementing ordinances, which require a second separate certification by the Commission. Under 1981 amendments to the Coastal Act, all LUPs had to be submitted to the Commission by January 1, 1983 and all implementing ordinances by January 1, 1984. The 1981 amendments authorized the Commission to prepare LUPs for those local governments that failed to submit their LUPs on schedule; to waive the deadlines for processing ordinances if the LUP or implementing ordinances were not submitted, or submitted late; or report the matter to the Legislature and recommend appropriate action.

Certified LUPs and LCPs may be amended by local governments, but the amendments do not become effective until approved by the Commission. Additionally, the Commission is required to review each certified LCP every five years to ensure that LCPs are being properly implemented and are still in compliance with Coastal Act.

## 10.30 Planning and Support Studies

## Program Element Statement

The Commission requires legal and technical information for use in the regulation of coastal development and to assist in the preparation of local coastal programs. Moreover, as the LCPs are completed and regulatory responsibilities are delegated to local governments, the Commission is called upon to provide data, expertise, and advice to local governments in carrying out their Coastal Act responsibilities. Although the Commission has its own staff experts, it continues to rely heavily on other state agencies with specialized staff expertise to avoid duplicating the resources available from these agencies. The Commission's staff experts also assist with the Coastal Resources Information Center ocean, resources and coastal energy functions.

Performance Measures	1988-89	1989-90	1990-91

## 10.40 Federal Coastal Management Program

## Program Element Statement

In order for California to have an approved State coastal management program under the provisions of the federal Coastal Zone Management Act, it is necessary that the entire coastal zone—including San Francisco Bay and its shoreline—be covered by the program. Under State law, the San Francisco Bay segment of the coastal zone is under the jurisdiction of another State agency, the San Francisco Bay Conservation and Development Commission (SFBCDC). Furthermore, the federal law requires that only one State agency can be the primary recipient of federal coastal act funds even though several different State agencies have some responsibilities for the implementation of the federally-approved State coastal program. The California Coastal Act designates the Coastal Commission as the State agency responsible for receiving and administering these funds. As a result, any federal coastal management funds for SFBCDC, the State Coastal Conservancy, the Department of Parks and Recreation, or any other State or local agency must be received by the Commission, administered, and passed through to the other agencies.

Expenditures (Federal Trust Fund <sup>1</sup> ).....	—	—	—	\$1,119	\$1,250	\$1,250

## 10.50 Coastal Access Program

## Program Element Statement

One of the Commission's statutory responsibilities is to promote maximum public access to and along the coast. Under the California Coastal Act the Commission's primary means for meeting this responsibility is through access elements in LCPs and by including in coastal development permits conditions requiring that public access to the coast be allowed as part of the approved development. In addition, Chapter 868, Statutes of 1979 authorized the Coastal Commission to prepare and periodically update the *California Coastal Access Guide*, an atlas of coastal accessways, for distribution to the public.

Performance Measures	1988-89	1989-90	1990-91

## 10.60 Coastal Resource Information Center

## Program Element Statement

Chapter 1470, Statutes of 1982 directed the Commission to establish a Coastal Resource Information Center and an automated graphics and data storage and retrieval system, and to publish a "Guide to Coastal Resources". The automated data storage and retrieval system is to inventory permits, LCP information, relevant studies and data bases and to provide assistance to the Commission and to other federal and state agencies, local governments and the public.

20 COASTAL ENERGY PROGRAM<sup>1</sup>

## Program Objectives Statement

This program implements the energy planning and regulatory requirements of the California Coastal Act and the California Coastal Management Program under the federal Coastal Zone Management Act. The objective of this program is to provide for the permanent management and protection of California's coastal resources while at the same time ensuring that the State and national energy concerns, which are afforded special treatment in the Coastal Act, are addressed. This objective is being accomplished by including an energy component in the LCPs of local jurisdictions facing significant energy development; requiring the amendment of an LCP that would prevent a needed energy development if the development would otherwise conform with the Coastal Act; regulating coastal energy development under special conditions which allow approval even if a development would not meet other policies of the Act; regulating oil and gas drilling offshore California to ensure that drilling will be consistent with the California Coastal Management Program; and designating biennially areas where the location of thermal electric generating plants would conflict with the objectives of the Coastal Act.

## 3760 STATE COASTAL CONSERVANCY

## Program Objectives Statement

Chapter 1441, Statutes of 1976 established the State Coastal Conservancy within the Resources Agency. The State Coastal Conservancy was created to develop and implement programs to protect, restore and enhance resources in the coastal zone within the policies and guidelines established pursuant to the California Coastal Act of 1976.

Specifically, the State Coastal Conservancy is empowered to:

- a) acquire agricultural lands in order to prevent the loss of such lands to other uses and to assemble such lands into parcels of adequate size so as to permit continued agricultural production;
- b) provide grants to local agencies for, or undertake itself, projects designed to restore areas which may be adversely affecting the coastal environment or impeding orderly development due to poor lot layout, scattered ownerships, incompatible land uses, or other conditions;
- c) award grants to local or State public agencies for, or undertake itself, projects designed to enhance natural and scenic values threatened by dredging or filling, improper location of improvements and other conditions;
- d) undertake projects in the preservation of significant coastal resource areas until other public agencies are willing or able to acquire such sites;
- e) award grants to the Department of Parks and Recreation or to local public agencies for the purpose of acquiring and developing public accessways to the coast; and
- f) award grants and provide technical assistance to nonprofit organizations.

## MAJOR BUDGET ADJUSTMENTS

For the 1990-91 fiscal year, the Conservancy will allocate \$1.5 million from the State Coastal Conservancy Fund of 1984, \$7.8 million from the California Wildlife Coastal and Park Land Conservation Fund of 1988 and \$2.0 million from the Fish and Wildlife Habitat Enhancement Fund for habitat enhancement capital outlay and local assistance grants.

## SUMMARY OF PROGRAM REQUIREMENTS

## 10 AGRICULTURAL LAND PRESERVATION

## Program Objectives Statement

The objective of Agricultural Land Preservation Program is to acquire interest in agricultural lands, provide necessary improvements and convey them back to private agricultural operators in order to conserve resources and prevent loss of productive agricultural lands to other uses. This objective is achieved through grants or direct acquisitions, provision of site improvements and resale of legally protected lands to private parties for continued agricultural use.

## 3760 STATE COASTAL CONSERVANCY—Continued

## 20 COASTAL RESTORATION

## Program Objectives Statement

The objective of the Coastal Restoration Program is to assist local governments, landowners and developers in the design or redesign of subdivisions and to encourage appropriate private development while protecting coastal lands having high scenic, recreational, or habitat value. This objective is achieved by providing grants and loans to local governments and nonprofit organizations, and implementing approved restoration plans through acquisition and consolidation of substandard lots.

## 30 PUBLIC ACCESS

## Program Objectives Statement

The objectives of the Public Access Program are to provide new, rehabilitated and improved public accessways to state tidelands in a manner which protects public safety, sensitive natural resources and private property rights. These objectives are achieved by funding construction grants and by providing technical assistance and public information to implement the State's coastal management policies.

## 40 RESOURCE ENHANCEMENT

## Program Objectives Statement

The objective of the Resource Enhancement Program is to create new habitats in areas not currently providing functional habitat; restore watersheds to reduce long-term degradation of coastal wetland resources; enhance existing habitat areas to provide more productive habitat values and resolve land use conflicts in a manner where existing resources are preserved and restored and/or new habitats are created. These objectives are achieved through a program of technical assistance and grant funded project planning, development and implementation.

## Budget Adjustment

In 1989–90, the following budget adjustment is reflected:

- 1.0 position (0.5 personnel year) and \$31,000 from the California Wildlife, Coastal and Park Land Fund of 1988 to commence work on a study of the mitigation of port development impacts on fisheries and wildlife in California pursuant to Chapter 751, Statutes of 1989.

In 1990–91, the following budget adjustment is proposed:

- 2.0 positions (1.5 personnel years) limited term until June 20, 1991, and \$78,000 from the California Wildlife, Coastal and Park Land Fund of 1988 to continue work on the study begun in 1989–90 pursuant to Chapter 751, Statutes of 1989, and to continue project work within the Resource Enhancement Program pursuant to the California Wildlife, Coastal and Park Land Conservation Act (Proposition 70).

## 60 URBAN WATERFRONT RESTORATION

## Program Objectives Statement

The objective of the Urban Waterfront Restoration Program is to assist local governments in redeveloping deteriorated and poorly planned waterfronts; provide enhanced visitor-service, recreational and public access opportunities; provide support for the commercial fishing industry and for coastal-dependent industries in general. This objective is achieved through an active program of technical assistance and grant funded project development and implementation.

## 70 NONPROFITS

## Program Objectives Statement

The objective of the Nonprofits Program is to provide technical assistance and support to nonprofit organizations in the areas of agricultural land preservation, coastal restoration, public access, resource enhancement, site reservation and urban waterfront restoration. This objective is achieved through a program of grants and technical assistance to increase non-profit capacity to carry out Conservancy projects.

## 90 ADMINISTRATION

## Program Objectives Statement

The objective of this program is to provide executive leadership, policy direction and the administrative services to meet the department's program directives. Activities include the executive, legal and legislative functions and accounting, business services, personnel, budgeting, contracting, EDP and clerical support.

## Budget Adjustments

In 1989–90, the following budget adjustment is reflected:

One position (0.6 personnel year) and \$33,000 from California Wildlife, Coastal and Parkland Conservation Fund of 1988 to support accounting workload due to Federal Tax Reform of 1986 and Proposition 70 of 1988.

In 1990–91, the following budget adjustment is proposed:

One position (0.9 personnel year) and \$56,000 from the State Coastal Conservancy Fund of 1976 to continue to support the accounting position and 1 position (1.0 personnel year) and \$25,000 from the State Coastal Conservancy Fund of 1976 to increase the Temporary Help blanket for all programs and projects.

\* Dollars in thousands, excluding salary range.

## 3790 DEPARTMENT OF PARKS AND RECREATION

The Department of Parks and Recreation acquires, designs, develops, operates and maintains units of the State Park System. The Department also has the responsibility to administer both federal and State local assistance programs. These activities are directed toward the accomplishment of eight principal objectives:

1. To secure and preserve elements of the State's outstanding landscape, cultural and historical features.
2. To provide the facilities and resources which are required to fulfill the recreational demands of the people of California.
3. To provide a meaningful environment in which the people of California are given the opportunity to understand and appreciate the State's cultural, historical and natural heritage.
4. To maintain and improve the quality of California's environment.
5. To prepare and maintain a statewide recreational plan that includes an analysis of the continuing need for recreational areas and facilities and a determination of the levels of public and private responsibility required to meet those needs.
6. To encourage all levels of government and private enterprise throughout the State to participate in the planning, development and operation of recreational facilities.
7. To meet the recreational demands of a highly accelerated, urban-centered population growth, through the acquisition, development and operation of urban parks.
8. To encourage volunteer services in the State Park System through the establishment of a recognition program of such services.

An ever-increasing population in California has resulted in accelerated urbanization which necessitates the establishment of park units and recreation areas accessible to the major population centers of the State. Technological advances have created a more affluent society with additional leisure time increasingly spent in pursuit of various forms of recreation. It is necessary to provide for the wise and constructive use of the State's natural resources for recreational uses and to preserve the State's cultural, historical and natural heritage for future generations to enjoy.

In addition to the General Fund expenditures shown in the Department's budget for support, an additional \$93.7 million in 1988-89, \$99.2 million in 1989-90 and \$121.6 million in 1990-91 General Fund expenditures will be incurred for the redemption of various general obligation bonds for grants, acquisition and development of the state and local park systems. Although the expenditures for bond redemption are shown in the Debt Service—Bond Interest and Redemption section of the Governor's Budget, they are directly related to this department's local assistance and capital outlay programs.

## MAJOR BUDGET ADJUSTMENTS

Program	Description	1990-91	
		Personnel years	Dollars*
10.00	To address resource education efforts in the State Park System.....	—	\$100
25.10	To continue existing limited term staff for six months to address the backlog in resource inventories and elements.....	5.8	387
25.20	To provide funds for film and lobby exhibits in the Maritime Museum at the Monterey SHP...	—	400
25.20	To develop slide programs, videos and films which interpret and market the State Park System.	1.0	118
30.10	To operate and maintain new park facilities scheduled for public use in 1990-91.....	7.0	479
30.10	To provide public access at Olompali SHP.....	2.0	100
30.10	To provide public access at Carlsbad SB.....	2.2	63
30.10	To provide public access at Navarro River.....	4.5	427
30.10	To provide public access at Mount Diablo SP.....	1.0	83
30.10	To operate the Marconi Property.....	1.0	211
30.10	To establish new life guard/aquatic safety services at park units in the Russian River, Pajaro Coast, Monterey, and Santa Monica Mountains districts.....	15.8	1,013
30.10	To provide lifeguard services at Harbor Cove under contract with the City of San Buenaventura.	2.3	71
30.10	To operate evening tours at Hearst San Simeon SHM.....	17.2	560
30.10	To provide support of the State Capitol Museum's Tour Guide Program.....	—	54
30.10	To ensure resource protection for proposed and ongoing energy facility developments impacting Gaviota District.....	1.0	65
35.00	To continue staff for implementation of the Off Highway Vehicle Resources Management Program.....	2.0	383
35.00	To upgrade the Pismo Dunes Dispatch Center.....	—	213
35.00	To operate and maintain new facilities at Hungry Valley SVRA.....	1.0	46
35.00	To operate and maintain new facilities at Carnegie SVRA.....	0.8	39

## 10 STATEWIDE PARKS AND RECREATION PLANNING

## Program Objectives Statement

The objective of this program is to provide the basic planning framework for the maximum use of State resources devoted to recreation. Its goal is to establish needs and priorities on a statewide basis to facilitate distribution of resources into areas of maximum benefit. Primary responsibility for this program is vested in the Department's Planning Division.

This program is also responsible for the operation of the California SNO-Park permit program which was implemented in the fall of 1985. Chapter 1408, Statutes of 1987 revised the user fee structure for this program.

## Authority

Division 5, Chapter 1 and Chapter 1.27 of the Public Resources Code.

## Budget Adjustments

- For 1990-91, \$100,000 is provided to address resource education efforts in the State Park System.

## Performance Measures

## 20 DEVELOPMENT OF THE STATE PARK SYSTEM

## Program Objectives Statement

The objective of this program is to meet the demand for additional State lands and facilities through its efforts in acquisition of lands and development of facilities. This program also provides the technical assistance for accomplishing maintenance of State Park System facilities. The program is the joint responsibility of the Acquisition and Development Divisions.

## Authority

Division 5, Chapter 1, Article 1 of the Public Resources Code.

## 20.10 Acquisition

## Program Element Statement

This element involves the preparation of budget requests, negotiations, condemnation and liaison necessary to acquire lands for the State Park System. It requires the administration of the Department's acquisition program including funded acquisition projects, gifts, exchanges, transfers and leases, as well as the real estate management and ownership mapping functions of the Department. Continuous liaison is maintained with the Office of Real Estate and Design Services of the Department of General Services as well as various State and federal agencies and nonprofit organizations to insure a well coordinated acquisition program.

## 20.15 Property Management

## Program Element Statement

The Property Management element was established as a result of Chapter 752, Statutes of 1982, which provided that all real property acquired by the State for the Park System prior to April 1 of each year, which constitutes a sufficient usable area of land for Park System purposes, be transferred to the Department of Parks and Recreation by July 1 of each year. The Department, through this element, is responsible for the management and maintenance of this property while ensuring that it is made accessible and usable by the general public at the earliest opportunity.

## 20.20 Facilities Development

## Program Element Statement

This element includes all efforts culminating in a completed recreational facility or major modifications or repair to an existing facility. Such efforts include refining plans as required to support reliable cost estimating, budget preparation for proposed projects, production of general plans for control of design in preliminary plans and working drawings development, production of design drawings and specifications, coordinating project bid and contracting program, construction inspection and necessary liaison with State, federal and private agencies.

## 25 RESOURCE PRESERVATION, INTERPRETATION, AND HISTORIC PRESERVATION

## Program Objectives Statement

This program provides protection and interpretation for the natural, cultural and historic resources of the State Park System. Preservation and interpretation efforts are directed toward two major types of resources: (1) natural and environmental resources and (2) cultural resources which includes archeological and historical resources.

## Authority

Division 5, Chapter 1, Articles 1 and 2 of the Public Resources Code.  
National Historic Preservation Act of 1966 (Public Law 89-665).

## 25.10 Resources Preservation

## Program Element Statement

This element provides for the restoration and management of the natural, cultural and historic resources of the State Park System. Management efforts are directed toward two major types of resources: (1) archeological and historical resources and (2) natural and environmental resources.

The cultural resources program is directly responsible for the Department's participation in the preservation of the State Park System resources. These include archeological and historical features over which the Department has jurisdiction. Responsibility for this program rests with the Cultural Heritage Section of the Resource Protection Division. Preservation responsibility for State Park System cultural resources includes providing professional expertise concerning cultural resources and monitoring the status of cultural resources. Park unit inventories of cultural resources provides the data required to complete the resource management element. These are the principal resource documents for all Department lands and are key components to the General Plan. This program includes the mitigation of archeological and historical resources.

The Natural Heritage Section, in addition to the collection of basic resource data for park unit inventories and the preparation of Resource elements, concentrates on management and restoration efforts in areas of environmental importance within the State Park System. Field reconnaissance, studies, and consultations related to identification, analysis and formulation of management and restoration programs for vegetative, wildlife and scenic resources are major activities included within this program. The maintenance of a hazard review program is included as a major part of this effort.

The purpose of the environmental review program is the identification of impacts to the State Park System and its resources as a result of the Department's and other agencies' projects and programs and the development of mitigation for those impacts. This environmental review program is carried out in conformance with the requirements of the California Environmental Quality Act (CEQA).

## Budget Adjustment

- In 1990-91, 11.5 limited term personnel years are extended until December 31, 1990 to prepare resource inventories and elements in connection with General Plans for units of the State Park System.

## 25.20 Resource Interpretation

## Program Element Statement

This element combines all activities necessary to conduct research and prepare plans necessary for effective interpretation of the natural, historical, and recreational resources. Activities include designing and developing exhibits, museums, programs, audiovisual presentations and publications needed to enhance the State Park System interpretative experience; and the management of the Department's museum and archeological collections.

## Budget Adjustments

- For 1990-91, \$400,000 is provided to design, develop, produce, and install film and lobby exhibits in the Maritime Museum/Stanton Visitor Center at Monterey State Historic Park.
- For 1990-91, 1 personnel year and \$118,000 are provided to develop audio visual presentations for interpretive and educational programs of the State Park System.

\* Dollars in thousands, excluding salary range.

## 25.30 Historic Preservation

## Program Element Statement

This element is directly responsible for the identification, evaluation, registration, and preservation of historic properties throughout the State of California. These responsibilities are set forth in the National Historic Preservation Act, Public Resources Code 5020, et seq., and other state and federal laws and regulations. The State Historical Resources Commission and the State Historic Preservation Officer carry out these responsibilities with the Office of Historic Preservation (OHP) serving as staff. OHP administers the following programs: The National Register of Historic Places, California Historical Landmarks, Points of Historical Interest, the statewide Cultural Resources Inventory and Plan, Project Review under Section 106 of the National Historic Preservation Act, Certified Local Governments, Section 5020 of the Public Resources Code, Investment Tax Credit Certification, the historic preservation components of the California Park and Recreation Facilities Act of 1984 and the California Wildlife, Coastal and Park Land Conservation Act of 1988, and other State and local-assistance programs.

## 30 STATE PARK SYSTEM OPERATIONS

## Program Objectives Statement

It is the responsibility of this program to provide services including protection, interpretation, and public information to the users of the State Park System. It is also the responsibility of this program to preserve and maintain all features of the State parks. Its primary goal is to insure a significant recreational experience at each park unit. The activities of this program are grouped into three major elements—park unit services, public information and concession services.

## Authority

Division 5, Chapter 1, and Chapter 1.2 of the Public Resources Code.

\* Dollars in thousands, excluding salary range.

## 30.10 Park Unit Services

## Program Element Statement

It is the purpose of this element to maintain park unit facilities for public use and insure a significant recreational experience at each park unit within the State Park System. This is accomplished by providing a wide range of visitor services such as law enforcement, interpretation of the various resources within the system, and other visitor services. Also contributing to the accomplishment of this goal, this element provides a wide range of services including resource management, housekeeping, and maintenance to preserve the facilities and resources of the system. It is also this element which collects camping, day-use and other user fees.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- 1.5 personnel years and \$82,000 for the operation and maintenance of the Native American Village Day Use area and entrance station/office facility at Patrick's Point State Park.
- 4.5 personnel years (positions effective November 1, 1990) and \$302,000 for the operation and maintenance of a new campground in the Christianitos section of San Onofre State Beach.
- 1 personnel year and \$95,000 to operate and maintain new developments at Torrey Pines State Beach.
- 1 personnel year and \$100,000 to open and operate Olompali State Historic Park.
- 2.2 personnel years and \$63,000 to provide lifeguard and maintenance services on property acquired from the San Diego Gas and Electric Company that will become part of Carlsbad State Beach.
- 4.5 personnel years and \$427,000 to operate and maintain property acquired around the Navarro River.
- 1 personnel year and \$83,000 to protect property acquired at Mount Diablo State Park.
- 1 personnel year and \$211,000 to operate the Marconi Property.
- 15.8 personnel years and \$1,013,000 to establish new lifeguard/aquatic safety services at four districts: Russian River District (7.7 pys), Pajaro Coast District (4.3 pys), Monterey District (2 pys), and Santa Monica Mountains District (1.8 pys).
- 2.3 personnel years and \$71,000 to provide lifeguard services at Harbor Cove.
- 17.2 personnel years and \$560,000 to provide evening tours at Hearst San Simeon State Historic Monument.
- \$54,000 to provide support of the State Capitol Museum's tour guide program.
- 1 personnel year and \$65,000 to ensure resource protection for proposed and ongoing energy facility developments at Gaviota District.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

## 30.20 Public Information

## Program Element Statement

This element includes all the activities necessary to perform the marketing and information functions for the Department. These functions include the implementation and coordination of a comprehensive marketing plan to increase awareness, attendance and revenue of the State Park System and internal and external communication on the Department's programs and on the environmental, historical, archeological, natural, recreational and scientific resources of the State Park System.

## 30.30 Concessions Services

## Program Element Statement

It is the responsibility of this element to coordinate and direct the work of the Department relating to concessions, and operating agreements issued to and received from federal and local agencies. This element encompasses the administration of concession contracts including analysis of bid contracts and the planning and supervising of concession operations. It is the goal of this element to provide adequate concession facilities which are reasonable, clean, and add to the citizen enjoyment of the State Park System.

For 1989-90, the following projects were or are planned to be submitted to the Public Works Board for a finding that the contracts were or are needed and that the public's interest would not be best served by postponing the review of the projects until the normal budget process:

Pismo State Beach—Golf Course

The following are concession proposals or operating agreements planned for 1990-91 which involve either private investments or concessionaire gross receipts in excess of \$250,000 on an annual basis:

- Concession Proposals:
- Castaic Lake SRA—Food and Supplies/Boat Rental
- Old Town San Diego SHP—Theater Opera House
- Operating Agreements:
- Point Dune SB—Additional Acreage

## 35 OFF-HIGHWAY MOTOR VEHICLE RECREATION

## Program Objectives Statement

The Off-Highway Vehicle (OHV) Program was established by Chapter 994, Statutes of 1982. That Act required the consolidation of all existing Off-Highway Recreation activities previously contained in other programs of the Department. This program consolidates all responsibilities of the Department relating to the planning, acquisition, development, management, operation, and conservation of the State Vehicular Recreation Area and Trail System. The goal of this program is to provide adequate facilities for the use of Off-Highway Vehicles while managing and providing resource protection and enhancing wildlife habitats, native wildlife, and native flora. Beginning in 1983-84, the Office of Off-Highway Vehicle Recreation was reorganized into the Off-Highway Motor Vehicle Recreation Division. All activities related to Off-Highway Vehicles are administered by this Division.

The OHV Program as established by Chapter 994, Statutes of 1982 was scheduled to sunset on December 31, 1987. Chapter 1027, Statutes of 1987 reestablished the program through December 31, 1993. The new program requires the Division to adopt soil loss standards and habitat protection plans as specified in the legislation. After development of the standards, the Division must monitor the continuing impact of OHV use against the standards and mitigate adverse impacts.

\* Dollars in thousands, excluding salary range.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- 2 personnel years (1 position limited term only for 1 year) and \$383,000 to provide continued implementation of the Off-Highway Vehicle Resources Management Program.
- \$213,000 to upgrade the Pismo Dunes Dispatch Center.
- 1 personnel year and \$46,000 to operate and maintain a new campground development at Hungry Valley State Vehicle Recreational Area.
- 0.8 personnel year (positions effective October 1, 1990) and \$39,000 to operate and maintain a new shop complex and expanded ranger station at Carnegie State Vehicle Recreational Area.
- 1 personnel year and \$66,000 to provide continued support of the Off-Highway Vehicle Safety Education program.
- 0.5 personnel year and \$500,000 to enhance Off-Highway Vehicle Division resource maintenance.
- 0.5 personnel year to provide maintenance and repair of Pismo Dunes District's vehicles.

## 50 GRANTS ADMINISTRATION

## Program Objectives Statement

This program is the responsibility of the Planning and Local Assistance Division. One of its objectives is to administer State and federal programs for financial assistance to local jurisdictions and State agencies for recreation. Another objective of this program is meeting statewide recreational needs by qualifying the State of California as a recipient of grants from the Federal Land and Water Conservation Fund. The costs of providing additional recreational facilities often exceed the financial capability of local government agencies. The federally sponsored Land and Water Conservation Fund, special appropriations and various bond funds provide assistance for local recreation.

## 50.10 Grants Administration

## Program Element Statement

This element includes those efforts needed in administering the requirements of federal and State grant programs which provide financial assistance to local agencies for recreation facilities acquisition and development. It also provides general consulting services to local governmental agencies, nongovernmental entities and individuals as needed to maximize their involvement in helping to meet public recreational needs.

## Budget Adjustment

- \$114,000 to provide for a local area network for the administration of grants in 1990-91.

## 50.20 Grants to Local Agencies

## Program Element Statement

This element consists of the estimated State and federal grant allocations to be administered by the Department of Parks and Recreation to local recreational agencies throughout California from all funding sources.

The California Wildlife, Coastal, and Park Land Conservation Act of 1988 (Proposition 70) authorizes \$340,400,000 for five local assistance programs (exclusive of competitive grants for local historical/archeological resource preservation). \$185,400,000 was appropriated directly by the initiative.

The Department also proposes the allocation of funds derived from the Public Resources Account, Cigarette and Tobacco Products Surtax Fund (Proposition 99), and proposed for transfer in the 1990-91 budget, to establish an on-going level of funding for the Roberti-Z'berg-Harris Urban Open-Space and Recreation Program.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

## 55 1989 EARTHQUAKE DISASTER RELIEF (Information Only)

## Program Objectives Statement

The objective of this program is to provide repairs to the State Park System and local assistance for historic structures damaged as a result of the October 17, 1989 earthquake in Northern California. Special legislation (Chapter 89-8X) provides \$1,300,000 for damage caused to Northern California state parks and \$170,850 for five historic structure projects.

## Authority

Chapter 8X, Statutes of 1989.

## 60 DEPARTMENT ADMINISTRATION

## Program Objectives Statement

This program provides the necessary leadership, regulation, and policy determination to ensure the Department's goals and objectives are satisfactorily met. This program is also responsible for providing the necessary administrative services and guidance for the proper functioning of all departmental programs.

It is the purpose of this element to consider recommendations and guidance from the State Park and Recreation Commission, the California Recreational Trails Committee, the California Historical Landmarks Advisory Committee, and the Advisory Board on Underwater Parks and Reserves, and to formulate departmental policy, establish departmental organization, direct operating organizational units, review and draft legislation, and represent the Department in all operational functions.

To use Department resources efficiently toward the accomplishment of the Department's principal objectives, this element ensures that policy is constantly analyzed, formulated, and reviewed. Use of Department resources toward common goals is also monitored within this element to ensure the setting of project and program schedules and priorities to realistically reflect the Department's policies.

The administration element provides the necessary business and administrative functions for the proper operation of all departmental programs. Activities include those involving human resources—personnel, affirmative action, and training; fiscal support—auditing, budgeting and accounting; and business management including departmentwide clerical, distribution, reproduction, data processing and office management services.

## Budget Adjustments

- In 1990-91, 3 personnel years are proposed to be funded from existing resources to perform key data entry work for accounting.
- In 1990-91, \$1,794,000 is provided to meet increasing costs of worker's compensation benefits.

This project will provide replacement of existing restrooms/change house, walks and ramps, existing concessions snack bar, comfort station and lifeguard tower.				
90.95	FRANK'S TRACT SRA			
90.95.488.880	Acquisition—Proposition 70—Direct Appropriation.....	20 <sup>Ar</sup>	10 <sup>Ar</sup>	3,910 <sup>Ar</sup>

\* Dollars in thousands, excluding salary range.

RES—D12—79604

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
90.CZ	GARRAPATA SP			
90.CZ.400.000	Acquisition.....	\$3,302 <sup>Av</sup>	—	—
90.F2	GAVIOTA SP			
90.F2.100.003	Rehabilitation or Replacement of Worn-Out Facilities—Campground and Day Use.....	45 <sup>WCr</sup>	\$1,495 <sup>Cr</sup>	\$14 <sup>Cr</sup>
90.CO	GILROY HOT SPRINGS PROJECT			
90.CO.400.000	Acquisition of Gilroy Hot Springs.....	7 <sup>Ar</sup>	354 <sup>Ar</sup>	1,606 <sup>Ar</sup>
90.8Y	GROVER HOT SPRINGS SP			
90.8Y.400.890	Acquisition.....	—	395 <sup>Aw</sup>	—
90.DQ	HEARST SAN SIMEON SHM			
90.DQ.105.880	Continuing Rehabilitation.....	500 <sup>Cv</sup>	—	—
90.DQ.100.861	Artifact Restoration.....	—1 <sup>Cv</sup>	—	—
90.DQ.100.870	Artifact Restoration.....	227 <sup>Cv</sup>	7 <sup>Cv</sup>	—
90.DQ.100.863	Fire Suppression.....	202 <sup>Cv</sup>	—	—
90.DQ.100.871	Climate Control and Electrical Rehabilitation.....	23 <sup>Cv</sup>	—	—
90.DQ.110.891	Add Water Storage.....	—	1,168 <sup>Cw</sup>	11 <sup>Cw</sup>
90.CO	HENRY W. COE SP			
90.CO.800.000	Acquisition and Development.....	170 <sup>Al</sup>	—	—
90.CO.400.000	Bell Station Access Acquisition.....	44 <sup>Al</sup>	—	—
90.CO.100.000	Initial Development.....	35 <sup>Cr</sup>	630 <sup>Cr</sup>	24 <sup>Cr</sup>
90.CO.488.880	Acquisition—Proposition 70—Direct Appropriation.....	—	2,955 <sup>Aw</sup>	—
90.CO.400.890	Acquisition—Redfern Property.....	—	5 <sup>As</sup>	2,495 <sup>As</sup>
90.6S	HOLLISTER HILLS SVRA			
90.6S.400.870	Acquisition of a 1691 Acre Parcel.....	2,180 <sup>As</sup>	36 <sup>As</sup>	—
90.6S.405.890	Hudner Property—Acquisition.....	—	5 <sup>As</sup>	2,430 <sup>As</sup>
90.6S.406.890	Taylor Property—Acquisition.....	—	5 <sup>As</sup>	1,065 <sup>As</sup>
90.3B	HUMBOLDT REDWOODS SP			
90.3B.105.880	Bank Protection.....	272 <sup>Cr</sup> 11 <sup>Cp</sup>	12 <sup>Cr</sup> 200 <sup>Cw</sup>	12 <sup>Cr</sup> 57 <sup>Cw</sup>
90.EH	HUNGRY VALLEY SVRA			
90.EH.600.000	Equipment.....	351 <sup>Es</sup>	—	—
90.EH.605.890	Quail Canyon.....	—	100 <sup>PW<sub>o</sub></sup>	250 <sup>PW<sub>o</sub></sup>
90.EH.610.900	Initial Development.....	—	—	197 <sup>PW<sub>o</sub></sup>
This project will provide administrative and maintenance facilities at the east side, realignment of Hardluck Road, develop two trailheads, develop existing well and build storage tank, road improvements, service facilities and utilities.				
90.AD	INDIAN GRINDING ROCK SHP			
90.AD.100.000	Regional Indian Museum.....	107 <sup>Cr</sup>	—	—
90.72	JOHN MARSH HOME PROJECT			
90.72.100.000	Restoration.....	19 <sup>Ck</sup>	—	—
90.EC	KENNETH HAHN SRA			
90.EC.102.890	Development.....	—	10 <sup>Cw</sup>	290 <sup>Cw</sup>
90.EC.100.900	Continuing Ridge Area Development.....	—	—	3,510 <sup>PWCw</sup>
This project will provide completion of the major facilities at the ridge area which includes group camp area, family picnic sites, play area, comfort stations, parking, roadways and walks, landscaping, utilities, and headquarters building.				
90.RS	KLAMATH DISTRICT			
90.RS.100.873	Rehabilitation or Replacement of Worn-out Facilities and Trails at Three Parks.....	45 <sup>Cr</sup>	88 <sup>Cr</sup>	—
90.HH	LAKE ELSINORE SRA			
90.HH.800.000	Acquisition and Development.....	84 <sup>Av</sup>	—	4,997 <sup>Av</sup>
90.47	LAKE OROVILLE SRA			
90.47.100.000	Lime Saddle—Infrastructure Development.....	560 <sup>PWCs</sup>	48 <sup>Cs</sup>	—
90.47.100.890	Lime Saddle Infrastructure Development.....	—	10 <sup>Ps</sup>	299 <sup>WCs</sup>
90.IH	LAKE PERRIS SRA			
90.IH.100.900	Swimming Beach Cleanup.....	—	—	351 <sup>PWCw</sup>
This project will provide two aerator circulation pumps with air mixing devices and complete electrical connections in order to circulate and treat the contaminated water.				
90.A1	LAKE TAHOE CORRIDOR TRAIL			
90.A1.400.000	Lake Tahoe Corridor Trail—Acquisition.....	—	31 <sup>Ap</sup>	—
90.F0	LEO CARRILLO SB			
90.F0.105.890	Rehabilitation and Replacement of Worn Out Facilities—Campground.....	84 <sup>PW<sub>r</sub></sup>	927 <sup>WCr</sup>	11 <sup>WCr</sup>

\* Dollars in thousands, excluding salary range.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
90.D6	LIGHTHOUSE FIELD SB			
90.D6.105.890	Phase I Completion .....	—	\$345 WCq	\$4 WCq
90.42	MACKERRICHER SP			
90.42.605.900	Rehabilitation and Replacement of Worn-Out Facilities .....	—	—	142 PWw
This project will provide rehabilitation of the campground facilities and landscaping.				
90.EX	MALIBU CREEK SP			
90.EX.100.862	Entrance Road, Archeol & Constr Delay .....	\$8 Cv	—	—
90.EX.105.880	Entrance Road .....	156 Cq	44 Cq	—
90.EX.400.861	Acquisition in Malibu Canyon .....	11 Ar	—	—
90.F8	MALIBU LAGOON SB			
90.F8.100.870	Adamson House Restoration .....	1 Cr	5 Cr	—
90.BK	MANRESA SB			
90.BK.100.861	Campground and Access .....	1,361 Cr	40 Cr	100 Cr
90.BK.100.874	Rehabilitation or Replacement of Worn-Out Facilities—Day Use Facilities .....	616 WCcr	—	—
90.5X	MARCONI CONFERENCE CENTER			
90.5X.600.880	Planning, Survey, and Equipment .....	—	210 PEq	90 Pq
90.5X.100.890	Construction and Site Improvements .....	—	—	775 Cq
90.4F	MENDOCINO WOODLANDS OUTDOOR CENTER			
90.4F.100.000	Utility Rehabilitation .....	80 Cr	—	—
90.4F.100.001	Rehabilitation Phase II .....	219 Cr	120 Cr	—
90.AI	MILLERTON LAKE SRA			
90.AI.100.875	Rehabilitation or Replacement of Worn-Out Facilities—Overnight Facilities .....	211 Cr	1,038 Cr	4 Cr
90.AI.100.890	Millerton Lake and Lost Lake Trail Development and studies for San Joaquin Parkway General Plan .....	—	20 PWCSn	480 PWCSn
90.7Q	MONTARA SB			
90.7Q.610.900	Access Improvements .....	—	—	258 Wr
This project will provide parking area, entrance station, comfort station, trails, picnic sites, interpretive facilities and landscaping.				
90.CN	MONTEREY SHP			
90.CN.100.861	Cooper-Molera Adobe—Items to Complete .....	32 Cv	—	—
90.CN.101.880	First Brick House—Item to Complete .....	65 Cq	—	—
90.CN.605.900	Pacific House Exhibits and Artifacts .....	—	—	100 PWw
This project will provide for interpretive research, planning design purchasing and consulting work to produce an interpretive plan.				
90.CN.110.900	Rehabilitation of Custom House Plaza and Causeway .....	110 PWv	—	644 Cw
This project will provide for the redesign of the major public plazas, city street circulation and causeway, removal of existing paving, walls and railroad grade on state property.				
90.CS	MONTEREY SB			
90.CS.400.861	Window on the Bay—Acquisition .....	14 Ar	2,870 Ar	—
90.CS.402.890	Sand City—Acquisition .....	—	1,680 Aq	—
90.5N	MOUNT DIABLO SP			
90.5N.500.851	Communications Tower Study .....	48 Sr	—	—
90.5N.100.870	Summit Bldg. Visitor Center/Museum .....	334 WCcr	—	—
90.5N.400.000	Acquisition of 3,000 Acres .....	12 Ar	164 Ar	—
90.5N.400.001	Acquisition .....	99 Ar	—	—
90.5N.605.880	Water System and Road Study .....	116 Pr	2 Pr	—
90.5N.488.880	Acquisition—Proposition 70—Direct Appropriation .....	1,524 Aw	10 Aw	2,406 Aw
90.5N.606.900	Rehabilitation of Water System .....	—	—	162 PWr
This project will provide upgrading of existing water system, installing a new 500 gallon water tank, consolidating the chlorination system and replacing portions of the distribution system.				
90.BC	NEW BRIGHTON SB			
90.BC.400.000	Porter Sesnon Acquisition .....	22 Aq	—	—
90.C7	OCOTILLO WELLS SVRA			
90.C7.100.000	Initial construction .....	1,855 Co	8 Co	10 Co
90.C7.400.861	Acquisition of 267 Parcels .....	590 Ao	39 Ao	980 Ao
90.C7.410.900	State Lands Commission Property Acquisition .....	—	—	625 Ao
This project will provide 4,480 ± acres to the Ocotillo Wells SVRA.				
90.AC	OLD SACRAMENTO SHP			
90.AC.100.871	49er Scene .....	56 Cq	8 Cq	—
90.AC.400.870	Walnut Grove Excursion Line .....	1 Ar	—	—
90.AC.100.861	Waterfront Development .....	15 Cr	—	—
90.AC.100.851	Railroad Excursion Line Construction .....	31 Cr	233 Cr	—
90.AC.400.871	Acquisition of Railroad Excursion Line .....	4 Ar	—	—
90.AC.400.861	Acquisition of Engineering Building, 2 Parcels, Phase I .....	—12 Ap	—	—
90.AC.400.871	Acquisition of Engineering Building, 1 Parcel, Phase II .....	5 Ap	31 Ap	503 Ap

\* Dollars in thousands, excluding salary range.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
90.AC.800.000	Acquisition of and Improvement for Central Pacific Freight Depot	—	\$500 <sup>AWCp</sup>	—
90.AC.600.900	Museum of Railroad Technology	—	—	\$661 <sup>Pp</sup>
This project will provide for the restoration and maintenance building, reference collection gallery, engineering and technology and excursion station.				
90.IJ	OLD TOWN SAN DIEGO SHP			
90.IJ.500.870	Historical and Archeological Study	\$94 <sup>Sr</sup>	100 <sup>Sr</sup>	294 <sup>Sr</sup>
90.IJ.405.890	Bohannon Pottery Village—Acquisition	—	50 <sup>Aw</sup>	2,700 <sup>Aw</sup>
90.GT	PALM/ANDREAS CANYON PROJECT			
90.GT.488.880	Acquisition—Proposition 70—Direct Appropriation	5 <sup>Aw</sup>	3,000 <sup>Aw</sup>	15,710 <sup>Aw</sup>
90.H5	PALOMAR MOUNTAIN SP			
90.H5.400.861	Acquisition of 22 Acres	205 <sup>Ar</sup>	—	—
90.2Y	PATRICK'S POINT SP			
90.2Y.100.861	Construct Native Village	64 <sup>WCr</sup>	420 <sup>Cr</sup>	212 <sup>Cr</sup>
90.2Y.105.880	Entry Road and Maintenance Building	53 <sup>PWr</sup>	718 <sup>Cr</sup>	58 <sup>Cr</sup>
90.7V	PESCADERO MARSH NATURAL PRESERVE			
90.7V.488.880	Acquisition—Proposition 70—Direct Appropriation	—	20 <sup>Aw</sup>	965 <sup>Aw</sup>
90.CG	PFEIFFER BIG SUR SP			
90.CG.105.880	Multi-Agency Facility	8 <sup>Cv</sup>	220 <sup>Cv</sup>	—
90.CG.105.891	Multi-Agency Facility-Phase II	—	656 <sup>Cw</sup>	60 <sup>Cw</sup>
90.FB	PIO PICO SHP			
90.FB.500.870	Phase I Historic Structures Report	178 <sup>Sr</sup>	30 <sup>Sr</sup>	—
90.8X	PLUMAS-EUREKA SP			
90.8X.100.861	Eureka Lake Dam	279 <sup>Cv</sup>	—	—
90.BN	POINT SUR LIGHTHOUSE			
90.BN.100.871	Phase II Immediate Public Use, and Rehabilitate Blacksmith Shop & Carriage House	9 <sup>PWr</sup>	292 <sup>Cr</sup>	12 <sup>Cr</sup>
90.BN.100.861	Phase I Immediate Public Use Improvements	1 <sup>Cr</sup>	—	—
90.A7	PRAIRIE CITY SVRA			
90.A7.400.880	Prairie City—Acquisition	—	195 <sup>AO</sup>	—
90.G5	PYRAMID LAKE SRA			
90.G5.100.870	Freeway Interchange and Vista Del Lago Development	344 <sup>Cr</sup>	—	—
90.G5.105.890	Phase I Development—Vaquero Area	—	2,391 <sup>Cr</sup>	—
90.HZ	RANCHO BUENA VISTA PROJECT			
90.HZ.400.851	Rancho Buena Vista Acquisition	1 <sup>Ak</sup>	—	—
90.EN	REFUGIO SB			
90.EN.105.891	Rehabilitation and Replacement of Worn Out Facilities	126 <sup>PWr</sup>	1,342 <sup>Cr</sup>	33 <sup>Cr</sup>
90.G3	REGIONAL INDIAN MUSEUM (ANTELOPE VALLEY)			
90.G3.100.000	Rehabilitation of Museum	7 <sup>WCr</sup>	46 <sup>Cr</sup>	30 <sup>Cr</sup>
90.8L	REGIONAL INDIAN MUSEUM (SACRAMENTO)			
90.8L.105.880	Renovation of Museum	201 <sup>Cr</sup>	—	—
90.8L.505.890	Study Concept	—	—	300 <sup>Sw</sup>
90.5Z	ROBERT LOUIS STEVENSON SP			
90.5Z.488.880	Acquisition—Proposition 70—Direct Appropriation	42 <sup>Aw</sup>	10 <sup>Aw</sup>	1,918 <sup>Aw</sup>
90.6W	SALT POINT SP			
90.6W.605.900	Day and Overnight Use	—	—	114 <sup>PWr</sup>
This project includes development of day-use facilities at Gerstle Cove and rehabilitation of the Moon Rock camp.				
90.EB	SAN BUENAVENTURA SB			
90.EB.100.870	Day Use Parking & Entrance	1 <sup>Wr</sup>	615 <sup>WCr</sup>	13 <sup>WCr</sup>
90.EB.100.890	Groin #1 Repair/Renovation	—	155 <sup>Cx</sup>	—
90.GZ	SAN CLEMENTE SB			
90.GZ.100.000	Rehabilitation of Campground	1,392 <sup>Ck</sup>	—	—
90.H9	SAN DIEGO COAST STATE BEACHES (CARDIFF SB)			
90.H9.100.870	South Cardiff Day Use Rehabilitation	1,028 <sup>WCr</sup>	1,037 <sup>Cr</sup>	65 <sup>Cr</sup>
90.HJ	SAN DIEGO COAST SB (TORREY PINES SB)			
90.HJ.100.852	Day Use & Overnight Facilities Phase I	—1 <sup>Cr</sup>	—	—
90.HJ.100.001	Day Use Access and Overnight Facilities Phase II	1 <sup>Cr</sup>	1,541 <sup>Cr</sup>	—

\* Dollars in thousands, excluding salary range.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
90.99	SAN LUIS RESERVOIR SRA			
90.99.100.000	Madeiras Campground Improvements .....	\$328 <sup>Cs</sup>	\$103 <sup>Cs</sup>	—
90.99.110.900	Family Campground and Day Use .....	—	—	\$1,405 <sup>Cr</sup>
This project will provide for additional day-use and campground facilities at the Meadows Area of O'Neill Forebay consisting of site work, parking, comfort stations, shade ramadas, campsites, campfire center, landscaping, utilities, signs, and displays.				
90.7P	SAN MATEO COAST SB (HALF MOON BAY SB)			
90.7P.100.000	Access Improvements .....	1,238 <sup>WCr</sup>	50 <sup>Cr</sup>	47 <sup>Cr</sup>
90.1F	SAN ONOFRE SB			
90.1F.100.851	Camping, Parcel I .....	4,116 <sup>WCr</sup>	274 <sup>Ck</sup>	100 <sup>Ck</sup>
Reimbursement: From Southern California and San Diego Gas and Electric Companies .....				
		—4,414 <sup>k</sup>	—	—
90.DJ	SAN SIMEON SB			
90.DJ.100.000	Day Use, Campground and Sewer Hook-Up Phase II .....	14 <sup>Cq</sup>	58 <sup>Cq</sup>	—
90.C1	SANTA CRUZ MISSION SHP			
90.C1.100.861	Reconstruction of Neary Rodriguez Adobe Phase III .....	150 <sup>Cr</sup>	—	—
90.C1.100.891	Reconstruction of Neary Rodriguez Adobe-Completion .....	—	876 <sup>Cw</sup>	159 <sup>Cw</sup>
90.EX	SANTA MONICA MOUNTAINS PROJECT			
90.EX.400.000	Acquisition .....	1 <sup>Av</sup>	—	13 <sup>Av</sup>
90.E1	SANTA SUSANA MT. PROJECT			
90.E1.488.880	Acquisition—Proposition 70—Direct Appropriation .....	7 <sup>Aw</sup>	9,843 <sup>Aw</sup>	—
90.3I	SHASTA SHP			
90.3I.405.881	Shasta SHP—Acquisition .....	152 <sup>Ak</sup>	8 <sup>Ak</sup>	—
90.H2	SILVER STRAND SB			
90.H2.100.870	Campground .....	60 <sup>WCr</sup>	3,478 <sup>Cr</sup>	30 <sup>Cr</sup>
90.H2.100.876	Rehabilitation or Replacement of Worn-Out Facilities—Day Use Facilities .....	—	1,217 <sup>WCr</sup>	—
90.5T	SONOMA COUNTY COAST PROJECTS			
90.5T.800.000	Acquisition and Development .....	17 <sup>ACv</sup>	—	—
90.14	SOUTH CARLSBAD SB			
90.14.100.870	Administrative and Day Use Facilities .....	61 <sup>WCr</sup>	3,834 <sup>Cr</sup>	40 <sup>Cr</sup>
90.CS	SOUTH MONTEREY BAY DUNES			
90.CS.400.851	Acquisition of Arco-Bosland Property .....	—1 <sup>Ar</sup>	977 <sup>Ar</sup>	—
90.CS.405.890	Acquisition—Ponderosa .....	—	20 <sup>Ar</sup>	1,875 <sup>Ar</sup>
90.9Z	SOUTH YUBA TRAIL			
90.9Z.488.880	Acquisition—Proposition 70—Direct Appropriation .....	506 <sup>Aw</sup>	700 <sup>Aw</sup>	764 <sup>Aw</sup>
90.94	STANFORD HOUSE SHP			
90.94.100.870	Historic Preservation .....	16 <sup>Pr</sup>	—	—
90.94.601.890	Historic Preservation .....	—	160 <sup>Pr</sup>	—
90.94.110.900	Stabilization .....	—	—	428 <sup>Cq</sup>
This project will provide structural stabilization, furnishing plan, furnishing conservations, audio visual programs, and investigation of original finishes.				
90.HI	TORREY PINES SP			
90.HI.405.890	Acquisition—Sunset Del Mar .....	—	10 <sup>Aq</sup>	1,790 <sup>Aq</sup>
90.EB	VENTURA PIER			
90.EB.105.890	Rehabilitation .....	—	—	1,000 <sup>Cq</sup>
90.CO	WILDER RANCH SP			
90.CO.100.001	Restoration Phase II .....	60 <sup>Cr</sup>	—	—
90.CO.100.000	Campground and Day Use .....	—2 <sup>WCr</sup>	—	—
90.CO.400.890	Acquisition—Gray Whale Ranch .....	—	5 <sup>Ax</sup>	295 <sup>Ax</sup>
90.CO.110.900	Bunkhouse .....	—	—	612 <sup>Cw</sup>
This project will provide restoration of the bunkhouse/machine shop.				
90.RS	STATEWIDE:			
90.RS.400	Statewide Relocation Assistance			
State Beach, Park, Recreation and Historical Facilities Fund (1964) .....		22 <sup>At</sup>	4 <sup>At</sup>	—
State, Urban, and Coastal Park Fund .....		2 <sup>Av</sup>	29 <sup>Av</sup>	227 <sup>Av</sup>
90.RS.401	Acquisition Costs			
This allocation will provide for expenses associated with pre-acquisition planning and costs required for processing and/or acquiring "zero appropriation" projects, gifts, interagency agreements, land exchanges, quitclaims, transfers, right-of-ways, permits, boundary settlements and leases.				
State Parks and Recreation Fund .....		—5 <sup>Ap</sup>	5 <sup>Ap</sup>	—
Parklands Fund of 1984 .....		—	—	200 <sup>Av</sup>
State, Urban, and Coastal Park Fund .....		206 <sup>Av</sup>	—	465 <sup>Av</sup>
California Wildlife, Coastal, and Park Land Fund of 1988 .....		—	200 <sup>Aw</sup>	—

\* Dollars in thousands, excluding salary range.

## 3790 DEPARTMENT OF PARKS AND RECREATION—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
90.RS.402	Statewide In-Holding Purchases			
This allocation will provide for acquisition of parcels of land that are totally or substantially enclosed within adjoining State Park property.				
	Parklands Fund of 1984	\$14 Ar	\$15 Ar	\$500 Ar
	State, Urban, and Coastal Park Fund	106 Av	144 Av	—
	California Wildlife, Coastal, and Park Land Fund of 1988	—	500 Aw	—
90.RS.100	Statewide Interpretive/Artifact/Exhibit Rehabilitation	66 Cr	—	—
90.RS.403	Statewide Opportunity Purchases			
This allocation will provide for acquisition of desired parcels that are next to or surrounded by existing State Park property from willing sellers at current market values.				
	Parklands Fund of 1984	6 Ar	1 Ar	500 Ar
	Off-Highway Vehicle Fund	—	100 Ao	100 Ao
	State, Urban, and Coastal Park Fund	137 Av	113 Av	—
	California Wildlife, Coastal, and Park Land Fund of 1988	—	500 Aw	—
90.RS.404	Prebudget Appraisal Costs			
Budget year allocations will provide for property appraisals prior to departmental requests for appropriations for acquisition of property as required by law.				
	Off-Highway Vehicle Fund	50 Ao	50 Ao	50 Ao
	Parklands Fund of 1984	—	—	60 Ar
	State, Urban, and Coastal Park Fund	60 Av	—	—
	California Wildlife, Coastal, and Park Land Fund of 1988	—	100 Aw	—
90.8D.501	Donner Party Trail Study	—	10 Sp	—
90.AZ.501	Town of Locke acquisition study	—	20 Sp	—
90.ER.601	Mitchell Caverns State Preserve	—	48 Sp	—
90.6X.501	Napa-Solano Skyline Park Study	—	10 Sx	—
90.RS.100	Statewide Natural System Rehabilitation	11 Wck	—	—
90.RS.100	Statewide Road Maintenance—Road Repair	35 Cp	16 Cp	—
90.RS.605	Budget Package/Schematic Planning			
Budget year allocations will provide for developing budget cost estimates, schematics, and engineering evaluation for future development projects.				
	Parklands Fund of 1984	7 Pr	150 Pr	—
	Off-Highway Vehicle Fund	—	50 Po	50 Po
	State, Urban, and Coastal Park Fund	170 Pv	—	—
	California Wildlife, Coastal and Park Land Fund of 1988	—	200 Pw	200 Pw
90.RS.610	Statewide Topographic Surveys			
This allocation will provide topographic surveys necessary for preliminary plans and/or working drawings.				
	State, Urban, and Coastal Park Fund	107 Pv	—	—
	California Wildlife, Coastal, and Park Land Fund of 1988	—	200 Pw	200 Pw
90.RS.125.890	Statewide Sand Replenishment	—	437 Cx	—
Totals, Major Projects		\$30,810	\$73,503	\$124,828
<b>Minor Projects</b>				
90.6F.110	Angel Island SP—East Garrison—Visitor Improvements	—	102 PWCr	—
90.8U.205	Consolidated Dispatch Centers	—	—	25 PWp
This allocation will provide for structures to house dispatch equipment at American River District in Inland Region.				
90.F6.205	Los Encinos SHP—Completion of Garnier House	—	—	115 Cr
This project will complete the interior for adaptive use as a visitor center.				
90.IJ.205	Old Town San Diego SHP—Comfort Stations	—	135 Cw	—
90.RS.200	Pier Repairs	—4 Cr	—	—
90.RS.205	Various Park Unit Projects	4,008 Cv	—	—
		152 Cp	3,770 Cx	3,500 Cx
		823 Co	1,102 Co	561 Co
		184 Cv	200 Cw	200 Cw
90.RS.206	OHV Unit Projects			
90.RS.210	Accessibility Expansion Program			
This allocation will provide for the retrofit of campsites, trails and restroom facilities to expand accessibility for the disabled at twenty-one locations.				
90.RS.215	Energy Efficiency Program	134 Cv	—	—
90.RS.225	Retrofit Visitor Services Facilities	—	95 Cp	35 Cp
This allocation will provide for improvements and/or modifications of three existing facilities to enhance the capability to collect fees.				
90.RS.220	Storm Damage

## 3810 SANTA MONICA MOUNTAINS CONSERVANCY

## Program Objectives Statement

The Santa Monica Mountains Conservancy was created by Chapter 1087 (AB 1512), Statutes of 1979, to implement the Santa Monica Mountains Comprehensive Plan by developing programs for full fee or less than fee acquisition, and restoration or consolidation of lands in the Santa Monica Mountains Zone for park, recreation or conservation purposes. The specific powers of the Conservancy include authority to:

1. Acquire real property, including development rights and easements, and lease, rent, sell, transfer or exchange these lands for park purposes;
2. Award grants or interest free loans to State and local agencies for purchase or restoration of park, recreation, conservation or buffer-zone purposes to ensure that the character and intensity of development on these lands is generally compatible and does not adversely impact the Santa Monica National Recreation Area;
3. Award grants or interest free loans to State and local agencies for assembly of parcels to improve or correct resource management or for development of public facilities essential to park, recreation or conservation purposes;
4. Acquire and hold for subsequent conveyance, or award grants or interest free loans, to an appropriate public agency for acquisition of park, conservation or recreation sites, when that agency cannot expedite acquisition of critical sites under immediate development pressure;
5. Accept dedication or easements of tax delinquent parcels and have first right of refusal on property being sold as excess land by a public agency.
6. Improve real property within the Zone;
7. Award grants to qualified nonprofit organizations to carry out improvements, maintenance, acquisitions or educational interpretive programs;
8. Implement programs designed to provide enhanced recreational access from the inner city areas surrounding the Zone in order to provide recreational opportunities for all income and ethnic groups wishing to enjoy the Santa Monica Mountains; and
9. Carry out projects consistent with Division 23 of the Public Resources Code within the Rim of the Valley Trail Corridor to provide a recreational trail corridor.

The Santa Monica Mountains Conservancy, which was scheduled to sunset on July 1, 1990, has been extended five years to July 1, 1995 by Chapter 696, Statutes of 1989. The budget reflects the continuation of \$40,000 from private sources for the Recreational Transit Program.

## Major Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- A redirection of \$42,000 to establish 1 permanent position to implement the California Wildlife, Coastal, and Park Land Conservation Act of 1988.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3820 SAN FRANCISCO BAY CONSERVATION AND DEVELOPMENT COMMISSION

The San Francisco Bay Conservation and Development Commission, headquartered in San Francisco, was created by the Legislature in 1965 to provide a regional approach to protecting the public interest in the San Francisco Bay; to insure the beneficial use of the most valuable single natural resource of the entire region and to provide a democratic and politically responsive process through which the bay and its shoreline can be managed as a single unit.

## 10 BAY CONSERVATION AND DEVELOPMENT

## Program Objectives Statement

The San Francisco Bay Conservation and Development Commission is responsible for: maintaining the Bay Plan in an up-to-date manner based on current information and projections in order to serve as a guide for the conservation of the San Francisco Bay and the development of its shoreline; carrying out provisions of law by issuing or denying permits for all filling or dredging in the Bay; approving any change in use of salt ponds or other "managed wetlands" adjacent to the Bay; approving any substantial change in use of property within 100 feet of the Bay and implementing, in cooperation with local government, the Suisun Marsh Preservation Act of 1977.

Comprehensive regional planning studies are conducted by staff and consultants to provide the basic information and planning data for granting or denying permits and to strengthen or revise specific parts of the San Francisco Bay Plan. This requires continuing and extensive cooperation and coordination with federal, state, regional, local and private agencies.

The Bay Commission is also the designated state coastal management agency for the San Francisco Bay segment of the coastal zone for purposes of the federal Coastal Zone Management Act. Under this federal law, California has received financial assistance to develop and implement the federally-approved coastal management program for the San Francisco Bay, which is based on the policies of the McAtter-Petris Act and the Suisun Marsh Preservation Act. The federal coastal act gives the Commission authority over federal activities that would not otherwise be subject to State control under California law. Reimbursements for a portion of these coastal zone management activities are derived from federal grants received by the California Coastal Commission.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 3820 SAN FRANCISCO BAY CONSERVATION AND DEVELOPMENT COMMISSION—Continued

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- 0.5 personnel year (temporary help) and \$72,000 federal funds for the San Francisco Bay Estuary Program.

## Authority

**3860 DEPARTMENT OF WATER RESOURCES**

The role of the Department of Water Resources is to protect, conserve, develop, and manage California's water. The department has a major responsibility for supplying suitable water for personal use, irrigation, industry, recreation, power generation, and fish and wildlife. The department also has major responsibilities for flood management and safety of dams.

Detailed program descriptions of all activities discussed in this budget are contained in the program component statements, which are published separately. These statements are available upon request from the Budget Office of the Department of Water Resources.

**Authority**

California Water Code, Division 1, Chapter 2, Article 1.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## MAJOR BUDGET ADJUSTMENTS

The 1990-91 budget for the Department of Water Resources proposes a total budget of \$915,842,000 of which \$711,510,000 is State Water Project (SWP) related. This represents a net decrease of approximately \$13.4 million compared to 1989-90, due primarily to lower expenditures for the Safe Drinking Water Bond Laws of 1984 and 1986 because the funds have been largely committed. In addition, \$44,090,000 in Budget Change Proposals and Program Planning Guides have been proposed.

Significant program adjustments are reflected in the chart below:

Program	Description	1990-91	
		Personnel years	Dollars*
10.10	Trinity River Restoration .....	-	1,305
10.10	Urban Streams Restoration .....	-	1,245
10.10	Upper Sacramento River Fish and Riparian Habitat Management Plan .....	1.9	750
30.20	Flood Control Subventions .....	0.9	32,990
30.30	Safety of Dams .....	3.5	500
30.95	Sacramento River Bank Protection Project .....	-	1,200
30.95	Sacramento Urban Area Levee Reconstruction .....	-	3,700
30.95	Fremont Weir Sediment Removal .....	-	2,150
30.95	Riparian Vegetation .....	-	250

## 10 CONTINUING FORMULATION OF THE CALIFORNIA WATER PLAN

## Program Objectives Statement

The objective of this program is to provide a framework for sound management of California's water resources by local, State, and federal agencies. This program develops water needs and supplies on a broad regional basis and combines these into a statewide view of the needs for water, and explores and identifies ways to meet these needs in an environmentally acceptable manner.

Demands on California's water resources continue to grow, but at a slower rate. More water is needed to meet growing urban demands and to sustain the State's rich agricultural production, while maintaining instream flows for fish, recreation, aesthetics, water quality, salinity repulsion, and navigation. Since new surface water projects are increasingly costly and difficult to develop, it is important that existing surface and ground water supplies be used effectively. This means that all nonstructural water management practices, such as water transfers and conjunctive use, as well as structural measures, be thoroughly investigated and developed to the extent practicable.

\* Dollars in thousands, excluding salary range.

## 10.10 Water Management Planning

## Program Element Statement

The California Water Plan is a general guide for water management activities throughout the State. The plan includes a water management element that evaluates available supply, estimates future water needs, surpluses and deficiencies by hydrologic areas, outlines water problems, and proposes solutions. It also consists of the Phase II water quality basin plans prepared by the State Water Resources Control Board and the Regional Water Quality Control Boards. The department also reviews plans for water development and water management proposed by other government agencies and develops the State's position on interstate and federal-State water resources issues. California's water issues are continually evaluated to reflect economic, agricultural, municipal, industrial, and environmental needs. Among the water management issues being considered are: water exchanges, surface water development, drainage, identification of ground water storage resources, conjunctive use of surface and ground water supplies, and the more efficient use of water through conservation.

Other activities under this element include local investigations that contribute to the California Water Plan, review of studies and reports of other agencies, and studies of specific water quality problems conducted in coordination with the State Water Resources Control Board and other local, State, and federal agencies.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$1,305,000 (\$1,276,000 California Environmental License Plate Fund and \$29,000 Federal Trust Fund) for the Trinity River Restoration Program.
- \$1,245,000 California Wildlife, Coastal, and Park Land Fund of 1988 for Urban Streams Restoration Program grants and administration.
- 2 positions (1.9 personnel years) and \$750,000 California Environmental License Plate Fund to develop an Upper Sacramento River fisheries and riparian habitat plan.

## 10.20 New Sources of Water

## Program Element Statement

Growth in California is projected to continue in the foreseeable future. At the same time, competition among water uses puts an additional strain on currently developed supplies. Additional surface water resources are increasingly costly to develop or environmentally sensitive while ground water use is subject to physical, legal, and economic constraints. This program involves cooperative efforts on the part of local, federal, and State agencies to develop technical, cost, and environmental impact information relative to potential water reuse through waste water reclamation and desalting.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	8.0	6.1	5.5	\$660	\$576	\$584
California Water Fund .....				660	576	584

\* Dollars in thousands, excluding salary range.

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

## 10.25 Water Conservation

## Program Element Statement

The objective of this element is to promote more efficient use of water and reduce the projected deficit between supply and demand. Water conservation activities include research and development, planning assistance, and direct implementation actions. Interagency activities are critical to this effort. These activities strike a balance between water saving programs using proven technology and conducting the necessary research on which to base future conservation programs.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- \$358,000 fund shift from the Renewable Resources Investment Fund to the California Environmental License Plate Fund to reflect reduced revenues in the Renewable Resources Investment Fund.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	24.2	24.5	24.5	\$4,274	\$3,943	\$4,110

California Water Fund .....				1,544	1,727	—
Renewable Resources Investment Fund .....				1,761	1,859	1,766
Reimbursements .....				161	—	—

## 10.27 Water Education

In order to promote efficient use of water, this element provides for inclusion of water conservation education in the classroom curriculum.

## Budget Adjustments

In 1989-90, the budget includes a fund shift of \$122,000 from the Renewable Resources Investment Fund to the California Environmental License Plate Fund to reflect reduced revenues in the Renewable Resources Investment Fund.

In 1990-91, the following budget adjustment is proposed:

- \$352,000 fund shift from the Renewable Resources Investment Fund to the California Environmental License Plate Fund to reflect reduced revenues in the Renewable Resources Investment Fund.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	2.9	2.9	2.9	\$726	\$349	\$352
California Environmental License Plate Fund .....				—	122	352
Renewable Resources Investment Fund .....				331	227	—
State Water Project Funds .....				395	—	—

## 10.29 Conservation Loans

## Program Element Statement

This element entails the administration of loan programs authorized by general obligation bond law measures approved by the voters for local agency projects which promote the conservation of water, replenishment of ground water, and development of new local water supplies. All or part of three bond laws enacted through the November 1988 election provide DWR with a total of \$145,500,000 for loans and State administration of the programs.

As of June 30, 1989, out of over \$90,000,000 in received requests, over \$15,000,000 had been obligated to local agencies found eligible. Plans to invite additional applications are pending.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- Reduction of \$13,727,000 in Water Conservation and Water Quality Bond Fund of 1986 (Local Assistance) to reflect reduced loan funds available for water conservation, ground water recharge, and new water supply programs.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	5.8	5.3	5.3	\$1,045	\$46,883	\$33,156

1986 Water Conservation and Water Quality Bond Fund .....				1,033	26,694	16,728
Water Conservation Bond Fund 1988 .....				—	15,945	16,401

## 10.30 Data Collection, Evaluation, and Use

## Program Element Statement

Planning the management and development of water resources and providing for their protection requires accurate knowledge of the phenomena involved. Thus, it is important to define the resource by measuring it in terms of quantity, quality, movement, and its use. In addition, to be useful, the accumulated information must be assembled in a readily available form. In this program element, data on the quantity, quality, movement, and use of water resources is collected, analyzed, stored, and disseminated.

Under the water quantity and quality measurement activity, data on surface and ground water resources of the State, including climatological data, are collected, processed, and stored. A computer file of historic and current information has been developed and is in operation. The State Water Resources Control Board, the Department of Health Services and the Department of Fish and Game cooperate with the Department of Water Resources in data collection, computer storage and the retrieval of water resources data. The accumulated information is used by other agencies and the general public.

\* Dollars in thousands, excluding salary range.

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

Cooperative snow surveys activities coordinate and standardize the collection of snow survey data from about 40 cooperators. These data provide forecasts of spring snowmelt runoff and general water conditions for project operators and water users throughout the State.

The land resources and use activities provide continuing surveillance of the nature, location, amount, and rate of change of land use and determines the suitability of land for water-using development. It produces the only complete land use data file of its type in the State. These data are required for water resources planning but are also extensively used by other agencies.

The agricultural and urban water use activity measures the current per acre rate of water use for agricultural crop production, and current urban water deliveries and population of each service area to determine urban gross per capita use rates. In addition, special surveys and studies are conducted to determine the portions of the urban gross per capita water use for residential, commercial, industrial, and governmental purposes and to determine the efficiency of various water agencies' water delivery systems.

Federal Trust Fund <sup>c</sup> .....				90	84	84
Reimbursements .....				308	424	436

## 20 IMPLEMENTATION OF THE STATE WATER RESOURCES DEVELOPMENT SYSTEM

## Program Objectives Statement

This program has three objectives. The first is to provide necessary water supplies to agencies which have contracted for water from the State Water Project. The second objective is to plan, design, construct, operate, maintain, and manage facilities of the State Water Project in an efficient, economical, and timely manner. The third objective is to further the development of essential and economically justified local water projects through financial assistance to local public agencies under the Davis-Grunsky Act.

The State Water Project is made up of physical facilities to meet a portion of California's increasing water needs from Plumas County in the north to the Mexican border. By 1973, the initial conservation facilities and most of the transportation features of the State Water Project were completed. Additional features are planned, designed, and constructed, as needed.

## 20.10 Planning and Investigations for the State Water Resources Development System

## Program Element Statement

Although the construction of the initial stage of the State Water Project is complete, the demands on the project now exceed firm yield. Planning and management work must continue on additional water supply and conveyance features in order to meet later year contractual delivery levels of approximately twice the existing firm yield of the project. Under this program element, activities include geologic studies, cost estimates, economic analyses, project surface and groundwater yield studies, flood control studies, fish, wildlife, and recreation resources development studies, water quality studies, environmental studies, and determination of land acquisition requirements. Project power development studies, including power purchase and exchange agreements, must continue to ensure an adequate power supply for operation of the State Water Project and to protect the rights on power transmission arrangements.

Detailed planning studies are conducted to determine actions necessary to meet project contractual requirements and to select additional project features to satisfy both local and export water requirements. Protection and enhancement of fish and wildlife are planned and developed as part of the project. Specific plans for recreation development at State Water Project facilities are prepared to ensure that water project recreation resources are adequately developed.

Water rights considerations in connection with the State Water Project are investigated, and project effects on physical and environmental conditions are monitored and evaluated. This element provides funds to the Attorney General's Office for legal services in actions to protect the water rights of the State Water Project.

\* Dollars in thousands, excluding salary range.

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

A cooperative study involving the California Departments of Water Resources and Fish and Game, the U.S. Bureau of Reclamation, and the U.S. Fish and Wildlife Service is proceeding to develop joint operating criteria and procedures for the State Water Project and Central Valley Project for the protection of the Delta, Suisun Marsh and San Francisco Bay fish and wildlife resources. This activity includes ecological studies of striped bass and other species, general water quality studies, marsh management studies, and studies concerned with evaluation and development of fish screening facilities.

The San Joaquin Valley drainage activity collects and provides data and information necessary for planning and implementing agricultural waste water management in the San Joaquin Valley.

**Budget Adjustments**

In 1990-91, the following budget adjustment is proposed from State Water Project funds:

- Reduction of \$1,300,000 to reflect completion of the Environmental Impact Report and the Advanced Planning Report for the Coastal Aqueduct.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	172.6	176.8	153.7	\$17,647	\$22,161	\$20,724
General Fund .....				168	160	191
California Water Fund .....				700	852	669
State Water Project Funds .....				16,568	20,847	19,618
Federal Trust Fund .....				175	233	246
Reimbursements .....				36	69	-

## 20.20 Design, Right-of-Way, and Construction of the State Water Resources Development System

**Program Element Statement**

Under this program element, detailed designs, plans and specifications are prepared and contracts for the construction of specific features of the State Water Resources Development System are administered. Concurrently, right-of-way is procured and agreements for utility relocations are obtained. This element includes capitalized operations and maintenance activities to prepare new facilities and to make major modifications, if needed, after the facility becomes operational.

**Budget Adjustments**

In 1990-91, the following adjustments are proposed from State Water Project funds:

- \$570,000 for design and construction of flashboards for Suisun Marsh facilities.
- \$6,800,000 for design and construction of Vista del Lago and modifications to the Gorman Creek Channel project.
- \$20,500,000 for construction of the Project Operations Control Center, including the reconstruction of the former Pacific Gas & Electric Substation building in Sacramento, and beginning Phase 2 of the Coastal Branch expansion.
- \$250,000 for aqueduct flood protection at Arroyo Pasajero.
- A reduction of \$2,400,000 to reflect completion of Reid Gardener Unit #4.
- A reduction of \$1,140,000 to reflect completion of equipment contracts at the H. O. Banks Pumping Plant.
- A reduction of \$1,400,000 to reflect completion of portions of the San Luis Division of the Central Valley Project.
- A reduction of \$213,000 to reflect completed record mapping activities at the Mojave Division.
- A reduction of \$13,030,000 to reflect completed design and construction of the Pearblossom, Devil Canyon, and Mojave Siphon facilities in the East Branch Division.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	281.9	268.7	283.8	\$102,897	\$145,332	\$155,107

State Water Project Funds .....				102,871	112,505	155,077
California Water Fund .....				-	32,804	-

## 20.30 Operation and Maintenance of the State Water Resources Development System

**Program Element Statement**

Operations and maintenance of completed facilities of the State Water Project are conducted through two levels of activities: (1) utility operations and (2) operation and maintenance of individual facilities.

Utility operations activities are concerned with maximizing water delivery capability of constructed facilities within the limits of contractual obligations and availability of water, while minimizing net pumping power costs. Operational objectives and schedules are developed and implemented in consultation and coordination with water contractors and federal agencies.

Operations and maintenance activities include the operation of individual facilities, and routine or extraordinary maintenance required for optimum State Water Project functioning. Other activities include specialized testing and technical inspections, consulting board investigations, surveillance of dams and structures through system instrumentation and precise topographical surveys, corrosion control, plant operating practices review, safety, real property management, and annual mitigation measures at certain State Water Project facilities.

**Budget Adjustments**

In 1990-91, the following budget adjustments are proposed from State Water Project funds:

- \$1,220,000 for increased costs related to the Bottle Rock Geothermal Power Plant.
- \$2,400,000 for increased power purchases.
- \$1,400,000 for fish loss mitigation pursuant to the Delta fish agreement.

Performance Measures	1988-89	1989-90	1990-91
Millions of acre-feet of water delivered .....	2.6	3.3	3.3
Billion kilowatt-hours of power produced .....	4.4	5.3	5.6
Billion kilowatt-hours of power purchased .....	1.0	2.4	2.7
Billion kilowatt-hours of power sold .....	1.5	0.9	1.2

\* Dollars in thousands, excluding salary range.

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

California Water Fund .....				-	4	-

## 20.40 State Financial Assistance for Local Projects

## Program Element Statement

This program element provides loans for feasibility studies, reservoir site acquisitions, and construction costs of local projects. Grants are provided for certain recreation, fish and wildlife enhancement, and initial water supply and sanitary facilities costs. The State may also participate with an applicant as a partner under certain circumstances.

Projects approved for assistance must be found by the department to be in substantial conformance with the California Water Plan, be engineeringly feasible, economically justified, and, if a loan is proposed, there must be reasonable assurance that the public agency can repay it. Loans may be made only for that portion of the project cost beyond the reasonable ability of the public agency to obtain funds from other sources. The department must impose terms and conditions necessary to protect the State's investment and carry out the objectives of the program. Also included in this element is the program component for loans to local agencies for water distribution systems as authorized by Section 12894 of the Water Code.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed from State Water Project funds:

- A reduction of \$2,300,000 to reflect the completion of 34 grants for local projects authorized by the Davis-Grunsky Program which will not continue in 1990-91.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (State Water Project Funds) ..	2.2	2.7	1.9	\$262	\$2,504	\$207

## 20.50 Financial and Contract Management of the State Water Resources Development System

## Program Element Statement

The State Water Resources Development System is financed from a variety of sources: general obligation bonds authorized by the Burns-Porter Act, revenue bonds, authorized by the Central Valley Project Act, Federal funds appropriated for flood control, funds advanced from water contractors, appropriations from the California Water Fund, State-appropriated funds for recreation and fish and wildlife enhancement, and miscellaneous funds including funds earned from investments. Public agencies contracting for project water are required to repay the construction costs with interest, and the costs of operating and maintaining the water supply facilities.

The people, through governmental appropriations, repay the costs of constructing, operating and maintaining recreation and fish and wildlife enhancement facilities.

Projections are made of future financial conditions. The water contractors are notified of future costs to allow adequate planning in the event adjustments in tax and/or water rates are necessary. Water contractors and utilities are billed for water delivered and power generated. Bond counsel, financial consultants, financial institutions, and the State Treasurer are retained to assist the department in marketing bonds and administering bond sales. The above activities devoted to maintaining the financial integrity of the State Water Resources Development System are contained within this program element.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed from State Water Project funds:

- \$10,000,000 for increased debt service on State Water Project bonds.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (State Water Project Funds) ..	62.8	63.5	64.4	\$263,948	\$274,288	\$284,423

## 30 PUBLIC SAFETY AND PREVENTION OF DAMAGE

## Program Objectives Statement

This program strives to protect life and property from damage or destruction by floods or failures of dams, makes loans for construction improvement or rehabilitation of domestic water systems to bring them up to State standards for drinking water, and provides information, guidance, and assistance in water management during dry years.

Experience demonstrates that the people of California are vulnerable to the destructive effects of floods. The department issues flood warnings in cooperation with the National Weather Service to alert the public when flooding is probable. Based on these forecasts, flood control facilities are operated to prevent or minimize damage. The department also supervises and coordinates flood fighting activities when necessary, and performs annual levee and flood channel maintenance. Other activities include assisting local agencies in the identification and regulation of floodplains, as required by the national flood insurance program, to reduce or eliminate flood losses. This program also funds the cost of lands, easements, and rights-of-way for federal flood control projects; and design review of proposed new dams as well as periodic inspection and re-evaluation of all existing jurisdictional dams for proper construction and maintenance.

\* Dollars in thousands, excluding salary range.

30.95 Major Capital Outlay.....	10.5	5.5	—	11,543	20,127	7,606

## 30.10 Flood Management

## Program Element Statement

This program element assists local agencies in the development of regulations for management of floodplain areas. Such regulations comply with the Cobey-Alquist Flood Plain Management Act and the national flood insurance program. This program also assists local agencies in the performance of flood hazard investigations. Storms and high water conditions are continually monitored during the flood season and flood forecasts are prepared as needed. The California Data Exchange Center (CDEC) has become a year-round hydrologic and climatic exchange that permits more effective management of California's water resources through the collection, dissemination, and exchange of data with numerous State, federal, and local agencies. During potentially dangerous periods of high water, CDEC becomes the flood operations center to coordinate flood emergency operations and collect and disseminate flood data. Also included is the operation and maintenance of the Sacramento River flood control project and the periodic inspection of all flood control works in the Central Valley.

The Reclamation Board's function is to cooperate with the U.S. Army Corps of Engineers and local agencies in constructing and maintaining flood protection projects in the Central Valley; to evaluate the effectiveness of past flood control measures; to designate floodways and control encroachments in Central Valley streams to assure the free passage of floodwaters; and to identify alternative future policies, projects, and programs for flood damage prevention.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- 1.0 position (0.9 personnel year) and \$90,000 Special Account for Capital Outlay to manage the increased workload related to the increase in Local Assistance flood control subventions.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures.....	164.0	164.3	165.9	\$12,820	\$14,236	\$14,192

Federal Trust Fund.....				315	348	363
Reimbursements.....				1,250	2,200	2,211

\* Dollars in thousands, excluding salary range.

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

## 30.20 Flood Control Subventions

## Program Element Statement

The primary purpose of this element is to reimburse local agencies for part of the nonfederal expenses relating to flood control projects constructed by the U.S. Army Corps of Engineers, and to provide financial assistance for nonproject levees in the Sacramento-San Joaquin Delta. This is accomplished through the review and processing of claims submitted by the local agencies. These claims are tested against the provisions set forth in authorized legislation and guidelines published by the department in order to identify the amounts eligible for State reimbursement. Other activities include the review of proposed federal flood control projects to determine potential State costs and continuous review and revision of program policies and procedures.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- \$32,900,000 Special Account for Capital Outlay for flood control subventions to local agencies.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	9.8	11.7	8.3	\$19,179	\$25,000	\$57,907

Special Account for Capital Outlay .....				13,000	—	32,900
Delta Flood Protection Fund .....				5,000	10,625	10,603

## 30.30 Safety of Dams

## Program Element Statement

This program provides independent analyses of plans and specifications for new dams, and for enlargement, alteration, repair or removal of operational dams prior to approval for construction. The projects are supervised and inspected during construction. This program also provides for inspection and evaluation of operational dams and reservoirs, determination of need for the installation of instrumentation, independent analysis of instrumental surveillance, and the investigation and analysis of dams constructed illegally, together with the activity necessary to terminate these violations by removal, alteration or repair.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- 5 positions (4.7 personnel years) and \$500,000 General Fund to increase professional engineering staff to meet increased workload requirements related to safety of dams.

## Performance Measures

Activities involve the independent analysis and evaluation of about 50-60 applications for new construction, enlargement, alteration, and repair or removal of dams, and supervision during the resulting construction. In-depth reviews and re-evaluations will be done on existing dams. Between 900-1,200 systematic examinations and evaluations of over 1,200 operational dams will be made and about 300-450 surveillance and instrumentation reports will be analyzed. Dams allegedly constructed in violation of the code will be investigated and the violations terminated.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	55	55	58.2	\$4,477	\$4,781	\$5,503
State Operations:						
General Fund .....	55	55	58.2	\$4,477	\$1,292	\$5,503
California Water Fund .....				—	3,489	—

## 30.40 Safe Drinking Water Projects

## Program Element Statement

This element administers the California Safe Drinking Water Bond Laws of 1976, 1984, 1986, and 1988, and is a joint effort with the Department of Health Services. Pursuant to voter approval, these bond laws have authorized a total of \$425 million in general obligation bond monies. Grants up to \$400,000 and loans up to \$5,000,000 are provided to local communities to enable them to meet minimum drinking water standards to protect the public health. The Department of Health Services is responsible for establishing a priority list of applicants, determining the engineering feasibility of proposed projects, and addressing all questions of public health need. The Department of Water Resources adopts administrative regulations necessary to carry out the acts, performs financial analyses of eligibility, issues and administers loan and grant contracts, arranges bond sales, disburses funds, and administers loan repayments.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- A reduction of \$44,550,000 California Safe Drinking Water Fund of 1988 to reflect remaining funds available from previous bond authorization for loans and grants to local agencies for safe drinking water projects.

## Performance Measures

As of June 30, 1989 loans and grants totaling \$241 million for all Bond Laws had been committed.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

## 30.95 Major Capital Outlay

## Program Element Statement

This element includes all major capital outlay projects within the public safety and prevention of damage program pursuant to Budget Letter 84-5. All such projects are formulated as required to support the State's flood management activities.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- A reduction of \$12,521,000 (various funds) net adjustment to reflect the completion of various projects and the addition of new projects which are detailed in the Capital Outlay project display below.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 40 SERVICES

## Program Objectives Statement

This program provides technical support to the department's activities and makes services and other areas of expertise of the department available to other agencies.

The department has developed significant capabilities in the field of water resources planning, development and management. The department also maintains capabilities in various technical fields such as chemical laboratory analysis, electronic data processing, mapping and surveying. This expertise is routinely used by other agencies in the performance of their missions. The department's own operations must be supported by certain technical functions that are best provided on a centralized as-needed basis.

## 40.10 Services to Other Agencies

## Program Element Statement

Under this element, the department, as watermaster, measures streamflows and distributes water in accordance with decreed water rights. In addition, the department conducts engineering investigations in such topics as water supply drainage, flood hazards, sewage disposal, water quality, water rights, engineering feasibility, and project cost estimates when requested by other agencies. The department also provides electronic data processing, laboratory, survey, graphic, and other technical services to other departments and agencies on a reimbursable basis.

## 3860 DEPARTMENT OF WATER RESOURCES—Continued

## 40.20 Technical Services

## Program Element Statement

Technical services are provided by specialty units to all divisions, branches, and offices for the programs of the department. These services are totally reimbursed by charges to the user programs. The initial cost of equipment purchases related to data processing, mobile equipment, and graphic services is financed from the Water Resources Revolving Fund and repaid by programs through depreciation charges over the life of the equipment.

## 50.01.010 General Management

## Program Element Statement

This element includes the department's executive and administrative headquarters organization. Included are the Director and his immediate staff, the legal staff, public information, program evaluation, internal audits, budgeting, accounting, business and office services, personnel, training, management analysis, and safety. The costs of general management are distributed to all of the department's directly funded programs through an indirect cost structure on the basis of direct labor costs.

STATE BUILDING PROGRAM  
EXPENDITURES

Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
--------------------	-----------------------	----------------------

## Summary of Capital Expenditures

The Capital Outlay schedule summarizes expenditures and projections for the Implementation of the State Water Resources Development System Program, the Public Safety Program and the State Building Program. A general explanation of the state projects under the California Water Resources Development Program is presented in the support budget with a description of the significant units of each project as well as detailed expenditure information.

## CAPITAL OUTLAY

## PROGRAMS

20 Implementation of the State Water Resources Development System Program			
Design and construction .....	\$108,550	\$105,984	\$118,637
Operations and maintenance .....	99,501	147,182	150,087
State financial assistance for local projects .....	-	2,200	-
Financial and contract administration .....	233,965	265,897	275,745
Totals, Implementation of the State Water Resources Development System ..	\$442,016	\$521,263	\$544,469
30 Public Safety and Prevention of Damage			
Major Capital Outlay:			
30.95.010 Sacramento River Bank Protection Project .....	\$3,169 <sup>k</sup>	\$1,500 <sup>m</sup>	\$1,200 <sup>k</sup>
This federal-state project consists of placing riprap along the banks of the Sacramento River to protect against erosion. This phase impacts the river between Collinsville and Chico Landing.			
30.95.015 Fairfield Vicinity Streams Project .....	4,780 <sup>k</sup>	2,254 <sup>m</sup>	-
30.95.020 San Joaquin River Channel Project .....	94 <sup>k</sup>	-	-
30.95.025 Sacramento-San Joaquin River Riparian Purchases .....	700 <sup>c</sup>	1,100 <sup>An</sup>	250 <sup>n</sup>
This project consists of acquisition of riparian sites which provide for flood control and habitat preservation.			
30.95.030 Merced County Streams Project .....	1,344 <sup>k</sup>	650 <sup>m</sup>	306 <sup>k</sup>
30.95.065 Cache Slough Cross Levee Project .....	579 <sup>k</sup>	733 <sup>k</sup>	-
30.95.070 M&T Flood Relief Structure Replacement .....	877 <sup>k</sup>	-	-
30.95.080 Sacramento Urban Area Levee Rehab. ....	-	5,600 <sup>m</sup>	3,700 <sup>k</sup>
This federal-state project continues remedial repair work on approximately 32 miles of levees in the Sacramento Urban area.			
30.95.085 Cache Creek Settling Basin Project .....	-	8,290 <sup>k</sup>	-
30.95.100 Fremont Weir Sediment Removal .....	-	-	2,150 <sup>k</sup>
This project funds sediment removal at Fremont Weir to restore the facility to its design capacity.			
Totals, Public Safety and Prevention of Damage .....	\$11,543	\$20,127	\$7,606
TOTALS, CAPITAL EXPENDITURES .....	\$453,559	\$541,390	\$552,075

\* Dollars in thousands, excluding salary range.

--	-----------	-----------	-----------

<sup>1</sup> This amount includes \$718,110 which was erroneously shown as a 1987-88 expenditure in the 1989-90 Governor's Budget. The records of the State Controller and the department have been adjusted to reflect this corrected amount.

\* Dollars in thousands, excluding salary range.

## 3940 STATE WATER RESOURCES CONTROL BOARD

The objectives and responsibilities of the State Water Resources Control Board and the nine Regional Water Quality Control Boards are to preserve and enhance the quality of California's water resources and to assure their proper allocation and effective utilization. These objectives are achieved through two action programs: water quality and water rights.

## SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*
10 Water Quality.....	\$116,368	\$384,845	\$368,319
20 Water Rights.....	7,726	8,349	8,727
30 Administration.....	6,895	8,925	9,163

## MAJOR BUDGET ADJUSTMENTS

Program	Description	1990-91	
		Personnel years	Dollars*
10	Continue pilot program to provide assistance to cities and counties in the oversight of leaking underground storage tank clean-up.....	(33.3)	\$12,288
10	Implement a program to clean up leaking underground storage tanks where the owner is absent or financially insolvent.....	1.9	2,000
10	Increase enforcement at landfills as authorized by Chapter 1095, Statutes of 1989.....	14.2	1,000
10	Implement a program, as authorized by Chapter 1442, Statutes of 1989, to assist owners and operators of underground petroleum storage tanks to remediate conditions caused by leaks...	8.5	4,938
10	Establish a water monitoring program for mining disposal sites as authorized by Chapter 642, Statutes of 1989. (Limited to two years.).....	1.0	138
10	Implement a program to monitor aboveground petroleum storage tanks, prevent leaks and improve oversight of the storage of aboveground liquid hazardous substances, as authorized by Chapter 1383, Statutes of 1989.....	35.3	2,126
10	Implementation of the Bay Protection and Toxic Clean-up program authorized by Chapter 269, Statutes of 1989 (SB 475).....	-	2,500
20	Implementation of a program to determine water rights decisions impacting the Mono Lake basin.	3.6	262

## 10 WATER QUALITY

## Program Objectives Statement

California faces serious challenges in water management, pollution control and water quality enhancement. Residents, industry and agriculture demand abundant clean water; at the same time, they threaten its quality and availability.

The primary objective of the Water Quality Program is to achieve and maintain the highest possible quality of the waters of the State consistent with their use. Specific objectives are:

1. To formulate, adopt and update water quality control plans and policies that set standards for the waters of the State and provide guidance in water management decisions.
2. To monitor the quality of the waters of the State in order to determine compliance with control plans, permit terms, conditions and receiving water standards; report such quality, its causes and effects; and assess the effectiveness of the State's water pollution control program.
3. To maintain effective control of toxic wastes through implementation of toxic standards.
4. To assure that waters of the State are not degraded by leaks of hazardous material from underground tanks or of hazardous wastes from leaking surface impoundments or landfills.
5. To require of waste dischargers those actions necessary to prevent and abate water pollution, inspect dischargers to determine compliance with requirements and carry out enforcement actions to obtain full compliance with waste discharge requirements.
6. To assist local entities in financing the construction of wastewater treatment facilities needed to comply with discharge requirements and achieve receiving water standards.
7. To ensure that State and Federal funds allocated for construction of wastewater treatment facilities are expended in a timely and proper manner.
8. To evaluate new problems, specialized techniques and concepts in water quality control; define and develop solutions to unique water quality problems in the State; and conduct a wastewater treatment plant operator training program to provide the skills necessary in operating today's complicated facilities.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

3940 STATE WATER RESOURCES CONTROL BOARD—*Continued*

## Authority

Porter-Cologne Water Quality Control Act, California Water Code Sections 13000 et seq., provides general legislative authority for the State's Water Quality Control Program. The Act also authorizes the State Board to exercise those powers delegated to the State by Federal water pollution control legislation.

## 10.10 Regulation

## Program Element Statement

The Regional Water Quality Control Boards regulate waste discharges with four closely related activities: adoption of waste discharge orders, surveillance, monitoring and enforcement.

The waste discharge orders are the cornerstone of regulation. They specify limits on the quality and quantity of an effluent and may include time schedules for achieving compliance. Regional Boards issue two types of orders depending upon the physical location of the discharge. For discharges from point sources to surface waters, discharge requirements are issued in the form of National Pollution Discharge Elimination System (NPDES) permits. The State issues these permits, as authorized by the Clean Water Act with program approval from the Federal Environmental Protection Agency (EPA). For all other discharges, requirements are issued under the Porter-Cologne Act. Regional Boards also periodically reevaluate and upgrade these requirements to conform to current technology, water quality conditions and treatment levels as specified by changes in State and Federal regulations.

Waste discharge orders are ineffective without surveillance, monitoring and enforcement to assure compliance. Surveillance and monitoring activities include collection, interpretation and storage of water quality and quantity data. Regional Boards use these data to measure compliance with discharge requirements and achievement of water quality standards, to identify sources of pollution and to identify waters requiring special studies. These data are also essential for establishing and reviewing water quality standards, an important activity of the planning element.

Whenever surveillance and monitoring activities uncover a violation of discharge requirements, the Regional Board attempts to gain compliance through voluntary action by the discharger. If this fails, administrative enforcement, clean-up and abatement orders, cease and desist orders, administrative civil liability assessments, and finally, judicial enforcement remedies are sought.

The State Board must consider all petitions from persons aggrieved by Regional Board actions. The appeals process provides a final opportunity for administrative review of a Regional Board action and is particularly important when actions may later be subject to judicial scrutiny.

The State Board administers a program for the control of toxic contamination originating at surface impoundments. It also establishes construction and monitoring standards for underground storage tanks containing hazardous materials. In addition, once tanks are found to be leaking, under a pilot program, the State Board provides clean-up oversight using Regional Board staff and local implementing agencies. The State Board has over 100 staff devoted to surface impoundments and tanks. Also, the State Board has operated a program since 1985-86 to follow-up on the sources of contamination at drinking water wells identified as contaminated by the Department of Health Services.

\* Dollars in thousands, excluding salary range.

## 3940 STATE WATER RESOURCES CONTROL BOARD—Continued

## Budget Adjustments

In 1989–90, the following budget adjustments are reflected:

- An increase of \$101,000 for the Underground Storage Tank Cleanup Fund and three positions (1.4 personnel years) to assist owners and operators in the remediation of leaking underground petroleum storage tanks, authorized by Chapter 1442, Statutes of 1989.
- An increase of \$190,000 from the General Fund and two positions (1.0 personnel year limited to two years) to continue oversight of groundwater contamination clean-up in the Santa Clara Valley as authorized by Chapter 1241, Statutes of 1989.
- An increase of \$2 million from the Federal Trust Fund and 1.5 positions (1.4 personnel years limited to two years) to implement a pilot program for the clean-up of leaking underground storage tanks when the owner is absent or financially insolvent.
- An appropriation of \$967,000 for State Operations and \$2,933,000 for Local Assistance from the Hazardous Substance Account (Chapter 269, Statutes of 1989) for the Leaking Underground Storage Tank Pilot Program clean-up activities.
- An increase of \$98,000 in reimbursement authority and two positions (1.9 personnel years) to provide resources for the first of a two-year effort for the investigation, clean-up and abatement of groundwater contaminants and pollutants within the lower Santa Ana River groundwater basin.

In 1990–91, the following budget adjustments are proposed:

- An increase for Local Assistance grants of \$6 million in Federal funds plus an increase of \$6,288,000 in Underground Storage Tank Cleanup Funds and conversion of eight temporary help positions to 8.5 permanent positions to continue the 1989–90 level of effort of the Leaking Underground Storage Tank Pilot Program.
- An increase of \$2 million in Federal funds and two positions (1.9 personnel years, second year of two-year limited term) for the second year of the orphan underground storage tank clean-up program initiated in 1989–90.
- An increase of \$1 million from reimbursements and 15 positions (14.2 personnel years) to increase enforcement at landfills that are leaking.
- An increase of \$156,000 from the Waste Discharge Permit Fund and two positions (2.0 personnel years) to implement annual fees for holders of State and Federal discharge permits as authorized by Chapter 627, Statutes of 1989.
- An increase of \$132,000 in Federal funds for the continued investigation of the sources of groundwater contamination in the San Gabriel Valley.
- An increase of \$813,000 in Federal funds and 11.6 positions (11.0 personnel years) to expand the investigation of the sources of groundwater contamination in the San Fernando Valley.
- An increase of \$114,000 in reimbursements and two positions (2.0 personnel years) for the second of a two-year effort of investigation, clean-up and abatement of groundwater contaminants and pollutants within the lower Santa Ana River groundwater basin.
- An increase of \$4,938,000 from the Underground Storage Tank Cleanup Fund and nine positions (8.5 personnel years) to assist owners and operators of underground petroleum storage tanks to remediate conditions caused by leaks, as authorized by Chapter 1442, Statutes of 1989.
- An increase of \$68,000 in General Funds and two positions (1.0 personnel year) for the completion of the two-year effort of oversight of groundwater contamination clean-up in the Santa Clara Valley, as authorized by Chapter 1241, Statutes of 1989.
- An increase of \$138,000 in Waste Discharge Permit Funds and one position (1.0 personnel year) to establish a water monitoring program for mining disposal sites as authorized by Chapter 642, Statutes of 1989.
- An increase of \$2,126,000 in Environmental Protection Trust Fund and 37.2 positions (35.3 personnel years) to implement a program to monitor aboveground petroleum storage tanks, prevent leaks and improve oversight of the aboveground storage of liquid hazardous substances, as authorized by Chapter 1383, Statutes of 1989.

## Performance Measures

## 3940 STATE WATER RESOURCES CONTROL BOARD—Continued

## 10.20 Planning

## Program Element Statement

Planning for water quality control, including economic and environmental considerations, is essential for effective water quality control and wastewater management. The water quality control plans identify the beneficial uses of the waters of the State and set the levels of water quality necessary to protect those uses. The plans also establish control measures to achieve the needed water quality. The State and Regional Boards completed California's first major phase of water quality planning in 1975 when Water Quality Control Plans (Basin Plans) were adopted for the State's 16 hydrologic basins. In subsequent fiscal years, the State and Regional Boards updated Basin Plans, as necessary. A major effort to upgrade the Basin plans using contract resources began in Fiscal Year 1989-90. This effort will provide much needed updates of these important plans. A major planning effort is presently underway to identify and control nonpoint sources of pollution. In addition, the State Board is preparing statewide plans for control of discharges of toxic pollutants.

The State Board currently conducts a coordinated statewide planning effort that involves public participation as well as input from governmental entities (local, regional, State and Federal). In addition, the Board administers the Federal 205(J) program which provides grant funding to water quality management projects on a priority basis.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of \$150,000 from the Environmental License Plate Fund to provide a grant of \$75,000 to the City of San Francisco to address water quality and water level problems at Lake Merced and \$75,000 for Regional Board staffing of the San Diego Bay Interagency Panel to address water quality problems in San Diego Bay, as authorized by Chapter 1241, Statutes of 1989.
- An increase of \$2.5 million from the Hazardous Waste Control Account (HWCA) for bay protection and toxic clean-up as authorized by Chapter 269, Statutes of 1989.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$1,079,000 in Federal funds and \$260,000 from the Cigarette and Tobacco Products Surtax Fund and 5.8 positions (5.5 personnel years) to continue a plan to improve the water quality of Santa Monica Bay.
- An increase of \$2.5 million from the HWCA for continued implementation of the Bay Protection and Toxic Clean-up program.

## 10.30 Facility Development Assistance

## Program Element Statement

Inadequate wastewater treatment facilities and improper facilities operation are two of the principal causes of water pollution in California. To solve these problems, the State Board administers State and Federal programs for awarding wastewater facilities construction grants and loans to public agencies. The State Board also provides for training and certification of treatment plant operators.

Administration of the financial assistance programs includes: developing an annual statewide project Priority List and establishing priorities for grant and loan requests; reviewing and evaluating facilities' plans, including environmental impact reports; reviewing revenue programs and cost effectiveness analyses; reviewing design plans and specifications, certifying projects to the EPA and executing grant and loan contracts with public agencies (local wastewater management agencies); monitoring construction and approving progress payments; monitoring final construction inspections and resolving issues raised by EPA auditors. The State Board staff works closely with local agencies and their consultants through all phases of development to ensure compliance with applicable Federal and State regulations.

The Federal emphasis for funding wastewater treatment programs recently shifted from grants to loans. To continue to provide assistance, and at the same time to phase out Federal grant funding, Congress passed the Water Quality Act (Act) of 1987 which creates a State Revolving Fund (SRF) Loan Program. The Act provides authorization for a total of \$18 billion nationally for grants and loans through 1994. A total of \$8.4 billion was authorized for issuance to the states to capitalize SRF Loan Programs. The State Board made a decision to convert to the loan program on July 1, 1989. The new loan monies can be used to provide assistance for wastewater treatment facilities and implementation of nonpoint source and estuary enhancement program. Congress has determined that the effectiveness of the SRF Loan Program would be increased if the principal program responsibility rested with the states. The new SRF Loan Program will be primarily a State program with minimal Federal oversight.

The most carefully planned and constructed wastewater treatment plants are ineffective unless operated properly by well trained personnel. Recognizing this, the State Board has established a program whereby municipal treatment plants are classified according to their complexity and the level of competency needed by their operators. Operators are tested and certified at these different levels according to their experience, education and examination results. Training is available to treatment plant operators through the Board's Water Quality Control Institute located in San Marcos. There is also a mobile classroom laboratory which is utilized to train operators at their own facilities.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- A reduction of \$269,000 in Federal funds and four positions (3.8 personnel years) to continue the phase-out of wastewater treatment plant construction grants and replace it with the SRF low-interest loan program.

\* Dollars in thousands, excluding salary range.

## 10.40 Research and Technical Assistance

## Program Element Statement

State Board technical specialists provide assistance to all water quality program activities of the Board in the areas of economics, engineering geology, hydrogeology, aerial surveillance and wastewater reclamation conservation. This expertise is required for studies in such areas as groundwater hydrology, control of nonpoint sources of pollution, marine water quality and alternative systems for small communities.

The State Board is mandated to develop and implement a statewide water quality information storage and retrieval program. The emphases of the data management program are on the Waste Discharger System which provides the data necessary to monitor dischargers throughout the State, and the Water Quality Data System which provides the data necessary to monitor the water quality in the State.

Also included in this element are those efforts necessary in planning, organizing, coordinating and directing activities of the Water Quality Program.

## 20 WATER RIGHTS

## Program Objectives Statement

The primary objective of the Water Rights Program is to assure that California's water resources are put to beneficial use to the fullest extent while protecting vested rights, water quality and the environment. Specific objectives are:

1. To allocate the remaining unappropriated waters of the State in accordance with State laws.
2. To maintain a record of title and extent of rights initiated and maintained since 1914, involving almost 13,000 entitlements.
3. To maintain records of groundwater extractions in four southern counties, and records of diversions and uses, stockpond water rights and cessation of or reduction in extractions of groundwater by use of water from a contributory source, throughout the State.
4. To obtain the greatest beneficial use of the waters of the State by enforcement of permit and license terms and conditions, abatement of illegal diversions and prevention of waste or unreasonable use under all rights.
5. To determine existing rights throughout the State through court reference and statutory code of regulations.

## Authority

Division 2 of the California Water Code and Title 23 of the California Administrative Code.

## 3940 STATE WATER RESOURCES CONTROL BOARD—Continued

## 20.10 Water Appropriation

## Program Element Statement

In order to obtain the rights to take unappropriated water from surface streams, other surface bodies of water or defined subterranean streams, an application to appropriate such water must be filed with this Board for most projects. In considering the application, the Board must weigh the relative benefits to be derived from all beneficial uses of the water concerned. It may subject water appropriations to terms and conditions that will best develop, conserve and utilize the water sought for appropriation. However, water may be appropriated for some very small projects by a simplified registration process.

Environmental impact assessments are made for all projects not eligible for the registration process. These lead to the preparation or review of exempt status declarations, negative declarations or environmental impact reports. In the event an application is protested and the protests are not resolved, the Board must hold hearings to determine whether the application should be approved or denied. The Board retains continuing jurisdiction over the project. Petitions to change water right permits are also evaluated by the Board.

## Performance Measures

## 20.20 Water Management/Enforcement

## Program Element Statement

The Board is responsible for the administration of laws which require the collection of water diversion data pertaining specifically to water rights. The law requires that reports be filed by anyone within Riverside, San Bernardino, Los Angeles and Ventura counties extracting more than 25 acre-feet of water from the ground. Statewide, the law requires that notices be filed for any extractions from sources in lieu of groundwater. Also, any person who diverts water from a surface stream or body of water and does not need a permit or license issued by the Board, is required to file a statement of the diversion and use with the Board. This program element also includes the Board's ongoing activities to monitor and revise water right requirements related to the protection of the San Francisco Bay-Delta Estuary.

Drought years have brought about a revision in the Board's approach to enforcement. An adequate enforcement program requires not only a quick response to public complaints of illegal diversions, but also a determination of the availability of water for various priorities of water rights and notice to these right-holders prior to and after the time when water is no longer available for diversion.

## Performance Measures

## 20.30 Determination of Existing Rights

## Program Element Statement

The Board and its predecessor agencies have been assisting the courts in adjudication of water disputes since passage of the Water Commission Act in 1914. The Board assists the courts, either by court references under which the Board is appointed referee in actions before a court, or statutory adjudications, wherein a determination is initiated through petition to the Board by the affected users. Both procedures culminate in a court decree defining the water rights involved.

## 3940 STATE WATER RESOURCES CONTROL BOARD—Continued

## 20.40 Technical Assistance

## Program Element Statement

The Water Rights Program requires several support activities involving public information, legal assistance, data management, records maintenance and administration. Also included are those efforts necessary in planning, organizing, coordinating, budgeting and directing activities for the Water Rights Program.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- An increase of \$262,000 from the Cigarette and Tobacco Products Surtax Fund and 3.8 positions (3.6 personnel years) for determination and implementation of water rights decisions impacting the Mono Lake Basin.

## 30 ADMINISTRATION

## Program Objectives Statement

The objective of this program is to provide management, program and policy direction, legal and administrative services, legislative and public affairs activities and coordination to the divisions of the State Board and the nine Regional Water Quality Control Boards.

The five appointed State Board members, each of whom represent specified areas of knowledge required by the Water Code, are responsible for establishing overall policy, providing direction to State Board staff and to the Regional Boards, approving Regional Boards' water quality control plans, considering appeals concerning other actions or inaction of the Regional Boards and coordinating all water quality and water rights activities in the State.

Specialized staff services are provided to the State Board and Regional Boards in the functional areas of legislative and public affairs, legal advice and assistance, fiscal management, personnel management, training, business services, administrative analysis and program audits.

## Budget Adjustment

In 1990-91, the following budget adjustment is proposed:

- An increase of \$79,000 in Waste Discharge Permit Funds and 1.7 positions (1.6 personnel years) to implement annual fees for holders of State and Federal discharge permits, as authorized by Chapter 627, Statutes of 1989.

## 4100 STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

The California State Council on Developmental Disabilities is comprised of nineteen members. The responsibility of the Council is to plan, coordinate, monitor and evaluate services for persons with developmental disabilities and to establish a system to ensure the legal, civil and service rights of such individuals.

By State and federal law, the Council is required to utilize the following definition of developmental disabilities in fulfilling its mandates:

A developmental disability is a severe, chronic disability of a person which:

- (1) Is attributable to a mental or physical impairment or combination of mental and physical impairments;
- (2) Is manifested before the person attains age 22;
- (3) Is likely to continue indefinitely;
- (4) Results in substantial functional limitations in three or more of the following areas of major life activity: (a) self-care, (b) receptive and expressive language, (c) learning, (d) mobility, (e) self-direction, (f) capacity for independent living and (g) economic self-sufficiency; and
- (5) Reflects the person's need for a combination and sequence of special, interdisciplinary or generic care, treatment or other services which are of lifelong or extended duration and are individually planned and coordinated.

**Authority**

**10 STATE COUNCIL OPERATIONS****Program Objectives Statement**

The State Council's support staff are responsible for various administrative activities to ensure that the goals and objectives of the Council are implemented pursuant to both federal and state law, and that the California State Plan for Developmental Disabilities' services, which forms the basis for expenditures of federal funds for local service development and regional monitoring by Area Boards, is adhered to.

**Budget Adjustments**

In 1990-91, the following budget adjustments are proposed:

- An increase of \$13,000 to replace the Council's word processing equipment.
- An increase of \$100,000 for the first year of a three year evaluation of the impact and cost effectiveness of the Community Placement Plan.

**20 COMMUNITY PROGRAM DEVELOPMENT****Program Objectives Statement**

The Community Program Development Fund was established in 1977 with the objective of providing necessary resources to initiate new programs. In addition to parental contributions, this Fund may be augmented by Federal funds through the State Council. Welfare and Institutions Code Section 4677 provides that PL 95-602 funds received by the State Council may be allotted to the Program Development Fund. Requests for proposal and allocations from the Program Development Fund require approval of the State Council and must be consistent with the priorities in the State Plan.

The Program Development Fund is administered by the Community Development Branch of the Department of Developmental Services. Funds are used to expand community programs for persons with developmental disabilities.

## 4100 STATE COUNCIL ON DEVELOPMENTAL DISABILITIES—Continued

## 30 ALLOCATION TO AREA BOARDS

## Program Objective Statement

There are 13 Area Boards on Developmental Disabilities throughout California, each having the objective of monitoring and coordinating responsibilities within their regional boundaries. Funding for these Area Boards is provided by a reimbursement from the State Council on Developmental Disabilities pursuant to Welfare and Institutions Code Section 4611.

Annually, each Area Board presents a proposal requesting funding to the State Council for consideration. After review and approval, the amount of funding to be allocated is included in the State Plan. In July of each year, the Area Boards summarize their activities and accomplishments and submit this information to the State Council.

## Budget Adjustments

In 1989-90, the following budget adjustment is proposed:

- An increase of \$10,000 (\$6,000 to general expense and \$4,000 to facilities operation) for the relocation of Area Board V due to the 1989 earthquake disaster.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$11,000 to facilities operation for cost increases associated with the relocation of Area Board V due to the 1989 earthquake disaster.
- Permanent continuation of 1.8 positions (1.8 personnel years) and \$68,000 for workload associated with the revised Program Development Fund allocation process. These positions are allocated to the Area Boards on Developmental Disabilities.
- An increase of \$9,000 to purchase attendant/facilitator services for Area Board members with developmental disabilities.
- An increase of \$22,000 to adjust salaries of Area Board Executive Directors.
- An increase of \$6,000 (\$4,000 one-time and \$2,000 ongoing) to relocate Area Board II closer to major service providers, State human services agencies, and its constituency.
- An increase of \$5,000 to the baseline equipment budget.

## 4110 AREA BOARDS ON DEVELOPMENTAL DISABILITIES

The Area Boards on Developmental Disabilities protect and advocate the legal, civil and service rights of persons with developmental disabilities. There are thirteen Area Boards geographically dispersed throughout the State which are responsible for regional monitoring and coordination, and an Organization of Area Boards in Sacramento which resolves common problems, improves coordination and promotes exchange of information. Voting membership is composed of volunteers appointed by the governing body of each county in the area served and by the Governor.

In addition to protection and advocacy activities, the Area Boards also review the policies and practices of publicly funded agencies; conduct or cause to be conducted public information programs; encourage and assist in the establishment of citizen advocacy organizations; encourage the development of needed services of good quality; coordinate services to prevent duplication, fragmentation and unnecessary expenditures; and assist the State Council on Developmental Disabilities in preparation of the State Plan.

The Area Boards are funded through an allocation received from the State Council on Developmental Disabilities which is the cognizant State agency for federal grants provided under Public Law 98-527. A memorandum of understanding with the State Council requires each of the Area Boards to complete specific performance objectives.

## Budget Adjustments

In 1989-90, the following budget adjustment is proposed:

- An increase of \$10,000 (\$6,000 to general expense and \$4,000 to facilities operation) for the relocation of Area Board V due to the 1989 earthquake disaster.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$11,000 to facilities operation for cost increases associated with the relocation of Area Board V due to the 1989 earthquake disaster.
- Permanent establishment of 1.8 positions (1.8 personnel years) and \$68,000 for workload associated with the revised Program Development Fund allocation process.
- An increase of \$9,000 to purchase attendant/facilitator services for Area Board members with developmental disabilities.
- An increase of \$22,000 to adjust salaries of Area Board Executive Directors.
- An increase of \$6,000 (\$4,000 one-time and \$2,000 ongoing) to relocate Area Board II closer to major service providers, State human services agencies and its constituency.
- An increase of \$5,000 to the baseline equipment budget.

## 4120 EMERGENCY MEDICAL SERVICES AUTHORITY

The Emergency Medical Services (EMS) Authority is authorized by Division 2.5 of the Health and Safety Code. The EMS Authority coordinates EMS statewide, develops guidelines for EMS systems, regulates the education, training, and certification of EMS personnel/trauma care systems plus coordinating the State's medical response to any disaster.

The overall responsibilities and goals of the EMS Authority are as follows:

- Assessing statewide EMS needs, effectiveness and coordinating services;
- Providing technical assistance to existing agencies, cities and counties;
- Developing implementation and planning guidelines for EMS systems and disaster medical response;
- Reviewing and approving local EMS agency plans on an annual basis;
- Coordinating medical and hospital disaster preparedness and response and assisting the Office of Emergency Services in the preparation of the medical component of the State Emergency Plan;
- Establishing minimum standards for the education, training and certification of specified emergency medical care personnel;
- Establishing minimum standards for designating and monitoring Poison Control Centers;
- Staffing the Commission on EMS; and
- Receiving, awarding and monitoring implementation of Federal, State and Local EMS-related grants.

The local EMS agency is responsible for the implementation of emergency medical services systems.

Division 2.5 also authorizes a Commission on Emergency Medical Services, consisting of 15 members appointed as specified. The Commission serves in an advisory role to the Authority on specified issues and reviews and approves all regulations, standards and guidelines developed by the Authority.

The EMS Authority will receive \$1.7 million from the Federal Preventive Health Services Block Grant in 1990-91. The majority of these funds will be allocated to develop and enhance local EMS systems. A portion of the funds will be retained at the State level to conduct program activities and to fund the cost of statewide administration of these funds.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 4120 EMERGENCY MEDICAL SERVICES AUTHORITY—Continued

The EMS Authority initiated a new subvention program in 1987-88 to provide grants to seven regional poison control centers. These grants require matching funds from the centers and are intended to provide the public and health professionals with immediate advice on caring for and preventing poison exposures.

Chapter 1134, Statutes of 1989 (AB 1558) created the Emergency Medical Services Personnel Fund for the purpose of maintaining the EMSA's testing and personnel registry program. Fees collected pursuant to Section 1797.185 of the Health and Safety Code will be deposited in this Fund and used to pay for the performance of functions for which the fees are collected.

**Budget Adjustments**

In 1990-91, the following budget adjustments are reflected:

- An increase of \$200,000 General Fund to fund a new multi-county regional EMS Agency serving Fresno, Kings and Madera Counties.
- An increase of 2 positions and \$200,000 (\$172,000 from the Emergency Medical Services Personnel Fund and \$28,000 from an Office of Traffic Safety grant) to conduct statewide testing of paramedics and for maintenance of a personnel registry, pursuant to Section 1797.185 of the Health and Safety Code.
- An increase of \$12,000 General Fund for operating expenses and equipment associated with the implementation of AB 1558 (Ch 1134/89), AB 2159 (Ch 1362/89) and SB 217 (Ch 220/89).

## 4130 HEALTH AND WELFARE AGENCY DATA CENTER

Chapter 787, Statutes of 1972 established three consolidated data centers in State government, including one for Health and Welfare. The primary objectives of the Health and Welfare Agency Data Center are to:

- (1) Ensure the effective, efficient and economical use of agency electronic data processing (EDP) resources by providing EDP services at reduced cost, by eliminating unnecessary duplication and by ensuring optimum utilization.
- (2) Ensure that EDP resources are available to meet Agency needs by providing the necessary computer capability and capacity to meet those needs.
- (3) Promote the appropriate use of EDP resources to assist in the achievement of Agency goals and objectives by identifying potential EDP-related applications and by formulating and recommending policies on the appropriate use of EDP in the Agency.

To achieve these broad program objectives, the Data Center was established on January 1, 1978.

## 10 FACILITIES OPERATIONS

## Program Objectives Statement

The principal objective of this program is to provide the necessary computer operation services and resources to the departments within the Health and Welfare Agency. The three major elements of the Facilities Operations program are:

- (1) Operations—The functions assigned to this element are related to the operation of the Data Center's central computer processors and attached peripheral equipment. The equipment is operated to meet user schedules. Normal operations are 24 hours-a-day, seven days-a-week.
- (2) Software Support—This element is responsible for maintaining the software operating systems for the computers, maintaining software for the on-line inquiry systems, installing and implementing proprietary software packages, monitoring and adjusting the computer systems configuration to achieve optimal performance and efficiency and ensuring that adequate hardware and software resources are available to meet the current and projected needs of the user departments. In addition, this element provides advice and consultation to user departments on requests regarding software systems, hardware service requests, workload and resource utilization.
- (3) Telecommunications—This element is responsible for the delivery of user information through the most efficient and cost-effective data communications network available. It is necessary for the telecommunication element to design and maintain the network to meet current and projected requirements of the user departments and to maintain software for the entire telecommunications system.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

4130 HEALTH AND WELFARE AGENCY DATA CENTER—*Continued*

(4) Information Systems—This element is responsible for investigating emerging technologies and determining if these technologies could be applied to solve some of the State's business problems and/or opportunities that cannot be addressed by today's technologies.

**Budget Adjustments**

In FY 1990-91, the following budget adjustments are proposed:

- An increase of \$1,091,000 for equipment and communications to meet the growth requirements of user departments within the Health and Welfare Agency and CALSTARS.
- An increase of \$860,000 and 12.9 positions (12.0 personnel years) for workload associated with the increased number of devices attached to the Data Center network.

**Authority**

## 20 ADMINISTRATION

**Program Objectives Statement**

The objective of this program is to provide the following administrative services to support the Data Center programs: personnel, training, budgeting, accounting, cost recovery, liaison, contracts administration, procurement of hardware and software, general business services and planning.

**Budget Adjustments**

In FY 1990-91, the following budget adjustment is proposed:

- An increase of \$633,000 and 3 positions (2.8 personnel years) for workload associated with the increased number of devices attached to the Data Center network.

**Authority**

Government Code Sections 11778-11784.

## 4140 OFFICE OF STATEWIDE HEALTH PLANNING AND DEVELOPMENT

The mission of the Office of Statewide Health Planning and Development is to plan for and support development of a health care delivery system which meets the current and future health care needs of the people of California.

To achieve this mission, the Office:

- Identifies health care needs of Californians and plans how those needs can be met;
- Works with other entities to ensure that identified needs for health professionals and facilities can be met;
- Tests and evaluates alternative concepts for health care professionals and settings;
- Provides information about facilities' finances, services and patients to health care observers and decision makers; and
- Ensures that health facilities are safe for patients and available to provide care to the community in the event of a major disaster.

60	Health Facility Data-Meet additional workload required by Chapters 1331/89, 1021/85 and 856/89.....	6.2	597

## 10 HEALTH POLICY AND ANALYSIS

### Program Objectives Statement

The objective of this program is to provide the Administration and the Legislature with information and recommendations for future state health needs. Through this program, the staff carries out health planning activities and develops statewide health policy.

Specifically the staff develops an annual State Health Plan which includes an evaluation of the effects of regulation, deregulation and competition on special populations. Biennially in odd-numbered years, the Plan includes components on the distribution of health care services, the forecast of future needs for facilities, services, manpower and capital, the Health Manpower Plan and the Statewide Health Facilities and Services Plan. In even-numbered years, the Plan includes a component on the effects of regulation, deregulation and competition on health care services in California. Additionally, staff assistance is provided to the California Health Policy and Data Advisory Commission.

### Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- A one-time increase of \$50,000 in the California Health Data and Planning Fund to enter into contracts to develop and implement projects directed toward the recruitment of individuals from groups which have been traditionally under-represented in health care careers pursuant to Chapter 1259/89.

In 1990-91, the following budget adjustments are proposed:

- An increase of 1.0 position and \$107,000 from the Health Facility Construction Loan Insurance Fund to contract with an outside entity to develop methods of prioritizing Cal-Mortgage allocations pursuant to Chapter 898/89.
- An increase of \$14,000 to reflect the distributed workload adjustments proposed in Program 80—Administration.

### Authority

Health and Safety Code Sections 437-439.5, 446-446.8; California Administrative Code, Title 22; and Public Law 93-641; and Public Law 96-79.

## 25 DEMONSTRATION PROJECTS

## Program Objectives Statement

The objective of this program is to provide the Administration and the Legislature with information and recommendations on the safety, effectiveness and cost implications of new treatment strategies of health care.

When legislation authorizes a demonstration project to test a new treatment strategy, program staff develop project evaluation criteria, review site proposals, select demonstration sites and monitor site performance. Results of each demonstration project become the basis for recommendations for change in health facility licensure laws and regulations. Projects currently authorized are the Freestanding Cardiac Catheterization Project, the Alzheimer's Disease Institute Project, the Outpatient Postsurgical Care Project and Rural Health Care.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of \$261,000 and 5.0 limited-term positions (4.7 personnel years) and the associated operating expenses through September 30, 1991 for the Postsurgical Care Demonstration Project.
- A decrease of \$81,000 and 1.5 limited-term positions (1.4 personnel years) and associated operating expenses for the Alzheimer's Disease Institute Project.
- An increase of \$3,000 to reflect the distributed workload adjustments proposed in Program 80—Administration.

## 30 HEALTH PROFESSIONS DEVELOPMENT

## Program Objectives Statement

The objective of this program is to provide the Governor and the Legislature with information and recommendations for future health manpower and training needs in California.

Under this program, the Office of Statewide Health Planning and Development produces a component of the State Health Plan, the Health Manpower Plan, which assesses the present and future supply of specific categories of health personnel; establishes standards for determining the adequacy of supply; assesses the projected impact of changes in the financing and delivery of health care on the demand for the services of health personnel; and contains recommendations on personnel policy and programs.

Health Professions Development staff administer the Health Manpower Pilot Projects program, which tests expanded duties and other innovations in health personnel utilization. Under this program, trainees in approved projects are exempted from other provisions of law, such as the healing arts practice acts. Results of the pilot projects become the basis for recommendations for change in the healing arts practice acts and regulations.

Staff in this program also administer the Family Physician Training Program through the California Health Manpower Policy Commission, a statutory body whose members are appointed by the Governor and the Legislature, and the Minority Health Professions Education Foundation. The Family Physician Training Program uses State funds to contract with medical schools, teaching hospitals and other training programs to increase the number and improve the distribution of family practice physicians, primary care nurse practitioners and primary care physicians' assistants. The Minority Health Professions Education Foundation was established for the purpose of soliciting private sector funds for scholarships and loans to minority students in health professions education programs.

Finally, the Health Professions Development staff administer the Health Professions Career Opportunity Program, which works at solving specific health care underservice problems by increasing the number of qualified minority students in health professions.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of 1.0 position (1.0 personnel year) and \$57,000 from the California Health Data and Planning Fund to perform data collection analysis and dissemination so new health manpower initiatives may be developed.
- An increase of \$12,000 to reflect the distributed workload adjustments proposed in Program 80—Administration.

## 40 FACILITIES DEVELOPMENT AND FINANCING

## Program Objectives Statement

The objectives of this program are to (1) ensure that health care providers have adequate access to capital to provide the facilities needed to meet the health care needs of California and (2) ensure that health facilities remain functional in the event of seismic activity.

Staff in this program review health facility construction plans and specifications for conformity to State statutes and regulations to assure that facility construction or alterations meet applicable standards and administer the Hospital Seismic Safety Act of 1983 to assure the continued functioning of health facilities in case of a catastrophic event. Staff also monitor for actual construction to assure compliance with approved construction documents. Under this program, staff are also responsible for the financial analysis and review of health facility project applications for Health Facility Construction Loan Insurance, Fire Protection Loans, Clinic Renovation Grants and Loans and Administration of Eminent Domain Applications for health facilities. The program assures that available financial assistance is allocated only to eligible health facilities in California. Projects receiving such assistance are subject to on-site construction progress and payment verification inspections to assure conformity with approved plans and specifications, loan agreements, wage and labor standards, affirmative action and equal employment mandates.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of 2.0 positions (1.9 personnel years) and \$95,000 from the Hospital Building Account of the Architecture Public Building Fund to provide administrative support to the architectural engineering section of the Seismic Safety Program.
- A redirection of 5.0 personnel years of temporary help and \$108,000 to 5.0 permanent positions.
- An increase of 7.0 positions (5.3 personnel years) and \$414,000 from the Hospital Building Account of the Architecture Public Building Fund to provide on-site plan review for small scale projects in hospitals.
- An increase of \$566,000 from the Hospital Building Account to increase services from the State Fire Marshal needed to comply with the State Building Code.
- An increase of 2.0 positions (1.9 personnel years) and \$235,000 from the Hospital Building Account of the Architecture Public Building Fund to notify permit applicants within a specified time period that the application is complete or that it is deficient and why. In addition, an audit must be performed on the uses of fees collected under the Hospital Seismic Safety Act. This request will address the additional workload required by Chapter 898/89.
- An increase of 3.0 positions (2.9 personnel years) and \$199,000 from the Hospital Building Account of the Architecture Public Building Fund to review and approve the additional Seismic Hazards Evaluation Reports submitted by the estimated 50 additional facilities that may be eligible under the provisions of Chapter 1001/89. The positions and dollars are proposed for a two-year limited term basis.
- An increase of 2.0 positions (1.9 personnel years) and \$89,000 from the Health Facility Construction Loan Insurance Fund to meet the additional workload required by Chapter 1373/89.
- An increase of \$129,000 to reflect the distributed workload adjustments proposed in Program 80—Administrations.

60 HEALTH FACILITIES DATA

Program Objectives Statement

Under this program, uniform and objective information is collected and provided to the public about the costs, capacity and utilization of health facilities in California. This information is used by various levels of government in formulating and evaluating health system policies and in managing governmental health delivery programs; by health care consultants, employers, insurers, organized labor, and other health care purchasers in making informed decisions in today's health care market; and by service providers in strategic market planning and service management.

Budget Adjustments

- In 1989-90 the following budget adjustment is reflected:
- An increase of 3.0 positions (1.6 personnel years) and \$225,000 from the Hospital Services Account to implement Chapter 1331/89. These costs represent a 6-month expenditure plan.
- In 1990-91, the following budget adjustments are proposed:
- An increase of 3.0 positions (2.9 personnel years) and \$450,000 from the Hospital Services Account to implement full year costs of Chapter 1331/89.
  - An increase of 2.5 positions (2.4 personnel years) and \$95,000 from the California Health Data and Planning Fund to meet increased workload in the Patient Discharge Data Program.
  - An increase of 1.0 positions (.9 personnel year) and \$52,000 from the California Health Data and Planning Fund to handle the expected workload increase in collecting, editing and publishing additional data required by Chapter 856/89.
  - An increase of \$18,000 to reflect the distributed workload adjustments proposed in Program 80—Administration.

80 ADMINISTRATION—Distributed

Program Objectives Statement

The functions of this program include policy formulation and direction, legal affairs, legislative liaison, civil rights and affirmative action, public information, fiscal and personnel management, contract processing, business services, labor relations and data processing.

Budget Adjustments

- In 1990-91, the following budget adjustments are proposed:
- An increase of \$176,000 (funds are distributed to the programs), 4.0 positions (3.8 personnel years) and associated operating expenses and a redirection of .25 personnel years of temporary help to .25 permanent position to bring administrative staff in line with program growth.
  - An increase of \$26,000 and 1.0 position (1.0 personnel year) to handle additional support services transferred from the Health and Welfare Agency.

## 4170 DEPARTMENT OF AGING

The Department of Aging serves as both the principal unifying force for services to seniors and as the focal point for the federal, State and local agencies which serve the elderly in California. As the State Unit on Aging, the Department fulfills the goals outlined in the Older Americans Act in creating options for seniors. To serve over four million older Californians, the Department works with 33 Area Agencies on Aging throughout the State. Under the direction of the Department, the Area Agencies on Aging manage a wide array of services to seniors at the community level, including nutrition programs, social services and health insurance counseling. The Department further acts as an advocate for seniors to continue to develop an environment which respects and values California's older citizens.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 4170 DEPARTMENT OF AGING—Continued

The enactment of the Governor's Seniors' Initiative for Californians has placed the Department in the primary role of developing a community-based long-term care system in the State. The Multipurpose Senior Services Program, Adult Day Health Care Program and the Alzheimer's and Linkages Programs represent the foundation for such a system. The multiplicity of programs share one common goal: to improve the quality of life for California's seniors.

## SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*
10 Nutrition .....	\$63,558	\$63,892	\$63,665
20 Senior Community Employment Service .....	5,366	5,559	5,547
30 Supportive Services and Centers .....	31,420	31,576	31,508
40 Special Projects .....	34,127	35,699	33,392

TOTALS, PROGRAMS .....	\$134,471	\$136,726	\$134,112
Reimbursements .....	-14,155	-14,654	-14,436
NET TOTALS, PROGRAMS .....	\$120,316	\$122,072	\$119,676
General Fund .....	37,190	38,023	35,940
Federal Trust Fund <sup>f</sup> .....	83,126	84,049	83,736
Personnel years .....	145.7	155.2	154.2

## MAJOR BUDGET ADJUSTMENTS

- The Linkages Program will be reduced by \$2,100,000 and 2.4 personnel years due to the need to maintain higher priority programs.
- An increase of \$79,000 in additional federal funds and 1.8 personnel years to address increased workload in the Administration Program.
- An increase of \$85,000 for the Health Insurance Counseling and Advocacy Program funded through reimbursements from the Insurance Fund.

## 10 NUTRITION

## Program Objectives Statement

The objective of the Nutrition Program is to provide older Americans, particularly those with low incomes, with low cost, nutritionally sound meals served at strategically located congregate centers or delivered to the homebound. Besides promoting better health among the older segment of the population through improved nutrition, the program focuses on reducing the isolation of old age and providing a link to other social and rehabilitative services. Meals are provided to persons 60 years of age or older.

The Federal Department of Agriculture (USDA), Food and Nutrition Service, provides reimbursements for meals served to seniors through the elderly nutrition programs. This reimbursement is provided either in cash or in commodities. California has elected to receive cash in lieu of commodities to supplement the Nutrition Program.

The Older Americans Act, as amended in 1978, requires a 15 percent match for federal funds and that one-third of that match be from State sources. General Fund augmentations have resulted in the state providing General Fund support above the Federal Fund match requirement of \$9.7 million in 1990-91.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- A one-time increase of \$342,000 in federal Congregate Nutrition funds.

## Authority

Welfare and Institutions Code, Division 8.5, Chapter 4.

10.20 Home Delivered Nutrition .....	21,353	21,339	21,384

## 10.10 Congregate Nutrition

## Program Element Statement

The Congregate Nutrition element provides nutritional meals to older Californians at 1,088 nutrition sites where other social or rehabilitative services can also be obtained. Congregate Nutrition services are available to persons 60 years of age or older, and their spouses, regardless of age.

During 1989-90, approximately 13 million congregate meals are contracted to be served. Program emphasis in 1990-91 will continue to be on increased productivity through service efficiencies in order to provide increased participation among the low-income, minority, elderly population.

Federal Trust Fund <sup>f</sup> .....	35,332	36,120	35,778

## 10.20 Home Delivered Nutrition

## Program Element Statement

The Home Delivered Nutrition element uses a separate category of federal funds to provide meals for homebound seniors who are unable to participate in the congregate meals program. This element is designed to enhance independence and to prevent premature institutionalization. Home-delivered services are available to persons 60 years of age or over who are homebound by reason of illness, incapacitation, disability or who are otherwise isolated.

Current contract data indicate that approximately 7.3 million home-delivered meals will be served in 1989-90 and 1990-91. The program will continue to focus on increasing the participation of low-income minority elderly. This program is an integral part of the in-home services system and community based long-term care programs.

## 20 SENIOR COMMUNITY EMPLOYMENT SERVICE

## Program Objectives Statement

The Federal Senior Community Service Employment Program provides part-time subsidized training and employment in community service facilities for low-income persons, 55 years and older. The major objectives of the program are to meet three significant needs of individual participants: (1) to earn additional income; (2) to regain a sense of involvement with the community; and (3) to receive training to improve their employment prospects. Title V enrollees are placed throughout the state in a variety of employment assignments such as infant care jobs, legal and tax assistants, accountant trainees, outreach workers, nutrition site aides and various community services trainees.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- An increase of \$18,000 in reimbursements from the Employment Development Department to continue and complete the participation of Area Agencies on Aging in the McDonald's McMaster's Job Coach Program.

## Authority

Welfare and Institutions Code, Division 8.5, Chapter 4.

## 30 SUPPORTIVE SERVICES AND CENTERS

## Program Objectives Statement

The objective of this Program is to administer grants for supportive services, senior centers and in-home services for frail older Californians as authorized by the Older Americans Act. The services provided are designed to assist older individuals to use facilities and services available to them. This Program includes the Coordinated Senior Services and Advocacy Assistance and Long-term Care Ombudsman elements.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase in reimbursements of \$76,000 for direct services provided from excess tax check-off funds above the \$325,000 available for the California Senior Legislature.
- A one-time-only allocation of \$70,000 in federal funds for in-home services.

## Authority

Welfare and Institutions Code, Division 8.5, Chapters 4 and 9.

## 30.10 Coordinated Senior Services

## Program Element Statement

The Coordinated Senior Services element is required to strengthen or develop systems of comprehensive and coordinated supportive services for older persons, utilizing resources from all levels of the community and the economy, while avoiding duplication in some service areas at the expense of others. These services are designed to avoid unnecessary institutionalization by enabling older persons to live in their own homes or other places of residence for as long as possible. Emphasis is placed on multipurpose senior centers to serve as community focal points for development and delivery of an array of services.

## 30.20 Advocacy Assistance and Long-Term Care Ombudsman

## Program Element Statement

The Advocacy Assistance and Long-Term Care Ombudsman element provides support to 35 local ombudsman projects with 131 paid staff and approximately 750 volunteers which in turn provide services throughout California. The services provided by this element include: (a) technical assistance to advocates for older persons including support for the development of legal services for the elderly; (b) investigation and resolution of complaints; (c) investigation and reporting of all instances of elder abuse involving residents in long-term care facilities; and (d) information and training services, i.e., issuing an annual report, presenting community education programs and making citation and inspection reports available to the public.

## 40 SPECIAL PROJECTS

## Program Objectives Statement

The objective of the Special Projects Program is to administer a federally funded training element, a variety of specialized projects funded by the General Fund and the Department's community-based long-term care programs funded by General Fund and reimbursements from the Department of Health Services.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase in reimbursements of \$200,000 from the Department of Health Services for the purpose of awarding Adult Day Health Care start-up grants to eligible grantees who will target their services to persons with Acquired Immune Deficiency Syndrome (AIDS).
- An increase of 1.0 position (0.5 personnel year), funded through redirection, to meet increased workload associated with Medi-Cal billing in the Adult Day Health Care Program.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$85,000 in reimbursements from the Department of Insurance to increase the quality and availability of counseling and legal services in the Health Insurance Counseling and Advocacy Program.
- An increase of 1.0 position (0.9 personnel year) funded through redirection to meet increased workload associated with Medi-Cal billing in the Adult Day Health Care Program.
- A redirection of Federal Title III support funding (\$80,000) from the Triple "A" Advisory Council of California (TACC) to restore funding of Title III program training and education activities.
- A reduction of \$2.1 million and 2.5 positions (2.4 personnel years) in the Linkages Program in order to preserve General Fund supported programs with greater need and/or when alternative services are not available.

\* Dollars in thousands, excluding salary range.

## 40.40 Multipurpose Senior Services Program

## Program Element Statement

The Multipurpose Senior Services Program (MSSP) element, initially a demonstration effort, has been operated as an ongoing program under the Home and Community-Based Waiver authority of Title XIX of the Social Security Act since July 1, 1983. The federal waiver has been extended until June 30, 1990. The fundamental purpose of the MSSP is to provide health/social case management in order to prevent unnecessary long-term care institutionalization of frail elderly persons. There are 22 sites statewide that serve Medi-Cal eligible persons, 65 years or older, who are certifiable for admission into skilled nursing or intermediate care facilities. The average per capita costs, including administration, for persons served by the program cannot exceed the costs of institutionalization under the terms of the waiver. Chapter 1318, Statutes of 1989 authorized the program to remain in effect so long as a federal waiver has been granted. The federal waiver is currently under review and the 1990-91 budget assumes continuation of the waiver.

## 40.50 Adult Day Health Care

## Program Element Statement

The Adult Day Health Care Program (ADHC) provides a day program of health, therapeutic and social services in 61 licensed ADHC centers in order to restore or maintain optimal capacity for self-care to frail elderly and impaired adults and to prevent inappropriate or premature institutionalization in long-term care facilities. Although this element is functionally located in the Department of Aging, local assistance costs of approximately \$20.3 million in 1989-90 are included in the Medical Assistance Program in the Department of Health Services as ADHC is a Medi-Cal benefit. The Budget Act of 1989 authorized an increase from \$39.45 to \$45.85 in the daily Medi-Cal reimbursement rate for adult day health services. An interagency agreement between the Department of Aging and the Department of Health Services specifies the roles and responsibilities of each department for the operation of the ADHC Program.

## 40.60 Linkages/Alzheimer/Respite Coordination

## Program Element Statement

The Linkages/Alzheimer/Respite programs provides case management services for both Medi-Cal and non Medi-Cal eligible clients and implements the Alzheimer's Day Care Resource Center Program in 36 sites. The Program tests various complements of services and staff to meet the needs of victims of Alzheimer's Disease. Chapter 947, Statutes of 1987, provides an extension of the program until January 1, 1992. The Linkages Program is designed to address the needs of the frail elderly and physically impaired adults who require specialized assistance in order to remain independent. Chapter 1013, Statutes of 1989 deleted the program's termination date, thereby authorizing its continuation as a permanent program. In addition, the Respite Care and Respite Registries pilot projects, authorized by Chapters 446 and 1349, Statutes of 1986, were authorized until January 1, 1990. The Budget Act of 1989 continued the Respite Registries project and required an additional \$26,000 to be allocated to Linkages sites, which did not have a Registries project, for the purchase of respite services. This Budget annualizes the Registries and purchase of services components. In 1989-90, the Department completed a 17 month grant from the Administration on Aging for building state training capacity to enhance Adult Day Care for Alzheimer's victims.

## 40.70 Senior Center Bond Act of 1984

## Program Element Statement

This element implements Proposition 30 which authorized the issuance of \$50 million in General Obligation bonds for the purpose of acquiring, renovating and constructing senior centers with preference to rural, low-income and racial or ethnic minority areas of the State. Community match equal to 15% of the Senior Center Bond Act funds awarded is required.

Chapter 1233, Statutes of 1985 and Chapter 50, Statutes of 1986, appropriated a total of \$50 million to the Office of the State Controller for 345 projects. This element only consists of the administrative portion of the Senior Center Bond program. The local assistance portion of the program is included in the budget of the Office of the State Controller as provided for in Proposition 30. The Department's administrative responsibilities for these contracts include grant management activities such as processing program and fiscal changes, reports, requests for funds, providing technical assistance and conducting on-site monitoring. In 1989-90, 112 of the original 345 projects were still active.

## 40.80 Health Insurance Counseling and Advocacy

## Program Element Statement

The Health Insurance Counseling and Advocacy element provides health insurance counseling services to Medicare beneficiaries. This element also requires the Department to serve as a clearinghouse for information and materials for use by 24 contracting agencies using volunteer counselors to assist in the implementation of this program.

## 50 ADMINISTRATION

## Program Objectives Statement

The objective of this Program is to provide the general administrative services required for the efficient operation of the Department's programs. These services include personnel, affirmative action, employee relations, training, legislative affairs, public information, budgeting, accounting, auditing, management and systems analysis, business services and program management.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of \$75,000 to restore the Unallocated Reduction included in the 1989 Budget Act.
- An increase of \$41,000 and 1.0 position (0.9 personnel year) funded through increased federal funds to provide increased workload in business services and contract processing.
- An increase of \$38,000 and 1.0 position (0.9 personnel year) funded through increased federal funds to provide increased clerical workload in Planning and Program Development.

## 4180 COMMISSION ON AGING

The Commission on Aging is charged with the responsibility of being the principal advocate for older persons in California. The objectives are to ensure that the interests of older persons in California are represented by advising the Governor, Legislature, Department of Aging and agencies at all levels of government regarding the problems and needs of older persons.

The Commission holds monthly meetings and special hearings throughout the State to identify the needs and solicit the recommendations of older persons. The Commission works closely with the State's 33 Area Agency on Aging Advisory Councils, and through its newsletter provides information to individuals and senior organizations regarding matters of public policy affecting older persons.

The Commission provides coordination and support to local and statewide senior groups relating to program, legislative and policy advocacy activities. The Commission also serves in an advisory capacity to several state programs for the elderly.

The Commission sponsors, coordinates and convenes the annual California Senior Legislature, and provides staff and other administrative support to the Senior Legislature throughout the year. The California Senior Legislature is supported by the California Seniors Fund.

## Major Budget Adjustments

In 1989-90 the following budget adjustment is reflected:

Tax checkoff funds (\$76,000) generated by the California Senior Legislature, in excess of the \$325,000 ceiling established for administration costs, will be used to fund services for seniors in 1989-90. This is consistent with Chapter 1361, Statutes of 1988.

## Authority

## 4200 DEPARTMENT OF ALCOHOL AND DRUG PROGRAMS

The Department, in partnership with county governments and in cooperation with numerous private and public agencies, organizations, groups and individuals, provides leadership and coordination in the planning, development, implementation and evaluation of a comprehensive statewide alcohol and drug abuse prevention, intervention, detoxification, recovery and treatment services delivery system. The Department is responsible for the licensing of methadone programs, first offender and multiple offender drinking driver programs and alcoholism, drug abuse and combined alcohol and drug abuse recovery or treatment facilities. In addition, the Department certifies alcohol and drug abuse programs meeting State standards for service quality.

The Department is organized into four major program areas: Alcohol Programs, Drug Programs, Pilot Project Combined Services Programs and Administration. These programs monitor the effectiveness and cost efficiency of the statewide network of services administered by county governments to approximately 310,000 Californians served each year by alcohol and drug abuse service providers. In addition, the Department implements extensive prevention strategies and carries out special projects and programs designed to reduce the incidence of alcohol and drug abuse in the general population with special emphasis directed toward youth, women, the disabled, ethnic minorities and the elderly. The intended outcome of these efforts is to reduce the socioeconomic cost to Californians, estimated at \$17.6 billion annually, as a result of alcohol and drug abuse.

## 4200 DEPARTMENT OF ALCOHOL AND DRUG PROGRAMS—Continued

## MAJOR BUDGET ADJUSTMENTS

1990-91

Program	Description	Personnel years	Dollars*
10	Alcohol Program—First Offender Drinking Driver Program .....	9.5	\$466
10	Alcohol Program—Licensing of Residential Recovery Facilities .....	3.3	\$220
20/25	Drug/Pilot Project Combined Services Programs—Expansion of the "Services for Alcohol and Drug Abusing Pregnant and Parenting Women and Their Infants" Project .....	2.8	\$4,600

## 10 ALCOHOL PROGRAM

## Program Objectives Statement

The objectives of the Alcohol Program are to provide a network of services for the general public and special target groups and to assist persons and their families impaired by alcohol problems to attain adequate physical, social, psychological and economic functioning. Special emphasis will be given to women of childbearing age, particularly to those who are pregnant.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- Administrative establishment of 0.5 position (0.5 personnel year) for temporary help with \$15,000 in redirected federal funds.
- Administrative establishment of 4.0 positions (1.9 personnel years) to implement the licensing of first offender drinking driver programs pursuant to Chapter 803, Statutes of 1989 (SB 1344) funded by an increase of \$65,000 in Drinking Driver Program licensing fees.
- Administrative establishment of 3.5 positions (1.7 personnel years) to implement the licensing of drug and combined alcohol and drug residential recovery facilities pursuant to Chapter 919, Statutes of 1989 (SB 990) with \$102,000 in redirected federal funds.
- Administrative establishment of 0.5 position (0.4 personnel year) in the Prevention Resource Center with \$15,000 in redirected federal funds.

In 1990-91, the following budget adjustments are proposed:

- An increase of 6.0 positions (5.7 personnel years) and permanent establishment of 4.0 positions (3.8 personnel years) to implement the licensing of first-offender drinking driver programs pursuant to Chapter 803, Statutes of 1989 (SB 1344). These positions will be funded by an increase of \$466,000 in Drinking Driver Program licensing fees.
- Permanent establishment of 3.5 positions (3.3 personnel years) to implement the licensing of drug and combined alcohol and drug residential recovery facilities pursuant to Chapter 919, Statutes of 1989 (SB 990) at a cost of \$220,000 in federal funds.
- Permanent establishment of 0.5 position (0.5 personnel year) in the Prevention Resource Center at a cost of \$22,000 in federal funds.
- Continuation of 5.7 limited-term positions (5.4 personnel years) for the Friday Night Live program and other prevention programs at a cost of \$181,000 in Drug Free Schools and Communities Act monies.

## 10.10 County Administration

## Program Element Statement

The Health and Safety Code authorizes the Department to allocate funds to counties that choose to operate a county alcoholism program. Counties electing to receive alcohol funds develop their own program priorities which are described in the county alcohol plan and budget. Counties administer and manage these programs in conformance with statutes, regulations and standards developed by the State.

## 4200 DEPARTMENT OF ALCOHOL AND DRUG PROGRAMS—Continued

## 10.20 Prevention

## Program Element Statement

Prevention, intervention and early identification activities are intended to preclude, avert or minimize the effects of inappropriate use of alcohol, including services to: (1) educate individuals, families and the community to recognize and address alcohol problems; (2) inform the public concerning the availability of alcohol services; and (3) improve public knowledge and change attitudes and behavior regarding inappropriate use of alcohol.

## 10.30 Recovery and Rehabilitation

## Program Element Statement

Recovery and rehabilitation services include residential alcohol detoxification, residential treatment and social model recovery homes. Detoxification programs assist individuals to recover from the effects of intoxication and to make plans for continued recovery. Residential programs provide food, shelter and structured treatment in a nondrinking, supportive environment. Recovery homes provide food, shelter and social rehabilitation, relying primarily on peer group interactions, in a community-based, nondrinking supportive environment.

Recovery and rehabilitation services which are nonresidential include a wide range of activities for persons not requiring a residential setting, including problem assessment; individual, group and family recovery or treatment sessions; and assistance in planning for dealing with social and economic problems and in the healthy use of leisure time. Nonresidential services may be provided through self-help groups, community recovery centers, outpatient clinics, day treatment programs or drinking driver programs.

## 10.40 State Administration

## Program Element Statement

These activities relate to the process of providing funds to counties to establish and maintain a statewide alcohol services delivery system utilizing a county planning, budgeting and management review process. The Division of Alcohol Programs approves and disapproves county plans; reviews county program management and assures program quality in compliance with standards; sponsors and encourages research in social factors contributing to problems relating to the inappropriate use of alcohol; cooperates with other governmental agencies and the private sector in coordinating alcohol programs; promotes alternative funding for publicly funded alcohol programs; assists in assuring county compliance with federal and state disabled access and civil rights laws and regulations; develops and implements a statewide alcohol plan; licenses residential alcohol facilities and drinking driver programs; and provides leadership for statewide prevention efforts.

## 20 DRUG PROGRAM

## Program Objectives Statement

The objectives of the Drug Program are to provide a network of services for both the general population and special target groups in the areas of prevention of narcotic and drug abuse and in the care, treatment and rehabilitation of narcotic addicts and drug abusers. Programs are designed to reduce the incidence of narcotic addiction and drug abuse among their clients and participants and to assist persons impaired by narcotic addiction and drug abuse to become drug-free and to attain adequate personal and social functioning. Priority emphasis will be given to women of childbearing age, particularly pregnant women. Three goals of the methadone program are to increase the compliance rates of methadone clinics, to investigate all complaints related to the operations of the program and to establish fees which will fully support this program.

\* Dollars in thousands, excluding salary range.

## 4200 DEPARTMENT OF ALCOHOL AND DRUG PROGRAMS—Continued

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- Administrative establishment of 0.5 position for (0.5 personnel year) temporary help with \$15,000 in redirected federal funds.
- Administrative establishment of 1.0 position (0.5 personnel year) for support of the "Services for Alcohol and Drug Abusing Pregnant and Parenting Women and Their Infants" pilot project with \$30,000 in redirected federal funds.
- Administrative establishment of 1.0 position (0.5 personnel year) for support of the HIV/AIDS Counselor Program with an increase of \$30,000 in reimbursements from the Office of AIDS.
- Administrative establishment of 1.0 position (0.7 personnel year) for support of the Waiting List Reduction Program with \$44,000 in redirected federal funds.

In 1990-91, the following budget adjustments are proposed:

- Continuation of 3.3 limited-term positions (3.1 personnel years) for the Friday Night Live program and other prevention programs with \$173,000 in Drug Free Schools and Communities Act monies.
- Permanent establishment of 3.0 positions (2.8 personnel years) at a cost of \$185,000 for support of the "Services for Alcohol and Drug Abusing Pregnant and Parenting Women and Their Infants" pilot project. This project will also be augmented by \$2,477,000 to fund interagency agreements with other state departments. The total augmentation is \$2,662,000 in federal funds.
- Permanent establishment of 1.0 position (0.9 personnel year) for support of the HIV/AIDS Counselor Program with an increase of \$61,000 in reimbursements from the Office of AIDS.
- Establishment of a 1.0 limited term position (0.9 personnel year) for support of the Waiting List Reduction Program at a cost of \$61,000 in federal funds.

## 20.10 County Administration

## Program Element Statement

The Drug Program Administrator of each county has the responsibility to administer all drug program funds allocated to the county under Division 10.5 of the Health and Safety Code. Additional responsibilities include preparation of the County Drug Program Plan and general supervision over local drug program services provided under the plan; submission of an annual report to the county board of supervisors, reporting all activities of local drug programs, including a financial accounting of expenditures and a forecast of anticipated needs for the ensuing year; and special studies for the prevention and treatment of drug abuse.

## 20.20 Prevention

## Program Element Statement

The objective of the Prevention element is to reduce drug use and to reduce the incidence of drug abuse through primary prevention and early intervention programs. Specific activities include the development and implementation of community-based preventive service programs which emphasize primary prevention, prevention education, intervention, public information, drug abuse consultation and community organization services to families, women, the elderly, children and youth and other special population groups within a multi-cultural context. Prevention efforts are coordinated with other state agencies and local school systems to encourage sound community and school-based prevention programming. Prevention programs are funded from two sources: State drug abuse funds and Federal drug program funds that are administered by the State, either directly or by State-county agreements.

## 4200 DEPARTMENT OF ALCOHOL AND DRUG PROGRAMS—Continued

## 20.30 Treatment and Rehabilitation

## Program Element Statement

The objective of the treatment and rehabilitation element is to improve the physical, psychological and social functioning of Californians by reducing, preventing and/or interrupting drug use and abuse. Programs funded by the State are located in communities throughout California. These programs provide detoxification, outpatient drug-free, residential drug-free, methadone maintenance and structured day treatment services.

## 20.40 State Administration

## Program Element Statement

These activities relate to the process of providing management of the statewide drug abuse program including the administration of state and federal funds, approval and disapproval of county drug program plans and budgets, the development and implementation of methadone program licensing regulations, the development of model programs, the certification of programs, assisting in assuring county compliance with federal and state disabled access and civil rights laws and regulations and the provision of technical assistance and training. The Division of Drug Programs also sponsors and encourages research and develops the State Drug Program Plan and Annual Report to the Legislature. In addition, the Division coordinates an Employee Assistance Program with services designed to assist employees to recognize and address personal problems, including alcohol and drug related problems which impair job performance.

## 20.50 Special Projects

## Program Element Statement

The School-Community Drug Abuse Program is a special project conducted using State General Funds. The project provides for community-based drug abuse primary prevention programs. Emphasis is placed on youth, families and community-wide drug abuse prevention planning.

Input	1988-89*	1989-90*	1990-91*
Expenditures (General Fund) .....	\$864	\$940	—

## 25 PILOT PROJECT COMBINED SERVICES PROGRAM

## Program Objectives Statement

- The objective of this program is to provide combined alcohol and drug funding allocations to specific counties for two pilot projects:
- One project, administered pursuant to Chapter 766, Statutes of 1988, (AB 2904, Speier) allows the Department to permit the counties of San Mateo, Fresno and San Francisco to submit a combined alcohol and drug program county plan for their respective counties. The budgeting of funds in this program, separate from Program 10 (Alcohol) and Program 20 (Drugs), will allow participating counties to receive a single allocation by funding source. At this time, only funds for San Mateo and San Francisco are budgeted, since only those two counties have indicated an interest in participating in this demonstration project.
  - The other project is the multiagency "Services for Alcohol and Drug Abusing Pregnant and Parenting Women and Their Infants" pilot project, currently funding five pilot projects in four counties (Alameda, Los Angeles, Sacramento and San Diego). These projects are funded by a combination of drug and alcohol funds.

## Budget Adjustments

- In 1990-91, the following budget adjustment is proposed:
- An increase of \$1,938,000 to expand the "Services for Alcohol and Drug Abusing Pregnant and Parenting Women and Their Infants" pilot project.

## Authority

## 30 ADMINISTRATION

## Program Objectives Statement

The primary objective of the Administration Program is to provide a comprehensive range of support services to the Alcohol and Drug Programs. These support services include: interagency coordination among State, federal and local entities; information and data services to management; public information and awareness about alcoholism and drug abuse in California; auditing; development of program rules and regulations; and a strong emphasis on evaluation.

The Director's Office provides overall program direction and leadership to the field. Activities of the Director's Office include: the establishment of policies, goals and objectives for the statewide alcohol and drug programs; and coordinating and encouraging the development of State and local programs for prevention, identification, treatment and rehabilitation of alcohol and drug abusers. Activities of the Division of Administration include: training, budgeting, auditing, contracting, data processing, management analysis, accounting, data management, evaluation, regulations, disabled access compliance, civil rights investigation and compliance and other support services to the Department.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- Administrative establishment of 1.0 position (1.0 personnel years) of temporary help at \$30,000 and a \$23,000 increase for overtime with redirected federal funds.
- Administrative establishment of 1.0 position (0.5 personnel year) in the Business Services Section with \$17,000 in redirected federal funds.
- Administrative establishment of 0.5 position (0.3 personnel year) in the Fiscal Management Section with \$10,000 in redirected federal funds.
- Administrative establishment of 0.6 position (0.3 personnel year) in the Data Management Services Branch with \$6,000 in redirected federal funds.
- Administrative establishment of 1.0 position (0.5 personnel year) in the Accounting Office with \$27,000 in redirected federal funds.
- Administrative establishment of 1.0 position (0.7 personnel year) in the Personnel Office with \$25,000 in redirected federal funds.

In 1990-91, the following budget adjustments are proposed:

- Permanent establishment of 1.0 position (0.9 personnel year) in the Business Services Section at a cost of \$34,000 in federal funds.
- Permanent establishment of 0.5 position (0.5 personnel year) in the Fiscal Management Section at a cost of \$18,000 in federal funds.
- Permanent establishment of 1.9 positions (1.8 personnel years) in the Data Management Services Branch at a cost of \$102,000 in federal funds.
- Permanent establishment of 1.0 position (0.9 personnel year) in the Accounting Office at a cost of \$54,000 in federal funds.
- Permanent establishment of 1.0 position (0.9 personnel year) in the Personnel Office at a cost of \$39,000 in federal funds.

## 4220 CHILD DEVELOPMENT PROGRAMS ADVISORY COMMITTEE

The Child Development Programs Advisory Committee was established to provide policy recommendations to the Governor, the Superintendent of Public Instruction, the Legislature and other relevant state agencies concerning child care and development. The Committee also reviews and evaluates the effectiveness of child development programs and the need for children's services.

Among the areas of review the Committee is currently:

- developing a profile of children in programs by assessing the needs and characteristics of California's children in both subsidized and non-subsidized programs;
- analyzing programs for substance exposed infants;
- exploring methods to assist children with special needs by expanding utilization of existing resources;
- conducting an outreach effort to make employers aware of the benefits of assisting with their employees' child care needs;
- investigating the causes and impact of obstacles to the effective delivery of child care services;
- assessing the coordination of child abuse prevention programs throughout the State; and
- seeking ways to increase child care consumer awareness through distribution of materials including video presentations and brochures.

The Committee consists of 27 members and is staffed with an executive director, an analyst and clerical support.

The Committee is composed of representatives from various State agencies, public members (representing private education, health care, child welfare, child care and community action interests) and parents of children in child care programs.

## 4260 DEPARTMENT OF HEALTH SERVICES

The Department of Health Services' goals are to:

1. Promote an environment that will contribute to human health and well-being.
2. Assure the availability of equal access to comprehensive health services using public and private resources.
3. Emphasize prevention-oriented health care programs.
4. Promote the development of knowledge concerning the causes and cures of illness and the means of delivering health services to the public.
5. Assure economic expenditure of public funds to serve those persons with the greatest health care needs.

These goals are carried out through twelve programs: Preventive Medical Services, Toxic Substances Control, Laboratory Services, Environmental Health, Drinking Water, Acquired Immune Deficiency Syndrome (AIDS), Family Health Services, Rural and Community Health, Medical Care Services, Licensing and Certification, Audits and Investigations and Administration.

## 11.10 Infectious Diseases

## Program Element Statement

The objectives of the Infectious Diseases element are to identify and define the occurrence of infectious diseases in California and to direct efforts which prevent or mitigate their harmful effects and burdensome costs. The Infectious Disease element includes the following components:

- Under the Disease Control component, the Department provides surveillance, investigation and mitigation of over 120 communicable diseases, including 65 diseases for which reporting procedures or mitigation measures are stipulated by regulations. Specific prevention programs are conducted by the General Epidemiology Unit, Immunization Unit, Tuberculosis and Refugee Health Unit, the Veterinary Public Health Unit and the Infant Botulism/Sudden Infant Death Prevention Program. All components provide direct assistance, consultation and education to public and private local health agencies.
- Under the Sexually Transmitted Disease (STD) component, the Department directs its efforts toward reducing STDs in California. This effort includes epidemiology of reportable STD cases, STD screening, quality assurance activities and promoting of public, professional and school information and education functions.

## Budget Adjustment

In 1990-91, the following budget adjustments are proposed:

- An increase of \$291,000 to augment the Immunization Program for the purchase of oral polio vaccine.
- An increase of \$3,326,000 and 3 positions (2.8 personnel years) for continuation of activities related to the Immigration Reform and Control Act (IRCA).

## 11.20 Chronic Diseases

## Program Element Statement

The objectives of the Chronic Diseases element are to: 1) reduce and control mortality and morbidity from chronic diseases, and 2) determine the incidence and prevalence of chronic conditions in California for the purpose of developing and implementing effective intervention strategies to control these conditions. This element includes the following components:

- Through the Health Promotion component, the Department provides leadership in the development of services and programs to promote health and control disease and disability in the adult population of California. Special emphasis is placed on the epidemiology of chronic disease risk factors, promoting healthful lifestyles and controlling those diseases which are the major causes of death and disability.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

- Within the Special Projects component are the Systemic Lupus Erythmatosus Research Grant Project, the National Cancer Institute funded project on Dietary Intervention for Cancer Control, the Preventive Medical Residency Training Program for Physicians and the coordination function for the federally-funded Preventive Health and Health Services Block Grant.
- The Adult Health component has responsibility for health programs primarily affecting older adults. These include the Alzheimer's Disease Program, the Preventive Health Care for the Aging Program and the federally-funded Diabetes Control Program.
- The Dental Health component includes all programs relating to Dental Disease Prevention and Control. These include the principal focus on children's dental health, the area on which the program is principally focused, and new programs on dental health for the elderly.
- The Chronic Disease Epidemiology component has responsibility for all chronic disease morbidity, mortality and disability data including the collection, monitoring, analysis and dissemination of this information.
- Under the Cancer Surveillance component, the Department carries out studies directed at the relationship between various types of cancer and environmental and cultural influences. This component includes the California Tumor Registry which has the statutory mandate to collect information concerning the incidence of cancer in California. In addition to data collection and analysis, there are a series of in-depth related research projects and investigative studies in this area.

**Budget Adjustments**

In 1989-90, the following budget adjustment is reflected:

- An increase of \$106,023,000 for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.

In 1990-91, the following budget adjustment is proposed:

- An increase of \$62,127,000 and 24.0 positions (22.8 personnel years) for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.

## 11.30 Environmental Health Hazard Assessment

**Program Element Statement**

The primary objectives of the Environmental Health Hazard Assessment element are to: 1) provide information to environmental decision makers about the relationships between occupational and environmental exposures to non-infectious agents and the subsequent adverse public health effects; and 2) identify, quantify and recommend health-based standards in controlling occupational and environmental hazards. This element includes the following components:

- Through the Epidemiological Studies component, the Department conducts long-term, in-depth studies of environmental exposures which pose a health hazard and provides occupational health surveillance, evaluation and health information.
- Under the Hazard Evaluation and Community Toxicology component, the Department identifies relevant toxicologic and epidemiologic data, conducts risk assessments and recommends health-based standards for contaminants in air, water, food, pesticides and certain consumer hazards.
- Through the Reproductive and Cancer Hazard Assessment component, the Department provides risk assessment and technical assistance on carcinogens and reproductive toxicants as related to the Safe Drinking Water and Toxic Enforcement Act of 1986.
- The Environmental Epidemiology and Toxicology component provides consultation and public health oversight on hazardous waste issues and conducts investigations of disease clusters thought to be environmentally related.
- Through the Birth Defects Monitoring component, the Department compiles and analyzes confidential population-based data on children born with birth defects and performs in-depth investigations of birth defect clusters.

**Budget Adjustments**

In 1989-90, the following budget adjustment is reflected:

- Implementation of a reorganization to recognize the Office of Environmental Health Hazard Assessment as a new program effective January 1, 1990.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$331,000 and 3 positions (2.9 personnel years) to reflect the transfer responsibility for Proposition 65 activities from the Health and Welfare Agency to the Department of Health Services.
- An increase of \$786,000 and 8.4 positions (8.0 personnel years) to assist local air districts in performing health risk assessments pursuant to Chapter 1252, Statutes of 1987.
- An increase of \$447,000 and 6.5 positions (6.2 personnel years) to conduct risk assessments for the pesticide food monitoring program pursuant to Chapter 1200, Statutes of 1989.
- An increase of \$718,000 and 10.5 positions (10.0 personnel years) to implement the restoration of CAL/OSHA within the Hazard Evaluation and Information Service (HESIS) program.
- An increase of \$163,000 to expand the Childhood Lead Poisoning Prevention Program pursuant to Chapter 1455, Statutes of 1989.

\* Dollars in thousands, excluding salary range.

## 13 ENVIRONMENTAL HEALTH

## Program Objectives Statement

The Environmental Health program objective is to protect California citizens from unnecessary illness by preventing unhealthy manifestations in the environment. Through this program, the Department works to protect the public from unsafe or unwholesome foods, drugs, medical devices, cosmetics, hazardous household products, water supplies, vectors, noise and unnecessary exposure to ionizing radiation.

## 13.10 Public Water Supply

## Program Element Statement

Under this element, the Department regulates all public water systems in the State to assure the delivery of safe drinking water to all consumers. Technical Programs staff are responsible for developing drinking water policies and regulations, establishing maximum contaminant levels, setting drinking water standards, certifying and licensing treatment plant operators, providing financial and technical assistance to public water systems and testing and certifying water treatment devices.

Field Operations staff are responsible for reviewing public water systems, issuing permits, conducting surveillance and inspections, evaluating monitoring data and compliance with standards, taking enforcement actions, evaluating compliance of small water systems under county jurisdiction and providing assistance to local health departments, Regional Water Quality Control Boards and the Department's Toxic Substances Control Division.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- The implementation of a reorganization to transfer and elevate the Public Water Supply Branch as the Office of Drinking Water.

\* Dollars in thousands, excluding salary range.

13.20 Environmental Management

Program Element Statement

Under this element, the Department: (1) conducts surveillance and coordinates a statewide program to suppress disease vectors which includes providing training and assistance to local agencies; (2) provides protection from ionizing radiation through the monitoring of facilities involved in the use of nuclear power and evaluates hazards from naturally-occurring isotopes; (3) prepares an emergency response plan and training program in case of a nuclear power plant accident; (4) is responsible for the establishment, licensing, regulation, maintenance and eventual closure of a low-level radioactive waste disposal site; and (5) evaluates wastewater disposal reclamation and reuse to assure adequate health protection in water pollution control programs.

Budget Adjustments

In 1990-91, the following budget adjustment is proposed:  
● Shift of existing funds (\$854,000) from Federal funds and reimbursements, and an increase of \$217,000 to the Low Level Radioactive Waste Disposal Fund and 1.0 position (0.5 personnel year) for continuation of support for the Low-Level Radioactive Waste Disposal Site.

13.30 Radiologic Health

Program Element Statement

Under this element, the Department provides protection from the dangers of ionizing radiation and reduces radiation exposure to workers and the public from the use of either radioactive materials or radiation producing machines.  
The Radiation Materials Control Section develops standards and regulations for the training of personnel, design of facilities in conjunction with the Building Standards Commission and operations involving the use of radioactive materials. In addition, the section registers and licenses users of radiation sources. Inspections and surveys of facilities are conducted to assure that appropriate health and safety standards are followed.  
The Radiation Machine Control Section conducts inspections and enforces standards to assure radiation-producing machines are safely used and maintained.  
The Certification, Registration and Support Services Section registers x-ray equipment, certifies that the practice of radiologic and nuclear medicine technology is performed only by persons qualified and competent to deliver radiologic health care and certifies licentiates of the healing arts. The section also approves curricula for schools and on-the-job training programs for radiologic technologists and provides support for the administrative operations of the Branch.

Budget Adjustments

In 1990-91, the following budget adjustments are proposed:  
● An increase of \$146,000 to provide contract increases for the radiologic inspections and enforcement program.  
● An increase of \$65,000 and 8.2 positions (7.7 personnel years) to establish a program for generally licensed radioactive material devices and transfer positions from the Radiation Control Program from the Department of Industrial Relations to DHS pursuant to Chapter 902, Statutes of 1989.

13.40 Food and Drug

Program Element Statement

Under this element, the Department performs, directs and coordinates activities which protect consumers against adulterated, misbranded or falsely advertised foods, drugs, medical devices, hazardous household products and cosmetics. Legal and administrative remedies are used to gain compliance. Violations are adjudicated by courts or according to administrative procedures. The Food and Drug Laboratory, the Southern California Public Health Laboratory and the Microbial Disease Laboratory provide support by analyzing samples.  
Field Operations staff are responsible for enforcement of statutes and regulations pertaining to foods, drugs, medical devices, cosmetics, hazardous household products, botulism control in canned food and other health related laws.  
Food and Drug Science staff are responsible for program development, monitoring and maintenance, policy development and scientific support to field operations staff, the Branch and the Division.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- A redirection of \$118,000 within the Food and Drug element to establish 2.0 permanent positions (1.9 personnel years) and a one-time General Fund savings of \$207,000 offset by an increase of \$207,000 in AIDS Vaccine Research and Development Grant funding to review AIDS investigational new drug studies and new drug applications.
- An increase of \$1,057,000 and 12.0 positions (11.3 personnel years) to conduct the pesticide food monitoring program pursuant to Chapter 1200, Statutes of 1989.

## 13.60 Environmental Planning and Local Health Services

## Program Element Statement

Under this element, the Department works with local health jurisdictions and State institutions to protect the environment from disease and health hazards. Branch staff plan and assist the local health jurisdictions in the implementation of local environmental health, toxics and underground tank enforcement programs. In addition, staff develop standards and procedures for noise abatement throughout the State, provide training and assistance to other state agencies and local noise abatement officials and conduct health studies and tests to assist in the mitigation of unnecessary noise. Staff also administer a sanitarian registration program to assure that persons practicing in the field of environmental health meet minimum qualifications of education, training and experience necessary to address environmental health issues.

Staff provide routine environmental health surveillance of State institutions and training of institution staff to assure that a safe and healthy environment is maintained for inmates, wards, patients and employees in these institutions.

Additionally, staff conduct a shellfish sanitation program for growing and harvesting of shellfish statewide, and monitor (and quarantine when necessary) coastal areas for paralytic shellfish poisoning (PSP).

Staff also implement and enforce statewide rules and regulations pertaining to public swimming pools, spas and special use pools.

## 14 OFFICE OF DRINKING WATER

## Program Objectives Statement

The Office of Drinking Water regulates all public water systems in the State to assure the delivery of safe drinking water to all consumers. Technical Programs staff are responsible for developing drinking water policies and regulations, establishing maximum contamination levels, setting drinking water standards, certifying and licensing treatment plant operators, providing financial and technical assistance to public water systems and testing and certifying water treatment devices.

Field Operations staff are responsible for reviewing public water systems, issuing permits, conducting surveillance and inspections, evaluations, evaluating monitoring data and compliance with standards, taking enforcement actions, evaluating compliance of small water systems under county jurisdiction and providing assistance to local health departments. Regional Water Quality Control Boards and the Department's Toxic Substances Control Division.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- Implementation of a reorganization to recognize the elevation of the Public Water Supply Branch to the Office of Drinking Water.

In 1990-91, the following budget adjustment is proposed:

- An increase of \$578,000 and 11.0 positions (10.4 personnel years) to evaluate drinking water activities to improve the quality of drinking water pursuant to Chapter 823, Statutes of 1989.

## 15 ACQUIRED IMMUNE DEFICIENCY SYNDROME (AIDS)

## Program Objectives Statement

The program objective of the Office of AIDS is to provide strategies to address the public health problems resulting from the Human Immunodeficiency Virus.

\* Dollars in thousands, excluding salary range.

4260 DEPARTMENT OF HEALTH SERVICES—Continued

The Office of AIDS maintains a complete and timely registry of AIDS cases and provides information to high risk groups, health professionals and the public. The Office of AIDS conducts surveillance activities to identify risk groups, patterns of transmission and epidemiology; administers programs which test for the Acquired Immune Deficiency Syndrome (AIDS) antibody virus at confidential and alternative test sites; offers case management for home/community based services under the Pilot Care and Medi-Cal Waiver programs; provides follow-up treatment services to seropositive individuals; evaluates the ability of shelters to provide housing and food to homeless persons with AIDS through the Residential AIDS Shelter Pilot Project; and contracts with local entities for prevention and educational activities.

Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of \$220,000 to annualize local assistance funding for the AIDS Medi-Cal Waiver Program.
- A redirection of \$108,000 and the establishment of 2.0 positions (1.9 personnel years) to assume Data Management responsibilities within the AIDS Pilot Care Unit.

20 FAMILY HEALTH SERVICES

Program Objectives Statement

This program includes activities for promotion and integration of family/personal health services efforts at the community level, with a focus on services to individuals or populations in need of special assistance. Many of the program activities are directed toward women and children. While administered under this program, the Women, Infants and Children (WIC) Supplemental Food Program is budgeted in Program 90, Special Projects.

## 20.10 Family Planning

## Program Element Statement

Under this element, contraception, sterilization and infertility information and education services are made available to citizens of childbearing age to provide a means by which people may determine the number, timing and spacing of their children. In addition, staff work to reduce the incidence of sexually transmitted diseases, and to improve future maternal and infant health by promoting the health and education of potential parents through information, counseling and preventive services. No family planning funds are spent for abortions.

Family planning services are provided to low income men and women by more than 160 public and private nonprofit agencies contracting with the Department of Health Services. Each of these contract agencies must provide services in accordance with standards of care which specify the minimum requirements for each service.

## Budget Adjustment

In 1990-91, the following budget adjustment is proposed:

- An increase of \$1,359,000 and 0.5 position (0.5 personnel year) for continuation of family planning services related to the Immigration Reform and Control Act (IRCA).

## 20.20 Maternal and Child Health (MCH)

## Program Element Statement

Activities under this element are designed to reduce and prevent maternal, infant, childhood and adolescent morbidity and deaths.

Program operations staff are responsible for the improvement of pregnancy outcomes and the quality of infant care. A multidisciplinary professional perinatal staff is involved in defining perinatal needs, setting standards, providing consultation to perinatal care providers; regionalizing comprehensive perinatal care including the development of high risk perinatal centers and alternative birthing centers; administering two infant medical dispatch centers for aiding the transport of high risk mothers and infants; developing and administering the adolescent family life program and the high risk infant follow-up program.

Administrative Management Section staff are responsible for distributing and monitoring allocations for perinatal services funded at the state level and by federal MCH Block Grant funds (except for those allocated to CCS). The priorities for MCH Block Grant expenditures are perinatal care and integration and coordination of Maternal and Child Health Services.

The Women, Infants and Children (WIC) Supplemental Food Program, administered under this element but budgeted in Program 90, is a federally-funded nutrition program for low income populations determined to be at risk of developing nutritional deficiencies. Vouchers redeemable for specified foods are distributed and consumer education is provided to complement prenatal and pediatric health care services. Contracts are written with local agencies to perform physical assessments of pregnant women and children under the age of five years and to distribute food vouchers.

## Summary of Maternal and Child Health Services

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- An increase of 15.5 personnel years to implement new and expanded programs within the Maternal Child Health (MCH) Program from additional available Federal funding.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$116,000 and 2.2 positions (2.1 personnel years) for the continuation of local community based perinatal services related to the Immigration Reform and Control Act (IRCA).
- An increase of \$2,150,000 and 4.1 positions (3.9 personnel years) for the continuation of the Adolescent Family Life Project related to the Immigration Reform and Control Act (IRCA).
- A redirection of \$3,400,000 from the Maternal and Child Health Program to the Medical Care Services Program for maternity related services to women with incomes at federal poverty levels pursuant to Chapter 980, Statutes of 1988.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

- An increase of \$3,200,000 to restore the General Fund support level since Federal funding which was provided in 1988-89 and 1989-90 is no longer available.
- An increase of \$4,595,000 General Fund and 15.5 positions (15.5 personnel years) to continue the new and expanded MCH programs implemented in 1989-90.
- Redirection of \$203,000 and 4.0 positions (3.8 personnel years) to the Medical Care Services Program to support the Perinatal Outreach program.
- An increase of \$58,000 and 1.0 position (0.9 personnel year) for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.
- An increase of \$1,806,000 and 3.0 positions (2.8 personnel years) to support costs for additional pilot sites to service mothers and infants in rural and underserved areas.

## 20.30 California Children's Services

## Program Element Statement

Under this element, the Department works through a joint state-county program to provide comprehensive medical diagnosis, treatment, therapy and related services to children with severe physically handicapping conditions whose families are not able to pay for all or part of the care. Children who are enrolled in the Medi-Cal Program and have a severe disability are served by CCS under a cooperative arrangement. Eligibility is based on family income, and family repayments are based on state income tax liability. The California Children's Services element is organized into two components: Regional Operations and Medical Policy and Standards.

The Genetically Handicapped Persons Program (GHPP) is also included in this element and provides medical care to Californians with specified genetic conditions. Program services include preventive care and out-patient and in-patient treatment. Care is provided through centers that specialize in treating these conditions.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of \$22,008,000 due to an increase in the estimated users of treatment and therapy services for California Children's Services of which \$15,655,000 is intended for Los Angeles County.
- An increase of \$1,016,000 due to an increase in estimated users of treatment and therapy services for the Genetically Handicapped Persons Program.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$414,000 and 1.0 position (0.9 personnel year) for continued activities related to the Immigration Reform and Control Act (IRCA).
- An increase of \$17,713,000 due to an increase in the estimated users of treatment and therapy services for California Children's Services.
- An increase of \$4,476,000 due to an increase in estimated users of treatment and therapy services for the Genetically Handicapped Persons Program.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

## 20.50 Child Health and Disability Prevention (CHDP)

## Program Element Statement

Under this element, the Department administers State statutory requirements aimed at reducing the incidence of preventable physical and mental illness and disability among California's children and youth. CHDP is administered and funded at the State level with local health departments responsible for carrying out direct activities, which include case management, outreach, health education, follow-up, provider recruitment and support services such as assistance with transportation and medical appointment scheduling. CHDP includes coverage of the federally-mandated Early Periodic Screening Diagnosis and Treatment (EPSDT) Program requirements for Medi-Cal eligible children and adolescents from birth to age 21, providing preventive health assessments for certain categories of non-Medi-Cal eligible children and monitoring the first grade entry program which requires that all children entering the first grade (or Kindergarten) have a certificate of health examination or a waiver on file at their school.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of \$390,000 due to an increase in the number of child health disability assessments.
- An increase of \$19,913,000 for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—the Tobacco Tax and Health Protection Act of 1988.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$19,769,000 and 6.0 positions (5.7 personnel years) for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—the Tobacco Tax and Health Protection Act of 1988.
- A reduction of \$129,000 due to a decrease in the number of child health disability assessments.

## 20.60 Genetic Disease

## Program Element Statement

Under this element, the Department works to reduce and control disorders having a hereditary or genetic basis by early detection, public and professional education, preventive interventions and counseling.

The newborn screening activity within the element is designed to screen all newborns for four preventable causes of physical handicap or mental retardation: sickle cell anemia, phenylketonuria, galactosemia and hypothyroidism. Contract laboratories and organized follow-up are used to ensure complete and accurate testing. Staff also monitor Rh hemolytic disease of the newborn.

The Prenatal Genetics Services component includes the Neural Tube Defects activity, which is offered to pregnant women, to detect spina bifida and anencephaly of the fetus.

This component also provides carrier screening and counseling for Tay Sachs and a program for prenatal detection of genetic disorders and general genetic counseling.

## 25 LABORATORY SERVICES

## Program Objectives Statement

The Laboratory Services program ensures quality biomedical laboratory services in public and private laboratories throughout the State and provides laboratory reference and testing services in the following program areas: 1) infectious diseases; 2) environmental pollution; and 3) clinical testing and testing for alcohol and drug abuse and genetic diseases. Staff also are responsible for laboratory and personnel accreditation. Reference functions include consultation and training for local public health laboratory personnel.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- A reduction of \$296,000 resulting from a discontinuance of Federal Comprehensive Environmental Response, Compensation and Liability Act Grant (CERCLA) funding.
- An increase of \$428,000 and 5.0 positions (4.7 personnel years) to develop a licensing program for cytotechnologists, perform on-site surveys of laboratories and to develop and implement a proficiency testing program.
- An increase of \$160,000 from the Environmental Laboratory Improvement Fund and 2.0 positions (1.9 personnel years) to implement Chapter 1199, Statutes of 1989, for the Environmental Laboratory Accreditation Program.
- An increase of \$60,000 and 1.0 position (0.9 personnel year) for continuation of activities related to the Immigration Reform and Control Act (IRCA).
- Shift of existing funds (\$50,000) from Federal funds and reimbursements, and an increase of \$10,000 for continued laboratory support services related to the Low Level Radioactive Waste Disposal Site.
- An increase of \$2,334,000 and 21.0 positions (19.9 personnel years) pursuant to Chapter 1200, Statutes of 1989 to provide support for the pesticide food monitoring program.
- Implementation of infectious disease screening of all tissue donors pursuant to Chapter 920, Statutes of 1989, provided through redirection of existing resources.

## 40 RURAL AND COMMUNITY HEALTH

## Program Objectives and Description

The objectives of the Rural and Community Health Program are to: 1) provide public health services and ambulatory health care services to persons, primarily in rural areas, who would otherwise have little or no access to such services; 2) provide financial support to local health agencies, county hospitals and facilities and indigent care programs; 3) supervise counties in the accurate and timely registration of all vital events; 4) maintain a

\* Dollars in thousands, excluding salary range.

## 2460 DEPARTMENT OF HEALTH SERVICES—Continued

permanent public record of all vital events; 5) assess program operation and impact on health status; 6) ensure the provision of required public health and medical services to newly legalized populations; and 7) serve as the central repository of health status and preventive health services program data. Under this program, the Department reviews annual plans and budgets describing each county's health services programs, assures that critical health services are maintained and negotiates agreements authorizing state assistance to share in uncompensated county costs.

## 40.10 Primary Health Care Services

**Program Element Statement**

This element was established to provide public health services to persons, primarily in rural areas, who would otherwise have little or no access to such services by providing financial and technical assistance and education to clinics.

Primary Health Systems Development staff provide technical and financial assistance as needed to rural health medical service providers and coordination among the appropriate federal agencies. Funds are awarded to underserved rural communities through contracts with non-profit agencies.

Indian Health activities in this element provide financial and technical assistance to California clinics serving Native American Indians in order to improve their health status through the provision of comprehensive primary medical and dental care services.

Farmworkers Health staff provide consultation and health and nutrition education to clinics serving farmworkers; study the health needs of farmworker families and seek to increase the pool of bilingual/bicultural health care providers. Additional activities include contracting with clinics for the provision of primary health care.

Local Health Services staff provide direct public health nursing and environmental health services to counties with less than 40,000 population. Also provided under this element are consultation and technical assistance to counties during their transition to independence as well as public health nursing and environmental health services to 11 contract counties.

Hospital and Medical Standards Program staff provide support in the area of research, comprehensive program evaluation and systems development. This component includes activities for identifying causes and developing solutions to the problems which threaten the efficiency and survival of rural and county hospitals.

**Budget Adjustments**

In 1989–90, the following budget adjustment is reflected:

- An increase of \$20,086,000 for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—the Tobacco Tax and Health Protection Act of 1988.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

In 1990-91, the following budget adjustments are proposed:

- An increase of \$28,298,000 and 8.5 positions (8.1 personnel years) for continuation of activities related to the Immigration Reform and Control Act (IRCA).
- An increase of \$18,923,000 and 10.0 positions (9.6 personnel years) for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—the Tobacco Tax and Health Protection Act of 1988.

## 40.20 County Health Services

## Program Element Statement

The County Health Services element was established to provide public health services to the general population and medical services to indigents through the allocation of State (AB 8) and Medically Indigent Services Program (MISP) funds to local jurisdictions. Through this element, the department also provides for the allocation of State funds to support county costs associated with the provision of care to medically indigent adults eliminated from the Medi-Cal Program in Fiscal Year 1982-83 and administers a contract-back claims payment program for those smaller counties that choose to have the State assist them in administering those services. Limited amounts of unexpended allocations from the above-mentioned funds also are allocated to local jurisdictions for special needs and priorities (SNAP), such as public health emergencies, distressed county facilities and computerization of county health information systems. The newly established California Healthcare for Indigents Program (CHIP) provides additional funding to each MISP county to fund hospital services, physician services, and other related health services.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of \$501,168,000 for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99—the Tobacco Tax and Health Protection Act of 1988. Of this amount, \$337,000,000 is designated for the California Healthcare for Indigents Program (CHIP).
- An increase of \$26,597,000 appropriated in Chapter 1331/89 (AB 75) which restored an amount set aside to compensate for inequities between the Medically Indigent Services Program (MISP) allocation formula and the reimbursement of SLIAG funds as part of funds vetoed from the Medically Indigent Services Program in the 1989 Budget Act.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$336,174,000 and 28.5 positions (27.2 personnel years) for implementation of Chapter 1331, Statutes of 1989 (Assembly Bill 75) related to Proposition 99 the Tobacco Tax and Health Protection Act of 1988.
- In addition to funding provided by Chapter 1331, Statutes of 1989, an additional \$34,550,000 is proposed for the California Healthcare for Indigents Program (CHIP), to expand existing MISP services; hospital services, physician services and other health-related services.
- A funding shift of \$1,293,000 from General Fund to County Medical Services Program Account, County Health Services Fund to reflect an estimated increase in recoveries and a decrease in medical expenditures within the County Medical Services Program.
- An increase of \$244,089,000 and 16.0 positions (15.1 personnel years) for continuation of activities related to the Immigration Reform and Control Act (IRCA).
- A reduction of \$150,000,000 in the county AB 8 program to offset the additional OBRA revenue available through the Medi-Cal program under Chapter 144/88 (SB 175).
- Continuation of the \$26,597,000 provided in Chapter 1331/89 for allocation of funds to MISP counties based on an "equity formula."
- A reduction of \$25,000,000 resulting from deferral of the last 1990-91 payment for the Medically Indigent Services Program into fiscal year 1991-92.
- An increase of \$1,431,000 for costs associated with estimated population growth under the provisions of the AB 8 program.

## 40.30 Health Data and Statistics

## Program Element Statement

Under the Health Data and Statistics element, Department staff administer the registration and maintenance of all permanent vital records (birth, death, fetal death, marriage and marriage dissolution records) of events which occur in California, and provide certified copies of individual event records for persons who request them. In addition, staff maintain an extensive data base of information about health status in California, analyze the data it contains and publish topical reports about health issues of broad interest.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- An increase of \$290,000 for the Vital Records Improvement Project to fund record conversion contracts.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

## 50 MEDICAL CARE SERVICES

## Program Objectives Statement

The objective of the Medical Care Services Program is to provide for the health of citizens and other residents of the State by making available publicly financed health care to low income people. An additional objective is to ensure that medically necessary health services are delivered on an equitable basis to eligible persons at the lowest cost to government.

Functionally, Medical Care Services is comprised of four Divisions: Medi-Cal Policy, Medi-Cal Operations, Fiscal Intermediary Management and the Office of Health Systems Financing.

## Authority

Welfare and Institutions Code, Division 9, Part 3, Chapter 7, commencing with Section 14000; Title XIX of the Social Security Act, as amended.

## 50.10 Eligibility

## Program Element Statement

The Eligibility Branch is responsible for assuring that Medi-Cal eligibility criteria, policies and procedures are in conformance with Federal and State statutes and regulations, implementing new Federal and State statutes, assuring that eligibles receive their monthly Medi-Cal identification cards and ensuring accuracy in eligibility determinations. The Branch also has the departmental responsibility to respond to oral and written inquiries from the public and the Legislature about the Medi-Cal program.

The eligibility process is controlled through the following activities: revising policy, regulations and procedures to reflect eligibility changes due to Federal and State law; performing corrective action reviews of county compliance to State and Federal statutes; and overseeing the maintenance of corrective action and quality control plans. The Branch also conducts federally-required quality control reviews to determine whether the accuracy of eligibility determinations is at a level to preclude federal sanctions. The Branch also oversees the Medi-Cal Eligibility Data System Network (MEDS) which provides online eligibility information, Medi-Cal eligibility identification cards and system update capacity in conjunction with county welfare departments. In addition, the Branch developed, implemented and now maintains an automated Income and Eligibility Verification System (IEVS) which enables counties to verify income and assets of Medi-Cal applicants and recipients and thus perform more accurate eligibility determinations.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of \$81,000 for implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—the Tobacco Tax and Health Protection Act of 1988.
- An increase of \$77,000 in General Fund to offset a reduction in federal funding for the Refugee Services Program.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$152,000 and 2.0 positions (1.9 personnel years) for implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.
- An increase of \$261,000 and 6.0 positions (5.7 personnel years) to implement and maintain portions of the federal Medicare Catastrophic Coverage Act of 1988.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

- An increase of \$101,000 and 2.0 positions (1.9 personnel years) redirected from the Family Health Services Program for the establishment of the Perinatal Outreach Program.
- An increase of \$914,000 and the continuation of 8.0 positions (7.5 personnel years) for a limited-term of one year to perform ongoing activities associated with the Immigration Reform and Control Act (IRCA).
- An increase of \$227,000 from the General Fund to offset a reduction in federal funding for the Refugee Services Program.

## 50.11 Benefits

## Program Element Statement

The Medi-Cal Program currently covers physician services, hospital inpatient and outpatient services, physical, occupational and speech therapy, podiatry, optometry, chiropractic services, psychological services, prescribed drugs, laboratory, X-ray and radioisotope services, blood and plasma, hemodialysis services, long-term care facility services, adult day health care services, dental services, home health agency services, medical transportation, artificial eyes, artificial limbs and braces, hearing aids and audiology services, assistive devices and durable medical equipment, eyeglasses, family planning services, acupuncture services, heroin detoxification and health examinations for persons under 21. Under this element, the department also provides policy development and recommendations regarding the scope, quality and methods of providing Medi-Cal benefits. As an associated activity, staff develop and implement regulations and procedures related to the scope and duration of benefits and the circumstances under which medical benefits will be covered.

Elimination of the following optional services is proposed for 1990-91: podiatry, chiropractic services, psychological services, medical transportation, acupuncture services and heroin detoxification.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- An increase of \$19,894,000 for Local Assistance for the implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$19,788,000 for Local Assistance for the implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.
- An increase of \$480,000 and 12.0 positions (5.7 personnel years) to establish a Drug Manufacturers Rebate Unit.
- An increase of \$200,000 in reimbursement authority to develop a cost benefit study of the drug Trental as required by Chapter 753, Statutes of 1989 (AB 1839).

## 50.13 Rate Development

## Program Element Statement

Under this element, the Rate Development Branch establishes the provider payment schedule for covered services; conducts rate studies; develops and implements systems to constrain the rate of increase of Medi-Cal hospital inpatient costs and reimbursements; and develops capitation rates for prepaid health plans, organized health systems and at-risk pilot projects and special projects.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

General Fund.....				898	1,276	1,321
Federal Trust Fund.....				1,184	1,322	1,371

## 50.20 Contract Operations

## Program Element Statement

Under this element, the Contract Operations Branch administers and monitors capitation contracts with health maintenance organizations, prepaid health plans, and other managed care systems. The contracting health care plans provide, and/or arrange and pay for Medi-Cal benefits on a capitated, at-risk basis for each eligible person covered. The Branch also is responsible for coordinating, managing and monitoring hospital inpatient contracts negotiated by the California Medical Assistance Commission. In addition, the Branch administers the Subacute Care Program and the Contract Hospital Construction Reimbursement Program.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- Chapter 996, Statutes of 1989 (SB 1255), appropriated \$250,000 from the Disproportionate Share and Emergency Services (DSES) Fund for administrative work associated with that fund. (The California Medical Assistance Commission also was named in this appropriation.)

In 1990-91, the following budget adjustment is proposed:

- An increase of \$98,000 and 2 positions (1.9 personnel years) to further implement the Disproportionate Share and Emergency Services (DSES) Fund.

## 50.30 Utilization Control

## Program Element Statement

Under this element, the Field Services Branch provides pre-service utilization controls through "prior authorization" of certain Medi-Cal services and reviews the effectiveness of utilization controls applied to Medi-Cal services by other organizations.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- A decrease of \$202,000 and 8 positions (7.6 personnel years) based on a decrease in Treatment Authorization Request (TAR) volume.
- An increase of \$163,000 and 3 positions (2.8 personnel years) for increased workload related to the Immigration Reform and Control Act (IRCA).
- An increase of \$1,355,000 and 28 positions (26.6 personnel years) for the increased workload related to the Drug Manufacturers Rebate Unit.

## 50.40 Health Recovery

## Program Element Statement

The Department, under the Health Recovery element, ascertains the legal liability of third parties to pay for the cost of care and services to Medi-Cal beneficiaries, and recoups such liability as a financial resource for the provision of health care benefits that would otherwise be an obligation of State and Federal funds.

Activities within this element include billing and collecting funds from third party payors and others having a legal liability to reimburse Medi-Cal for services provided; redirecting claims to liable third party payors in order to avoid expenditures; and purchasing Medicare Part B eligibility on behalf of all persons eligible for both Medi-Cal and Medicare. This element includes the following components: Casualty Workers' Compensation, General Collections and Other Coverage.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (State Operations).....	194.4	204.7	201.1	\$9,781	\$11,158	\$11,181

Federal Trust Fund.....				6,109	6,594	6,585
Reimbursements.....				50	49	49

## 50.50 Fiscal Intermediary Management

## Program Element Statement

After a beneficiary has been treated by a fee-for-service Medi-Cal medical provider, the provider bills the fiscal intermediary for payment. The Department contracts with a fiscal agent to process provider claims according to policies established by the Department. The Department then requests

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

the State Controller's office to issue checks. Dental services covered for Medi-Cal beneficiaries are paid for by an at risk contractor at negotiated capitation rates. The contractor pays dental providers directly.

**Budget Adjustments**

In 1989-90, the following budget adjustment is reflected:

- An increase of \$43,000 for implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$77,000 and 2.0 positions (1.9 personnel years) for implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.
- An increase of \$101,000 and 2.0 positions (1.9 personnel years) redirected from the Family Health Services Program to establish the Perinatal Outreach Program.
- An increase of \$751,000 in General Funds to offset a reduction in federal participation from 75 percent funding to 50 percent for indirect program administration of the California Medicaid Management Information System.

## 50.60 Office of Health Systems Financing

**Program Element Statement**

Under this element, staff research and develop alternative methods of providing and/or financing health care services for Medi-Cal beneficiaries. Health care providers are encouraged and assisted in the planning, testing, implementation and evaluation of delivery and financing methods and models which assure more effective access to, availability of, and quality of care within established policies.

## 55 LICENSING AND CERTIFICATION

## Program Objectives Statement

Under the Licensing and Certification Program, the Department regulates the quality of care in approximately 6,000 public and private health facilities, clinics and agencies throughout the State. To accomplish this activity, program staff develop, implement and enforce health care standards, including facilities that are certified to participate in the Title XVIII (Medicare) and Title XIX (Medi-Cal) Programs. These functions include evaluating and monitoring facility conditions, citing deficiencies, approving plans of correction, denying or revoking licenses and overseeing the contracts with Los Angeles County and State Fire Marshal, which perform delegated services.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- An increase of \$375,000 and 6.0 positions (3.0 personnel years) to provide current year implementation of the developmental phase of a comprehensive statewide training program in the Licensing and Certification Division.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$1,525,000 in the Los Angeles County contract to perform licensing and certification workload in Los Angeles County.
- An increase of \$739,000 for continuation of 12.0 positions (11.6 personnel years) on a two-year limited term basis in order to implement a comprehensive statewide training program.
- An increase of \$2,943,000 and 35.5 positions (33.7 personnel years) for additional workload related to new Federal long term care regulations and the Omnibus Budget Reconciliation Act of 1987 survey requirements.
- An increase of \$68,000 for continuation of 1.0 position (0.9 personnel year) on a permanent basis for workload related to the Licensing and Certification Program's citation review conferences.
- An increase of \$51,000 for continuation of 2.0 positions (0.9 personnel year) on a six-month limited term basis to develop regulations related to Chapter 1478, Statutes of 1989, which created two new categories of congregate living health facilities.
- An increase of \$2,624,000 and 47.5 positions (45.1 personnel years) for workload related to the implementation of the Federal Omnibus Budget Reconciliation Act of 1987, specifically, issues related to new Home Health Agency, nurse aide registry and nurse aide training/competency evaluation programs.
- An increase of \$67,000 and 1.0 position (0.9 personnel year) for workload related to certification of Short-Doyle/Medi-Cal mental health clinics.

4260 DEPARTMENT OF HEALTH SERVICES—Continued

60 AUDITS AND INVESTIGATIONS

Program Objectives Statement

The objective of the Audits and Investigations program is to provide general program integrity through financial and medical audits, investigations and reviews to assure that the Department's expenditures are appropriate and consistent with applicable State and Federal law and regulations. Audits and Investigations is organized on a programmatic basis and consists of a Division office, Medical Review Branch, Financial Audits Branch and Investigations Branch.

The Division office includes the Deputy Director's office and performs the Department's Internal Audits function, develops program policy, maintains automated reporting systems and provides technical and administrative support to the three branches.

The Medical Review Branch identifies program abuse, fraud, underutilization and overutilization by providers and initiates appropriate corrective action where indicated. Medical Review staff evaluate medical records and other supporting documentation for payments made by the Department on behalf of program beneficiaries in Medi-Cal fee for service, prepaid health plans and capitated health systems.

The Financial Audits Branch performs financial and compliance audits of acute care hospitals, nursing homes, prepaid health plans, public health programs, capitated health systems, fiscal intermediaries and others. As the Department's primary financial audit resource, staff conduct a range of fiscal audits to assure that payments made to participants of the State health programs are valid, accurate and in accordance with laws, regulations and program intent.

The Investigations Branch is responsible for investigating complaints from the public, beneficiaries, health care providers and other sources alleging fraud or abuse of the Medi-Cal program. Investigations is also designated as the Department's statewide Medi-Cal recipient fraud investigation program, and performs investigative functions in the following areas: vital statistics; Enhanced Enforcement Effort and Women, Infants, and Children (WIC).

Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of 6 positions (3.0 personnel years) for auditing overpayments to long-term care facilities.
- An increase of \$344,000 for implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$302,000 and 6 positions (5.8 personnel years) to implement the Early Fraud Detection Program on a statewide basis.
- An increase of \$379,000 and 6 positions (5.8 personnel years) for auditing overpayments to long-term care facilities.
- An increase of \$471,000 for increased workload related to the Immigration Reform and Control Act (IRCA).
- An increase of \$688,000 and 9.5 positions (9.0 personnel years) for implementation of Chapter 1331, Statutes of 1989 (AB 75), related to Proposition 99—Tobacco Tax and Health Protection Act of 1988.

Authority

Authorized by Welfare and Institutions Code, Division 9, Part 3, Chapter 7, commencing with Section 14000; Title XIX of Social Security Act, as amended.

70 DEPARTMENTAL ADMINISTRATION

Program Objectives Statement

Departmental administration includes management, support and control services to departmental programs which are effected by the Executive Division, the Administration Division and program division and branch offices.

\* Dollars in thousands, excluding salary range.

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- An increase of \$294,000 to provide administrative support for implementation of Chapter 1331, Statutes of 1989 (AB 75) related to Proposition 99, Tobacco Tax and Health Protection Act of 1988.
- An increase of \$22,000 to provide legal support for implementation of Chapter 1331, Statutes of 1989 (AB 75) related to Proposition 99, Tobacco Tax and Health Protection Act of 1988.

In 1990-91, the following budget adjustments are proposed:

- An increase of \$93,000 and 2.0 positions (1.9 personnel years) to provide on-going data processing support to the Income and Eligibility Verification System (IEVS).
- An increase of \$112,000 and 3.0 positions (2.8 personnel years) to process increased personnel transactions workload for the Toxic Substances Control Division.
- An increase of \$575,000 and 13.5 positions (12.8 personnel years) for administrative workload increases in fiscal forecasting, accounting, budgets, data processing and contract management functions related to Immigration Reform and Control Act (IRCA) activities.
- An increase of \$588,000 and 10.5 positions (10.0 personnel years) to provide administrative support in personnel, budget, accounting, contract management and data processing for implementation of Chapter 1331, Statutes of 1989 (AB 75) related to Proposition 99, Tobacco Tax and Health Protection Act of 1988.
- An increase of \$155,000 and 3.0 positions (2.8 personnel years) for legal support related to Immigration Reform and Control Act (IRCA) activities.
- An increase of \$38,000 to support Proposition 65 legal support activities.
- An increase of \$44,000 and 0.5 positions (0.5 personnel years) for Proposition 99 legal support activities for implementation of Chapter 1331, Statutes of 1989 (AB 75) related to Proposition 99, Tobacco Tax and Health Protection Act of 1988.

## Authority

Authority is as referenced for other programs. Also, Sections 10,000-10,678, Division 9, Health and Safety Code.

## 90 SPECIAL PROJECTS

## Program Objectives Statement

The Department of Health Services conducts special studies in areas of public health and provides services to targeted populations to address specific needs, diseases or conditions which are considered high priority public health issues. These special projects are usually limited in duration and are project specific.

## Authority

Health and Safety Code, Sections 200-205, 374, 3182, 108-109, and 213.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 12 TOXIC SUBSTANCES CONTROL

## Program Objectives Statement

The primary objective of the Toxic Substances Control Program (TSCP) is to protect public health and the environment from the effects of toxic wastes. This is accomplished through the Program's various activities to regulate generators of hazardous waste, treatment, storage and disposal facilities and transporters of hazardous waste and to correct past mistakes through the clean-up of sites contaminated with toxic waste. Activities that contribute to the achievement of this objective are: hazardous waste facility siting and evaluation, administration of resource recovery and health and safety programs and research pertaining to alternative methods of handling, treating and processing toxic materials and waste; conducting hazardous substance assessments, reviews of financial liability and closure and post-closure maintenance plan reviews; mitigation of sites and coordination of emergency response actions; hazardous waste property evaluation; and assessment of abandoned sites.

## 12.10 Site Mitigation

## Program Element Statement

The Site Mitigation Element is responsible for implementing the State's site clean-up laws and participating in the Federal Superfund program. The program includes strong enforcement elements aimed at accomplishing clean-up through Department oversight of work performed by responsible parties (RPs). RPs include owners, operators, transporters and waste generators. Where no RPs can be found or where they are not taking proper and timely action, the Department may use State or Federal funds to undertake the clean-up. If necessary, emergency (or removal) actions may be taken. For the majority of clean-up actions, a systematic study of the contamination and its potential effects, called remedial investigations, is carried out. Data are collected to define the extent of the contamination in soil, ground or surface water and air and to develop appropriate clean-up technologies. The various technologies are evaluated in a feasibility study and a recommended approach is laid out in a remedial action plan. After public and agency review, a final plan is adopted, detailed designs are prepared and the plan implemented. At any time, short term actions to stabilize the site or otherwise reduce the immediate threats may be taken. Long-term operation and maintenance are carried out when needed and cost recovery actions are taken against RPs to recover State or Federal expenditures.

A multi-disciplined site clean-up project team is normally involved in all but the simplest types of sites. Toxicologists, hydrogeologists, chemists, industrial hygienists and other technical specialists are available to support the project manager who is an engineer or scientist. Typically, a project manager is responsible for several sites. Additionally, non-technical support is provided by accountants, contract specialists, community relations personnel, clerical staff, attorneys and others. Day-to-day project management is the responsibility of the four regional sections. Headquarters provides program guidance, coordinates statewide efforts, manages the Emergency Response Program, carries out evaluations of property development proposals at or near hazardous waste sites, offers specific technical assistance at a limited number of sites, performs program evaluations and conducts the Rural County Survey program.

Currently work is progressing on the abatement of 240 hazardous waste sites. Additionally, new sites are being identified through surveillance and enforcement efforts by State and local government and by examination of other already identified potential sites. A survey of 29 rural counties is underway to identify potential hazardous waste sites in need of remedial action. The Program's Emergency Response Unit conducts approximately 350 emergency spill responses annually and provides training and equipment for local governments' emergency response programs.

Traditionally, funding for the Program came from four principal sources: RPs, in the form of trusts or settlements; EPA grants; the State's Hazardous Substance Account and the State's Hazardous Substance Cleanup Account (\$100 million Bond). However, it became apparent that bond funds would not be sufficient to meet the long-term needs of the program. Chapter 269, Statutes of 1989 (SB 475) was enacted to provide a stable long-term funding source for the Site Mitigation Program and the various regulatory and Alternative Technology efforts administered by the Program. Chapter 1032, Statutes of 1989, amended Chapter 269, Statutes of 1989, to require that projects for which funding is provided in the annual Budget Act be identified. The following is the scheduled listing of projects which the Toxic Substances Control Program has proposed for inclusion in the 1990 Budget Bill for direct site clean-up.

## Proposed Clean-up Sites

(1) 12.10.030.005-Purity Oil .....	\$110

## 4260 DEPARTMENT OF HEALTH SERVICES—Continued

## Budget Adjustments

In 1989–90, the following budget adjustment is reflected:

- A decrease of 18 positions (16.7 personnel years) and \$2,000,000 due to the termination of the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) cooperative agreement.

In 1990–91, the following budget adjustments are proposed:

- A decrease of 24 positions (22.2 personnel years) and \$3,000,000 due to the elimination of the CERCLA cooperative agreement.
- A reduction of \$30,000 and an increase of one position (0.9 personnel years), resulting from the conversion of three technical positions to four clerical positions.

††† New performance measures for FY 1989–90.

## 12.20 Permitting

## Program Element Statement

One of the primary mechanisms to achieve the objectives of the Program is through the issuance of operating permits to facilities that treat, store or dispose of hazardous wastes within the State. Each permit specifies the design, operation, closure, and in some cases, post-closure requirements with which the facility must comply. In addition, closure plan approvals are required to ensure long-term protection of public health and the environment when a facility closes. Headquarters permitting staff is responsible for providing to the regional offices the policy direction, guidance, technical assistance, training and program oversight necessary to implement the permitting program. Regional office permitting staff are responsible for reviewing permit applications and closure plans for hazardous waste facilities and for preparation of the specific hazardous waste facility permits and final closure plans. Both headquarters and regional office staff work with State Water Resources Control Board and Regional Water Quality Control Board staff who concurrently evaluate compliance with groundwater protection requirements for facilities undergoing permitting and closure.

In addition to implementing the permitting program, authorization must be obtained to manage the Federal hazardous waste management program on behalf of the Federal Environmental Protection Agency (EPA). Authorization to implement the Federal Resource Conservation and Recovery Act (RCRA) is currently being advanced by the Program. Until such time as authorization is obtained, the Program and EPA have taken measures to reduce duplication of regulatory permit activities. At the same time, the State's permitting program must be carried out in a manner that is at least as stringent as the RCRA program and with the goal of meeting permit deadlines established by the Hazardous and Solid Waste Amendments (HSWA) of 1984. The remaining permit deadline requires the issuance of all hazardous waste treatment and storage facility permits by November 8, 1992.

In addition to regulating RCRA facilities, State regulations define a number of substances as hazardous waste which are not regulated by RCRA. The Program is responsible for implementing State permit requirements at facilities which treat, store or dispose of these State-only hazardous wastes.

## Budget Adjustments

In 1990–91, the following budget adjustment is proposed:

- An increase of \$1,000 and two positions (1.9 personnel years) resulting from the conversion of two technical positions to four clerical positions.

## 12.50 Program Direction and Support

## Program Element Statement

In order to effectively and efficiently accomplish the objectives of the Program it is imperative that the activities and the staff assigned to accomplish them have the necessary support and direction. These are provided by executive leadership, management direction, clear policies and procedures, establishment of work schedules and the monitoring of work against them, adequate data, legal support and the various administrative functions such as financial operations, personnel management, data management support and general business services.

In addition, a large number of external questions and issues must be dealt with. Public requests for information; public and industry education; community relations; the impacts of proposed legislation; interaction with other State, Federal and local agencies; and the development of regulations are just a few of the activities that demand attention and are addressed through this activity.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- An increase of \$32,000 and two positions (1.9 personnel years) to augment the existing industry and public education programs.
- A decrease of \$112,000 in temporary help funds to be redirected to fund three positions in the Administrative Division, DHS, to perform personnel activities.
- A reduction of \$300,000 and four positions (3.7 personnel years) which partially offsets the increase in staffing proposed for the Surveillance and Enforcement Division to implement the permit streamlining program.

## 94 CAPITAL OUTLAY

The Department of Health Services owns and operates laboratory facilities at four locations in California: Berkeley, Los Angeles, Fairfield, and Fresno. The Department's laboratory service program ensures quality biomedical laboratory services in public and private laboratories throughout the State and provides laboratory reference and testing services.

The Department has begun implementation of the recommendations presented in its 10-year Laboratory Facilities Plan through: (1) development of a schematic design package for an expansion/renovation project at the Berkeley laboratory facility; and (2) continuation of a renovation project for the Los Angeles facility.

## 4270 CALIFORNIA MEDICAL ASSISTANCE COMMISSION

## Program Objectives Statement

The purpose of the Commission is to negotiate contracts with health care service providers to deliver health care services to Medi-Cal beneficiaries. The Commission's objective is to promote efficiency and cost-effectiveness in the Medi-Cal program through a system of negotiated contracts which fosters competition and maintains access to quality health care for beneficiaries.

The major activities of the Commission and its staff are: 1) the negotiation of contracts with hospitals for inpatient services statewide; 2) the development and negotiation of contracts with county health systems; and 3) the development and negotiation of contracts with health care plans in selected areas for the provision of all covered health services to Medi-Cal beneficiaries on a per capita basis.

In 1988-89, the Commission was involved in 319 negotiations and renegotiations of inpatient hospital contracts involving 280 hospitals. In addition, the Commission is responsible for continued negotiations with the San Mateo Health Plan and its prepaid, at-risk contract for health care services for Medi-Cal beneficiaries. The Commission anticipates the hospital inpatient contract activity to continue and increase in the 1989-90 and 1990-91 fiscal years.

Potential exists for expanded Commission activity in the area of grant allocations for hospitals that are disproportionately affected by Medi-Cal caseload. Chapter 996, Statutes of 1989 (SB 1255), permits the Commission, in concert with the Department of Health Services, to receive and allocate contributions for disproportionate share hospitals. A joint appropriation to the Commission and to the Department of Health Services of \$250,000, from contributions to be received, was made by Chapter 996; that appropriation is displayed in the Department of Health Services budget.

## 4300 DEPARTMENT OF DEVELOPMENTAL SERVICES

The Department of Developmental Services administers the Lanterman Developmental Disabilities Services Act. The intent of this Act is to ensure coordination of services to persons with developmental disabilities; to ensure that such services are planned and provided as part of a continuum of care which is sufficiently complete to meet the needs of those who are developmentally disabled at each stage of their lives, regardless of their ages or the degree of their handicaps; and, to the extent possible, accomplish these goals without dislocating persons with developmental disabilities from their home communities.

The Department has established goals derived from the Lanterman Developmental Disabilities Services Act to provide a framework for departmental operations. The department's goals are to:

1. Reduce the incidence or severity of developmental disabilities through increased prevention efforts.
2. Promote the delivery of appropriate services to persons with developmental disabilities in the most efficient and cost effective manner, including generic services and alternative funding whenever possible.
3. Increase public awareness, understanding and support for persons with developmental disabilities.
4. Increase the self sufficiency of persons with developmental disabilities through quality work programs, in-home supportive services and independent living skills training.
5. Increase the availability of appropriate services and living arrangements for underserved populations.
6. Ensure that the continuum of services is stable, secure, caring and of high quality.
7. Promote policies which encourage persons with developmental disabilities to lead more independent, productive and normal lives.

The Department sets broad policy for the delivery of developmental services statewide; establishes priorities, standards and procedures within which the Developmental Services Program operates; monitors, reviews and evaluates the actual operation of the services; and oversees the correction of faulty procedures and practices brought to light by the evaluation and review process. Services are delivered directly through seven State developmental centers and indirectly through a statewide network of 21 private, nonprofit, locally based community agencies.

The Department of Developmental Services provides care and treatment to persons eligible for developmental services through three programs: Community Services, Developmental Centers and Administration.

## 4300 DEPARTMENT OF DEVELOPMENTAL SERVICES—Continued

## 10 COMMUNITY SERVICES PROGRAM

## Program Objectives Statement

The primary objective of the Community Services Program is to develop and maintain a complete continuum of care for persons eligible for developmental services who reside in the community. The program ensures that various sections of Division 4.5 of the Welfare and Institutions Code are implemented, including those which mandate case finding and management, provision of services, prevention activities, and development of new community programs and other activities. Implementation is provided by contracting with 21 private, non-profit agencies (regional centers) that arrange for services and by encouraging the development of quality community programs. In addition, the Community Services Program is responsible for the development of standards and regulations for the administration of community programs.

## Budget Adjustments

In 1989–90 the following budget adjustments are reflected:

- An increase of \$2,970,000 for the Early Intervention Program (P.L. 99-457) due to the reallocation of unexpended funds from Fiscal Year 1988–89 to 1989–90.
- An increase of \$548,000 to fund statewide implementation of the Court of Appeal decision in the North Bay Regional Center v. Sherry S. case.
- An increase of \$3,047,000 in reimbursements for the Home and Community Based Waiver Program.

In Fiscal Year 1990–91 the following budget adjustments are proposed:

- An increase of \$365,000 and 8.9 positions (8.0 personnel years) due to increased workload and Program Development Fund support in the Parental Fee Collection Unit.
- Establishment of 4 positions (1 personnel year) and \$47,000 in Federal funds through September 30, 1990, for the Early Intervention Program (P.L. 99-457). Completion of the program as of that date will result in a partial year adjustment of –8.2 positions (–8.2 personnel years).
- An increase of \$42,712,000 in the Regional Centers Program to accommodate growth of 5,027 clients and an average caseload of 95,380 clients.
- An increase of \$2,569,000 in reimbursements for the Home and Community Based Waiver Program.
- An increase of \$1,376,000 in reimbursements for the Chapter 1 Entitlements (P.L. 89-313) Compensatory Education.
- An increase of \$2,111,000 to fund statewide implementation of the Court of Appeal decision in the North Bay Regional Center v. Sherry S. case.
- An increase of \$3,768,000 for the expansion of the Alternative Residential Model (ARM). This brings the total amount available for rate increases in 1990–91 to \$6,437,000 and the total amount available for incorporating the remaining Regional Centers into ARM to \$2,252,000.
- An increase of \$28,800,000 in reimbursements for the Medicaid/Case Management Program (Title XIX) and a General Fund reduction of like amount. The Federal Consolidated Omnibus Budget Reconciliation Act of 1985 permits states to include case management services under the State Plan and to target specific groups for Medicaid coverage. The budget reflects the increase noted above and a reduction in General Fund within the Operations portion of the regional centers' budget.
- An increase of \$5,000,000 in reimbursements and a General Fund reduction of like amount is proposed, resulting from implementation of fees for case management services in compliance with federal requirements. The fees will be based on a sliding scale and related to ability to pay.
- An increase of 1.0 position (0.9 personnel year) at a cost of \$55,000 in reimbursements from the Department of Alcohol and Drug Programs for the Perinatal Substance Abuse Pilot Projects.

## 10.10 Regional Centers

## Program Element Statement

Regional centers are private, nonprofit corporations under contract with the State to coordinate the service delivery system in the community for persons eligible for developmental services. These regional centers use an interdisciplinary process to coordinate diagnosis, assessment of need and development of individual program plans that enable each eligible person to live in as normal an environment as possible and develop to maximum potential.

## 10.10.020 Purchase of Services

## Element Component Statement

Purchase of services provides funding for the implementation of the client's individual program plan when services from other public agencies are not available. Services include out-of-home care, day programs and other services such as medical services, camps and respite care, transportation, prevention, independent living and social recreation programs.

## 10.10.050 Regional Centers' Administration

## Element Component Statement

Centralized administration of the regional centers is the responsibility of the Community Services Division. This division manages the contracts between the Department and the 21 regional centers including preparation of the contract document, negotiation of budgets, allocation of funds, maintenance of strict accountability and oversight and projection of expenditures. In addition, this division sets and maintains provider and vendor rates, maintains the Rates, Vendor and Regional Centers Operations and Fiscal Manuals, develops policies, procedures and regulations for the operation of the regional centers, directs implementation of these policies and provides technical assistance.

## 10.20 Community Development Programs

## Program Element Statement

The Community Development Program fulfills the mandate of Welfare and Institutions Code Section 4670 et seq. to develop and provide necessary support for a comprehensive network of quality programs in every area of the State and to administer the Program Development Fund and the Cultural Center for the Handicapped. In addition, federal funding is obtained for support of a Home and Community Based Care Waiver under Title XIX. This program encourages the community placement of persons who would otherwise require institutional care.

## 20 DEVELOPMENTAL CENTERS PROGRAM

## Program Objectives Statement

The Department of Developmental Services is responsible for the operation of seven developmental centers: Agnews, Camarillo, Fairview, Lanterman, Porterville, Sonoma and Stockton. Programs for individuals with mental disabilities at Camarillo State Hospital/Developmental Center are managed by the Department of Developmental Services through an interagency agreement with the Department of Mental Health. State developmental center services include care and supervision for all residents on a 24-hour basis, supplemented with appropriate medical and dental care, health maintenance activities and assistance with activities of daily living.

The primary objectives of the Developmental Centers Program include providing care, treatment and developmental services in the most efficient and effective manner to all residents referred to the State developmental centers by the regional centers, county mental health departments and/or the judicial system; and providing programs which assure improvement of independence, maintenance of health and welfare, increased ability to control the environment and increased normalcy of behavior for residents in state developmental centers who are developmentally disabled.

The Developmental Centers Division provides central administrative and clinical management to the seven developmental centers to assure quality treatment and compliance with state licensing, federal certification and AC/DD standards. The areas of responsibility include the development of policy and procedures for all aspects of developmental center operations, the assurance of integration between developmental center and community programs, assurance of compliance with professional clinical standards in providing effective care, treatment and habilitation training for persons with developmental disabilities.

In support of the State Developmental Centers Program, the Administration Program will collect estimated revenue of \$450 million in the current year and \$467 million in the budget year. The sources of revenue include private and third party patient board payments. In 1989-90, expenditures for developmental centers were transferred from Local Assistance to State Operations in order to make the program consistent with the budgeting of the State Hospitals administered by the Department of Mental Health.

\* Dollars in thousands, excluding salary range.

## 4300 DEPARTMENT OF DEVELOPMENTAL SERVICES—Continued

## Budget Adjustments

In Fiscal Year 1989-90 the following budget adjustments are reflected:

- A net increase of \$3,639,000 related to an anticipated increase in the developmentally disabled population of 116 clients during 1989-90. The population augmentation results in an increase of 177.0 positions (79.7 personnel years).
- An increase in State Operations of \$530,000 and 30.2 positions (12.7 personnel years) to fund statewide implementation of the Court of Appeal decision in the North Bay Regional Center v. Sherry S. case. This increase is being requested under the Developmental Centers Program for this fiscal year until a technical change can be made to shift the funding to Item 4300-001-001.
- An increase of \$550,000 and 6 positions (2.9 personnel years) to support the Cost Recovery System. This increase is being requested under the Developmental Centers Program for this fiscal year until a technical change can be made to shift the funding to Item 4300-001-001.
- A technical fund shift of \$10,728,715 from General Fund to Reimbursements, reflecting the funding mix change due to implementation of the long term care COLA in August 1989. This funding shift has no effect on the total program funding or level of service provided in the Developmental Centers Program.
- A net increase of \$2,640,000 and 70.1 personnel years to reduce salary savings to 5% to continue to ensure accreditation.

In Fiscal Year 1990-91 the following budget adjustments are proposed:

- A net increase to AB 1202 programs of \$2,242,000.
- A net increase of \$6,785,000 to provide full year funding for an increase in the developmentally disabled population of 116 clients. The population augmentation results in an increase of 177.0 positions (168.2 personnel years).
- A net decrease of \$374,000 to reflect a reduction in the mentally disabled population of 50 clients at Camarillo Developmental Center/State Hospital. This reduction results in an adjustment of -26.0 positions offset by a partial year adjustment of 13.0 positions, producing a net change of -12.3 personnel years.
- An increase of \$406,000 and 14.8 positions (14.1 personnel years) to fund statewide implementation of the Court of Appeal decision in the North Bay Regional Center v. Sherry S. case.
- An augmentation of \$2,664,000 and 127 positions (120.6 personnel years) to provide a sufficient number of staff for coverage when employees are off duty for various allowed absences.
- An increase of \$11,304,000 and (219.5 personnel years) to reduce salary savings to 5% to continue to ensure accreditation.

## 35 ADMINISTRATION

## Program Objectives Statement

The Administration Program provides overall direction and support to the Community Services Program and to the Developmental Centers Program. The Department is organized into four divisions which include: Community Services, Developmental Centers, Program Assessment and Administration. The Community Services and Developmental Centers Divisions were described under the specific program narrative sections. The Program Assessment Division is responsible for program evaluation, audits and investigations. The Administration Division is responsible for financial management, collection of revenues to offset program costs, personnel, labor relations, data processing and program support. In addition, the Executive Office provides overall direction and also includes several specific functions, including the Office of Legal Affairs, the Office of Human Rights, the Office of Legislative Affairs, the Office of Public Affairs and the Office of Planning and Policy Development.

## Budget Adjustments

In Fiscal Year 1989-90, the following budget adjustment is reflected:

- A reduction of 0.9 positions (0.9 personnel years) of temporary help for a savings of \$20,000.

In Fiscal Year 1990-91, the following budget adjustments are proposed:

- An increase in reimbursements of \$44,000 and 1.0 position (1.0 personnel year) due to the continuation of a contract with the Department of Mental Health for data processing.
- An increase in reimbursements of \$139,000 due to an increase in the support funds for the Compensatory Education program.
- An increase of \$1,110,000 and 20 positions (19 personnel years) to fund statewide implementation of the Court of Appeal decision in the North Bay Regional Center v. Sherry S. case.
- An increase of \$729,000 and 6 positions (5.7 personnel years) to support the Cost Recovery System.
- A decrease of \$329,000 in General Fund and 8.0 positions (7.2 personnel years) due to the shift of the Parental Fees Unit to Program 10, Community Services.
- A reduction of 0.9 positions (0.9 personnel year) and \$20,000 of temporary help.

## 4440 DEPARTMENT OF MENTAL HEALTH

The Department of Mental Health (DMH), as the State's mental health authority, administers the Lanterman-Petris-Short Act, the Short-Doyle Act and other State and federal statutes and is responsible for the direct operation of Atascadero, Metropolitan, Napa and Patton State Hospitals and the Acute Psychiatric Program at the California Medical Facility at Vacaville. In addition, the Department manages all treatment programs for approximately 600 mentally disabled patients at Camarillo State Hospital, while the Department of Developmental Services (DDS) administers the hospital, as well as the programs, for the developmentally disabled clients.

Within the Department of Mental Health's overall goal of upgrading, balancing and integrating community and State-operated services, the objective of the State Hospital Services program is to complement mental health services in the community. The program provides specialized inpatient services which are, for the most part, not available in local communities.

The Department promotes access to appropriate statewide mental health services for California residents. As the State's mental health authority, the Department invites the participation of numerous persons and organizations such as: the California Conference of Local Mental Health Directors; the California Council on Mental Health; Local Mental Health Advisory Boards; California Mental Health Association; California Alliance for the Mentally Ill; California Network of Mental Health Clients; Community Mental Health providers; Medi-Cal officials; private psychiatrists; primary health care providers; and individuals in informal networks of local support systems.

Under the provisions of the Short-Doyle Act, counties are responsible for the provision of mental health services to their residents. Services available include prevention and control of mental illness through community education and consultation, crisis evaluation and emergency care, 24-hour acute care, 24-hour residential treatment, day care treatment, outpatient care, case management and resocialization. These services are primarily supported by the State General Fund with local participation ranging from ten to fifteen percent, as determined by law. The Department, in consultation with the California Conference of Local Mental Health Directors and the California Council on Mental Health, sets overall policy for the delivery of mental health services statewide; establishes priorities, standards and procedures within which mental health services will operate; monitors, reviews and evaluates the actual operation of the services; and oversees application of modifications indicated by the evaluation and review process.

## 10 COMMUNITY SERVICES

## Program Objectives Statement

The Community Services Program provides mental health treatment and support services through state, county and other organizations. This program is comprised of the following: Community Residential Treatment System, Community Services—Other Treatment, Primary Intervention Projects, Targeted Supplemental Services, Residential Care Services, Homeless Mentally Disabled, AIDS-Related Services, Brain Damaged Adults, Institutions for Mental Disease, Services to Wards and Dependents and Traumatic Brain Injury Projects.

The objective of the community services program is to provide mental health clients with a network of treatment and supportive services in a local setting that will help them return to normal living as fully and quickly as possible. The counties are responsible for developing plans for the delivery of mental health services to their communities. The plans are approved by DMH and serve as the basis for the allocation of State funds to the counties.

## Budget Adjustments

In 1989-90, the budget reflects the following adjustments:

- A net increase in federal funds of \$449,000 to reflect receipt of additional (1) manpower grant funds (\$99,000); (2) Child and Adolescent Service System Program funds (\$11,000); (3) Stewart B. McKinney Homeless Assistance Act funds (\$268,000); and (4) the rollover of prior year funds for mental health planning activities pursuant to Public Law 99-660 (\$71,000).
- An increase in reimbursements of \$5,463,000 to reflect (1) the collection of additional Federal Financial Participation as a result of the approval of an amendment to the State Medicaid Plan which authorizes case management as a covered service under the Short-Doyle/Medi-Cal Program (\$5,000,000) and (2) additional administrative costs associated with the Short-Doyle/Medi-Cal Program including the establishment of 3 positions (3 personnel years) from temporary help funds to increase the number of utilization review audits in response to federal concerns (\$463,000).
- An increase in reimbursements of \$2,179,000 to reflect disaster relief funds received from the Office of Emergency Services as a result of the October 17, 1989 earthquake in the San Francisco Bay Area.
- An increase in reimbursements of \$230,000 from the Department of Social Services' Refugee Assistance Program to provide crisis counseling funds to the Southeast Asian Project in San Joaquin County.
- An increase in reimbursements of \$99,000 to establish 1 position (1 personnel year) and provide contract funds for the coordination of activities related to the development of a comprehensive interagency children's program through a grant from the Robert Wood Johnson Foundation.
- A General Fund increase of \$100,000 to establish 1 position (0.5 personnel year) and provide contract funds for administrative activities related to the implementation of Chapter 1294, Statutes of 1989 (SB 370).

In 1990-91 the following budget adjustments are proposed:

- An additional \$10 million from the Unallocated Account, Cigarette and Tobacco Products Surtax Fund to provide a noncategorical augmentation for the Short-Doyle Program.
- A reduction of \$15,116,000 in General Fund and \$675,000 in reimbursements to reflect the elimination of the Special Education Pupils Program. The responsibilities of the Special Education Pupils Program will be provided with funds made available by the Department of Education.
- An additional \$4,674,000 in General Fund and \$1,007,000 in reimbursements to provide funding for an additional 226 beds for the Institutions for Mental Disease Program.
- An additional \$3,769,000 in General Fund to establish 1 position (0.9 personnel year at a cost of \$69,000) for a state funded program which will provide comprehensive mental health assessments and treatment services for wards and dependents of the court pursuant to Chapter 1294, Statutes of 1989 (SB 370).
- An additional \$2,247,000 in General Fund to fully implement two existing AB 3777 Integrated Service Agency projects and one County Interagency Demonstration project.
- An additional \$2,629,000 in General Fund to provide full-year funding for Riverside County's comprehensive mental health program for children which was developed pursuant to Chapter 1361, Statutes of 1987 (AB 377).
- A redirection of \$178,000 in General Fund contract funding from the Conditional Release Program to establish 1 position (0.9 personnel year) for the development of standardized assessment protocols for the Conditional Release Program population and 2 positions (1.9 personnel years) for ongoing forensic training activities.
- An additional \$45,000 in General Fund and \$119,000 in reimbursements to establish 3 positions (2.8 personnel years) to address federal concerns regarding the number and frequency of Short-Doyle/Medi-Cal utilization review audits and to provide training and technical assistance to providers.
- A reduction of \$2.5 million from the Conditional Release Program to reflect the program's historical expenditures.
- A redirection of \$29,000 in Mental Health Primary Prevention Fund contract funding to establish 1 position (0.9 personnel year) to absorb the additional workload associated with monitoring and supporting the Primary Intervention Projects as a result of the establishment of a permanent funding base for this program.
- An additional \$6.7 million in reimbursements to reflect the collection of additional Federal Financial Participation as a result of the approval of an amendment to the State Medicaid Plan which authorizes case management as a covered service under the Short-Doyle/Medi-Cal Program.

## 10.15 Community Residential Treatment System

## Program Element Statement

The Community Residential Treatment System provides mental health treatment programs which are rehabilitative in focus, non-institutional in design, and systematically interrelated so as to form a coordinated continuum of care. These services are intended to reduce the dependence of the mentally disordered clients on antipsychotic medications and foster the development of social interactive skills, independent living and vocational performance.

Input	88–89	89–90	90–91	1988–89*	1989–90*	1990–91*
Expenditures (General Fund) .....	—	—	—	\$15,910	\$15,910	\$15,910

## 10.25 Other Treatment

## Program Element Statement

Other treatment constitutes the majority of the available local mental health services. These program services are described below.

Twenty-four hour habilitation and rehabilitation is aimed at persons who have traditionally been relegated to State hospitals because of behavior manifestations that have caused them to fail in community care facilities. They must be taught socially acceptable behavior, and learn to be independent from the traditional institutional structure. The patient is generally young with multiple problems, but may also be aged or have brain damage. Staffing is weighted heavily toward occupational and rehabilitational therapies, but may also include reality orientation for the elderly person. The medical component is generally supplied by outside physicians. Much of the treatment of patients in 24-hour care takes place offsite in Short-Doyle funded outpatient and day-treatment programs.

Satellite housing and supervised out-of-home placement services are the traditional board and care or group homes. The patients are long-term dependent persons who require supervision to function in a community setting. These services expose residents to the full range of supportive social services, including Short-Doyle funded outpatient care and day treatment. The patients are typically chronically disabled due to mental disorders, substance abuse or aging. Most are eligible for SSI/SSP and Medi-Cal.

Semi-independent living takes place in an apartment house or a group home with a client self-government atmosphere. Here, several clients live in a cooperative, self-help environment and are responsible for various household chores and personal maintenance. Staff assist and offer guidance to clients trying to become self-sufficient and responsible for their physical and personal needs.

Some individuals require more than short-term treatment to continue their usual living, working and social arrangements. They may benefit from services in a day treatment center during part of the day, and frequently their treatment involves members of their families. Others receive mobile professional services in their own homes, foster homes, schools, jails or in other community facilities. Such treatment requires only modest changes in the person's normal life, and is far less expensive than institutionalization.

Sheltered workshops are nonhospital-based programs lasting less than 24 hours. They are designed for the chronically mentally ill client who is unable to participate in competitive employment. These programs include vocational and rehabilitation counseling, work training and vocational evaluation. The development of sound work habits and skills, and social functioning for marginally productive individuals is stressed. There may be provision for remunerative employment for individuals who are capable of partial self-support in a sheltered work environment.

\* Dollars in thousands, excluding salary range.

## 4440 DEPARTMENT OF MENTAL HEALTH—Continued

Counseling and social rehabilitation services are provided for clients living in facilities with little or no day treatment component. Ideally, the services are nonhospital based and have a functional orientation with prevocational and vocational services. Prevocational is a long-term "habilitation" service for the seriously disturbed or multiple handicapped. The main focus is on attitudinal, motivational, emotional and physical blocks which impede functioning. Orientation is focused on skill-seeking and skill-enhancement to attain vocational goals. Vocational programs provide experiences which will enhance an appreciation and understanding of the reality of work. Some vocational services may be permanently "sheltered" in the sense that they are programmed for people who have reached their optimum level of vocational growth.

The Conditional Release Program provides mandated community services to judicially committed patients and mentally disordered offenders placed on outpatient status. These services include, but are not limited to, community residential treatment programs, short term hospitalization, socialization programs, day-treatment and individual and group therapy. The primary objectives of the program are the prevention of criminal re-offense, the maintenance of mental health and the successful reintegration into society.

## 10.35 Primary Intervention Projects

## Program Element Statement

The Primary Intervention Projects are designed for the early detection and prevention of emotional, behavioral and learning problems in primary grade children. The major goal is early intervention with young children in their normal school environment who are experiencing, or who are at risk of experiencing, school adjustment problems in order to prevent the need for more extensive services in the regular mental health system.

## 10.40 Adult System of Care Pilots

## Program Element Statement

The Adult System of Care Pilots, authorized by Chapter 982, Statutes of 1988 (AB 3777), are intended to develop an interagency system for the delivery of mental health services to seriously mentally disordered adults and seniors. Services to be provided include, but are not limited to, comprehensive assessments of mental and physical conditions, medication management, 24-hour crisis response, in-home treatment, outreach, necessary transportation, residential care and case management.

## 10.50 Mental Health Services for Wards/Dependents

## Program Element Statement

Pursuant to Chapter 1294, Statutes of 1989 (SB 370) the Department of Mental Health will establish and administer a state-funded program which will provide comprehensive mental health assessments and treatment services for wards and dependents of the court.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund) .....	—	—	—	—	—	\$3,700

## 10.55 Targeted Supplemental Services

## Program Element Statement

The Targeted Supplement Fund encourages a state-county partnership in the development of resources and systems for solving locally identified problems in serving priority populations. The priority populations to be served by these funds will include mentally disordered persons who require secure facilities, mentally disabled elderly, veterans, juvenile sex offenders and juvenile victims of sex offenses. In addition, emphasis is also placed on providing 24-hour care beds with the intent of reducing the incidence of inappropriate placement of mentally disordered persons in the criminal justice system.

## 4440 DEPARTMENT OF MENTAL HEALTH—Continued

## 10.65 Residential Care Services

## Program Element Statement

Supplemental residential care services are designed to augment basic living and care services for mentally disordered adults residing in licensed community care facilities. These supplemental services include, but are not limited to, supportive, supervisory and rehabilitative services, as identified in the client's service plan. Supplemental services are intended to facilitate the movement of clients to less restrictive levels of care.

Expenditures (General Fund).....	-	-	-	\$16,557	\$16,557	\$16,557

## 10.75 Homeless Mentally Disabled

## Program Element Statement

Local mental health programs provide services to chronically mentally ill adults who are homeless or at risk of becoming homeless. These services include mental health treatment as well as support services such as emergency shelter, food, clothing, money management, housing search assistance and prevocational and vocational services.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 10.77 Brain Damaged Adults

## Program Element Statement

Regional resource centers provide assessment, planning, respite care, counseling, referral, training, legal and financial consultation, etc. to families with victims of brain damage. The centers are intended to provide a core of coordinated services through the regional resource center, and enable families to prolong the time they are able to care for the brain damaged victim at home.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	-	-	-	\$5,141	\$5,375	\$5,257

## 10.80 Assessment, Treatment, and Case Management of Special Education Pupils

## Program Element Statement

Pursuant to Chapter 1747/84 and Chapter 1274/85, local mental health programs provide mental health assessment, treatment and case management services to special education pupils referred to local mental health agencies by school districts. These services are provided pursuant to the individualized education plan, enabling the child to benefit from his/her education.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	-	-	-	\$15,116	\$15,791	-

Reimbursements.....				-	675	-

## 10.85 AIDS

## Program Element Statement

Private non-profit and local mental health agencies offer a variety of mental health related services to persons with AIDS, persons with ARC, persons who test antibody positive for exposure to the AIDS virus, and to persons suffering AIDS-related depression, anxiety or somatization disorders. Also served are persons involved with the groups listed above, including family and friends, and health professionals. A special priority for this program is the counseling of hemophiliacs with regard to AIDS-related mental health issues.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 10.87 Traumatic Brain Injury Project

## Program Element Statement

Pursuant to Chapter 1292, Statutes of 1988 (SB 2232), the Department of Mental Health will establish demonstration projects for a post-acute continuum of care model for adults with an acquired traumatic brain injury. The projects shall coordinate supported employment services, day treatment services and a structured living arrangement in order to demonstrate the effectiveness of a coordinated service approach.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (Traumatic Brain Injury Fund) .	-	-	-	-	\$500	\$500

\* Dollars in thousands, excluding salary range.

4440 DEPARTMENT OF MENTAL HEALTH—*Continued*

## 10.95 Institutions for Mental Disease

## Program Element Statement

Through 24-hour Skilled Nursing Facilities with Special Treatment Programs, patients with chronic psychiatric and adaptive functioning impairment are provided services to assist with self-help skills, behavior adjustment and interpersonal relationships. The goal of these services is to prepare the patient for transition into a less restrictive environment.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	-	-	-	\$64,729	\$80,839	\$86,520

Reimbursements .....				10,156	11,724	12,731

## 20 STATE HOSPITAL SERVICES

## Program Objectives Statement

The State Hospital Services Program assures the provision of quality inpatient treatment services for mentally disabled Lanterman-Petris-Short (LPS) patients, judicially committed patients, mentally disordered offenders, inmates transferred from the Department of Corrections and wards from the Department of Youth Authority.

The basic goal of the program is the restoration of the individual's optimal level of functioning to allow reintegration into the community. The State Hospital serves as only one of a number of treatment programs available in the continuum of public mental health services throughout California.

A full range of programs with the exception of medical-surgical services, is found at Atascadero, Camarillo, Metropolitan, Napa and Patton State Hospitals to treat the mentally disabled adult. Programs for mentally disabled children and adolescents are provided only at Camarillo and Napa State Hospitals. Of the populations at Atascadero and Patton, 100% and 94% respectively are mentally ill offenders. In addition, the Department operates an acute psychiatric program for Department of Corrections inmates at the California Medical Facility at Vacaville.

The in-hospital population count in programs for the mentally disabled in state hospitals is projected to be 4,689 on June 27, 1990, and is expected to increase to 4,794 by June 26, 1991.

## Budget Adjustments

The 1989-90 budget reflects the following adjustments:

- A redirection of funds (\$2,628,000) from the interagency agreement with the Department of Developmental Services for mental health services at Camarillo State Hospital to reduce the salary savings rate to 5 percent for the four state hospitals administered by the Department of Mental Health. This redirection will allow the use of an additional 89.4 personnel years in the current year to ensure that treatment, as prescribed in approved planned scheduled treatment proposals, can be maintained and accreditation, licensing and certification can be preserved.
- Establishment of 6 additional nursing positions (4 personnel years) and a technical reduction of 0.2 Pharmacy positions (but no personnel years) at a net cost of \$149,000 at the Inpatient Psychiatric Program at the Vacaville Medical Facility to correct staffing deficiencies cited in the initial facility licensing survey.
- An increase in reimbursements of \$220,000 to reflect the following adjustments: (1) employee rent at Atascadero (-\$26,000); (2) employee rent at Metropolitan (\$87,000); an increase in two lease agreements with Los Angeles County for the use of beds at Metropolitan (\$162,000); (4) a decrease in the Compensatory Education Program at Napa (-\$21,000); and (5) an increase in the Department of Corrections' security contract at Patton (\$18,000). All of these adjustments are continued into Fiscal Year 1990-91.
- An increase in reimbursements of \$23,000 to reflect funds received from the Department of Personnel Administration to establish an onsite employee child care center at Napa State Hospital.

In 1990-91, the following budget adjustments are proposed:

- A General Fund increase of \$12,997,000 (\$12,014,000 for the Department of Mental Health and \$983,000 for the Department of Developmental Services) to: (1) reduce state hospital salary savings to 5% (\$11,543,000 and 237.7 personnel years) and (2) provide funding for merit salary adjustments in the state hospitals (\$1,454,000).
- A General Fund increase of \$6,920,000 to establish 376.2 positions (178.7 personnel years) to reflect population changes in the state hospitals. The population change includes an increase of 180 judicially committed clients, including 98 mentally disordered offenders and the transfer of 50 Lanterman-Petris-Short clients from Camarillo to Metropolitan State Hospital.
- An additional \$236,000 in reimbursements from the Department of Corrections (CDC) for the establishment of 6 DMH nursing positions (5.7 personnel years) to correct staffing deficiencies cited during the initial licensing survey of the Inpatient Psychiatric Program at the Vacaville Medical Facility. The budget also reflects a technical adjustment of -0.2 Pharmacy positions (but no change to personnel years or funding).

## 20.20 Penal Code and Judicially Committed

## Program Element Statement

The budget projects that there will be 1,785 judicially committed and Penal Code (JC/PC) clients in the State hospitals on June 26, 1991. This population includes: (1) patients found not guilty by reason of insanity; (2) patients found incompetent to stand trial; (3) mentally disordered sex offenders (crimes committed prior to January 1, 1982); (4) mentally disordered offenders; and (5) miscellaneous Penal Code offenders.

## 20.30 Other State Hospital Services

## Program Element Statement

In addition to the clients admitted to the State hospitals by the county mental health programs and committed by the Superior Court, there is a separate group of clients treated in the State hospitals under various other criteria. For example, DMH provides mental health services to clients referred by the Departments of Corrections (CDC) and the California Youth Authority. Additionally, DMH provides psychiatric services for 210 inmates at the California Medical Facility at Vacaville. These clients are not reflected in the State Hospital Inhospital Population Chart which follows.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

The State Hospital Inhospital Population Count chart displays past and projected population levels for hospital clients (excluding those on leave). The chart displays departmental policies and goals with respect to population.

The chart is vertically divided by fiscal year into two parts: "Last Wednesday of the Fiscal Year" and "Average for the Fiscal Year". Both components display "observed" columns which are composed of actual client count and "estimated" columns which are population projections upon which the budget is built.

Horizontally, it is divided by hospital into three categories: LPS, Penal Code and "other clients".

## 4440 DEPARTMENT OF MENTAL HEALTH—Continued

## 35 DEPARTMENTAL ADMINISTRATION

## Program Objectives Statement

The Administration Program provides oversight and administrative support to the Community Services and State Hospital Services programs. The Director's Office provides overall departmental direction and includes specific support functions such as planning and policy development, legal services, patients' rights, public affairs, legislative liaison, affirmative action and intergovernmental relations. The Administration Division is responsible for financial and personnel management, labor relations, data processing, the collection and analysis of statistical data, contracts and business services.

## Budget Adjustments

The 1989-90 Budget reflects the following adjustments:

- Establishment of 3 positions (3 personnel years) at a cost of \$87,000 for data processing activities related to the Institutions for Mental Diseases Program.
- Establishment of 7 positions (7 personnel years) at a cost of \$195,000 to modify and accelerate installation of several new automated systems in the state hospitals as part of the overall plan for state hospital automation.
- An increase in reimbursements of \$147,000 to establish 4 positions (2 personnel years) to address federal concerns relating to Short-Doyle/Medi-Cal audit issues.

In 1990-91 the following budget adjustments are proposed:

- An additional \$413,000 to establish 11 positions (10.4 personnel years) for data processing and accounting activities related to the Institutions for Mental Diseases Program.
- An additional \$95,000 in General Fund and \$95,000 in reimbursements to establish 4 positions (3.8 personnel years) to establish an Audit Appeals Section to address Short-Doyle/Medi-Cal audit issues as a result of federal concerns.
- An additional \$68,000 in General Fund and \$69,000 in reimbursements to establish 1 position (0.9 personnel year) to develop a system to enable the counties to resolve errors related to the submission of claims for the reimbursement of mental health services through the Short-Doyle/Medi-Cal Program.
- A redirection of \$247,000 in General Fund contract funding to establish 6 positions (5.7 personnel years) for continuation of the State Hospital Automation Project.

## 55 CAPITAL OUTLAY

The Capital Outlay component of the Mental Health Initiative will begin its seventh year in 1990-91. As part of the initiative, the Department of Mental Health is committed to upgrading all patient living areas to meet Fire, Life Safety, Handicapped Accessibility, and Environmental standards. This, in addition to programmatic improvements made possible by the Mental Health Initiative, enabled the Department to meet the major objective of accreditation of all state hospitals in 1987. Accreditation is the hallmark of quality services and has returned California to the forefront in providing services to mentally disabled persons. In order to minimize the costs of necessary improvements, the Department will continue to seek waivers of certain requirements when prudent and cost effective without jeopardizing the safety and well being of patients and staff.

Fiscal Year 1990-91 will complete the capital outlay funding cycle for all fire, life safety and environmental improvements in the patient living areas at Camarillo State Hospital. These projects are included in the Budget for the Department of Developmental Services. Funding is also provided for working drawings for the last phase at Patton State Hospital.

The Department is remodeling beds to meet four licensing categories. These are: 1) General Acute Care (GAC), 2) Acute Psychiatric (AP), 3) Skilled Nursing (SNF), and 4) Intermediate Care (ICF). Adolescents (AD) and Children's units (CH), within the Acute Psychiatric category, are also included. The following chart illustrates the Department's plans for remodeling at each hospital serving mentally disabled clients. The Program Beds column indicates the number of clients who can be served at one time in each building. The Total Beds column includes additional beds used for isolation or seclusion which are temporary only and cannot be used for client admissions. The capital outlay component of the Mental Health Initiative also includes critical infrastructure related improvements necessary to meet program requirements at each hospital. Those changes include:

\* Dollars in thousands, excluding salary range.

STATE BUILDING PROGRAM  
EXPENDITURESActual  
1988-89\*Estimated  
1989-90\*Proposed  
1990-91\*

minimum improvements to certain structures for swing space, space additions for increased staffing and therapeutic programming, electrical distribution system upgrades, additional emergency power generation, fire and life safety improvements in non-patient areas, central HVAC system improvements, and security improvements. Due to the varying physical layouts of each hospital, certain improvements will be accomplished as separate projects. The chart below references these other major non-bed related improvements in aggregate as "other projects."

## 5100 EMPLOYMENT DEVELOPMENT DEPARTMENT

The mission of the Employment Development Department is to serve the people of California by acting as a broker between employers and job seekers; paying benefits to eligible unemployed or disabled persons; collecting payroll taxes; helping disadvantaged persons become self-sufficient; gathering and sharing information on California's labor markets; providing administration of the Job Training Partnership Act program; and ensuring that these activities are coordinated with other organizations that also provide employment, training, tax collection and benefit payment services.

**SUMMARY OF PROGRAM REQUIREMENTS**

**MAJOR BUDGET ADJUSTMENTS**

Program Changes and Legislative Mandates —69.3 PYs —\$2,922

For the budget year, the Department will expand the State and Local Labor Market Information (LMI) Program statewide from 17 to 39 sites. This program provides enhanced Local LMI to community college districts, vocational educational entities, service delivery areas and county welfare departments for directing training programs toward future employment opportunities.

The Department will also continue to provide specialized job services to dislocated workers under the new Economic Dislocation and Worker Adjustment Assistance Act (EDWAAA) program which replaced the Displaced Worker Program.

Another major change is the elimination of the Service Center Program. This reduction is necessary in order to preserve General Fund supported programs with greater need and/or where alternative services are not available.

Automation of Department Processes \$6,993

In the budget year, the Department will complete the conversion of all JSOS networks to the JSAS. This will create a statewide database to match job orders with applicants. As a result, the Department will have the ability to target specific groups such as veterans, GAIN clients or dislocated workers; concentrate on special occupations and geographic criteria and place more unemployment insurance claimants into jobs.

The Department will also continue to improve the delivery of benefit payment activities by replacing the obsolete automated system of the Unemployment Insurance Appeals Board with an updated system. This new system will increase the efficiency of the Board as well as reduce the time lag to hear a benefit appeal.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 5100 EMPLOYMENT DEVELOPMENT DEPARTMENT—Continued

In addition, the Department will purchase and distribute laptop computers to its tax auditors in the field which will increase individual productivity and produce additional General Fund revenue.

Workload Changes 280.6 PYs \$351,058

For the budget year, the Department has estimated that the workload for the UI and DI programs will increase, thereby expanding the staffing needs and benefits paid for those programs. Also, the Department anticipates an increase in payroll tax collection activities due to a higher number of employers subject to this tax.

## 10 EMPLOYMENT AND EMPLOYMENT RELATED SERVICES PROGRAM

## Program Objectives Statement

The people of the State of California benefit from a sound and growing economy. However, many employers' job openings remain unfilled, resulting in a loss in production of goods and services. At the same time, many job seekers are unable to find employment and suffer wage loss and reduced buying power. The objective of the Employment and Employment Related Services program is to match employers' needs and job seekers' skills.

## Budget Adjustments

- An increase of 36 positions (23.8 PYs) and \$1,918,000 in 1989-90 for the expected increase of alien certification workload and expanded farm labor statistical reports.
- An increase of 19.9 positions (19.9 PYs) and \$1,196,000 in 1989-90 to the Extended Veteran Services program to accommodate the estimated increase of the veteran population in California.
- An increase of 10.6 positions (10.2 PYs) and \$526,000 in 1989-90 to establish the Business Establishment List program which will collect expanded information on employers with multiple locations.
- An increase of 11.9 positions (11.9 PYs) and a net increase of \$264,000 in Wagner-Peyser 10-Percent Governor's Discretionary Funds in 1989-90 to reflect available federal funding. These monies will be used to augment existing projects such as the Youth Employment Opportunity Program (YEOP). For 1990-91, the 10-Percent Discretionary funds are proposed to fund an increase of 11.9 positions (11.9 PYs) and a net increase of \$138,000, which includes discontinued funding of the BRIDGE project, the Council of Veterans' Affairs and an augmentation for the YEOP.
- An increase of 1.8 positions (1.7 PYs) and \$105,000 to the Housing Inspections Program in 1989-90 for the estimated increase in housing certifications for sheepherders.
- An addition of \$3,906,000 in 1990-91 to complete the conversion of all Job Service Order Sharing (JSOS) networks to the Job Service Automation System (JSAS) which will create a statewide database to match job orders with applicants.
- An increase of 16.5 positions (15.8 PYs) and \$2,353,000 in 1990-91 to expand the State/Local Cooperative Labor Market Information (LMI) Program from 17 to 39 sites which would cover the entire state. This addition improves both the quality and quantity of the LMI used by the local employment training and vocational education organizations, thereby increasing the job placement of Greater Avenues For Independence Program (GAIN) clients, Unemployment Insurance (UI) claimants and displaced workers.
- An increase of \$3,000 for out-of-state travel in 1990-91 to attend national conferences involving issues of concern to California.
- A decrease of 146.0 positions (146.0 PYs) and \$7,741,000 to reflect the elimination of the Service Center Program.

## 10.10 General Employment Services

## Program Element Statement

The Wagner-Peyser Act authorizes the Job Services (JS) Program. This law requires that 90 percent of the JS funding be allocated in support of statewide labor exchange responsibilities and 10 percent be reserved for the Governor's discretionary projects as described in 7(b) of the Wagner-Peyser Act.

The basic labor exchange responsibilities are carried out through 125 field offices in various locations throughout the State. The labor exchange responsibilities include providing applicant assessment; job placement; employment counseling; vocational testing; job search workshops; and referral to training and employers. Specific target groups, such as veterans, disabled persons, older workers, youth, minorities and migrant and seasonal farmworkers, are provided special emphasis. In addition, the Department carries out the provisions of legislation by determining tax credit eligibility and issuing tax credit certifications.

The federal Wagner-Peyser Act provides that 10 percent of Federal Wagner-Peyser funds received may be used at the Governor's discretion for 1) performance incentives applicable to basic JS programs, 2) services to client groups with special needs, and 3) development and trial of exemplary model systems for delivery of JS activities. In addition, State legislation provides that up to 50 percent of the 10-Percent monies be used to provide job services for Aid to Families with Dependent Children (AFDC) eligible clients.

## 10.20 Special Group Employment Services

## Program Element Statement

Special Group Employment Services includes an array of services designed to assist hard-to-place persons in securing worthwhile, productive work. These persons may be disadvantaged in the job market for a variety of reasons, including lack of skill, training or experience; age; physical handicap; social barriers and cultural differences. The Department's Service Centers and Job Agents provide specialized services to Greater Avenues for Independence (GAIN) program participants, as well as to other clients who would benefit from intensive employability development and placement services.

The GAIN program, implemented in 1985, requires AFDC recipients to participate in employment-related activities designed to maximize their opportunities for employment. The GAIN program is administered by the State Department of Social Services through the county welfare departments and is now fully implemented statewide. EDD supports the GAIN program by providing services to GAIN recipients as specified in agreements with county welfare departments. These services include job search workshops, supervised job search, development of on-the-job training, intensive job development and placement services, and, in some counties, specialized services tailored to individuals' needs.

The nine Service Centers, located in economically disadvantaged areas of the State, provide employability development and placement services to individuals who need coordinated intensive services to become employable. These individuals are vocationally handicapped due to lack of education, job skills, language barriers, health problems, and/or poor work habits and attitudes. The Service Centers provide intensive employment-related services to remove or control barriers to employment through a "case responsible" approach. This approach includes an orientation to the world of work, referral to other governmental or nongovernmental agencies for supportive services, referral to or enrollment in educational or vocational training, use of case services funds to obtain goods and services necessary for employment, counseling, testing, providing labor market information, and job development, referral and placement. GAIN participants receive priority for these services. The Service Center activities are proposed to be eliminated in FY 1990-91 due to the need to preserve those programs with greater need and/or where alternative services are not available.

Job Agents stationed in various EDD field offices provide the same range of services as the Service Center personnel, but generally provide more intensive services to clients who are even more difficult to place. All Job Agent clients must be economically disadvantaged. With a priority of services to GAIN clients, Job Agents target heads of household and clients with the most serious barriers to employment, such as ex-offenders, the disabled and clients who lack proficiency in English. After job entry, follow-up is provided to ensure permanent, full-time employment.

In addition, EDD provides specialized job services to Service Delivery Areas (SDAs) via contracts. These services include job clubs, placement, job search workshops and are customized to meet the needs identified by the SDAs. Through this process, EDD and the SDAs coordinate at the local level to effect an overall delivery system which maximizes the use of available resources and minimizes duplication.

## 5100 EMPLOYMENT DEVELOPMENT DEPARTMENT—Continued

## 20 TAX COLLECTIONS AND BENEFIT PAYMENTS PROGRAM

## Program Objectives Statement

The seasonality of certain industries, constant fluctuations in the economy and advances in technology in the workplace continue to cause unemployment of individuals through no fault of their own. Workers also continue to suffer the loss of wages due to nonwork-related illness and injury, and pregnancy. These circumstances have a detrimental effect on the state of the economy. To alleviate the hardships on individuals and stabilize the economy, the objective of this program is to provide relief to individuals who suffer periods of unemployment or are temporarily disabled.

This program contains two systems, the Unemployment Insurance (UI) program and the Disability Insurance (DI) program, which provide monetary relief to persons who have suffered a wage loss due to unemployment, illness or injury. These systems are based upon insurance principles, with the employer and employee paying tax contributions to funds which provide benefits to unemployed and temporarily disabled individuals. The systems include the following activities: collection of tax contributions, processing of benefit payments to claimants and adjudication of disputes involving claims or tax liabilities.

The collection process includes the collection of the Unemployment Insurance (UI) and Disability Insurance (DI) taxes as well as the Personal Income Tax (PIT) and the Employment Training Tax (ETT) from all subject employers. Consolidation of the collection of UI, DI, PIT and ETT taxes into one program simplifies the reporting and payment of these four taxes by employers. California is the only state in which the collection of personal income tax withholdings has been consolidated with collection of the unemployment insurance tax, resulting in a savings to the State General Fund and minimizing administrative burdens on business.

The integrity of the tax collection system is maintained by the audit program which detects and deters employer errors and intentional tax evasion and by the intensive collection of delinquent taxes. By ensuring that all employers carry their fair share of the tax burden these activities help to promote fair competition in the marketplace.

## Budget Adjustments

- An increase in 1989-90 of 9.8 positions (9.4 personnel years) and \$475,000 for administration, and \$10,044,000 in benefit payments to provide Disaster Unemployment Assistance to victims of the Bay Area earthquake.
- An increase of 138.2 positions (137.0 personnel years) and \$5,325,000 in 1989-90 and 141.1 positions (139.6 personnel years) and \$5,655,000 in 1990-91 for the projected increase in the UI Program workload.
- An addition of \$166 million in benefit payment funds in 1989-90 and \$251.9 million in benefit payment funds in 1990-91 for the UI Program.
- An increase of 64.2 positions (61.9 personnel years) and \$3,721,000 in 1989-90 and 79.7 positions (77.2 personnel years) and \$4,248,000 in 1990-91 for the projected increase in Disability Insurance (DI) Program workload.
- An addition of \$35,030,000 in benefit payment funds in 1989-90 and \$87,020,000 in benefit payment funds in 1990-91 for the DI Program.
- An addition of \$1,525,000 in 1990-91 for the California Unemployment Insurance Appeals Board (CUIAB) automation project, which replaces the existing obsolete automated system with a more efficient and functional system.
- An addition of \$1,562,000 in 1990-91 to purchase laptop computers to be used by tax auditors to increase the number of audits performed and the revenue collected.
- An augmentation of 26.9 positions (25.8 personnel years) and \$1,117,000 in 1990-91 to expand tax collection activities.
- An increase of 20.2 positions (19.4 personnel years) and \$1,107,000 in 1990-91 to process additional payroll collection workload created by an increase in the number of tax-subject employers.
- An addition of \$1,000 for out-of-state travel in 1990-91 to attend a national conference.

## 20.10 Unemployment Insurance

## Program Element Statement

Through the Unemployment Insurance (UI) program, EDD provides and maintains an employer-funded system to pay benefits to covered individuals who become unemployed through no fault of their own.

Employers subject to the Unemployment Insurance Code are identified, registered and given a tax rate for payments to the UI fund. Governmental and nonprofit entities may elect either to reimburse the fund for the cost of benefits or to be tax rated. The monies in the UI fund are used to pay UI benefits to those who are eligible. Eligibility requires that the individual be unemployed through no fault of his or her own, register with EDD for work, be able and available for work and be actively searching for employment. Eligible individuals receive weekly benefit payments which provide

\* Dollars in thousands, excluding salary range.

5100 EMPLOYMENT DEVELOPMENT DEPARTMENT—*Continued*

partial, temporary relief for the loss of wages. Benefit payments vary from \$40 to \$190 per week, with the maximum increasing to \$210 on January 1, 1991 depending on a claimant's earnings during a one-year base period. A claimant's continuing eligibility is reviewed periodically and any issues that arise are resolved in a Department determination. In those instances where a decision of claimant eligibility or employer tax liability is disputed, an appeal can be made to the California UI Appeals Board. The UI Appeals Board is empowered to render legal decisions regarding the payment of all UI benefits and the determination of tax liabilities for subject employers.

Currently subject employers pay into the UI Fund to provide coverage to approximately 90 percent of the State's labor force. Those persons generally not covered are the self-employed, domestic workers and church employees.

**20.20 Disability Insurance****Program Element Statement**

Through the Disability Insurance (DI) program, EDD provides and maintains a system to compensate, in part, for the wage loss sustained by individuals disabled because of nonoccupational illness, nonoccupational injury, or pregnancy. The program has two components: State Disability Insurance and Nonindustrial Disability Insurance.

State Disability Insurance (SDI) covers private sector employees who have worked in California, certain public employees who elect coverage and self-employed individuals who elect to be covered. This system requires activities very similar to the UI system including an eligibility determination process, a benefit payment process, a tax contribution and collection process, a staff support process and an appeal process.

In accordance with the Unemployment Insurance Code, DI taxes are collected from subject employers who withhold DI contributions from their employees' wages based on an annual rate established by EDD. Monies in the DI Fund are used to pay disability insurance benefits and costs of administering the program. Weekly benefit rates range from \$50 to \$266 with the maximum increasing to \$336 on January 1, 1991 and may be paid up to a maximum of 52 weeks during one disability benefit period. Where a claimant's eligibility is disputed, an appeal may be filed. Also, an employer may appeal a disputed DI tax liability. The California Unemployment Insurance Appeals Board conducts hearings and issues decisions on these disputes.

The Nonindustrial Disability Insurance (NDI) program covers State employees. NDI does not require a withholding from State employee wages. Each State department pays the actual cost of benefits paid to their employees. Eligibility factors vary by bargaining unit and weekly benefit rates vary to a maximum of \$135. State employees designated "Managerial" may elect a special NDI program.

**Authority**

## 20.30 Personal Income Tax Withholding

## Program Element Statement

The majority of California employers are required by law to deduct California Personal Income Tax (PIT) from the wages of their employees based on withholding schedules prepared by the Franchise Tax Board. The employers are required to report and remit the withheld taxes to EDD. Remittances may be required up to eight times per month.

The PIT system includes all activities necessary to equitably and promptly collect PIT from all subject employers, ensure employer compliance with all legal provisions of the program and keep employers informed of their responsibilities regarding PIT withholdings.

## 20.60 Employment Training Fund (ETF)—Collections

## Program Element Statement

The ETF was created by AB 3154, Chapter 1075, Statutes of 1982, to support an employer-funded training program to develop skills in demand by local employers. Employers whose UI tax contributions exceed their UI benefit payments over time are required to contribute 0.1 percent of their subject wages to EDD as the Employment Training Tax to support the ETF. Legislation provides that up to \$55 million may be deposited into the ETF each year; contributions in excess of \$55 million are transferred to the Unemployment Insurance Trust Fund.

## 30 ADMINISTRATION PROGRAM

## Program Objectives Statement

The objectives of this program are to provide policy direction, leadership, coordination, oversight and staff support services to carry out the Department's mission. This program funds significant portions of the Executive, Program Review and Administration Branches.

The Executive Branch consists of the Director's Office which is responsible for overall policy, administration and operations; the Planning Office which develops long-range trend analyses and planning assumptions, and assists in establishing and monitoring the Department's long and short-range plans; the Legislative Liaison Office which develops information and provides analysis and guidance in legislative matters; the Marketing Services Office which promotes and markets employment training services throughout California; the Equal Employment Opportunity Office, which provides consultation services on all aspects of equal employment opportunity and affirmative action; the Governor's Committee for Employment of Disabled Persons which acts as a liaison between the Director and the local community in promoting employment of persons with disabilities; the Communications Office which develops and maintains public understanding of the Department's policies and services; and the Legal Office which provides advice and assistance concerning legal matters affecting the Department.

\* Dollars in thousands, excluding salary range.

## 5100 EMPLOYMENT DEVELOPMENT DEPARTMENT—Continued

The Program Review Branch consists of the Information Security Office which promulgates and implements the policies regarding the collection, maintenance and dissemination of the Department's confidential information; the Investigation Division which provides investigative services to detect and prevent fraud; the Evaluation Division which assists all levels of Department management by conducting a variety of program and operational evaluations and studies; the Audit Division which provides fiscal and management audits of the Department's operations; and the Monitor Advocate Office which ensures that the Department is in compliance with the Migrant and Seasonal Farmworker Federal Regulations.

The Administration Branch consists of the Personnel Programs Division which provides personnel management support to the Department; the Fiscal Programs Division which secures, monitors and accounts for funding for the Department's programs; the Data Processing Division which provides automated processing and data communication services in support of departmental programs; the Automation Administration Division which plans, organizes and directs the management of major automation projects within the Department; and the Business Services Division which provides a full range of business and office services for the Department.

## 50 EMPLOYMENT TRAINING PANEL PROGRAM

## Program Objectives Statement

The Employment Training Panel (ETP) was created by AB 3461, Chapter 1074, Statutes of 1982. The Panel is funded by a special employer paid tax collected by EDD and deposited into the Employment Training Fund. The objectives of the ETP program are: to promote economic development in California by providing training funds to qualified employers who are retraining potentially unemployed workers, expanding their operations, or relocating their businesses to California; and to minimize UI costs by providing employment opportunities to UI recipients, UI exhaustees and potentially displaced workers. To accomplish these goals, the ETP assists employers and training agencies in the development and funding of training and retraining projects.

EDD provides administrative support to the Panel in the areas of personnel, fiscal, business services and data processing. EDD files are utilized to assist in the determination of trainee eligibility.

## Budget Adjustments

- The redirection of \$108,000 in operating expenses to increase the temporary help blanket by 3.5 positions to reduce a backlog of invoices and certifications in 1989-90 and 1990-91.
- An increase of 1.5 positions (1.4 PYs) and redirection of \$73,000 from training to administration for data processing support and client eligibility certification in 1990-91. These services are provided by EDD on behalf of the Employment Training Panel.
- An increase of 5.0 positions (4.9 PYs) and redirection of \$305,000 from training to administration in support of small business outreach activities in 1990-91.
- An increase of 6.0 positions (5.9 PYs) and redirection of \$377,000 in funds redirected from training to administration to provide contract monitoring for the increased workload in 1990-91.
- An increase of 3.0 (2.9 PYs) positions and redirection of \$142,000 in funds redirected from training to administration in support of the Employment Training Panel Management Information System in 1990-91.
- Redirection of \$111,000 from training to administration for increased rent and Department of General Services security guard services in 1990-91.

## 60 JOB TRAINING PARTNERSHIP ACT (JTPA) PROGRAM

## Program Objectives Statement

The State receives federal training funds pursuant to the federal Job Training Partnership Act (JTPA). The objectives of the JTPA program are to provide training programs to prepare youth and unskilled adults for entry into the labor force and to afford job training to economically disadvantaged individuals and others facing serious barriers to employment who are in special need of such training in order to obtain productive employment. Through the Job Training Partnership Division (JTPD), Employment and Training Branch, the Employment Development Department (EDD) administers JTPA funds pursuant to policy direction provided by the State Job Training Coordinating Council (SJTCC). JTPA funds are provided in support of the following: Incentive and Technical Assistance Grants to Service Delivery Areas (SDAs); Educational Linkages; Specialized Training/retraining for Displaced Workers, Targeted Veterans and Older Individuals; Training for Adults and Youth; Training and Employment-related Services to youths during the school recess (summer) period and staffing and administrative oversight by the SJTCC and EDD.

## Budget Adjustments

- An increase of \$35,890,000 in 1989-90 to reflect the carryforward of unspent Older Worker, Educational Linkage, Dislocated Worker, Veterans and administrative monies in the JTPA Program. In addition 10.4 positions (10 PYs) will be added to prepare the conceptual design for the automated JTPA management information system.
- An increase of \$8,824,000 in 1989-90 for additional Title III Dislocated Worker funds distributed by the Secretary of Labor for earthquake disaster relief (\$5,000,000) and a special distribution of discretionary monies (\$3,824,000).
- An increase of \$3,464,000 in 1989-90 to reflect the actual federal allocations for Title II A Adult and Youth and Title II B Summer Youth. These monies are distributed to the service delivery areas as local assistance.
- A net increase of 49 positions (49 PYs) and \$2,328,000 in 1990-91 to reestablish limited term positions for the Economic Dislocation and Worker Adjustment Assistance Act program. These resources are used by EDD field offices to provide specialized job services to dislocated workers and administer the overall program.
- An addition of \$7,000 for out-of-state travel in 1990-91 to attend important national conferences on Job Training Partnership Act program issues.

## 60.11 Administrative Cost Pool

## Program Element Statement

The Administrative Cost Pool (ACP) funds the State's administration of the JTPA program. Administrative costs are funded from JTPA five-percent and six-percent funds.

The ACP funds administrative costs in the SJTCC and EDD. The SJTCC acts in an advisory, policy making and oversight role for the Governor concerning: JTPA program operations; integration of employment and training programs at the state level; and in furthering cooperation between government and the private sector in meeting the needs of employers and the labor force. EDD is responsible for establishing the rules, regulations and procedures for administration of the JTPA program, which includes the review and approval of the SDA plans, allocation and control of funds to SDAs and evaluation of program performance.

\* Dollars in thousands, excluding salary range.

## 60.20 Incentive and Technical Assistance

## Program Element Statement

Six percent of the state's JTPA Title IIA allotment for each fiscal year is made available to provide incentive grants to SDAs for programs exceeding performance standards, including incentives for hard-to-place individuals. Funds not needed to make incentive grants are used to provide technical assistance to SDAs, particularly those not qualifying for incentive grants. The training and technical assistance are coordinated by, and in part, provided by EDD staff.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Support) (Consolidated Work Program Fund—Federal <sup>f</sup> ) .....	\$10,050	\$26,669	\$10,237

## 60.30 Older Workers

## Program Element Statement

Three percent of the state's JTPA Title IIA allotment for each fiscal year is made available to provide job training programs in each SDA for the training and placement of older individuals.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Support) (Consolidated Work Program Fund—Federal <sup>f</sup> ) .....	\$6,532	\$8,082	\$5,433

## 60.40 Educational Linkages

## Program Element Statement

Eight percent of the state's Title IIA JTPA allotment for each fiscal year is used to provide services for eligible participants and to facilitate coordination of education and training services. Coordination occurs through the use of cooperative agreements between the state agency, SDAs and local education agencies. AB 2580, Chapter 1025, Statutes of 1985, Greater Avenues for Independence (GAIN) encourages the Superintendent of Public Instruction to use a portion of these funds to provide services to GAIN clients. All funds granted for the purpose of providing services to eligible participants must be matched with non-JTPA funds.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Support) (Consolidated Work Program Fund—Federal <sup>f</sup> ) .....	\$24,084	\$23,099	\$14,487

## 60.51 Special Local Projects

## Program Element Statement

Administrative funds, not earmarked for Council or EDD administration or auditing activities, are allocated in support of statewide or local projects. The Governor, upon recommendation of the SJTCC, has awarded these funds for economic and job development projects intended to improve local job markets, marketing efforts to attract both employers and participants to the JTPA program, grants to SDAs for administrative stability due to funding variations created by the JTPA formula allocation process, and other local projects.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Support) (Consolidated Work Program Fund—Federal <sup>f</sup> ) .....	\$1,234	\$3,060	\$364

## 60.60 Displaced Workers

## Program Element Statement

The Worker Adjustment and Retraining Notification (WARN) Act, the Economic Dislocation and Worker Adjustment Assistance Act (EDWAAA) and revisions to the Trade Adjustment Act (TAA) amended services for displaced workers under Title III of JTPA beginning in Program Year 1989-90. As a result, EDD's role under Title III changed, requiring establishment of a "rapid response unit" and implementing procedures for handling mandated preclosure/layoff notices from certain employers.

As required by federal law, 50 percent of the resources are formula-allocated to substate areas, another 10 percent is allocated to substate areas based on need, and 40 percent is earmarked for various discretionary statewide activities which include special projects focused on specific industries with large numbers of displaced workers, and basic readjustment services to workers. In California, the substate areas are the 52 Service Delivery Areas.

## 60.65 Veterans

## Program Element Statement

EDD applied successfully for Title IV-C funds in Fiscal Year (FY) 1988-89. If the Department is again successful in its application for FY 1989-90, these funds will be used for projects that will be developed to meet the employment and training needs of targeted veterans in California.

\* Dollars in thousands, excluding salary range.

## 60.70 Adult and Youth Training Programs

## Program Element Statement

Under JTPA, funds for training services for economically disadvantaged adults and youth are allocated under Title IIA. These funds are allotted according to the federal formula which includes the relative numbers of unemployed individuals and economically disadvantaged individuals.

EXPENDITURES

Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
--------------------	-----------------------	----------------------

## 80 CAPITAL OUTLAY

The Employment Development Department's (EDD) program of building renovations and office reconfigurations is consistent with the Department's missions and will allow EDD to implement their "One Stop Service" which provides services in a more efficient manner for their clients. In addition, these projects will allow for consolidation of facilities, provide rental cost savings and bring field offices into compliance with safety and working condition standards by providing for asbestos abatement.

## 5160 DEPARTMENT OF REHABILITATION

The Department of Rehabilitation is the principal State agency that helps people with disabilities reach social and economic independence. The primary goal of the Department is to rehabilitate and place into suitable employment, persons with physical and mental handicaps.

**Program Objectives**

- Provision of restorative, educational and supportive services to clients through vocational rehabilitation counselors.
- Advocacy for the rights and opportunities of the disabled.
- Development of small business opportunities for the blind and severely disabled.
- Elimination of architectural, transportation and attitudinal barriers to social and economic integration.
- Support for services and programs provided by community rehabilitation facilities and other local level resources.
- Provision of prevocational services to persons with disabilities who are not ready for vocational rehabilitation programs.

**SUMMARY OF PROGRAM REQUIREMENTS**

## 5160 DEPARTMENT OF REHABILITATION—Continued

## MAJOR BUDGET ADJUSTMENTS

Program	Description	1990-91	
		Personnel years	Dollars*
10	Vocational Rehabilitation—Case Services .....	—	\$9,400
30	Grants to Rehabilitation Facilities .....	—	—\$2,600

## 10 VOCATIONAL REHABILITATION SERVICES

## Program Objectives Statement

The Vocational Rehabilitation Services Program is the Department of Rehabilitation's major service. The Department estimates that for the budget year there may be over 750,000 working age Californians with disabilities who have a need for vocational rehabilitation services in order to obtain or retain employment.

The Department delivers basic vocational rehabilitation services to the general disabled community through district and branch offices throughout the State. A number of formal and informal cooperative agreements between the Department and State and local agencies (educational institutions, hospitals and mental health treatment facilities and alcoholism treatment programs) assure specialized services to particular target groups among the disabled population. The Department places special emphasis on services to clients with severe functional limitations including the blind, deaf, developmentally disabled, mentally ill and cardiovascularly disabled.

The Department provides comprehensive training and supervision, enabling the legally blind to support themselves in the operation of vending stands, snack bars and cafeterias. Prevocational services are provided by the Orientation Center for the Blind to newly blind adults to prepare them for basic rehabilitation services.

Rehabilitation services which support the basic program are also provided to clients, employers, other units of government and the disabled population in general. These services constitute Program Element 10.40, Other Rehabilitation Services.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- A reduction of \$262,000 and 4 positions (3.8 personnel years) due to a redirection of resources to the Administration Program (Program 40) for regulation development and design and implementation of the Statewide Computer Assisted Case Service System.
- An increase of \$5,000,000 federal funds for the provision of case services. Of this amount, \$2,600,000 is available due to a redirection of resources from Establishment Grants, Support of Community Facilities (Program 30).

In Fiscal Year 1990-91, the following budget adjustments are proposed:

- A reduction of \$262,000 and 4 positions (3.8 personnel years) due to a redirection of resources to the Administration Program (Program 40) for regulation development and design and implementation of the Statewide Computer Assisted Case Service System.
- A reduction of \$438,000 and 15 positions (14.1 personnel years) due to a redirection of resources to the Administration Program (Program 40) to provide service and maintenance of the Statewide Computer Assisted Case Services System.
- An increase of \$751,000 General Fund and \$8,649,000 federal funds to provide additional base case service funding. The federal funds amount includes \$2,600,000 due to a redirection of resources from Establishment Grants, Support of Community Facilities (Program 30).
- A reduction of \$240,000 federal funds and an increase of \$35,000 General Fund and 1 position (.9 personnel year) to support implementation of the Independent Living Rehabilitation Services program.

## 10.10 Rehabilitation Counseling and Placement

## Program Element Statement

This program element is the primary service delivery effort of the Department of Rehabilitation. Through rehabilitation counselors, the Department evaluates applicants for rehabilitation services, determines eligibility for services, develops an individualized written rehabilitation plan jointly with the person having a disability, identifies specific services required for rehabilitation, provides such services either by coordination of available community resources or purchase of services from the community, helps the person with a disability upon completion of the plan to find suitable employment and maintains follow-up contact to assure employment stability.

\* Dollars in thousands, excluding salary range.

5160 DEPARTMENT OF REHABILITATION—*Continued*

The general disabled public receives such services through a basic program which is financed with approximately 80 percent federal funds and 20 percent State and other matching funds. Special cooperative agreements with other state and local agencies are financed with federal funds and with funds from the cooperating agency. These programs direct rehabilitation services to particular target groups such as the mentally ill, the mentally retarded and alcoholics. In support of the Mental Health Initiative and Chapter 1286, Statutes of 1985 (AB 2541), the Department is continuing its joint effort with the Department of Mental Health to target services to mentally disabled clients.

In Fiscal Year 1990-91 the Department anticipates the rehabilitation of 23,500 persons with disabilities including 5,530 public assistance recipients. Rehabilitations of this kind represent considerable annual public savings in Welfare, Medi-Cal and Social Security costs, as well as increased tax revenues from the earnings of rehabilitants.

In accordance with the Federal Rehabilitation Act of 1973, the Department has established a priority system of extending services to the severely disabled. The Department anticipates that 50 percent of the persons rehabilitated will be severely disabled.

## 10.20 Business Enterprise Program

## Program Element Statement

The Business Enterprise Program for the Blind (BEP) provides training and employment for legally blind persons in the management of food service and vending facilities on public and private properties throughout the State.

The staff promotes and develops new locations in public and private buildings for vending and food service operations. Other services include the design and installation of new operations, remodeling of older facilities, supervision of new vendors and general business services.

Legally blind persons (vendors) who complete BEP's prescribed training courses are selected on a competitive basis to operate facilities. The vendors retain the profits from the facility they manage except for a percentage prescribed by law. This percentage (fee) is placed in a trust fund account, matched with federal funds and used for the establishment of new facilities and the maintenance of established facilities.

## 10.30 Orientation Center for the Blind

## Program Element Statement

The Orientation Center for the Blind trains blind adults, particularly those newly blinded, in skills for adapting to blindness and in building their confidence in their ability to function independently in a sighted society. Instruction is provided in techniques of travel, physical conditioning, home economics and daily living, woodworking and other shop techniques, braille and business principles and methods.

5160 DEPARTMENT OF REHABILITATION—*Continued*

## 10.40 Other Rehabilitation Services

## Program Element Statement

The Department provides other complementary rehabilitation services to or on behalf of individuals with disabilities. These services include:

1. Development and implementation of new rehabilitation technology and methodology which includes evaluating the potential of clients having severe disabilities to operate motor vehicles, wheelchair fittings for clients who cannot use commercially available equipment and fabrication of various assistive devices to expand mobility or scope of independent function for persons with disabilities. Another aspect is development of new counseling techniques, training of counselors and evaluation of results.

The Department also purchases visual examinations, visual aids and training in using visual aids to persons who are partially sighted from the Center for the Partially Sighted.

2. The Department also operates several programs designed to safeguard or promote the rights of persons with disabilities. The Rehabilitation Appeals Board and Client Assistance Program ensure that clients or prospective clients receive the services to which they are entitled. The Community Access Section provides expert consultation and assistance to state and local government and to profit and non-profit organizations which are subject to the provisions of Section 504 of the Rehabilitation Act of 1973 and California law, regarding access to public facilities and non-discrimination on the basis of handicap.

## 10.50 Independent Living Rehabilitation Services

## Program Objectives Statement

The Department's Community Resources Development Section administers an Independent Living Rehabilitation Services program for severely disabled individuals needing independent living services which assist the individual client to live independently in the community, home and workplace. Clients served under this program authority are not eligible for program element 10.10 services. This program is a demonstration program and is focused in the San Francisco-Oakland Bay Area, Modesto, Bakersfield, Riverside and greater Los Angeles area.

## 20 HABILITATION SERVICES

## Program Objectives Statement

The Habilitation Services Program addresses the needs of adults with severe handicaps who are currently too disabled to benefit from mainstream vocational rehabilitation programs, but who need and can benefit from a broad range development program targeted at increased independence, improved social functioning and, to the extent feasible, development of the individual's potential for mainstream vocational rehabilitation programs.

Under this program, the Department purchases habilitation services from community work activity programs for individuals with developmental disabilities referred by the Department of Developmental Services regional center system. The Department also provides services to blind and deaf, blind individuals through counselor-teachers, purchase of reader services and a community-based project to serve the elderly blind.

## Budget Adjustments

- Amendments will be proposed to the Welfare and Institutions Code, Division 4.5, Section 4502 (Lanterman Act) to allow the level of habilitation services to be provided to persons with developmental disabilities to be subject to the amount provided in the annual Budget Act, providing cost savings of \$10 million General Fund.

## Authority

Welfare and Institutions Code, Division 10, commencing with Section 19000, Chapter 1227, Statutes of 1978.

## 20.10 Work Activity Program

## Program Element Statement

The Department purchases habilitation services for persons with developmental disabilities. Eligibility for services is determined by a regional center, which prepares an individual program plan for each client. The Department is responsible for the review and approval of client assessments developed by facilities conducting work activity programs to ensure that services are directed toward preparing clients for their highest level of functioning and for the promotion of innovative approaches to the delivery of habilitative services by community-based programs.

\* Dollars in thousands, excluding salary range.

## 20.30 Counselor-Teacher and Reader Services

## Program Element Statement

The services of Department counselor-teachers are provided to individuals who are blind or deaf-blind. These services are non-vocational and include in-the-home counseling, training in independent living, mobility training in the community and information and referral services. Counselor-teachers also provide vocational services to clients who are included in Program 10. Another group of individuals who are blind and who are not vocational rehabilitation clients receive reader services, by law, from the Department enabling them to participate in college programs not necessarily directed toward vocational goals. Also, the Department has a project to serve elderly blind individuals through community-based facilities.

## 20.40 Supported Employment Services

## Program Element Statement

Supported employment services are those services that will permit severely disabled individuals to work at a site where there are coworkers without disabilities, and to be paid based on their productivity. There are three categories for clients receiving supported employment services: (1) Individual Placement is a single client that works at a specific site, (2) Enclave is a group of clients that work at a specific site, and (3) Work Crew is a group of clients that do work requiring them at numerous sites. A job coach will provide training to the client at the actual work site. The supported employment approach includes three service phases to ensure the success of these individuals including an initial intensive training phase, an adjustment and stabilization phase and a follow-along phase.

The Department will continue to receive federal funds to implement supported employment services in California. The purpose of the project is to provide the impetus for system change within the Public Education and Adult Service Systems responsible for serving the severely disabled.

## 30 SUPPORT OF COMMUNITY FACILITIES

## Program Objectives Statement

The Community Resources Development Section, in conjunction with field office staff, works with government and private nonprofit organizations toward development or improvement of rehabilitation services needed to serve clients of the Department and other people with handicaps at the community level. These community based services are provided by rehabilitation workshops, rehabilitation centers, independent living programs, special facilities for the blind and deaf, halfway houses and alcoholic recovery homes. Community based rehabilitation facilities are encouraged to place more emphasis on job development and placement of persons with disabilities.

The Department also sets standards for services provided by such resources, inspects and certifies programs to ensure that standards are met, and assists all agencies of State government in establishing fee schedules for services purchased from rehabilitation resources. Each year, the Department inventories rehabilitation facility services throughout the State and publishes the California State Plan for Rehabilitation Facilities.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- A reduction of \$2,600,000 federal funds due to a redirection of resources to Vocational Rehabilitation Services (Program 10) to provide additional base case service funding.

In Fiscal Year 1990-91, the following budget adjustments are proposed:

- A reduction of \$2,600,000 federal funds due to a redirection of resources to Vocational Rehabilitation Services (Program 10) to provide additional base case service funding.
- An increase of \$150,000 General Fund to establish two Independent Living Center branch offices.

## Authority

Federal—Rehabilitation Act of 1973 (Public Law 93-112), as amended.

State—Welfare and Institutions Code, Sections 19008, 19013, 19152, 19154, 19400-19402, and 19800-19813.

\* Dollars in thousands, excluding salary range.

30.30 Grants to Independent Living Centers .....	2.6	1.9	1.9	5,789	5,976	6,130

## 30.10 Technical Consultation to Rehabilitation Facilities

## Program Element Statement

Community Resources Development Specialists and Technical Consultants provide assistance to local community rehabilitation facilities on requirements necessary to assure an adequate quantity and quality of community based services for persons served by the Department of Rehabilitation. In the case of workshops and work activity centers, technical consultation helps facilities to integrate a rehabilitation service program with the production of goods and/or services to create a setting in which realistic evaluation, work adjustment, work experience and vocational preparation of persons with disabilities can take place. Certifications are done on facilities that provide services to rehabilitation clients and rates are set for each service provided.

## Performance Measures

## 30.30 Grants to Independent Living Centers

## Program Element Statement

The Department administers grants and provides technical consultation to independent living centers (ILC's) to maintain and develop services that assist individuals with disabilities in achieving social and economic independence. Independent living centers are private, nonprofit organizations that provide peer counseling, advocacy, attendant referral, housing assistance and other referrals and services as necessary to individuals with severe disabilities to assist them in their efforts in living fuller and freer lives outside institutions. Program objectives include maintaining existing ILC services, establishing a base of information about these services and their effectiveness in terms of client gain and determining the appropriate role of ILC's in the continuum of services to individuals with severe disabilities.

## Performance Measures

## 5160 DEPARTMENT OF REHABILITATION—Continued

## 40 ADMINISTRATION

## Program Objectives Statement

The Administration Program provides executive direction, planning, program support and administrative services to the Department of Rehabilitation. It is administered through the Director's Office and three divisions.

The Division of Field Operations exercises line administration over 19 district offices providing direct services to persons with disabilities. The Program Management and Support Division provides direction over ancillary rehabilitation functions such as the Business Enterprise Program, the Community Resources Development activity, the Habilitation Services program and the program managers for services to the blind, deaf, mentally ill and SSI/SSDI recipients. The Administrative Services Division provides fiscal and administrative staff services to the Department.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- An increase of \$262,000 and 4 positions (3.8 personnel years) due to a redirection of resources from Vocational Rehabilitation Services (Program 10) for regulation development and design and implementation of the Statewide Computer Assisted Case Service System.

In Fiscal Year 1990-91, the following budget adjustments are proposed:

- An increase of \$262,000 and 4 positions (3.8 personnel years) due to a redirection of resources from Vocational Rehabilitation Services (Program 10) for regulation development and design and implementation of the Statewide Computer Assisted Case Service System.
- An increase of \$438,000 and 15 positions (14.1 personnel years) due to a redirection of resources from Vocational Rehabilitation Services (Program 10) to provide service and maintenance of the Statewide Computer Assisted Case Services System.

## 5180 DEPARTMENT OF SOCIAL SERVICES

The Department of Social Services administers four major program areas: welfare program operations, social services, community care licensing and disability evaluation.

The goals of the Department are to:

(1) Ensure the delivery of payments and benefits and provide services to foster self-sufficiency, with human dignity and equity, to welfare recipients, with effectiveness in terms of accuracy of payments and with efficiency in terms of the lowest possible administrative costs.

(2) Provide social services to California's elderly, blind, disabled and other adults and children, to protect them from abuse, neglect, exploitation and to help families stay together.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

5180 DEPARTMENT OF SOCIAL SERVICES—Continued

- (3) Regulate group homes, nurseries and preschools, foster homes, half-way houses, day care centers and homes to assure the public that all such California facilities meet established standards for health and safety.
- (4) Evaluate the disability of applicants for various Social Security Act programs and State disability programs, in an efficient, effective and equitable manner, to ensure that eligibility exists.

Authority

Welfare and Institutions Code, Division 9, Part 2, Chapter 2.

MAJOR BUDGET ADJUSTMENTS

- An increase of \$70.5 million General Fund in the AFDC Family Group and Unemployed program as a result of caseload increases.
- An increase of \$21.8 million General Fund to effect the change in the beginning date of aid as required by Chapter 1285, Statutes of 1989 (SB 991).
- An increase of \$31.9 million General Fund due to the change in federal time eligibility for refugees from 24 months to 4 months.
- An increase of \$77.5 million General Fund in the AFDC Foster Care program as a result of increased caseload and grant costs.
- A reduction of \$20.8 million General Fund due to the proposal to repeal Chapter 1747, Statutes of 1984, and Chapter 1274, Statutes of 1984 which established a state-only program separate from foster care to pay for seriously emotionally disturbed children.
- An increase of \$48.8 million General Fund and 42.0 positions (39.8 personnel years) in 1990-91 for foster care group home rate reform, and development and implementation of a management information system, as authorized by Chapter 1294, Statutes of 1989 (SB 370).
- An increase of \$24.0 million General Fund to implement the Transitional Child Care Program on April 1, 1990, pursuant to the Family Support Act of 1988.
- An increase of \$51.2 million General Fund in the SSI/SSP program as a result of caseload increases and various other program changes.
- An increase of \$10.9 million General Fund in the Child Welfare Services (CWS) program to reflect the impact of caseload growth, and \$16.3 million for cost-of-living adjustments provided by the counties in 1989-90.
- A net decrease of \$28.0 million General Fund in the In-Home Supportive Services (IHSS) program as a result of proposed program changes.
- An increase of \$2.8 million General Fund and 50.6 positions (39.3 personnel years) to fund caseload growth in the Community Care Licensing Program.
- An increase of \$19.4 million General Fund in the Earthquake Disaster Relief program to fund preliminary estimates of costs related to the Northern California Earthquake of 1989.
- A decrease of \$2.9 million General Fund and 50.9 positions (34.6 personnel years) to reflect a restructuring in the Family Day Care Program.

10 WELFARE PROGRAM OPERATIONS

Program Objectives Statement

The Department's welfare program provides financial assistance to those California residents who are unable to support themselves. The program is comprised of six elements: (1) Payments for children (Aid to Families with Dependent Children (AFDC) Program, Child Support Enforcement Program, Aid for the Adoption of Children/Adoption Assistance Program, and Transitional Child Care); (2) Supplemental Security Income/State Supplementary Program (SSI/SSP, i.e., payments to aged, blind and disabled); (3) Special Adult Programs; (4) Food Stamps; (5) County Administration; and (6) Refugee Cash Assistance Programs.

The objective of this program is to provide, on behalf of the general public and within the limits of public resources, reasonable financial assistance to eligible needy and dependent children and families and to monitor, assist in administering and improve the SSI/SSP and Food Stamp Programs.

## 10.04 Payments for Children

## Program Element Statement

This payment element provides financial assistance to eligible needy dependent children and their parents, eligible relatives or other caretakers with whom they live.

\* Dollars in thousands, excluding salary range.

5180 DEPARTMENT OF SOCIAL SERVICES—Continued

Budget Adjustments

In 1989–90 the Department of Social Services estimates General Fund expenditures will be approximately \$66.6 million higher than the approved budget for this program. Significant components of this increase include:

- \$32.5 million increase attributable to caseload growth in the AFDC-FG/U programs.
- \$25.2 million increase due to the change in federal time eligibility for refugees from 24 months to 4 months.
- \$2.4 million increase due to the implementation of the Transitional Child Care Program, effective April 1, 1990, pursuant to the Family Support Act of 1988.
- \$6.5 million increase attributable to various other programmatic changes.

Other changes in the Administration of the program include:

- Reduced staffing for the SACSS (Statewide Automated Child Support System) by one position (0.9 personnel year) in order to redirect funds to operating expenses for SACSS.
- An increase of \$609,000 and 17.0 positions (6.6 personnel years) to implement the requirements of SB 370, Chapter 1294, Statutes of 1989, AFDC-Foster Care Rate Reform.

In 1990–91, the General Fund cost of this program is expected to increase by \$273.1 million over the current year estimate. The specific budget adjustments proposed include:

- \$70.5 million increase attributable to caseload increase in the AFDC Family Group and Unemployed programs.
- \$31.9 million increase due to the change in federal time eligibility for refugees from 24 months to 4 months.
- \$19.8 million increase due to a revision in the method used to estimate savings in the AFDC grant costs attributable to the GAIN program.
- A net \$14.5 million increase due to the change in the Beginning Date of Aid for AFDC from the date of authorization to the date of application in accordance with Chapter 1285, Statutes of 1989 (SB 991).
- \$77.5 million increase related to increased caseload and grant costs in the AFDC-Foster Care Program.
- \$46.8 million increase due to Foster Care Group Home and Foster Family Home rate adjustments in accordance with SB 370, Chapter 1294, Statutes of 1989 (Foster Care Rate Reform).
- \$20.8 million reduction resulting from the proposal to repeal Chapter 1747, Statutes of 1984, and Chapter 1274, Statutes of 1984, which established a state-only program separate from Foster Care to pay for Seriously Emotionally Disturbed (SED) children who have been placed out-of-home pursuant to an individualized education program.
- \$8.5 million savings due to increased child support collections.
- \$8.1 million increase attributable to increases in the caseload and grant costs of the Aid for Adoption of Children Program.
- \$4.0 million increase due to the redetermination of deprivation in the Foster Care program to comply with federal regulations.
- \$24.0 million increase due to the implementation of the Transitional Child Care Program, effective April 1, 1990, pursuant to the Family Support Act of 1988.
- \$5.3 million increase attributable to various other programmatic changes.

Other changes in 1990–91 in the Administration of the program include:

- A continuation of a reduced staffing level for the SACSS by one position (0.9 personnel year) in order to redirect funds to operating expenses for SACSS.
- An increase of \$1,038,000 and 18.0 positions (17.1 personnel years) to implement the requirements of SB 370, Chapter 1294, Statutes of 1989 (Foster Care Rate Reform).
- A continued authorization of \$55,000 and 1 position (0.9 personnel years) to process appeals on AFDC-Foster Care audit findings.
- An increase of \$90,000 to fund the California Parent Locator System/Interstate Registry contract with the Department of Justice.

10.04.005 Aid to Families with Dependent Children

Element Component Statement

The AFDC program is divided into three major subgroups: aid to family groups, aid to families with unemployed parents and aid to children in foster care. In addition, the Adoption Assistance Program (formerly Aid for the Adoption of Children) provides aid to families adopting hard-to-place children. Both programs are administered by the counties in accordance with regulations, standards and procedures set by the Department as authorized by law.

Under the aid to family groups (AFDC-FG) component, cash grants are provided to children and their parents or guardians if the family's income is insufficient to meet their basic needs. Eligibility is limited to those needy families in which the children are deprived of one or both parents due to the parent's incapacity, death or other continuing absence. Eligibility is further based on statutory maximums related to the size of the family and the amount of income and real and personal property available to the family.

Grant amounts in the AFDC Program are established by law based on the number of eligible persons in the family less the family's net nonexempt income. In addition, a family may receive an allowance for recurring special needs such as medical diets and transportation, as well as an allowance for nonrecurring special needs (e.g. homeless assistance) caused by sudden and unusual circumstances beyond the control of the family.

The cost of the AFDC-FG grant is shared by the federal, State and county governments. Fifty percent of the grant cost for federally eligible recipients is paid by federal funds. The remaining fifty percent of the grant is composed of 89.2 percent state and 10.8 percent county funds.

Needy children meeting the basic eligibility requirements may receive assistance under the aid to families with unemployed parents (AFDC-U) component if their parent(s) is not fully employed. Additional conditions of eligibility require the parent to be available for and to seek employment. The basic grant standard and program funding are the same as for the aid to family groups program.

The AFDC-Foster Care (AFDC-FC) component provides cash assistance to children who are in need of protection and care by persons other than their parents, and who require 24-hour out-of-home care in a foster home or institution (group home) as a result of court order, parental consent, relinquishment or guardianship. AFDC-FC consists of both federal and nonfederal cases. Federal financial participation in the cost of care is available for children who are removed from their homes by court order and meet additional federal requirements. Those not qualified for federal financial participation may be eligible for AFDC-FC benefits funded by state and county monies.

The cost of the AFDC-FC grant is shared by federal, State and county governments. Fifty percent of the grant cost for federally eligible children is paid by federal funds. Provisions of Chapter 323, Statutes of 1983 (AB 223) established the non-federal share of AFDC-FC grants at a 95 percent State and 5 percent county ratio until December 31, 1985. Chapter 1426, Statutes of 1985 (AB 454) extended the 95 percent State and 5 percent county ratio through June 30, 1988. Chapter 1092, Statutes of 1987 (SB 357) extended the 95 percent State and 5 percent county ratio through June 30, 1990. Chapter 1294, Statutes of 1989, (SB 370) extends the 95 percent state and 5 percent county ratio through June 30, 1995.

## 10.04.010 Child Support Incentive

## Element Component Statement

The Child Support Enforcement Program is a revenue-producing program which locates absent parents, establishes paternity and obtains and enforces court-ordered child support payments for both welfare and non-welfare families. The program reduces overall AFDC costs as collections made for AFDC families reimburse the federal, State and county governments for aid paid. Collections made on behalf of non-welfare clients help keep families off AFDC and, consequently, result in significant welfare cost avoidance. The program has continued to be cost effective in that it returns more revenue to State and county general funds than it costs to operate. Effective October 1, 1989, the Federal share of cost was reduced from 68 percent to 64.44 percent for eligible child support enforcement activities.

Since the beginning of the Child Support Enforcement Program in California, collections have increased significantly each year. In 1990-91, child support collections are estimated to reach \$565,504,000. Of this amount, approximately 50 percent represents collections made on behalf of families receiving AFDC. Direct net savings to the California taxpayer, in the form of reduced AFDC costs, are anticipated to exceed \$87.2 million in the budget year. Collections made on behalf of non-welfare families also represent a substantial indirect savings to the taxpayer, since many of those families would otherwise be on welfare.

The following table illustrates estimated savings to the General Fund.

## Child Support Program

	Total Collections <sup>3</sup>	State Recoupment	State Costs	Net Revenue To State
FY 88/89 <sup>4</sup> .....	\$474,632,000	\$94,709,000	\$16,455,000	\$78,254,000
FY 89/90 <sup>4</sup> .....	525,207,000	105,459,000	25,775,000	79,684,000
FY 90/91 <sup>4</sup> .....	565,504,000	113,975,000	26,736,000	87,239,000

<sup>3</sup> Amounts do not include collections made by California for children living in other states.

<sup>4</sup> Estimated.

The payment of State and federal incentives to counties encourages county collection efforts in the Child Support Enforcement Program. Since 1975, the incentive rates and funding structure for the program have changed several times.

The most recent changes were the 1984 Federal Amendments to Title IV-D of the Social Security Act (PL 98-378) which revised the basis of payment for incentives to a cost to collections formula. Under these provisions incentives range from a minimum 6 percent to a maximum 10 percent and are paid on both AFDC and non-AFDC collections depending on the level of performance. The state incentive is 7.5 percent on AFDC collections. Chapter 1454, Statutes of 1986 (SB 738) provides for additional state incentives should the federal government reduce federal financial participation (FFP) in administration costs beyond those scheduled in PL 98-378. Chapter 1454 provides for a new maximum 4 percent state incentive on non-welfare collections and an increase (maximum 4 percent) above the current 7.5 percent AFDC incentive.

## 10.04.015 Aid for the Adoption of Children

## Element Component Statement

The Aid for the Adoption of Children (AAC) program is designed to encourage and promote the placement in adoptive homes of children who, because of their ethnic background, race, color, language, physical, mental, emotional or medical handicaps or age, or because they are a sibling group who should be placed in the same home, have become difficult to place in adoptive homes. The legislative intent of the program is to encourage placement of these children with families that can provide them with the stability and security of a permanent home. The five year time limit on adoption assistance has been eliminated; payments can now be made until the child is 18 years of age, or until 21 years of age when certain circumstances exist.

\* Dollars in thousands, excluding salary range.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

## 10.40.020 Transitional Child Care

## Element Component Statement

The Transitional Child Care (TCC) program provides subsidized child care for a maximum of 12 months to former AFDC recipients no longer eligible for aid because of employment. To be eligible for TCC, a recipient must have collected aid for at least 3 of the 6 months prior to becoming employed. Families qualifying for TCC must contribute a share of cost based on the State Department of Education's Family Fee Schedule. After the participant's contribution, the cost of child care payments is shared by the federal government (50 percent) and the state (50 percent).

## 10.08 Supplemental Security Income/State Supplementary Program SSI/SSP

## Program Element Statement

The Supplemental Security Income/State Supplementary Program (SSI/SSP) provides cash grant assistance to aged, blind or disabled persons who meet the program's income and resource requirements. The SSI/SSP is administered by the Federal Social Security Administration which determines eligibility, computes grants and disburses the combined monthly payment to recipients. California supplements the federal SSI payment with an additional SSP payment. The combined SSI/SSP grant is intended to cover the recipients' basic needs and living expenses. The State monitors the federal payment operation to determine whether, under the supplemental program, State monies are accurately and properly expended and recipients' payments are properly received.

## Budget Adjustments—SSI/SSP

In 1989–90, the SSI/SSP reflects an increase of \$23.1 million due to:

- A \$17 million increase attributable to higher than anticipated caseload.
- A \$6.1 million increase attributed to various programmatic and other caseload changes.

In 1990–91, the following changes will result in a General Fund increase of \$51.2 million over the current year estimate:

- A \$78.9 million increase to fund caseload growth of 3.6 percent over the current year estimate.
- A \$49.2 million increase to fund full year costs in 1990–91 of the January 1990 cost-of-living adjustment.
- A \$10.4 million increase due to the change in federal time eligibility for refugees from 24 months to 4 months.
- An \$83 million savings to reflect the January 1991 federal cost-of-living adjustment of 4.7 percent for SSI.
- A \$4.3 million savings attributable to various programmatic and caseload changes.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

## 10.12 Special Adult Programs

## Program Element Statement

In addition to regular SSI/SSP benefits, a program for emergency and special needs established by Chapter 1216, Statutes of 1973 (AB 134), has been available to SSP recipients. The Special Circumstances program is funded by the State and administered by the counties in accordance with regulations, standards and procedures set by the Department as authorized by law. Special Circumstances provides allowances to eligible recipients for special nonrecurring needs (i.e. housing repairs required to preserve safe and healthful housing, necessary moving expenses due to eviction, unsafe or unhealthful housing and unmet shelter needs).

Welfare and Institutions Code Section 11212 provides for reimbursement to foster parents for the cost of the burial plot and funeral expenses for a child receiving foster care at the time of death. Funding for this program is included in the Special Circumstances appropriation.

An additional program for blind SSP recipients is the Guide Dog Special Allowance (funded under Special Benefits), which offers recipients with a specially trained guide dog an additional allowance to cover the cost of dog food. The Guide Dog Special Allowance is State administered as well as State funded.

The Repatriated American Program provides temporary help to needy U.S. citizens returning to the U.S. from foreign countries because of destitution, physical or mental illness or war. Funding is 100 percent federal funds reimbursed to the counties through the Department of Social Services.

## Budget Adjustments

In 1990-91, the Special Adult programs are anticipated to increase by \$389,000 General Fund due to caseload increases above the current year estimate.

## 10.16 Food Stamps

## Program Element Statement

The purpose of the Food Stamp Program is to provide for improved levels of nutrition among low-income households by offering eligible households food stamps at no cost. The amount of food stamps a household receives will depend on its net adjusted income. The cost of the benefit value of food stamps is borne entirely by the United States Department of Agriculture.

The Department of Agriculture, Food and Nutrition Service (FNS), retains the overall administrative responsibility for the Food Stamp Program. Through a cooperative agreement between FNS and the State, the Department of Social Services directs food stamp operations within California. Household eligibility and certification determinations as well as food stamp issuance have been delegated by law to the fifty-eight county welfare departments. Counties are, however, given the option to contract with outside agencies for food stamp issuance.

Food stamp regulations, consultative services, training and technical services are provided to the counties by the Department's Welfare Policy Development and Implementation Branches to ensure the continued efficient, effective and equitable administration of the program at the county level. In addition, federally mandated Management Evaluation reviews of county operations conducted by the Department provide for an ongoing system for monitoring and improving the program.

Effective October 1, 1986, administration of the Temporary Emergency Food Assistance Program (TEFAP) was transferred from the Department of Education to the Department of Social Services.

The purpose of TEFAP is to provide supplementary food assistance to low-income households by offering eligible participants privately donated and/or United States Department of Agriculture surplus commodities at no cost to recipients. The quantity of commodities that a household receives depends on the number of persons in the household and the total quantities made available for distribution.

Effective April 1, 1987, administration of the Food Stamp Employment and Training (FSET) Program was mandated by the Food Security Act of 1985 (Public Law 99-198) requiring certain nonassistance food stamp recipients to participate in employment and training activities. These costs are shown under County Administration (Program Element 10.20).

## 10.20 County Administration

## Program Element Statement

County administrative funds are used to pay salaries and benefits of eligibility workers, fraud investigators, clerical support and administrative support staff. These funds are also used to pay for the typical operating costs of space, utilities, supplies, check writing for recipients, EDP and other operating costs. Approximately 76 percent of administrative funds are used to pay salaries and employee benefits of welfare department employees, with the remaining 24 percent used for operating costs.

County administrative costs are funded by the federal, State and county governments. AFDC Program administrative costs are subject to 50 percent federal reimbursement with the State contributing 50 percent of the nonfederal share, with the exception of costs for fraud investigators and district attorney prosecution, which are eligible for 75 percent federal and 12.5 percent State funding. Both AFDC related and non-AFDC Child Support administrative costs were reimbursed at 70 percent until October 1, 1987, when federal reimbursement was reduced to 68 percent. Effective October 1, 1989, federal reimbursement for child support administrative costs was reduced to 64.44 percent. Food Stamp Program administrative costs are subject to 50 percent federal reimbursement and 25 percent State reimbursement, with the exception of costs for fraud investigation and prosecution, administrative hearings and some data processing development, which are eligible for 75 percent federal/12.5 percent State funding. In addition, the State pays 100 percent of administrative costs associated with the special circumstances and special benefits program for adult recipients.

A plan to control county administrative expenditures for the AFDC and Non-Assistance Food Stamp (NAFS) programs has been in effect since 1975-76. Although the basic concept of cost containment has remained unchanged since that time, revisions to improve and enhance some technical aspects of the plan continue to be made. These improvements are geared toward developing more accurate workload measurements to enable counties to better identify and resolve problems in specific areas. The continued effectiveness of the cost control plan in controlling county administrative costs can be attributed to the efforts of both State and county staff to improve the efficiency of program operations. The administrative costs associated with the special circumstances and special benefits programs for adult recipients shall not exceed the cost of program services. County administration cost-of-living adjustment (COLA) increases are fully funded one year in arrears.

\* Dollars in thousands, excluding salary range.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

## Budget Adjustments

In 1989–90, an increase of \$9.6 million General Fund is due to:

- A \$5.2 million increase attributable to various caseload changes.
- A \$2.3 million increase due to a change in federal time eligibility for refugees from 24 months to 4 months.
- A \$2.1 million increase due to various other programmatic changes.

In 1990–91, the General Fund is expected to increase by \$18.1 million over the current year estimate. The specific budget adjustments proposed include:

- A \$7.6 million increase attributable to various caseload increases.
- A \$6.5 million increase attributable to cost-of-living adjustments (COLA) provided by counties in FY 1989–90.
- A \$2.1 million increase due to a change in federal time eligibility for refugees from 24 months to 4 months.
- A \$1.9 million increase attributable to various other programmatic changes.

## Performance Measures

Statewide Eligibility Workers (including 1st-line supervisors)			
AFDC.....	7,058	7,318	7,598
Food Stamps.....	1,458	1,614	1,687

## 10.24 Refugee Cash Assistance Program

## Program Element Statement

The goal of the Refugee Cash Assistance Program is to promote self-sufficiency within the shortest time by providing cash and medical assistance as transitional aid when necessary. Needy refugees who meet the same eligibility criteria as non-refugees may receive AFDC, Medi-Cal or SSI/SSP benefits. Until December 31, 1989, the State and county share of these benefits were federally reimbursable for the first 24 months that eligible refugees resided in the United States. Beginning January 1, 1990, the period for federal reimbursement became 4 months. Payments for these refugees are shown in Program Element 10.04, AFDC, and Program Element 10.08, SSI/SSP.

In 1985 the Department of Social Services implemented the Refugee Demonstration Project (RDP). The RDP requires refugees to participate in employment and training programs designated by the counties as appropriate for refugees. Beginning January 1, 1990, refugees are eligible for RDP for their first 4 months, instead of their first 24 months, of residence in the country. In addition, the RDP will begin phasing out operations on April 1, 1990, and cease operations on September 30, 1990. All refugees formerly eligible for RDP will become eligible to participate in GAIN.

Refugees who do not qualify for AFDC or SSI may receive assistance through the Refugee Cash Assistance (RCA) program during their first 12 months of residence in the United States. Until December 31, 1989, the federal Office of Refugee Resettlement reimbursed counties for General Assistance costs for former RCA recipients during their second 12 months in this country. On January 1, 1990, federal reimbursement for General Assistance costs for refugees will no longer be available.

Effective July 1, 1988, the Department of Health Services became responsible for the provision of health services to refugees and for the administration of federal funds for that purpose.

## Budget Adjustments

In 1990–91, the following budget adjustment is proposed:

- A continued authorization of \$387,000 and 7 positions (6.6 personnel years) to manage and operate the Federal Immigration Reform and Control Act of 1986 (IRCA).

## Performance Measures

Refugee Cash Assistance Programs			
Average Monthly Persons Aided			
Refugee Resettlement Act	1988–89	1989–90	1990–91
AFDC.....	4,369	2,979	9,502
SSI/SSP.....	3,927	3,018	1,060
RCA.....	8,691	11,929	14,368
General Assistance.....	482	1,452 <sup>8</sup>	—
RDP.....	34,096	27,510	1,208 <sup>9</sup>

<sup>8</sup> For 6 months (July–December 1989) only. No General Assistance programs exist effective January 1, 1990 due to a change in federal time eligibility for refugees from 24 to 4 months.

<sup>9</sup> This is a 12 month average, even though RDP phases out by September 1990.

## 20 SOCIAL SERVICES PROGRAM

## Program Objectives Statement

The Department of Social Services monitors and oversees the operational program aspects of social services programs through the development of policy, regulations and procedures for the delivery of services to clients, and the monitoring and evaluation of services delivered.

The Social Services programs are divided into six major categories: (1) Other County Social Services; (2) Specialized Adult Services; (3) Employment Services; (4) Adoptions; (5) Refugee Resettlement Social Services Program; and (6) Child Abuse Prevention.

Social Services, as provided to the elderly, blind, disabled and other adults and children, are designed to meet the five national goals mandated by Title XX of the Social Security Act:

- (1) Achieve or maintain economic self-support to prevent, reduce or eliminate dependency.
- (2) Achieve or maintain self-sufficiency, including reduction or prevention of dependency.

\* Dollars in thousands, excluding salary range.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

- (3) Prevent or remedy neglect, abuse or exploitation of children and adults who are unable to protect their own interests; or preserve, rehabilitate or reunite families.
- (4) Prevent or reduce inappropriate institutional care by providing for community-based care, home-based care or other forms of less intensive care.
- (5) Secure referral or admission for institutional care when other forms of care are not appropriate or provide services to individuals in institutions. Services are provided through county welfare departments and state agencies.

## 20.30 Other County Social Services

## Program Element Statement

Other County Social Services (OCSS) includes the Title XX services programs (other than In-Home Supportive Services) and the Title IV-B Child Welfare Services. The programs are administered by county welfare departments. The OCSS also consists of the Child Welfare Services Grant and the County Services Block Grant which are separately allocated to the counties.

The objective of Child Welfare Services is to provide emergency, maintenance and placement services for abused and neglected children and their families. The Department of Social Services meets these objectives through the (1) Emergency Response, (2) Family Maintenance, (3) Family Reunification and (4) Permanent Placement programs as mandated in Chapter 978, Statutes of 1982, which implemented P.L. 96-272 in California. Also as a part of Child Welfare Services, the Department administers and regulates foster care and adoptive placements of children, between California and other states in accordance with California's interstate agreement on the placement of children.

The County Services Block Grant consists of (1) county administration of the In-Home Supportive Services program, (2) Adult Protective Services, (3) Out-of-Home Care for Adults, (4) Information and Referral, and (5) Optional Services programs. The Optional Services programs consist of (1) Special Care for Children in Their Own Homes, (2) Home Management, (3) Employment, Education and Training, (4) Services for Children with Special Problems, (5) Services to Alleviate or Prevent Family Problems (6) Sustenance, (7) Housing and Referral Services, (8) Legal Referral Services, (9) Diagnostic Treatment Services for Children, (10) Special Services for the Blind, (11) Special Services for Adults, (12) Services for Disabled Individuals, and (13) Services to County Jail Inmates.

## Budget Adjustments

In 1989-90, the Other County Social Services Program reflects the following adjustments:

- An increase of \$746,000 and 17.5 positions (8.4 personnel years) for the development of a Child Welfare Services Case Management System as authorized by Chapter 1294, Statutes of 1989 (SB 370).
- An increase of \$282,000 and 5.5 positions (2.7 personnel years) for the development of a standardized level of care assessment instrument as authorized by Chapter 1294, Statutes of 1989 (SB 370).
- An increase in Federal Funds of \$1,155,000 and 1 position (0.8 personnel year) for the Independent Living Skills program.

In 1990-91, the General Fund cost of this program is expected to increase by \$32.9 million over the current year estimate. The proposed significant changes include:

- An increase of \$10.9 million in the Child Welfare Services (CWS) program to reflect the impact of caseload growth in the Emergency Response Program.
- An increase of \$16.3 million attributed to the Cost-of-Living Adjustment (COLA) provided by counties in 1989-90.
- A net increase of \$5.7 million attributable to various other caseload and programmatic changes.

Other adjustments include:

- A continuation of \$1,650,000 and 17.5 limited-term positions (16.6 personnel years) for the development of a Child Welfare Services Case Management System.
- A continuation of \$321,000 and 5.5 limited-term positions (5.2 personnel years) for the development of a standardized level of care assessment instrument.
- A continuation in Federal Funds of \$990,000 and 1 limited-term position (0.9 personnel year) for the Independent Living Skills program.
- An increase in reimbursement from the Department of Alcohol and Drug Programs of \$116,000 and 2 positions (1.9 personnel years) for the expansion of the Substance Abuse/HIV Infant Demonstration projects.

## 20.35 Specialized Adult Services

## Program Element Statement

Specialized Adult Services are intended to assist adults to maintain or achieve maximum self-sufficiency in an environment free from abuse, exploitation and neglect. Specialized Adult Services are comprised of In-Home Supportive Services, Maternity Care and Access Assistance to the Deaf.

In-Home Supportive Services (IHSS) provide specified supportive services to enable eligible persons to remain in their own homes as an alternative to out-of-home care. Eligible persons are aged, blind or disabled recipients of public assistance and similar persons with low incomes. Services include: domestic services such as meal preparation, laundry, shopping and errands; nonmedical personal care services; assistance while traveling to medical appointments or to other sources of supportive services; protective supervision; teaching and demonstration directed at reducing the need for supportive services; and certain paramedical services ordered by a physician. These services are available statewide.

The Pregnancy Freedom of Choice Act (Chapter 1190, Statutes of 1977) established the Licensed Maternity Home Care Program to provide residential care and maternity related services to unmarried expectant mothers under the age of 21, domiciled in California, who are living in maternity homes with established contracts with the Department of Social Services.

Chapter 1193, Statutes of 1980 (AB 2980) provides for access assistance to the deaf. Such assistance includes certain types of activities provided for in Welfare & Institutions Code Chapter 2.1 to enable persons with deafness to secure needed public social services.

## Budget Adjustments

In 1989-90 the General Fund cost of In-Home-Supportive Services is estimated to increase by \$3.3 million over the approved budget. The significant changes include:

- A reduction of \$7.5 million due to lower than anticipated basic cost and hours per case.
- An increase of \$10.8 million for payments related to the Miller v. Woods court case.

\* Dollars in thousands, excluding salary range.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

In 1990-91 the General Fund cost of this program is expected to decrease by \$28.0 million from the current year estimate. The significant changes include:

- An increase of \$55.3 million to fund basic cost and estimated caseload increases in the In-Home-Supportive Services (IHSS) program.
- A reduction of \$12.2 million due to the completion of payments for the Miller v. Woods court case.
- A reduction of \$71.1 million to reflect changes in recipient eligibility for benefits and restrictions on payment to relative providers in certain cases.

## 20.40 Employment Services

## Program Element Statement

Chapter 1025, Statutes of 1985 (AB 2580) provided for the establishment of the Greater Avenues for Independence (GAIN) Program. This program is designed to provide the education, training and job services necessary to allow AFDC recipients to obtain employment and end their dependency on public aid. This is accomplished through job search assistance, employability assessments and referrals to other individually selected employment and training programs, including pre-employment preparation assignments.

The Federal Job Opportunities and Basic Skills Training (JOBS) Program, established by the Family Support Act of 1988, was implemented in California on July 1, 1989. Chapter 77, Statutes of 1989 (AB 2171), made the changes necessary to implement JOBS on the earliest possible date, thereby making additional federal funds available to the State and reducing the amount of State funds needed for GAIN operation.

## Budget Adjustments

In 1989-90, the budget reflects General Fund savings of \$7.2 million, and additional federal funds of \$11.5 million, due to JOBS implementation.

In 1990-91, the following budget adjustment is proposed:

- A \$11.1 million General Fund reduction due to focusing GAIN resources on existing clients.

## 20.42 Adoptions

## Program Element Statement

The adoptions element includes: (1) provision of relinquishment adoption services through four State offices and twenty-eight licensed county adoption agencies; (2) conducting studies of all independent adoption placements through five State offices and seven county adoption agencies; (3) reimbursement to licensed private adoption agencies for expenses incurred in placing special needs children; and (4) Minority Home Recruitment activities through directly provided and contracted services.

## Budget Adjustment

In 1990-91, the following budget adjustment is proposed:

- A continuation of \$599,000 and 12.0 limited-term positions (11.4 personnel years) in the Relinquishment Adoption Program to process workload in the Adoptions district offices.

## 20.45 Refugee Assistance Services

## Program Element Statement

The objective of these services is to provide a range of support services to refugees through contracts and direct allocations to county agencies in order to assist refugees in becoming self-sufficient and promote their assimilation into American society. These services include (1) Central Intake, (2) English as a Second Language (ESL), (3) Vocational English as a Second Language (VESL), (4) employment services, (5) vocational training, (6) on the job training, (7) health accessing and (8) Title XX type services. Title XX services include (1) Information and Referral, (2) Emergency Response, (3) Family Maintenance Programs, (4) Protective Services for Adults, (5) Family Reunification Program, (6) Permanent Placement Program, (7) Out-of-Home Care for Adults and (8) In-Home Supportive Services.

Chapter 39, Statutes of 1989 (AB 277), requires that by October 1, 1990, all funding which is to be used for employment and English language training programs shall be incorporated into a county's GAIN plan and used to provide GAIN-related services to refugees. Up to fifteen percent of such funds may be set aside to establish separate non-GAIN English Language training and employment services for refugees receiving assistance under the Refugee Cash Assistance Program.

## Budget Adjustment

In 1990-91 the budget reflects an increase of \$12.1 million due to anticipated caseload increases over the current year.

## 20.47 Child Abuse Prevention

## Program Element Statement

The Office of Child Abuse Prevention (OCAP) was established in May 1977 pursuant to the California Child Abuse Prevention Act of 1974 (Chapter 309, Statutes of 1974). The OCAP provides policy input and legislative analysis to the Department in the area of child abuse prevention programs. Most of the effort of the office is directed to developing, implementing and administering over 300 projects in child abuse prevention.

Until 1982, OCAP activities and projects were primarily funded through a grant under the federal Child Abuse Prevention and Treatment Act (P.L. 93-247). State legislation enacted since 1982 has significantly expanded the projects under this program. The key program areas are: (1) Chapter 1398, Statutes of 1982 (AB 1733) provided for child abuse prevention programs. A single training and technical assistance contractor provides this service to the projects. Of the program funds, 90 percent is allocated on a county by county basis and used to select projects in each county to meet county identified services needs. The remaining 10 percent is used to test innovative programs selected competitively by OCAP; (2) Chapter 1399, Statutes of 1982 (AB 2994) established the State Children's Trust Fund, and Chapter 1082, Statutes of 1983 (AB 607) added a State income tax designation to the original funding mechanism of a surcharge on birth certificates; (3) Chapter 1638, Statutes of 1984 (AB 2443) provided for child abuse prevention training in State funded preschools and public schools from kindergarten through grade 12. Eighty-four primary prevention programs provide training in the schools to children, school staff and parents.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- A reduction of \$10,050,000 to reflect the proposed elimination of the Child Abuse Prevention Training Act (CAPTA) program.
- A reduction of \$1,352,000 to reflect the completion of eight child abuse pilot projects.

\* Dollars in thousands, excluding salary range.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

## 30 COMMUNITY CARE LICENSING

## Program Objectives Statement

The objective of the Community Care Licensing Division is to provide a preventive and protective service to all persons in community care facilities by ensuring that licensed facilities providing care and supervision meet established standards for health and safety of those individuals served. The Community Care Licensing Program achieves this goal by regulating the community care industry, which includes all non-medical children and adult day care homes and centers, adoptions and foster family agencies, foster family homes, children's family and group homes, adult residential, residential facilities for the elderly and rehabilitation facilities. These licensed facilities number approximately 80,200 statewide serving a client population of approximately 971,000. Of the 28,000 residential care facilities in California, approximately 15,700 are foster homes licensed by forty-eight county welfare departments under contract with DSS. The remaining 12,300 residential facilities, including approximately 200 adoption and foster family agencies, are licensed directly by the fifteen DSS field offices.

Of the 52,200 day care facilities serving approximately 768,000 clients, about 20,300 are family day care homes licensed by twenty-five county welfare departments under contract with DSS. The fifteen DSS field offices licensed approximately 31,900 day care facilities including approximately 10,100 day care centers.

## Budget Adjustments

In 1989-90 the Community Care Licensing Division reflects the following adjustments:

- A reduction of \$79,000 and 3.7 positions (1.8 personnel years) as responsibility for some licensing activities were transferred to the Department of Alcohol and Drug Programs, as authorized by Chapter 919, Statutes of 1989 (SB 990).
- An increase of \$63,000 to study the appropriateness of secured perimeters for persons with dementia, as authorized by Chapter 1372, Statutes of 1989 (SB 481).
- A crediting of \$32,000 from licensing fees for residential care facilities for the elderly to the Residential Care Facilities for the Elderly Administrative Certification Fund, and establishing 1.2 limited term positions (0.6 personnel years) to determine an appropriate process for certifying administrators of Residential Care Facilities for the Elderly, as authorized by Chapter 434, Statutes of 1989 (AB 2323).

In 1990-91 the following budget adjustments are proposed:

- A reduction of \$1,417,000 and 50.9 positions (34.6 personnel years) to reflect a restructuring of the Family Day Care Program.
- An increase of \$1,402,000 and 32.4 positions (22.0 personnel years) for caseload growth.
- A continued reduction of \$157,000 and 3.7 positions (3.5 personnel years) as a result of the transfer of some licensing activities to the Department of Alcohol and Drug Programs.
- A continuation of \$63,000 to study the appropriateness of secured perimeters for persons with dementia.
- A continuation of \$23,000 from licensing fees to the Residential Care Facilities for the Elderly Administrative Certification Fund and 1.2 limited term positions (0.5 personnel years) to determine an appropriate process for certifying administrators of Residential Care Facilities for the Elderly.

## 5180 DEPARTMENT OF SOCIAL SERVICES—Continued

## 40 DISABILITY EVALUATION PROGRAM

## Program Objectives Statement

The Disability Evaluation Program is responsible for determining the medical/vocational eligibility for California residents applying for benefits under Title II (Disability Insurance), Title XVI (Supplemental Security Income), and Title XIX (Medicaid) of the Social Security Act related to public assistance programs.

The main objective of the Disability Evaluation Program is to establish an applicant's medical/vocational eligibility for disability benefits by determining the severity of the individual's physical and/or mental impairment(s) and overall ability to engage in substantial gainful employment. Persons having a disability who are covered by Social Security benefits and/or qualify for public financial assistance may file an application at a Social Security Administration district office or county welfare department. The claim is then forwarded to the Department of Social Services where determinations are made by an adjudicative team composed of an analyst specially trained in medical and vocational factors relevant to disability evaluation and a medical consultant. Medical evidence and pertinent vocational information are obtained from the claimant, physicians, medical facilities and other sources. Claimants who are determined not disabled are provided an opportunity to appeal this decision. Such claims are reviewed by a new adjudicative team. Further appeals are handled by the Social Security Administration or by the State Hearings process. Recipients of disability benefits, who are determined to be no longer medically eligible through the Continuing Disability Review (CDR) process, are offered a face-to-face hearing by the Office of Disability Hearings. Determinations are then made in accordance with federal regulation promulgated by the Social Security Administration. The program also refers those claimants with rehabilitation potential to the Department of Rehabilitation.

## Budget Adjustments

In 1989-90, the following budget adjustment is reflected:

- A reduction of \$180,000 and 30 positions (7.5 personnel years) to reflect the estimated savings due to the procurement and utilization of data processing equipment.

In 1990-91 the following budget adjustment is proposed:

- A continued reduction of \$725,000 and 30 positions (30.0 personnel years) to reflect the estimated savings due to the procurement and utilization of data processing equipment.

## 60 ADMINISTRATION

## Program Objectives Statement

The objective of this program is to provide sufficient managerial and administrative services as well as planning program support to ensure the most efficient and effective use of available staff and resources in achieving the overall goals of the Department's programs. Therefore, a program of management and administrative support has been developed and continues to be an integral feature of the Department's programs.

With the proper level of executive leadership and their staff support, the Department of Social Services is able to function in an efficient and effective manner.

## Budget Adjustments

In 1989-90, the following budget adjustments are reflected:

- A reduction of 1.0 position (0.9 personnel year) in order to pay for position upgrades in the Administration program.
- Reduced staffing for the SACSS (Statewide Automated Child Support System) by 1 position (0.9 personnel year) to redirect funds to Operating Expenses and Equipment for SACSS.
- An increase of \$28,000 and 1.0 position (0.5 personnel years) to implement Foster Care Rate Reform as mandated by Chapter 1294, Statutes of 1989 (SB 370).

In 1990-91, the following budget adjustments are reflected:

- A continued reduction of 1.0 position (0.9 personnel year) in order to pay for position upgrades in the Administration program.
- A continuation of reduced staffing for the SACSS by 1.0 position (0.9 personnel year) in order to redirect funds to Operating Expenses and Equipment for SACSS.
- An increase of \$51,000 and 1.0 position (0.9 personnel years) to implement Foster Care Rate Reform as mandated by Chapter 1294, Statutes of 1989 (SB 370).
- A continued authorization of \$1,637,000 and 31.5 positions (29.8 personnel years) associated with the GAIN program.
- An increase of \$1,311,000 and 18.2 positions (17.3 personnel years) associated with Community Care Licensing program growth.
- A continued authorization of \$32,000 and 1.0 position (0.9 personnel year) to pursue overpayment recovery on foster care audits.
- A continued authorization of \$249,000 and 3.5 positions (3.3 personnel years) to conduct appeal hearings for foster care and county administrative expense claim audits.
- A continued authorization of \$34,000 and 1.0 position (0.9 personnel year) to process adjustments on county administrative expense claim audits.
- An increase of \$107,000 and 2.0 positions (1.9 personnel years) to maintain a quarterly administrative expense claim for the county welfare departments on an IBM compatible computer system.

\* Dollars in thousands, excluding salary range.

## 65 Earthquake Disaster Relief

## Program Objective Statement

The objective of the Earthquake Disaster Relief Program is to provide monetary assistance to individuals and families who have suffered losses of life, health or property not covered by other federal, state or private assistance programs. The program is comprised of three segments:

1. The 25 percent share of the Federal Individual and Family Grant Program which provides grants of up to \$10,400 to victims of Presidentially declared disasters;
2. State Individual and Family Supplemental Grant Program which provides grants up to an additional \$10,000 to disaster victims; and,
3. An administrative segment to provide sufficient managerial and administrative services to support the disaster effort.

## Budget Adjustment

In 1989-90 the following budget adjustment is reflected:

- An increase of \$19.4 million based on preliminary estimates of the Northern California Earthquake of 1989 and appropriated during a special Legislative session. Of this amount \$15 million is for grant costs. The remaining \$4.4 million and 35 positions (35 personnel years) is for related administrative costs.

## 97.10 Special Adjustments—Cost of Living Adjustments—(COLA)

## Program Objectives Statement

Cost of living increase funds for Department of Social Services programs are reflected separately for the 1990-91 fiscal year. The funding is to pass on the federal funds necessary to provide a 4.6 percent increase for the County Administration and Child Welfare Services programs. The Budget assumes no COLA increase will be provided for AFDC, SSI/SSP and Refugee programs. The following is an allocation of federal funds by program/element for fiscal year 1990-91.

Program	General* Funds	Federal* Funds	County* Funds	Total*
County Administration .....	-	\$20,542	(\$17,676)	\$20,542

RESERVES .....	\$599	\$43	\$43
Reserve for unencumbered balance of continuing appropriations .....	556	—	—
Reserves for economic uncertainties .....	43	43	43

<sup>10</sup> This fund contains tax proceeds subject to the State Appropriations Limit, Article XIII B of the Constitution. In addition to the amounts reflected as expenditures in this statement, appropriations subject to the limit are adjusted for increases or decreases in the fund's Reserve for Economic Uncertainties and do not include any amounts expended for debt service, subventions to local government, compliance with federal or court mandates and from appropriations made in previous years (carryovers). Additional information on the State Appropriations Limit is provided in the Governor's Budget Summary.

<sup>11</sup> The Beginning Reserves Balance will not tie with the amount shown by the State Controller, since the budget is displayed on an accrual basis and the Controller's balance is on a cash basis for the federal fund transfer.

## 5185 IMMIGRATION REFORM AND CONTROL ACT

## PROGRAM OBJECTIVE AND DESCRIPTION

In November, 1986 the federal government enacted the Immigration Reform and Control Act (IRCA) (Public Law 99-603). The Act allows certain persons illegally residing in the United States to apply for legal residency status if they otherwise qualify as legal residents under Immigration and Naturalization Service (INS) regulations. Eligible persons include those persons who have been in the United States since prior to January 1, 1982 (pre-82s) or have been engaged in specific types of agricultural work for at least 90 working days prior to May 1, 1986 (special agricultural workers—SAWS). The INS began accepting applications for legal residence on May 5, 1987. Pre-82 applicants had until May 4, 1988 to apply for temporary residency while SAWS could apply through November 30, 1988. Original estimates assumed that 900,000 persons would seek legalization in California. Based on the latest figures from INS, an estimated 1,637,911 persons have applied; 959,830 are pre-82s with the remaining 678,081 being SAWS.

Those newly legalized persons who are pre-82s must submit a new application for lawful permanent residency status. These applications must be submitted within a one-year period beginning the nineteenth month after they are granted temporary legal residency. This means that the estimated 959,830 pre-82 applicants must submit new applications to INS between November, 1988 and November, 1990. Specified criteria must be met by these newly legalized persons before they can convert to permanent residency. These include demonstrating basic proficiency in English and history and government of the United States, or showing satisfactory progress towards such knowledge by attending English-as-a-Second Language (ESL) and civics classes for at least 40 instructional hours. Newly legalized persons must also demonstrate they are working or otherwise self-sufficient, i.e. not likely to depend upon publicly supported cash assistance programs.

The federal government has appropriated funds, the State Legalization Impact Assistance Grant (SLIAG), to assist states and local governments with costs they may incur in providing public health, public assistance and educational services to eligible persons. The allocation is made to the states based on a formula taking into account population, impactation and costs. The amount available to states over the four-year allocation period (Federal Fiscal Years (FFYs) 1988, 1989, 1990 and 1991) was expected to be \$3.04 billion, after deducting the estimated federal offset from the annual \$1 billion in SLIAG appropriations. The congress reduced the amount available to the states in federal fiscal year (FFY) 1990 from what had previously been expected. While California received \$522 million in SLIAG funds in FFY 1989, the State will receive an estimated \$174.9 million in FFY 1990. However, unexpended balances from the FFY 1988 and 1989 grants are sufficient to prevent a cutback in services during State fiscal year 1989-90. The amounts budgeted in 1990-91 are predicated on a return to previous funding levels in FFY 1991.

The Health and Welfare Agency has been designated by the Governor as the lead agency in implementing IRCA in California. The Agency has formed an on-going broad-based working advisory group designed to solicit input on IRCA implementation from all affected State agencies, local governments, the Legislature, private non-profit organizations and advocacy groups.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

5185 IMMIGRATION REFORM AND CONTROL ACT—*Continued*

The initial 5-year expenditure plan, based in large part on information gathered from the working advisory group, was presented in the 1988–89 Governor's Budget. The primary assumptions used in developing that plan were that funds should initially be spent on core, rather than discretionary programs; funds should be expended over four and three-quarters years; and funds should be allocated through regular program delivery systems to the greatest extent possible.

The IRCA Implementation Plan outlined here continues those primary assumptions. Estimated program expenditures have been updated to reflect the latest population estimates of newly legalized persons as well as the most recent utilization information. Because this is a major new initiative, trend data are limited.

The following information outlines the programs funded under the IRCA Implementation Plan. A program description is included as well as estimated expenditures.

**PUBLIC HEALTH**

The federal regulations require that at least 10 percent of a state's SLIAG funds be spent on public health services unless there are insufficient costs to warrant full use of the 10 percent. Estimates indicate that California will not exceed 10 percent of the funds available under SLIAG. Therefore, the expenditure plan provides funding for the broadest range of public health services.

**Expenditures**

<b>PROGRAM</b>	<b>1988–89*</b>	<b>1989–90*</b>	<b>1990–91*</b>
<b>TUBERCULOSIS/LEPROSY CONTROL</b>			
This program seeks to eliminate transmission of tuberculosis and leprosy and the occurrence of new cases in California. Services include case finding, contact investigation, preventive treatment, laboratory, x-ray and pharmacy services. In 1990–91, an estimated 1,283 newly legalized persons will utilize this service.			
Expenditures (Local Assistance).....	\$3,000	\$609	\$359
<b>SEXUALLY TRANSMITTED DISEASES</b>			
The primary goals of this program are the prevention, treatment and interruption of the transmission of sexually transmitted diseases. Based on recent data pertaining to the utilization of public facilities, an estimated 22,802 persons will receive treatment in 1990–91.			
Expenditures (Local Assistance).....	1,700	1,024	2,536
<b>LABORATORY SUPPORT</b>			
Under this program, county public health laboratories are required to perform confirmatory follow-up laboratory tests as a result of initial positive laboratory tests obtained on newly legalized persons. No local assistance costs are anticipated in 1990–91 due to negligible activity.			
Expenditures (Local Assistance).....	1,008	—	—
<b>IMMUNIZATIONS</b>			
The Immunization Program exists to eliminate major vaccine-preventable diseases as public health threats. Program costs are based on the total per unit costs of different types of vaccines. The vaccine is purchased by the State Department of Health Services for shipment to local jurisdictions based on quarterly reports.			
Expenditures (Local Assistance).....	161	179	242
<b>PERINATAL SERVICES</b>			
Maternal and Child Health perinatal services include ambulatory prenatal and postpartum care, as well as nutrition, psychosocial and education assessments and follow-up care. All patients must qualify for low income status by virtue of having a family income at or below 200% of the federal poverty level. A sliding scale fee is charged though no payment is collected from a person who is at or below 100% of the federal poverty level. The 1988–89 program costs include \$500,000 for outreach services. This outreach campaign will span the 1988–89 and 1989–90 fiscal years. In 1990–91 these perinatal services will be provided under the MediCal program.			
Expenditures (Local Assistance).....	634	1,062	—
<b>FAMILY PLANNING</b>			
The Family Planning program provides family planning-related medical services (contraception, infertility and sterilization) in clinics throughout California. Family-planning related community and professional information and education services are also available. In 1990–91, counties may use funds from the IRCA subvention for family planning services.			
Expenditures (Local Assistance).....	1,200	1,800	1,300
<b>ADOLESCENT FAMILY LIFE</b>			
The Adolescent Family Life program provides a variety of services including perinatal care, health education, nutrition, psychosocial, child health and related ancillary services to pregnant and parenting teens. An estimated 793 persons will receive services in 1989–90 and 1,424 in 1990–91.			
Expenditures (Local Assistance).....	140	710	1,958
<b>IRCA SUBVENTION</b>			
The IRCA Subvention provides SLIAG funding for a variety of public health services not specific to categorical programs. These include treatment or counseling for behavior change to reduce the incidence of chronic diseases such as hypertension and diabetes and health education services to promote preventive health behaviors (e.g. cessation of smoking).			
Expenditures (Local Assistance).....	12,757	13,900	17,527
<b>Totals, Public Health Expenditures.....</b>	<b>\$20,600</b>	<b>\$19,284</b>	<b>\$23,922</b>

\* Dollars in thousands, excluding salary range.

## 5185 IMMIGRATION REFORM AND CONTROL ACT—Continued

## PUBLIC ASSISTANCE

Under IRCA, states have the option of disqualifying eligible persons from programs of state and local public assistance. The California IRCA Implementation Plan does not assume any disqualification of newly legalized persons for public assistance programs such as the State AFDC-U program, county general assistance programs or indigent health care. However, federal regulations require that, in order to provide reimbursement to a public assistance program, services provided to newly legalized persons must be tied to the individual; must be generally available to the public; and that the program administer a means test for eligibility.

Based on initial utilization patterns, it appears that newly legalized persons are using cash assistance programs at a significantly lesser rate than originally estimated. For example, the projections for general assistance during 1990-91 are less than \$1 million compared to early estimates of \$88.1 million. SSI/SSP is projected to be less than \$10 million, compared to the original estimate of \$21.4 million. Based on limited needs assessment data, there seem to be two primary reasons for these reductions. First, the newly legalized population is a working population, though they may be in low-paying jobs. Second, there may be a fear of disqualification from legalization on public charge grounds. A second related trend is the higher than anticipated utilization of indigent medical care programs.

## Expenditures

## PROGRAM

1988-89\*

1989-90\*

1990-91\*

## GENERAL ASSISTANCE

County general assistance programs provide cash grant assistance to needy persons who are not eligible for other cash assistance programs such as AFDC. General assistance programs are administered by County Welfare Departments in accordance with each county's regulations, standards and procedures. Payment levels vary by county. General assistance services are the responsibility of the county of residence. Counties make claims to the Department of Social Services for services actually provided to newly legalized persons. It is estimated that a monthly average of 135 persons will receive services in 1990-1991.

Expenditures (Local Assistance).....

\$278

\$339

\$475

## AID TO FAMILIES WITH DEPENDENT CHILDREN (AFDC-U AND AFDC-FG)

Needy children meeting basic eligibility requirements may receive AFDC if their parent(s) is not fully employed. Assistance is given in the form of a cash grant. This State-only AFDC-U program provides up to 3 months of aid in any 12 consecutive months. Also included is the State-only AFDC-FG program, providing cash assistance to pregnant women, who have no other children, for the duration of their pregnancies. The average monthly caseload is estimated to be 124 in 1990-91.

Expenditures (Local Assistance).....

123

209

304

## SUPPLEMENTAL SECURITY INCOME/STATE SUPPLEMENTARY PROGRAM (SSI/SSP)

The SSI/SSP provides cash grant assistance to aged, blind or disabled persons who meet the program's income and resource requirements. The average monthly caseload is estimated to be 3,427 in 1990-91.

Expenditures (Local Assistance).....

2,225

6,230

9,995

## FOOD STAMPS

The Non-Assistance Food Stamp program provides improved levels of nutrition among low income households by offering eligible households foodstamps. Under IRCA, only Special Agricultural Workers (SAWS) are eligible for food stamps. The average monthly caseload is estimated to be 870 in 1990-91.

Expenditures (Local Assistance).....

119

28

54

## FOSTER CARE

Children who are in need of protection and care by persons other than their parents and who require 24-hour out-of-home care in a foster family home or group home may receive cash assistance under the AFDC-Foster Care program. The Department of Social Services conducted a telephone survey of the 10 largest counties and found that counties reported 309 known foster care cases where the county had filed a legalized application for the child. Statewide it is assumed 350 children may be eligible for assistance. Due to lengthy discussions about the allowability of this program under federal regulations, Foster Care was not a covered cost in 1987-88.

Expenditures (Local Assistance).....

20

1,599

1,638

## CALIFORNIA CHILDREN'S SERVICES (CCS)

CCS is a State/county program that does case finding and provides specialized medical treatment services to physically handicapped children. Children through the age of 21 are eligible to receive services. It is estimated that 115 children who are newly legalized will be eligible for services.

Expenditures (Local Assistance).....

355

355

355

## PRIMARY CARE CLINICS

Primary care clinics provide medical care, health education and outreach services to targeted populations in rural areas. Funds are allocated through a request for proposal process. For 1990-91, primary care clinics are expected to provide 3.5 visits per person year of coverage for newly legalized persons receiving continuing care. An estimated 155,867 persons will receive services in 1990-91.

Expenditures (Local Assistance).....

13,600

23,123

27,747

\* Dollars in thousands, excluding salary range.

## 5185 IMMIGRATION REFORM AND CONTROL ACT—Continued

MEDICALLY INDIGENT SERVICES PROGRAM—LEGALIZED INDIGENT  
MEDICAL ASSISTANCE (MISP-LIMA)

1988-89\* 1989-90\* 1990-91\*

This program provides funding for medical services for persons who cannot afford to pay and are not eligible for other programs. Twenty-six large counties have a MISP and establish eligibility pursuant to Section 17000 of the Welfare and Institutions Code. In 1990-91 an estimated 105,056 newly legalized persons will receive MISP-LIMA services.

Expenditures (Local Assistance)..... 143,154 208,866 219,303

## COUNTY MEDICAL SERVICES PROGRAM (CMSP)

Under the CMSP, thirty-two small counties contract with the State to provide medical services to persons who cannot afford to pay and are not eligible for other programs. An estimated 9,000 newly legalized persons will be served by the CMSP in 1990-91.

Expenditures (Local Assistance)..... — 4,000 5,250

## MEDI-CAL

Under IRCA, newly legalized persons who meet Medi-Cal eligibility standards and who are aged, blind or disabled or children under 18 can receive the full scope of Medi-Cal services. Other newly legalized persons are eligible only for emergency services or pregnancy-related services. In 1990-91 it is assumed that 28,857 average monthly eligibles will have Medi-Cal coverage.

Expenditures (Local Assistance)..... 7,959 28,593 56,902

## MENTAL HEALTH

The California Short-Doyle program provides inpatient and outpatient mental health treatment services. Mental health services were not included in the 1987-88 expenditure plan but \$3 million was added by the Legislature in 1988-89 to provide services to an estimated 1,270 persons. It has initially been difficult to track services and costs in this program. However, it is expected that 1,560 newly legalized persons will receive services in 1990-91.

Expenditures (Local Assistance)..... 1,099 4,000 4,000

## MENTAL HEALTH

Mental Health Outreach programs include services delivered in the community-at-large to special population groups, human service agencies, and to individuals and families who are not usually clients of the Short-Doyle program. These services include Mental Health Promotion and Community Client Services. These programs are aimed at reducing the incidence of preventable mental illness in the target population.

Expenditures (Local Assistance)..... 1,901 2,000 2,000

## HOUSING AND COMMUNITY DEVELOPMENT (HCD)

HCD administers a variety of programs that may be eligible for SLIAG funding. Included are migrant farmworker centers, housing grants, housing rehabilitation loan and emergency shelter programs.

Expenditures (Local Assistance)..... — 4,030 3,148

Totals, Public Assistance Expenditures..... \$170,833 \$283,372 \$331,171

## EDUCATION

In accordance with federal law and regulations, the IRCA Implementation Plan distributes funds for educational services through the State Department of Education (SDE) which is the State Education Agency in California. SDE is responsible for distributing SLIAG funds to service providers, which include community colleges, K-12 adult education programs and community-based organizations in accordance with the IRCA education services delivery plan.

The federal IRCA regulations impose certain restrictions on funding educational services. These restrictions parallel the Emergency Immigrant Education Act, which was incorporated into IRCA. The restrictions include a three-year limitation on receiving services, a reimbursement cap of \$500 per person per year, and a ceiling on state education agency administrative costs of one and one-half percent.

The 1990-91 year is critical in terms of education services. As indicated previously, those newly legalized persons who are pre-82s must submit a new application in order to convert to permanent residency status. One of the criteria that must be met prior to conversion is a basic proficiency in English and history and government of the United States. The INS issued final regulations on the Phase 2 (conversion to legal residency) application process and education requirements. Pursuant to these regulations, completing 40 hours of an approved 60-hour course meets the requirement for conversion. Many pre-82s face a 1990-91 deadline date to adjust to permanent residency status.

Certain groups, children under 16, adults over 50 who have been in the country for 20 years, persons who have completed one year of formal schooling in the United States and persons with high school diplomas or a GED, are exempt from this requirement. In addition, SAWs do not have to meet the education standard. It is estimated that more than 700,000 pre-82s will need instructional services to help assure their successful conversion to lawful permanent residency. In 1990-91 the Administration continues the policy of targeting the education funds for services to those pre-82s needing the services in order to convert to permanent residency status. Education expects to serve one million amnesty students during the five-year funding period. This figure includes both pre-82s and SAWs.

In recognition of the need for ESL and civics courses, the revised expenditure plan includes an additional \$142,800,000 for adult education in the 1990-91 fiscal year. Over the first three years of the program, approximately \$400 million has been provided for ESL and civics. Educational programs reported serving 675,000 eligible students during the first two years of the program. Programs estimate serving an additional 600,000 amnesty students during 1989-90. This was sufficient to provide an average 100 instructional hours to persons wishing to convert to permanent residency and additional education services to newly legalized persons who request education to assist them to hopefully become citizens and more fully participate in our state and country. This is especially necessary because over 80 percent of our amnesty population is functioning below a basic skills level that is roughly equivalent to a fifth-grade education. In 1990-91, \$36,000,000 is being proposed for these critical services. These resources will provide service to 400,000 students for an average 100 hours of instruction per student. This figure includes an estimated 100,000 priority pre-82s who have not elected to begin required education classes until 1990-91 and 300,000 reenrollees.

\* Dollars in thousands, excluding salary range.

## 5185 IMMIGRATION REFORM AND CONTROL ACT—Continued

Expenditures		1988-89*	1989-90*	1990-91*
Adult Education				
Adult education courses are provided in English-as-a-Second Language and U.S. History/Civics which are necessary for conversion to permanent residency. Courses for persons not needing instructional services to obtain permanent residency (including SAWs), and other courses allowable under federal law for reimbursement may also be offered to the extent funds are available.				
Expenditures (Local Assistance).....		\$136,811	\$181,293	\$142,800
K-12 Supplemental				
Funding for K-12 services (including regular instruction) is provided to districts highly impacted by the number of newly legalized children served.				
Expenditures (Local Assistance).....		886	1,400	—
Totals, Education Expenditures.....		\$137,697	\$182,693	\$142,800

# Youth and Adult Correctional

---

## 5240 DEPARTMENT OF CORRECTIONS

The principal objectives of the Department are the control, care and treatment of men and women who have been convicted of serious crimes, or those admitted to the civil narcotic program, and committed to State correctional facilities. The Department's objectives also include the supervision of men and women who have been paroled from correctional facilities and returned to the community.

The Department is organized into three programs: Institutions Program, Community Correctional Program, and Central Administration Program. Within the Institutions Program, and located throughout the state, are 19 operating correctional institutions with 8 of these having reception centers. In 1990-91, the Department will continue to activate beds at new institutions to accommodate inmate population growth. Included within this budget is the Narcotic Addict Evaluation Authority and the Richard A. McGee Correctional Training Center.

The Community Correctional Program consists of four regions statewide and community correctional facilities which include public and privately operated Return-to-Custody facilities, Work Furlough facilities, Restitution Centers, Prison Mother programs, and Substance Abuse programs.

The Central Administration Program is organized into five line divisions: Institutions Division, Evaluation and Compliance Division, Planning and Construction Division, Parole and Community Services Division, and Administration Services Division.

The Department's total institution population is projected to increase to 94,320 by June 30, 1990. To house these inmates, the Department proposes to activate 11,448 beds, including 5,030 beds at two new facilities. For 1990-91, this inmate population is projected to increase to 105,690 by June 30, 1991, requiring the Department to activate 11,370 additional beds, including 5,272 beds at three new facilities. In addition, the Department's parole population is projected to increase by 8,191, to 61,970, by June 30, 1990, and by an additional 8,555, to 70,525, by June 30, 1991.

During the 1989-90 budget hearings, the Legislature's concerns that the Department's projected institution population would not achieve the projected levels resulted in a \$28.7 million unallocated reduction to the Department's budget. The Department's population trends for the current year are only slightly below the Spring 1989 projection and will therefore require restoration of most of the \$28.7 million unallocated reduction. Restoring these funds was anticipated in set-aside veto actions by the Governor.

For 1990-91, as part of the overall General Fund budget development strategy, the budget includes a \$20.6 million unallocated savings requirement, to be met through program efficiencies identified by the Department during 1990-91.

## 21 INSTITUTION PROGRAM

## Program Objectives Statement

The Department of Corrections is required by statute to accept convicted felons and civilly committed nonfelon narcotic addicts from California courts when their sentence is imprisonment in a State correctional facility. It is the Department's responsibility to provide safe and secure detention facilities to protect society from further criminal activities and to provide necessary services such as feeding, clothing, medical care, psychiatric and counseling services and training, including academic and vocational education.

## BUDGET ADJUSTMENTS

The current and budget years reflect the following adjustments:

- An increase of 156.2 positions (—66 personnel years) and \$28.8 million in 1989-90 and 2,994.3 positions (1,580.1 personnel years) and \$175.5 million in 1990-91 for custody and support staff required for the various bed activations and deactivations required to house the increased prison population. For 1990-91, these costs include \$50.5 million to activate 3 new State prisons at Madera, Imperial and Wasco, \$26.4 million in bond funds support for new prison activation and temporary construction costs, \$0.7 million to support the shift of the Oak Glen Conservation Camp from the Department of the Youth Authority to CDC and \$1.6 million to staff an additional 190 beds for the AIDS unit at the California Institution for Men.

- An increase of 1.1 Sergeants in 1990-91 funded through overtime funds, to provide In-Service Training for employees at CIW.

- An increase of 15.0 positions (14.2 personnel years) and \$900,000 in 1990-91 to implement a female outpatient psychiatric program at CIW, NCWF and ASP.

\* Dollars in thousands, excluding salary range.

## 5240 DEPARTMENT OF CORRECTIONS—Continued

- A permanent redirection of education contract funds to establish 10 teacher positions (5 personnel years in 1989 and 10 personnel years in 1990-91) at CMC.
- An increase of 5 stationary engineer positions (4.8 personnel years) and \$305,000 in 1990-91 to bring Corcoran State Prison into compliance with Title 8 California Code of Regulations for high pressure boilers.
- An increase of 2 positions (1.9 personnel years) and \$102,000 in 1990-91 for Heavy Equipment Mechanics at Folsom.
- An increase of 1.6 positions (1.6 personnel years) and \$74,000 in 1990-91 to process Parole Violator/Return to Custody cases at NCWF.
- A redirection of contract funds to establish 7 teacher positions (2.8 personnel years in 1989-90 and 6.6 personnel years in 1990-91) at SCC.
- An increase of 14.0 positions (13.7 personnel years) and \$570,000 in 1990-91 to perform culinary services at RJD, MCSP, ASP, and CVSP.
- A continuation of 12.0 positions (11.4 personnel years) and an increase of 3.5 positions (3.3 personnel years) and \$1,040,000 in 1990-91 to conduct staff and inmate investigations for the Investigative Services program.
- An increase of 63.5 positions (48.3 personnel years) and \$1,675,000 in 1990-91 to process inmate health records.
- A redirection of funds to establish 23 positions (21.8 personnel years) in 1990-91 to provide support for the workers' disability program.
- An increase of 1 position (0.9 personnel year) and \$34,000 in 1990-91 to handle the increased workload of the Inmate Welfare Fund at the North Coast Canteen Warehouse at CCC.
- An increase of 1 position (0.9 personnel year) and \$1,304,000 in 1990-91 to automate the canteen sales and inventory process for the Inmate Trust Accounting program.
- An increase of \$4,000,000 in Bond Funds in 1990-91 to support the Inmate Day Labor Special Repair program for a limited term of one year.
- An increase of \$657,000 in 1989-90 and \$1,915,000 in 1990-91 to augment the interagency agreement with DMH to support additional nursing staff and employee compensation increases for the psychiatric program at CMF.
- The shift of \$0.6 million in 1989-90 and \$1.7 million in 1990-91 from contract services to Local Assistance to reimburse local agency extradition costs in lieu of private extradition vendor services.
- The shift of \$59.8 million in community based bed contract funds from the Community Correctional Program to the Institution Program to properly reflect the housing costs for these inmates in the Institution Program.
- An increase of \$7,886,000 in 1990-91 to provide sufficient funding for the Department's recent growth in posted and other security-related staff.

## 21.05 Reception and Diagnosis

## Program Element Statement

A systematic method of intake, diagnosis, and classification is an integral part of the California correctional program. A personal history is compiled on each inmate, incorporating information principally from law enforcement agencies, courts, other correctional programs, the military, family, friends, and schools. This information is documented and used in diagnosing institutional custodial and program needs.

In addition to processing new commitments, 90-day diagnostic evaluations and 120-day evaluative reports on convicted offenders are provided to California courts at their request.

\* Dollars in thousands, excluding salary range.

5240 DEPARTMENT OF CORRECTIONS—*Continued*

Recent court decisions regarding more expedient Parole Violator-Return-To-Custody population processing coupled with the rapidly increasing inmate population have required the Department to alter its existing reception center processing function. The Department will spread peak inmate processing over a broader staffing base to better manage these increased needs. Reception center processing functions will continue at California Medical Facility, California Institution for Men and California Institution for Women and expand to five additional institutions including Deuel Vocational Institution, California Correctional Institution, California State Prison at San Quentin and Richard J. Donovan Correctional Facility at Rock Mountain. Civilly committed narcotic addicts will continue to be received and processed at the California Rehabilitation Center.

In addition, the Northern California Women's Facility has been designated to process Parole Violator-Return to Custody cases from the Northern California counties. The California Rehabilitation Center has been designated to complete the Post-parole Revocation Processing on selected inmates initially received at the California Institution for Men.

## 21.10 Security

## Program Element Statement

California law requires that the Department of Corrections provide secure and safe facilities to house convicted felons and civilly committed nonfelon narcotic addicts for the term of their sentences. Inmates are housed in the appropriate units equipped with the degree of security needed, based on the inmate's escape risk, violence propensities, and history of assaultive behavior. Custodial personnel are assigned to posts and perform a variety of functions including supervision of inmates in housing units, dining areas, recreation areas, specialized security areas, and on work details.

There are special security units in some institutions which house prison gang members and other violent prison offenders. These units require additional staff for increased security, more intensive searches, supervision and general surveillance.

## 21.20 Inmate Support

## Program Element Statement

The California correctional system has implemented rules, regulations, and practices which insure that inmates receive humane treatment and adequate support services, including food, clothing, housing, medical, dental, psychiatric care, counseling services, leisure activities and religion.

The Inmate Welfare Fund (IWF) was created in 1945 as a special trust fund for the benefit, education, and welfare of the inmates. The IWF is a self-supporting fund totally dependent upon its generated revenues. The largest IWF operation is the inmate canteen. While this is a major source of revenue, income is also derived from photo projects, handicraft sales, and interest on invested surplus IWF and inmate trust funds. Income from the IWF is used to provide certain inmate benefits such as the canteens, movie rentals, entertainment, handicraft materials, and equipment, and fiction library books.

## 21.30 Inmate Employment/Training

## Program Element Statement

The period of time an inmate is confined to a correctional facility provides an opportunity for personal development through the many training programs available. These programs include academic education, vocational education, and employment opportunities in Prison Industry Authority, conservation camps, or institution work assignments.

## 21.35 Community Based Program—Contract Services

## Program Element Statement

The Department of Corrections is responsible for inmates placed or released to community based facilities which are under contract with the Department to provide secure housing, subsistence, supervision and pre-release planning for eligible inmates who are determined to pose minimal public risk. The types of community based facilities addressed in this section include: 1) Community Work Furlough programs which include the Community Prisoner Mother Program (CPMP); 2) private Return-to-Custody (RTC) programs; 3) public RTC programs, and 4) a Substance Abuse Treatment Unit (SATU). Department parole supervision staffing levels and the inmate programs provided by each type of Community Based Program are described in the Community Based program element, Section 31.20.

## 21.40 Administration

## Program Element Statement

Administration within the Institution Program consists of the Narcotic Addict Evaluation Authority (NAEA), the Richard A. McGee Correctional Training Center, inmate benefits, and general administration.

The NAEA consists of seven part-time board members.

When a male or female addict in the Civil Addict Program or a parolee under the jurisdiction of the Narcotic Authority who has been returned to the California Rehabilitation Center or branch thereof, shows significant progress as a result of treatment and demonstrates the potential to abstain from narcotic drug use, the superintendent of the facility where the individual is confined certifies this progress to the NAEA for release consideration.

In addition, the Authority considers the cases of outpatients and parolees under its jurisdiction who violate their conditions of release/parole and determines whether these individuals should be returned to inpatient status for further treatment. A revocation hearing is held as soon as possible after an outpatient's/parolee's return to the California Rehabilitation Center or branch thereof.

## 21.50 Court Costs and County Charges

## Program Element Statement

Penal Code Sections 4700.1 and 4750-4755 provide for the reimbursement to counties for court costs and other charges incurred in connection with (1) any crime committed at a state prison by a prisoner, employee, or other person; (2) any hearing on any return of a writ of habeas corpus prosecuted by or on behalf of a prisoner; (3) any trial or hearing on the question of the sanity of a prisoner; (4) an extradition proceeding for any prisoner released to hold; (5) coroner's services resulting from the death of a prisoner; and (6) the transportation of a prisoner within the host county, or to and from other counties when requested by the Department of Corrections.

Input	1988-89*	1989-90*	1990-91*
Expenditures (Local Assistance) (General Fund) .....	\$8,288	\$9,300	\$8,110

## 31 COMMUNITY CORRECTIONAL PROGRAM

## Program Objectives Statement

The primary objective of the Community Correctional Program, consistent with the public's safety, is to increase the rate and degree of successful reintegration and release to society of adult offenders released to the jurisdiction of the Parole and Community Services Division from State prison. This objective is attained by providing support services, community program referral, control of behavior, and by increasing community awareness and understanding.

## Budget Adjustments

The budget reflects the following adjustments:

• A reduction of 16.6 positions (0.4 personnel years) and \$1.7 million in 1989-90 and an increase of 288.2 positions (139.0 personnel years) and \$10.5 million in 1990-91 for a current year parole caseload which is slightly lower than previously budgeted levels and to provide parole agent staffing for the projected budget year increase in the parole population. The 1989-90 amount includes a savings of \$1.4 million due to delays or cancellations in community based facilities, a transfer of \$0.4 million from Local Assistance to support contract city jail beds for detained parolees and savings of \$0.3 million for the lower parole caseload. The 1990-91 amount reflects a transfer of \$1.3 million from Local Assistance to support contract city jail beds.

\* Dollars in thousands, excluding salary range.

5240 DEPARTMENT OF CORRECTIONS—*Continued*

- Local Assistance savings of \$1.0 million, due to the decreased county detention costs for CDC parolees, are reflected for both the 1989-90 and 1990-91 fiscal years.
- An increase of 9.5 positions (9.0 personnel years) and \$313,000 in 1990-91 to process parole records.
- An increase of 11 positions (10.5 personnel years) and \$565,000 in 1990-91 to process parole violators through the revocation process.
- An increase of 1.5 positions (1.4 personnel years) and \$84,000 in 1990-91 to process the extradition of parolees and inmates.
- A continuation of 110 positions (110 personnel years) and \$9,464,000 through 1990-91 to continue a program of intensive supervision of selected parolees to prevent parole revocation and reincarceration due to substance abuse violations.
- A continuation of \$1,862,000 in 1990-91 to provide third year funding of a five year program to implement a distributive data processing system.
- An increase of 8.0 positions (7.7 personnel years) and \$469,000 in 1990-91 to provide necessary administrative staff for the expanding community based bed program (CBB—SB 1591).
- An increase of 20.5 positions (19.5 personnel years) and \$1,337,000 in 1990-91 to provide psychiatric services in the Parole Outpatient clinics.
- A shift of \$59.8 million in community based beds contract funds for local inmate housing from the Paroles program to the Institution program for inmate housing to properly reflect the housing costs of these inmates in the Institution program.
- An increase of \$714,000 in 1990-91 to provide sufficient funding for the Department's growth in security-related staff.

**31.10 Supervision—Case Services****Program Element Statement**

The element is composed of two components which are: (1) felon supervision with parole agents supervising caseloads averaging 53.2 cases; and (2) nonfelon supervision for civil addicts with parole agents supervising caseloads averaging 47 cases, including cases within 60 days of institutional release and cases where the addicts have been returned for short-term treatment. Differential supervision is basic to the parole operation. When required case assessments indicate, selected parolees will be placed in a category of supervision intended to prevent, detect or interrupt behavior likely to endanger the community or themselves. These categories include: high control and high service which provide more frequent supervision and detection elements; control/service which is the standard supervision level; and parolees assessed as posing little or no risk to the community, requiring infrequent or low needs for services, which is a minimum supervision category. As a parolee's situation changes, scheduled reassessments will result in reclassification from one level of supervision to another.

Special supervision elements include "home detention" which is monitored with electronic devices, and special inpatient and outpatient substance abuse treatment programs.

**31.20 Community Based Program****Program Element Statement**

The Department of Corrections is responsible for the placement, supervision, treatment, and transportation of inmates released to community based facilities shortly before established parole dates. These community based facilities include: (1) restitution programs, (2) local government detention facilities, (3) transportation, and (4) staffing for community work furlough programs, returning-to-custody programs, and substance abuse treatment programs.

The restitution program provides a means for inmates with low risk to the community to be able to pay their victims financial restitution as ordered by the sentencing court, or as agreed upon by the defendant and his/her victim(s). These inmates must meet numerous specialized conditions prior to placement.

Local governments are reimbursed as authorized by Penal Code Sec. 2910 et seq. and 4016.5 for their costs incurred in detaining (1) alleged parole violators, (2) persons whose parole had been revoked, and (3) community based inmates temporarily jailed for disciplinary or classification reasons.

The transportation units for the community based facilities are comprised of custody teams dedicated to the movement of inmates in and out of return-to-custody, work furlough, and other community based programs.

Community work furlough programs which are designed for the gradual re-entry of selected inmates into the community, provide housing, supervision, counseling, pre-release planning and other re-entry programs in a controlled environment on a contracted basis with parole agent supervision. The work furlough programs are divided between State operated facilities, supplying the more structured setting, and contracts with private organizations which provide greater community access. These inmates are supervised by parole agents averaging caseloads of 44 cases each.

\* Dollars in thousands, excluding salary range.

## 5240 DEPARTMENT OF CORRECTIONS—Continued

Return-to-custody programs are provided through contracts with public agencies and private profit and nonprofit corporations. These programs provide secure facilities and programming including housing, subsistence, supervision and pre-release planning for inmate eligibles determined to pose minimal public risk. These inmates are supervised by State and/or private custody staff, and parole agents who average caseloads of 100 cases each. The substance abuse treatment program is a community based facility that provides an alternative to incarceration when certain technical violations occur.

## 31.30 Services to Parolees

## Program Element Statement

The Department of Corrections is responsible for providing certain services to parolees and their families. These services include: (1) short-term financial support; (2) medical/psychological attention; and (3) residential placement until a suitable independent residence is established.

The primary purpose of Psychiatric Outpatient Services is to offer psychotherapy to parolees and members of their families and to offer consultation and evaluation of special cases for parole agents, the Board of Prison Terms, and the Narcotic Addict Evaluation Authority.

Following institutional psychiatric treatment, inmates with a history of aggravated assault crimes, serious sex offenses and offenses with other indications of mental illness are often required to participate in additional psychiatric treatment while on parole. Over 95 percent of parolees receiving psychiatric treatment do so pursuant to a special condition of parole imposed by the department or by the Board of Prison Terms.

Mandatory psychiatric services are supplemented by clinical evaluation, treatment or consultation to many parolees who require them because of occasional serious mental health problems which may or may not be associated with new criminal acts. Approximately 15 to 20 percent of the parole population requires these services.

Successful parole programming requires the implementation of the most effective techniques to detect and deter the use of controlled substances and other illegal narcotics by parolees and thereby reduce their incidence of readdiction. Urinalysis, routine physical examinations, naltrexone blocking, and methadone maintenance are used to deter and/or detect opiate and substance abuse. Urinalysis testing of parolees with histories of substance abuse or other drug addiction is performed by contract laboratories.

Persons released on parole, or to community based programs, are frequently in need of supportive services during periods of unemployment, family disruptions, or for reasons of physical and/or mental disturbance. The department assists such persons in these situations by providing short-term financial support, medical and/or psychological attention, or meaningful residential placement pending establishment of suitable independent residence in the community.

## 41 CENTRAL ADMINISTRATION

## Program Objectives Statement

The Department of Corrections operates with an administrative organization consisting of the Office of the Director, five line divisions, and several staff services functions.

The Institutions Division is responsible for all field operations including institutions, classification, medical, education, and related program services.

The Administrative Services Division is responsible for the business affairs of the department including personnel, training, budgeting, accounting, feeding, statistics, and data processing.

The Planning and Construction Division is responsible for the planning of new facilities and the renovation of existing facilities.

The Evaluation and Compliance Division provides staff services for management analysis, compliance reviews of institutions and parole regions, research and inmate appeals and fiscal audits.

The Parole and Community Services Division is responsible for the parole supervision and for program services for Community Based facilities.

The staff services functions include public information and legislative liaison. These offices are responsible for providing advice and counsel to the director and line administrators in their specialty areas.

## Budget Adjustments

The current and budget years reflect the following adjustments:

- An increase of 5 positions (1.7 personnel years) and \$190,000 million in 1989-90 and 5 positions (5.0 personnel years) and \$566,000 in 1990-91 to replace private vendor services used for the return of fugitives to CDC custody.
- An increase of 6 positions (6 personnel years) and equipment and \$1,851,000 in 1990-91 for the inmate transportation program.
- An increase of \$1,051,000 in 1990-91 to implement a pilot project for drug intervention for inmates and parolees and to develop substance abuse education information.
- An increase of 17 positions (8.1 personnel years) and \$461,000 in 1990-91 to provide support and maintain automated information systems.
- A redirection of contract funds to establish 2.5 institutional artist facilitator positions (1.2 personnel years) in 1989-90 and 2.5 positions (2.4 personnel years) in 1990-91 to provide support for the Arts-In-Corrections Program at new institutions.
- A continuation of 1 Energy Resource position (0.9 personnel years) and \$59,000 in 1990-91 to assist with energy conservation.
- An increase of 1 position (0.9 personnel years) and \$53,000 in 1990-91 to audit construction contracts.
- A redirection of contract funds to establish 4 positions (3.8 personnel years) in 1990-91 to consolidate the department's warehouse operations.
- An increase of 1 position (0.9 personnel years) and \$57,000 in 1990-91 to meet increased space management workload.
- An increase of 4 positions (3.8 personnel years) and \$120,000 in 1990-91 to assist with the Contract Services Unit's increased workload.
- An increase of 3 positions (2.8 personnel years), funded through the redirection of inventory funds, in 1990-91 for materials, records, forms and property management workload in Central Office.
- An increase of 4 positions (3.8 personnel years) and \$35,000 in 1990-91 to provide support for the Parolees Program in the Accounting Services Section.
- An increase of 3 positions (2.8 personnel years) and \$38,000 in 1990-91 to provide support for the Central Administration Program in the Accounting Services Section.
- An increase of 2 positions (1.9 personnel years) in 1990-91 to meet increased budgeting workload in Central Office.
- An increase of 2 positions (1.9 personnel years) and \$66,000 in 1990-91 to provide third-year funding of a five-year program to implement a distributed data processing system.

\* Dollars in thousands, excluding salary range.

## 5240 DEPARTMENT OF CORRECTIONS—Continued

- An increase of 1.0 position (0.9 personnel year) and \$99,00 in 1990-91 to provide medical direction to the community based bed program.
- An increase of 2 positions (1.9 personnel years) in 1990-91 to augment the Central Office personnel clerical support staff.
- An increase of 1 position (0.9 personnel years) in 1990-91 to meet increased personnel operations workload in Central Office.
- An increase of 4 two-year limited term positions (3.8 personnel years) and \$243,000 in bond funds in 1990-91 to develop and maintain a medical management information system.

1990-91\*

## CAPITAL OUTLAY

The California Prison System continues to experience serious pressure from the unprecedented growth of inmate population. As increasing numbers of felons are committed into the custody of the Department of Corrections, a need for inmate housing developed which drastically exceeds the Department's ability to accommodate prisoners. To meet this need, the Department of Corrections is continuing with a Prison Construction and Renovation program which will add 41,702 new beds to the prison system. As of December 1989, the Department had completed construction on 24,362 new beds, 4,520 beds were under construction and almost 12,820 were in various stages of planning and design.

Financing for this new prison construction program is provided primarily through two methods. Four general obligation bond acts totaling \$2.1 billion \*\* have been approved by the voters. Also, various special legislation authorized financing of construction for five prisons through State Public Works Board issued lease-purchase debt revenue bonds. Through this combination of funding sources, sufficient funding is in place to complete 13 all new prison facilities, 8 major expansions at existing prison locations, plus numerous new camps and modular additions. In addition, partial funding has been provided for two new prisons.

The current prison population expansion also puts a severe strain on existing institutions. The accelerated deterioration associated with prolonged overcrowding conditions, combined with court decisions specifying conditions under which inmates may be housed, requires major capital outlay improvements to several existing facilities. The budget year proposes to continue necessary improvements at existing facilities through 23 major capital outlay projects at 10 institutions totaling \$19,004,000. An additional \$2,722,000 has been proposed for 25 minor capital outlay projects statewide, and \$200,000 for preparation of budget estimates and advance planning.

\*\* Includes funds set aside from the 1986 and 1988 Prison Construction Bond Funds for Youth Authority and \$40 million appropriated to the Board of Corrections from the 1988 Prison Construction Bond.

<sup>1</sup> This display indicates the direct design and construction costs, by fund source, for new prison bed projects as appropriated by the Legislature and net of Public Works Board actions. Alternative financing amounts reflect, similarly, the estimated amounts available for design and construction purposes when revenue bond issues were sized for sale. For Madera, the figure reflects the estimated direct costs when Alternative Financing was authorized. Indirect staff expenses, bond overhead, and interest costs are not reflected in this display.

\* Dollars in thousands, excluding salary range.

## 5430 BOARD OF CORRECTIONS

The Board of Corrections establishes standards for the construction and operation of local jails and inspects them biennially; establishes standards for employment and training of local corrections and probation personnel and funds the training; and administers the County Correctional Facility Capital Expenditure Funds. On request of the Governor, the Board also conducts special studies in penology and corrections.

## 11 STANDARDS FOR DETENTION FACILITIES

## Program Objectives Statement

The principal activities of this program relate to local, adult corrections in the state. The Board promulgates regulations relating to the design and construction of local detention facilities and to the conditions of confinement of adults in these facilities. It conducts regular inspections, provides technical assistance, and makes biennial reports on the conditions of jails in the state to the legislature. Regulations relate to design of physical plant, fire and life safety, program activity, personnel training, food, clothing, bedding, medical care, and sanitation. The Board also reviews, by law, architectural plans and specifications for jail remodeling and construction and, at the request of counties or cities, conducts studies into their detention needs.

## 12 COUNTY JAIL CONSTRUCTION FINANCING PROGRAM

## Program Objectives Statement

The County Jail Construction Financing Program originated in 1980. The program provides funds for the construction, remodeling, replacement, and deferred maintenance of county jail facilities. The program assists counties from prearchitectural planning and assessment through design, facility occupancy, and transition into the new jails. With an initial \$40 million General Fund appropriation in 1980 (Chapter 1351, AB 3245), the program has been followed by five bond acts that total \$1.455 billion (Proposition 2 in 1981—\$280; Proposition 16 in 1984—\$250 million; Proposition 52 in 1986—\$475 million; and Propositions 80 and 86 in 1988 \$40 million and \$410 million respectively). The \$40 million appropriated in 1980 has been disbursed. Of the \$1.455 billion available through the bond acts, \$516 million has been disbursed to counties through the 1988-89 fiscal year. It is estimated that a total of \$143 million and approximately \$200 million will be disbursed during the 1989-90 and 1990-91 fiscal years, respectively.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## 21 STANDARDS AND TRAINING FOR LOCAL OFFICERS

## Program Objectives Statement

For the purpose of improving the performance of local corrections and probation officers, Penal Code Section 6035 requires the Board of Corrections to adopt rules establishing minimum standards for the selection and training of all local corrections and probation officers. Penal Code Section 6040 establishes a Corrections Training Fund which derives its revenue by levying an assessment upon fines imposed and collected by the courts for violations of certain sections of the Penal and Vehicle Codes. These revenues provide state aid to any county or city which adheres to the selection and training standards established by the Board.

Three distinct functional areas of responsibility for the Board of Corrections can be identified within the mandates of Penal Code Sections 6035 through 6044: (1) operations functions; (2) assistance to cities and counties; and (3) administration of the program.

The operations function will conduct detailed research analyses of tasks associated with all local corrections and probation positions, establish selection standards, establish training standards, and coordinate efforts to increase effectiveness by stimulating the development of education and training courses to meet identified needs.

Assistance to cities and counties will be provided to encourage and assist local corrections and probation agencies to comply with the minimum selection and training standards. Each local jurisdiction participating in the program will be reimbursed from the Corrections Training Fund in proportion to the number of corrections or probation officers trained and to the extent funds are available.

The administrative function will provide direction and control over the local assistance program so that the overall objective may be realized in the most efficient and economical manner possible. This function will include close supervision of training to maintain quality control, certifying training attendance and completion, processing local government claims for payment, and establishing criteria for meeting training requirements.

## 31 ADMINISTRATION

## Program Objective Statement

The Board of Corrections, in order to successfully fulfill its mandated responsibilities, operates with an administrative organization consisting of the Executive Officer, Executive Secretary, Administrative Officer and an 11 member Board. The Executive Officer implements the policies established by the Board of Corrections, provides leadership and direction for the Board's functions and ensures efficient and effective use of available resources.

## 5440 BOARD OF PRISON TERMS

The Community Release Board was established with the enactment of Chapter 1139/76 (SB 42), July 1, 1977. The Board was renamed to the Board of Prison Terms effective January 1, 1980 with the enactment of Chapter 255/79 (SB 281). The Board considers parole release and establishes the length and conditions of parole for all persons sentenced to prison under the Indeterminate Sentence Law, persons sentenced to prison for a term of less than life under Penal Code section 1168 (b), and for persons serving a sentence for life with possibility of parole. The Board also reviews the sentences of all determinately sentenced (DSL) prisoners and may recommend to the court that the sentence be recalled and the prisoner resented.

The Board may suspend or revoke the parole of any prisoner who has violated parole. The Board determines the necessity for rescission or postponement of parole dates for persons sentenced to prison for life, persons sentenced under Penal Code section 1168, and persons sentenced to prison under the Indeterminate Sentence Law. The Board may waive parole for any prisoner and may discharge any prisoner prior to the expiration of the statutory maximum parole period. Upon request of persons determinately sentenced, the Board reviews the length and conditions of parole imposed by the Department of Corrections and the Department's denial of good time credit, and may modify the Department's decision. The Board also advises the Governor on applications for clemency.

The Board is composed of nine Commissioners appointed by the Governor and confirmed by the Senate for terms of four years each. The terms are staggered and Commissioners are eligible for reappointment. A chairperson of the Board is designated by the Governor. Deputy Commissioners are employed by the Board in civil service positions. Their duties include hearing and deciding cases. An executive officer is appointed by the Board, who is responsible for the ongoing operation of the Board in accordance with Board policies. Other civil service staff include management, investigative, stenographic and clerical personnel to facilitate the performance of the Board of Prison Terms duties. The Board of Prison Terms maintains its headquarters in Sacramento.

## 5450 YOUTHFUL OFFENDER PAROLE BOARD

The Youthful Offender Parole Board is the paroling authority for young persons committed by the courts to the Department of the Youth Authority. The Board was established in 1941 by the Legislature as the Youth Authority Board. When the Department of the Youth Authority was created in 1942, the Director also served as the Chairman for the Board. The Board separated from the Department of the Youth Authority on January 1, 1980, when it was renamed the Youthful Offender Parole Board. Support services for the Board, such as budgeting, accounting, personnel, business services, etc., are provided by the Department of the Youth Authority under a contractual agreement.

The Board is composed of seven members appointed by the Governor and confirmed by the Senate for terms of four years each. One member of the Board is designated as Chairman by the Governor. The powers and duties of the Board, as set forth in Section 1719 of the Welfare and Institution Code are:

- Return of persons to the court of commitment for redispotion by the court
- Discharge of commitment
- Orders to parole and conditions thereof
- Revocation or suspension of parole
- Recommendations for treatment program
- Determination of the date of next appearance
- Return of non-resident persons to the jurisdiction of the state of legal residence

The case of each ward is heard by the Board immediately after the case study of the ward has been completed. The Board periodically reviews the case of each ward for the purpose of determining whether existing orders and dispositions should be continued or modified. These reviews are made as frequently as the Board considers desirable and shall be made at intervals not to exceed one year.

The Board uses a classification system which designates young offenders by categories of offense. These categories guide the Board in setting parole consideration dates, that is, that presumptive period of incarceration after which a person can be released to parole without being a danger to society.

During the 1988-89 fiscal year the Board conducted 20,496 hearings. Of those hearings 63% were institutional cases and 37% were parole cases.

The hearings have been categorized as follows: Initial hearings; referrals to parole which includes approval, denial or requests for parole plans; miscellaneous hearings which include annual reviews, disciplinary hearings and other hearings conducted in the institutions or in the locale where wards are on parole; and parole hearings which include probable cause violation/disposition, rescission and discharge hearings.

	86-87	87-88	88-89
Initial Hearings .....	4,163	4,054	3,859
Referrals to Parole .....	2,148	1,912	2,740
Miscellaneous Hearings .....	12,608	6,987	8,972
Parole Hearings .....	5,846	8,368	4,925
TOTAL .....	24,765	21,321	20,496

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## 5460 DEPARTMENT OF THE YOUTH AUTHORITY

The primary mission of the Youth Authority is to protect society from the consequences of criminal activity by: (1) providing a broad range of services to youthful offenders committed to the Department, directed towards the permanent reduction of criminal behavior; (2) assisting local criminal justice agencies with efforts to combat crime and delinquency; (3) encouraging the development of local crime and delinquency prevention programs.

## Goals

Delinquency Reduction: *Reduce probability of illegal behavior* by youth not yet involved in the justice system, but who have exhibited antisocial characteristics.

Offender Rehabilitation: *Reduce continuing illegal behavior* by offenders.

Research: *Systematically develop knowledge* about delinquency reduction and offender rehabilitation.

The Department is organized into four branches: Institutions and Camps; Parole Services; Prevention and Community Corrections, and Administrative Services. Programs are managed by the branches under direction of the Director of the Youth Authority.

## SUMMARY OF PROGRAM REQUIREMENTS

## 10 PREVENTION AND COMMUNITY CORRECTIONS

## Program Objectives Statement

The goal of the Prevention and Community Corrections Program is to protect the public from the damaging effects of crime by assisting local justice system agencies in their efforts to combat crime and delinquency, to encourage and assist communities in the development of prevention programs and to ensure quality care in local juvenile detention and custody facilities by developing and maintaining minimum standards for local detention facilities. Branch staff work cooperatively with county probation departments, law enforcement agencies, schools and other governmental and private agencies and organizations concerned with community corrections, juvenile law enforcement and youth crime and delinquency prevention at the local level. The major responsibilities of this program include crime and delinquency prevention, community corrections, juvenile law enforcement as well as the County Justice System Subvention Program and providing training for local justice agency personnel.

These responsibilities are divided into two operations: Support Services and Field Services.

## 10.10 Support Services

## Program Element Statement

Support Services provides statewide leadership on issues relative to crime and delinquency prevention, community corrections, juvenile law enforcement, public protection, and training. This operation has responsibility for developing policies and procedures for programs which provide services to local communities. It also administers state bond funds allocated for construction and deferred maintenance of county juvenile detention facilities and develops standards for all local detention facilities and jails that detain minors. Standards for youth service bureaus and other community-based prevention and correctional programs are also developed. A delinquency prevention appropriation is made available for locally sponsored projects through a competitive process. Funding is provided for youth service bureaus which provide services to help young people lead socially productive lives. Policies and procedures are developed for reviewing, monitoring, and evaluating funded programs as well as for the County Justice System Subvention Program. Support services are provided to the State Commission on Juvenile Justice, Crime and Delinquency Prevention which is established to advise the Department on matters pertaining to crime and delinquency prevention and juvenile justice practices. Limited training is also provided to law enforcement and local justice agency personnel.

## 10.20 Field Services

## Program Element Statement

The three statewide regional offices are responsible for administering and monitoring funds authorized by the Legislature for prevention programs and youth service bureaus. The regional offices are also responsible for providing technical assistance and consultation to local communities in developing programs that provide public protection, improving resources for the detention, rehabilitation and reintegration of offenders, maintaining minimum standards for local detention facilities and providing information and new knowledge on programs in the field, developing programs designed to reduce the probability of at-risk youth from committing illegal acts, developing programs to improve criminal justice system effectiveness through increased coordination and communication with law enforcement, and providing specialized training for local justice agencies.

## 20 INSTITUTIONS AND CAMPS

## Program Objectives Statement

The objective of this program is to reduce the incidence and severity of delinquent and criminal behavior of juveniles and youthful offenders under Youth Authority jurisdiction in institutions. This is achieved by:

1. Accurately evaluating referrals and commitments.
2. Providing appropriate care, custody and treatment programs consistent with ward needs.

## Trends—Youth Authority Population:

1. Ethnic group composition of wards first committed to the Youth Authority has undergone a significant change in recent years. In 1975, minority group members constituted 59.3 percent of Youth Authority's commitments. In 1988, 74.2 percent of the total first commitments were from minority groups.

2. Since 1975, the juvenile court-criminal court "mix" of first commitments to the Youth Authority has shifted significantly. The 1975 ratio was 54 percent juvenile and 46 percent criminal court commitments. The 1988 ratio was 68.9 percent juvenile and 31.1 percent criminal court cases.

3. The median age of first commitments in 1975 was 18 years while in 1988 it was 17.8 years. The median age of those housed in Youth Authority facilities in 1975 was 19 and it was 19.1 in 1988.

4. First commitments directly to the Youth Authority were 3,404 in 1975. In 1988, it was 2,796. If commitments pursuant to 1731.5 WIC (M Cases) are included, the total for 1988 was 3,776.

5. The length of stay for Youth Authority wards released on parole in 1977 was 10.9 months. This compares to a length of stay of 21.9 months for parole releases in 1988.

Youth Authority institution populations for 1988-89 through 1990-91 fiscal years are shown in the table entitled Statement of Population—Institution.

## Budget Adjustments

● During the 1989-90 fiscal year, the ward population is expected to decline from 8,528 to 8,397 by June 30, 1990 resulting in an overall population decrease of 663 from the budgeted level of 9,060. This results in a decrease of 42 personnel years and \$2,948,000. In the 1990-91 fiscal year, the ward population is projected to decrease further from 8,397 to 8,273 by June 30, 1991. This is 787 less wards than previously budgeted, allowing savings of 161.7 personnel years and \$10,906,000. These amounts include savings of \$273,000 and 3.5 personnel years from a proposed new policy alternative which is projected to save 150 institution beds by June 30, 1991. This alternative proposes a goal to achieve "zero" balance net time adds/cuts over a three-year period. In recent months, there has been a slight decrease in time adds. A further decline in length-of-stay could be expected to result with a cooperative effort of program achievement and disciplinary alternatives. When fully achieved, this alternative is expected to reduce the ward population in the institution by 630 by the end of the 1993-94 fiscal year. Permanent funding of 4.1 personnel years and \$244,000 is also proposed to continue the bed savings alternative of providing complete psychological assessments ordered by the Youthful Offender Parole Board. This alternative is projected to save 20 institution beds as reflected in the above ward population projections.

● For 1989-90, an augmentation of \$1.5 million is also proposed to be combined with \$6.2 million in redirected operating expense savings to support increased Worker's Compensation costs projected to total \$7.7 million above the base budget level in the current year. For 1990-91, an additional \$3 million is provided to support Worker's Compensation costs projected to total \$8.6 million, with the balance of \$5.6 million to be funded by the redirection of program savings resulting from the transfer of the Oak Glen camp to the Department of Corrections, the closure of the El Centro Training and Silverlake Pre-Release Centers as well as the implementation of various other cost saving strategies.

● The 1990-91 proposed budget also includes activation of the N.A. Chaderjian School in October of 1990 for an increase of 236.9 personnel years and \$16,831,000, including \$1,200,000 from 1990 Prison Construction funds for the one-time activation costs of the new facility.

● State Lottery Funds totalling \$1,201,000 and 15.7 personnel years are proposed for 1990-91 for various ward education programs. The budget also includes an increase of \$455,000 and 9 personnel years in Lottery Fund expenditures in the 1989-90 fiscal year.

## 20.10 Case Planning

## Program Element Statement

Case planning within the Youth Authority operates to assist wards in their eventual reintegration into the community by evaluating and assessing individual needs and assigning them to programs which best prepare them for release and success in parole. The case planning process begins at the time youthful offenders are first referred to the Department and continues throughout their institutional stay. The case planning process includes diagnostic studies program assignment, objective setting and progress evaluations and parole planning.

## 20.20 Program Operations

## Program Element Statement

Program operations have responsibility for the routine day-to-day operations of institutions, camps, and community based facilities, and providing wards with appropriate care and opportunities for training and education. In keeping with the Department's mandate for, and commitment to, offender accountability and public safety, each ward is assigned to programs based on his/her individualized needs.

A wide range of training and education services are made available to wards including individual and group counseling, therapy, academic education, vocational training, Free Venture, work experience, employability and coping skills training, religious services, and recreational and cultural activities. Programs including Victims Services, restitutions, and public service provide a means of increasing offender accountability. Two 60-bed Planned Reentry Programs operate at Karl Holton and Ventura Schools, which provide intensive rehabilitation services within a shorter treatment period. A 50-bed Program at Karl Holton School and an 80-bed program at the Youth Training School provide an accelerated five-month activity/counseling experience. A Pre-Release Program has been developed as a transition for wards returning to the Los Angeles area and a community-based detention program has been developed at Silverlake. The Youth Authority presently has 134 Intensive Counseling beds designed for individuals with particularly severe emotional behavioral disorders who cannot be adequately housed in the general population. Some 148 Specialized Counseling beds are designed for those who exhibit either acute or long-term manifestations of social and emotional disturbances at a lower level of severity greater than can be reasonably addressed within a regularly staffed program. All institutions have drug programs with special drug program living units at Preston and the Youth Training School. Nelles School and Preston have programs aimed at dealing with sex offenders. The Youth Authority has also contracted beds with Butte, Imperial, Del Norte and Siskiyou counties for added program options.

## 20.30 Custody and Surveillance

## Program Element Statement

The custody and surveillance program has responsibility for maintaining appropriate security in all institutions and camps. Security measures include perimeter fencing, interior and exterior lighting, personal alarm security systems, tactical teams, ward movement accountability, security sound systems, periodic searches of the grounds and wards for contraband, electronic screening devices, temporary detention of wards who are in need of immediate confinement, and a special transportation unit to transport wards. There are three programs in the custody and surveillance category. They are: institutional security; detention; and transportation.

## 5460 DEPARTMENT OF THE YOUTH AUTHORITY—Continued

## 30 PAROLE SERVICES

## Program Objectives Statement

The objective of this program is to protect the public from further criminal activity by Youth Authority wards and to increase the likelihood of their successful reintegration into the community. The major activities of the Parole Services Program are individual and community assessment on new commitments, intensive re-entry services upon release to parole, supervision and surveillance of wards after re-entry, intervention to prevent violation behavior, taking corrective actions when necessary, liaison with community agencies, the coordination of several residential programs, the purchase or contracting of services for wards on parole, and administering the interstate compacts.

Youth Authority parole caseloads for 1987–88 through 1989–90 fiscal years are shown in the table entitled Statement of Parole Caseload.

## Budget Adjustments

● For the 1989–90 fiscal year, the budget proposes an additional \$1,642,000 and 24.3 personnel years for a parole caseload (California supervision) which is increasing from 5,288 to 6,099. This amount is offset by current year savings of \$443,000 due to the delayed activation of a new drug treatment program for parolees in Los Angeles County. The parole caseload will continue to increase in the 1990–91 fiscal year from 6,099 to 6,512 at a proposed cost of \$2,975,000 and 44.4 personnel years. Costs of \$155,000 and 2.0 personnel years are required for a proposed policy alternative that will increase parole caseload by an additional 120 by June 30, 1991, through alternatives to achieve a "zero" balance in institutional net time adds/cuts.

● For the 1989–90 fiscal year, an augmentation of \$1,500,000 is provided for major medical costs incurred for a critically ill parolee.

● The 1990–91 budget provides permanent funding for the Parole Community Custody Program bed savings alternative at a cost of \$960,000. The initial funding for the program was limited to a two-year pilot. When fully implemented, this program is estimated to annually save 114 beds in the institutions.

## STATEMENT OF PAROLE CASELOAD

## 30.10 Ward Program Services

## Program Element Statement

The ward program services element has primary responsibility for assisting wards in making a successful reintegration back into the community after their institutional release. Beginning at the time of commitment, ward program service works with wards families, local agencies and programs until their discharge from parole. As soon as a ward is accepted for commitment to the Youth Authority, the local parole office is sent the case file, the parole agent makes a visit to the ward's family, and prepares a community assessment report for use by clinic staff in the diagnostic process.

\* Dollars in thousands, excluding salary range.

## 5460 DEPARTMENT OF THE YOUTH AUTHORITY—Continued

For the first 90 days after a ward is released, intensive reentry services are provided. The parole agent has frequent contact with the ward and provides needed brokerage with community agencies. Direct and brokerage services continue to be offered after the reentry period, however, the level and intensity gradually diminishes as the ward becomes increasingly self-sufficient.

Parolees with medical, psychiatric, vocational, educational, substance abuse, gang affiliation, or other special needs can be provided counseling and financial assistance if other resources are not available and if such assistance is required to implement a parole plan or to assure a successful reintegration into the community.

Reimbursements .....				586	490	319

## 30.20 Public Protective Services

## Program Element Statement

The emphasis of this program is the protection of the public from further criminal behavior by Youth Authority parolees. This is accomplished through preventive actions which focus on solving problems before a law violation occurs and corrective actions which focus on ward accountability after a violation has occurred. The activities of the violation process may include investigations, searches, possible arrest and/or detention, probable cause/detention hearings and violation/disposition hearings.

Counties are reimbursed for the cost of detaining parolees awaiting hearings and/or transportation back to a Youth Authority facility. Local assistance funds are provided for this purpose.

## 30.30 Interstate Services

## Program Element Statement

The Interstate Services Program is a specialized unit that has the responsibility for administration of interstate compacts on juveniles and adults which provides for prior notification of possible probation and parole releases among the various states, investigation of plans and mutual arrangements for supervision, caseload supervision of Youth Authority parolees placed in other states, reporting and return of parole violators, resolving reported violation of interstate juvenile and adult probation cases to insure the court of jurisdiction is notified so appropriate action can be taken. The unit also coordinates the return of runaway juveniles to their state of residence and all movement of adult probation cases in and out of the state.

## 50 ADMINISTRATION

## Program Objectives Statement

The Department of the Youth Authority, in order to successfully fulfill the responsibilities charged to it by California law, operates with an administrative organization consisting of the Office of the Director, four line branches, and several staff functions.

The Director and Chief Deputy Director have overall administrative and program responsibility, provide leadership and coordination for departmental programs, and ensure the most efficient and effective use of the available staff and resources.

The Administrative Services Branch provides support services to the various program operations of the Youth Authority and is composed of seven divisions. The Program Support Division is responsible for management and policy analysis, food and nutrition services, consultation, program planning and evaluation, and business services. The Financial Management Division is responsible for accounting and budget services. The Automated Systems Division provides computer services, word processing services and statistical analyses. The Research Division evaluates programs and develops information about crime, delinquency prevention and corrections. The Facilities Planning Division is responsible for construction, energy conservation, and maintenance programs. Staff services functions for personnel and training are provided by the Personnel Management Services Division and the Training Services Division. The Branch Administration is responsible for grants and resources development and the coordination of all the services provided by the Administrative Services Branch.

## Budget Adjustments

- The 1990-91 budget reflects an increase in staff to provide support for the administration of the \$90 million bond funds authorized with the passage of Proposition 86 from the County Correctional Facility Capital Expenditure Bond Fund of 1988 for the construction, renovation, remodeling, etc., of local juvenile halls and local youth shelters/youth centers.

STATE BUILDING PROGRAM  
EXPENDITURES

Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
--------------------	-----------------------	----------------------

## 60 CAPITAL OUTLAY

The Fiscal Year 1990-91 budget includes funding for capacity related projects at the Fred C. Nelles School and El Paso de Robles School; program enhancements at the Northern California Youth School; a code-related project at the Youth Training School, and minor capital outlay projects at various institutions statewide.

## PROGRAM ELEMENTS

## Major Projects

## 60.01 STATEWIDE

60.01.020 Modular Classrooms .....	\$21 <sup>Ek</sup>	\$25 <sup>Ek</sup>	—
60.01.035 Budget Schematics and Estimates .....	—	100 <sup>Po</sup>	\$100 <sup>Pr</sup>
Provides funding to reimburse the Office of Project Development and Management for costs associated with the preparation of budget schematics and estimates for future capital outlay requests.			

## 60.04 NORTHERN RECEPTION CENTER CLINIC

60.04.010 New Ramona Colony Assessment District Infrastructure Improvement .....	—	480 <sup>Co</sup>	—
--	---	-------------------	---

## 60.02 PRESTON SCHOOL OF INDUSTRY

60.02.015 Renovate Infirmary Building .....	1,449 <sup>Cn</sup>	30 <sup>Cn</sup>	—
60.02.020 Pre-Camp Facility .....	3,670 <sup>CEn</sup>	47 <sup>En</sup>	—
60.02.025 Electric Doors for Living Units .....	538 <sup>WCn</sup>	30 <sup>WCn</sup>	—

## 60.26 NORTHERN CALIFORNIA YOUTH CENTER

60.26.005 N.A. Chaderjian School (600 Bed Youth Institution) .....	34,002 <sup>SCEno</sup>	21,178 <sup>CEno</sup>	—
60.26.015 Convert Laundry to Free Venture .....	—	32 <sup>PWo</sup>	435 <sup>Cr</sup>
This project is to convert the recently closed laundry building to accommodate Free Venture programs.			
60.26.025 New Staff Training Center .....	—	191 <sup>Po</sup>	5,489 <sup>WCr</sup>
This project provides a 125-bed staff training center.			

## 60.52 EL PASO DE ROBLES SCHOOL

60.52.010 New Maintenance Building .....	—	\$44 <sup>En</sup>	—
60.52.015 Youth Conservation Camp .....	\$7 <sup>En</sup>	2 <sup>En</sup>	—
60.52.020 Living Unit and Education Facility .....	5,068 <sup>CEn</sup>	343 <sup>En</sup>	—
60.52.020.872 Offsite Utilities for Living Unit and Education Facility .....	101 <sup>Cn</sup>	—	—
60.52.025 Expand and Relocate Visiting Space .....	656 <sup>Cn</sup>	—	—
60.52.030 Commissary Warehouse Addition .....	49 <sup>PWn</sup>	334 <sup>Co</sup>	—
60.52.035 Expand Kitchen and Dining Area .....	—	—	\$455 <sup>PWCr</sup>
Construct a 1,750 square foot addition to the main kitchen and a 1,000 square foot addition to the staff dining room.			

\* Dollars in thousands, excluding salary range.

## 5460 DEPARTMENT OF THE YOUTH AUTHORITY—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
60.54 FRED C. NELLES SCHOOL				
60.54.015 Living Unit and Education Facility .....		—	33 <sup>En</sup>	—
60.54.040 New Infirmary .....		—	—	170 <sup>PWr</sup>
This project will provide a new 5,400 square foot clinic/infirmary with ten overnight treatment rooms, dentist facilities, staff offices, X-ray and laboratory space, kitchen and psychiatric room.				
60.58 VENTURA SCHOOL				
60.58.010 Visitors Building Addition .....		387 <sup>Cn</sup>	—	—

## 5770 ROBERT PRESLEY INSTITUTE OF CORRECTIONS RESEARCH AND TRAINING

The Presley Institute develops and enhances research, education and training for corrections personnel within the youth and adult corrections systems. The Institute is governed by a 17 member Board of Trustees.

The goals and objectives of the Presley Institute are to develop long-term approaches to:

- Maintain California as a national leader in modern, humane, secure and efficient corrections programs.
- Develop a career path for all youth and adult corrections personnel through a comprehensive selection and training/education program.
- Develop continued training/education for youth and adult corrections personnel from in-service through post-secondary education.
- Evaluate, encourage, sponsor, develop, prioritize, finance and seek funding for research in youth and adult corrections.
- Establish a clearing house and dissemination system for corrections information.
- Sponsor seminars on correctional subjects.

### Budget Adjustments

- Reallocation of existing contract funds to establish an Executive Secretary I position, beginning in 1989-90.

### Authority

Penal Code, Part 3, Title 7, Chapter 3.5 (commencing with Section 5085).

Education

---

## 6100 DEPARTMENT OF EDUCATION

California's public education system is administered at the State level by the Department of Education, under the direction of the State Board of Education and the Superintendent of Public Instruction, for the education of approximately 4.8 million students from preschool age to adulthood. In 1989-90 \$21,171.4 million will be spent from State and local revenue sources for the State's public school pupils. In 1990-91, those expenditures are expected to increase to \$22,523.1 million. These expenditures are in addition to expenditures for teacher retirement costs, deferred maintenance and capital outlay, reimbursements to local educational agencies for state mandated costs, and bond interest and redemption shown in other parts of the Governor's Budget. The State administration aspects of the program are managed through six branches of the Department: the Executive Branch, the Governmental Policy Branch, the Program Assistance and Compliance Branch, the Field Services Branch, the Department Management Services Branch, the Curriculum and Instructional Leadership Branch and the Specialized Programs Branch.

The functions of the State staff in administering the programs described in this budget extend across six principal areas which include:

Policy development and coordination—promulgating regulations, implementing statutes, interpreting legislative intent, developing program goals, and coordinating with other agencies within the executive and legislative branches.

Curriculum and management assistance—assisting local educational agencies through the dissemination of information, conducting workshops and providing other in-service training, and performing other leadership functions.

Fund and product distribution—allocating funds appropriated by the State or federal government and distributing surplus or donated food commodities to local educational agencies.

Program and plan review—assessing the quality of operating educational programs and adhering to implementation requirements.

Regulatory action—resolving compliance issues identified through the program and plan review functions.

Consumer protection—following up on and resolving parent, student, or community group complaints unresolved by local agencies.

The primary goal of the Superintendent and the department is to provide education policy direction to local school districts, and to work with the educational community to improve academic performance. Major objectives of the department include working to: (a) provide sufficient time for learning to occur and to ensure that available time is used well; (b) upgrade both the quality and quantity of the content of schooling; (c) provide a comprehensive testing/monitoring program to enhance instructional/curriculum planning; (d) upgrade the quality of the teaching force through training and other incentives; (e) provide for higher quality instructional leadership for districts and schools; and (f) promote safe and orderly learning environments for our schools.

<sup>1</sup> Some of the amounts included as General Fund are for the purposes of meeting the minimum funding guarantee for educational programs pursuant to Section 8 of Article XVI of the California Constitution. Specific appropriations are identified in the following RECONCILIATION(S) WITH APPROPRIATIONS and are also summarized in the Budget Summary Schedule 9A, Proposition 98 General Fund Guarantee.

## MAJOR BUDGET ADJUSTMENTS

The Governor's continuing commitment to the improvement of the quality of K-12 education in California is reflected in the proposed budget for 1990-91. The budget demonstrates continuing support for the educational reforms initiated by Chapter 498, Statutes of 1983 (SB 813) in the areas of student academic performance, discipline, curriculum, and teacher quality. It reflects full implementation of Proposition 98 as well. Consistent with these priorities, the budget proposes \$574 million to fund cost-of-living (COLA) increases at 3.0 percent and provides preferential COLAs of 3.0 percent for a number of programs including regional occupational centers and programs (ROCPs), preschool, child care programs, school improvement, economic impact aid and mentor teachers.

Pursuant to a major goal of Proposition 98, the Budget proposes \$110 million to fund the class-size reduction and language arts enrichment programs established by Chapter 1147, Statutes of 1989.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

ED-G1-79604

## 6100 DEPARTMENT OF EDUCATION—Continued

The Budget also proposes \$43.3 million for population increases and program expansion in court-ordered and voluntary desegregation programs. In the area of helping students with special needs, the Budget includes \$64.2 million in preferential growth for instructional units in special education as well as \$9.0 million for statutory increases in other special education programs. It also includes preferential growth of \$1.4 million for the regional occupational centers and programs, \$1.0 million for the gifted and talented education program, and \$1.0 million for the opportunity schools program.

A commitment to teacher support and improvement is reflected in the proposed \$2.4 million for population growth in the mentor teacher program as well as in the \$1.1 million in preferential growth for staff development. In addition, \$4.1 million is provided for growth in instructional materials for grades K through 8 and \$0.4 million in preferential growth for instructional materials in grades 9 through 12.

Additional preferential growth is proposed for the School Improvement Program (\$11.8 million), the Economic Impact Aid Program (\$8.5 million), and statutory population adjustments are provided for the Child Nutrition Program (\$1.3 million) and the adult education program (\$6.8 million).

To address reforms to the \$125 per pupil year-round school incentive payment program, \$43 million is set aside to fund pending legislation.

An additional \$210 million is proposed as a reserve for K-12 to fund either deficiencies, which historically occur, or other educational purposes.

## 10 INSTRUCTION

**Program Objective Statement**

Instruction is the process of communicating knowledge and intellectual, vocational and personal skills to California public school students (including adults) primarily through formal schooling. This program includes those funding sources which provide direct educational services to children and adults in the State's public elementary and secondary school system. The Department of Education administers the funding and assures that instructional programs conducted by California's 1,010 public school districts conform to applicable State statutes and administrative rules and regulations.

## 10.10 School Apportionments

## Program Element Statement

Support for California's K-12 public school system is a shared responsibility, with funding provided from local property taxes, State general-purpose aid and federal subventions. School apportionments supplement local resources to fund the general education programs of California's 1,010 K-12 school districts and 58 county offices of education. Local property taxes and other local revenue will provide more than \$4.7 billion to districts and county offices in 1990-91 and \$835 million will be available from the lottery fund. The remaining \$9.8 billion of local assistance aid for K-12 general education will be provided by the State.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$512.8 million General Fund for enrollment increases in school districts and county offices of education.
- \$106.9 million to continue the augmentations from Chapter 82, Statutes of 1989 (SB 98).
- \$43.3 million General Fund for court-ordered and voluntary desegregation school apportionments.
- \$8.5 million General Fund for increases in year-round school incentive payments to eligible K-12 districts.
- \$43.3 million is shifted to Program 97 as a set aside for pending legislation to enact necessary reforms to the Year-Round School Incentive Program.
- \$1.4 million General Fund to reflect a preferential growth increase of 0.6 percent in funding for regional occupational centers and programs.
- \$237 thousand General Fund to fund the Youth and Adult Offender Education and Crime Prevention Act (Chapter 1358, Statutes of 1989), under which a pilot program requiring education as a condition of probation will operate for three years in Sacramento County.

## Authority

Education Code—Article 3 (commencing with Section 2550) of Chapter 12 of Part 2, Article 8 (commencing with Section 8150) of Chapter 1 of Part 6, Article 10 (commencing with Section 41850) of Chapter 5 of Part 24, Article 2 (commencing with Section 42237), Article 4 (commencing with Section 42280) and Article 4.5 (commencing with Section 42290) of Chapter 7 of Part 24, Section 45023.4, Article 8 (commencing with Section 46200) of Chapter 2 of Part 26, Article 11 (commencing with Section 49550) of Chapter 9 of Part 27, and Article 1 (commencing with Section 52300) of Chapter 9 of Part 28 and Chapter 1131, Statutes of 1985, Article 1 (commencing with Section 14000) of Chapter 1 of Part 9, Chapter 2 (commencing with Section 41200) of Part 24, and Article 9 (commencing with Section 54760) of Chapter 9 of Part 29.

## 10.25 Class Size Reduction and Language Arts Enrichment

## Program Element Statement

The number of students per instructional staff has an impact on the quality of learning. Smaller class sizes allow teachers greater opportunity to spend time with individual students, assign and grade more homework and manage their classrooms more effectively. These benefits can be realized through a variety of approaches. This element provides incentive funding for school districts to implement a class size reduction program based on local needs and priorities.

## Authority

Chapter 6.8 (commencing with Section 52080) and Chapter 69 (commencing with Section 52100) of Part 28 of the Education Code.

## Budget Adjustments

- \$110 million General Fund for an incentive program for class size reduction and language arts enrichment as established in Chapter 1147, Statutes of 1989.

## 10.30 Other Compensatory Programs

## Program Element Statement

This element includes five compensatory education programs which provide services directly through local assistance to school districts, through regional units for migrant education, or indirectly through activities administered by the State, such as assistance and training, program review, policy development and coordination. These programs include the following:

## Education Consolidation and Improvement Act (ECIA)

The Migrant Education—ECIA Chapter I—program provides supplemental services to California's migrant children. Services include health and social services, pre-service and in-service education for staff, transportation, child development activities and active parent involvement. During 1988-89, a total of 1,450 schools in 520 districts enrolled approximately 149,000 migrant children. Educational programs for migrant students are administered by the department's Office of Migrant Education.

The objectives of the ECIA I migrant component include the following:

- ensure that all eligible migrant children are identified, recruited, and entered into the Migrant Student Record Transfer System.
- provide all migrant children with supplementary instructional services on the basis of identified need in language development, reading, and mathematics.
- provide migrant children with health screening and supplemental treatment as needed.
- provide necessary training for all staff serving migrant children in order to ensure appropriate services to the children.
- provide the opportunity for parents to participate on advisory committees and become actively involved in their children's education.

The Demonstration Programs in Reading and Math program provides exemplary programs for intensive instruction in reading and mathematics.

\* Dollars in thousands, excluding salary range.

6100 DEPARTMENT OF EDUCATION—*Continued*

The American Indian Education Centers include 22 community based centers designed to raise the academic achievements, and improve the self-concept of American Indian students and adults (GED).

The Compensatory Education and Hawkins/Stafford Elementary and Secondary Improvement Amendments of 1988 coordinate the delivery of services funded under these programs with other related state and federal programs. (This program replaced the ESEA Title I and ECIA Chapter I programs.)

The Native American Indian Education Program provides services to help reduce the high dropout rate of American Indian students by increasing academic achievement, with particular emphasis on reading and mathematics and self-concept through school and cultural activities.

The Economic Impact Aid (EIA) program was established by Chapter 894/77 and became operative on July 1, 1979. EIA funds support supplementary educational services to educationally disadvantaged students and limited English proficient students through State Compensatory Education (EIA-SCE) and Bilingual Education programs (EIA-LEP). School districts allocate EIA-SCE funds to schools selected on the basis of above average poverty concentration; selected schools, in turn, serve students with achievement levels which are below average.

**Budget Adjustments**

- \$8.588 million General Fund to provide 3.57 percent in preferential growth funding for the Economic Impact Aid program.

**10.40 Special Bilingual Programs****Program Element Statement**

This program element consolidates the federally-funded State administrative resources for support of bilingual programs, including local assistance funding for grades K-12 for eligible refugee and immigrant students. State bilingual education support is provided primarily through the Economic Impact Aid program (10.30.070). Support also comes from the federal Hawkins/Stafford Elementary and Secondary Improvement Amendments of 1988 (10.30.060).

The needs of limited-English-proficient (LEP) students are addressed through direct local assistance to school districts and indirectly through State administration of curriculum, management, and policy-oriented activities. The Special Bilingual Program element includes the following components:

**Bilingual Education (ESEA Title VII)**—Provides funding for technical assistance, the dissemination of information, and the pursuit of research for the improvement of bilingual education programs.

**Refugee and Immigrant Programs**—Provides supplemental educational services to eligible refugee children. These services include testing to determine needs, bilingual education, English language instruction, and special materials and supplies.

**National Origin Desegregation Assistance**—Provides technical assistance to school districts undergoing national origin desegregation, and has primary responsibility to assure that national origin minority students participate equitably in California public schools.

**Emergency Immigrant Education Assistance Program**—Provides eligible immigrant children supplemental educational services such as bilingual education programs and English language instruction. Funding also is provided for special materials and supplies, as well as construction costs, transportation and rental of space.

\* Dollars in thousands, excluding salary range.

## 10.50 Adult Education

## Program Element Statement

Adult education programs are designed to involve adults served by public high school and unified districts in relevant general education programs which will improve literacy skills, employability, parenting abilities and meet the special needs of individuals such as the handicapped, older persons and non- and limited-English speaking adults.

In 1987-88, there were 1,726,152 enrollments which included 301,514 in adult basic education, 456,167 in English as a second language, 223,986 in vocational training, 88,331 in parent education courses, 13,523 in Americanization, 20,087 in homemaking, 168,967 in older adult programs, 83,140 in programs for handicapped adults, 148,648 in Health and Safety Education, and 221,789 in other programs including physical education, driver education/training and other civic education courses.

The state provides technical assistance to schools, approves all adult programs and classes, supervises the GED testing centers, and issues the California High School Equivalency Certificate.

## Budget Adjustments

- \$6.8 million General Fund to provide 2.5 percent growth in Adult Education programs.
- \$77 thousand and two limited term positions for workload resulting from Chapter 783, Statutes of 1989 (SB 1220) which will require central records of score reports for all persons who take General Equivalency Diploma (GED) tests. These costs will be funded by fees paid by persons taking the test.
- \$63 thousand General Fund to provide 2.5 percent growth in the Adults in Correctional Facilities program.

## 6100 DEPARTMENT OF EDUCATION—Continued

## 10.60 Special Education Programs for Exceptional Children

## Program Element Statement

Under both federal and State statutes, individuals with exceptional needs are entitled to a free, appropriate public education. California's special education delivery system was established by Chapter 1247/77 (AB 1250), refined by Chapter 797/80 (SB 1870) and reauthorized by Chapter 1508/88. Approximately 453,000 individuals with exceptional needs are expected to be enrolled in special education programs in both 1989-90 and 1990-91. In recognition that pupils with exceptional needs require specialized educational services, California provides a full continuum of special education programs. Pupils with handicapping conditions are provided individual or small-group instruction, or, where necessary, are provided with full-time special classes operated at the school site. Related services provided under special education programs include consultation with the teachers and parents of the students, and special alterations of facilities, equipment, and learning materials. Services are also provided for blind, deaf, and neurologically handicapped pupils through the State Special Schools when their educational and related services needs cannot be met in the public local educational agencies. The Special Education Programs for Exceptional Children element also includes the following components:

**State Administration**—The objective of the State administration component is to make resources and services available to public schools so that all students with exceptional needs can receive special education and related services.

The State's special education consultants will (1) provide technical assistance to over 110 special education local plan areas (SELPAs) and all local educational agencies in providing a free, appropriate public education for individuals with exceptional needs from birth to 21 years of age; (2) assist with annual program compliance reviews; (3) certify nonpublic schools and agencies offering special education programs and services to individuals with exceptional needs; (4) determine and monitor compliance with applicable state and federal laws and regulations; (5) review, approve, and monitor changes in all local comprehensive plans for special education; (6) review, approve, and monitor various program applications as required by law, such as personnel development plans, special study proposals, preschool/infant projects and grants for vocational education; (7) monitor and provide assistance to local educational agencies' implementation plans of Larry P., Diana, and Christopher T. Court orders; and (8) coordinate with other state agencies in providing appropriate and full educational opportunities for individuals with exceptional needs from birth through 21 years of age.

**Clearinghouse Depository for Handicapped Students**—The objective of the Clearinghouse Depository for Handicapped Students (CDHS) is to maintain a central clearinghouse-depository and duplication center for specialized textbooks, reference books, recordings, study materials, tangible apparatus, equipment and other similar items for the use of handicapped students. As a necessary adjunct, CDHS also provides information to educational institutions (preschool through college) and individuals regarding the production, selection, and acquisition of such items.

**California State Deaf-Blind Services**—The objective of the California State Deaf-Blind Services is to secure the provision of medical, educational, psychological, or other appropriate services to any identified deaf-blind child in California. This activity is fully funded by a Federal grant.

## Budget Adjustments

- \$64.2 million General Fund for special education program growth consistent with the projected rate of growth for the regular K-12 population.
- \$9.9 million General Fund for statutory population adjustments in regionalized services, nonpublic schools, county longer day and year incentives, and extended year.
- \$920 thousand General Fund for infant discretionary growth.
- \$910 thousand General Fund transfer from the special education programs to the State Special Schools for the Deaf and Blind to provide extended year programs in the special schools.
- \$409 thousand General Fund for miscellaneous growth adjustments.
- \$6.5 million in Federal funds to be used for local entitlements, resulting in a General Fund savings of that same amount.

## 6100 DEPARTMENT OF EDUCATION—Continued

## 10.60.040 State Special Schools

## Element Component Statement

The Department of Education operates six Special Schools for handicapped children. The objective of the State School for the Blind and two Schools for the Deaf is to provide an appropriate education to those blind, and deaf pupils who, because of their severe sensory loss and educational needs, cannot be provided an appropriate education program and related services in regular public schools. These schools provide highly specialized services including educational assessments and individual educational recommendations for individuals referred for such service and a comprehensive residential and nonresidential educational program composed of academic, nonacademic and extracurricular activities.

The objectives of the three Diagnostic Schools are to: (a) serve as an educational planning, technical assistance, and training resource to educators and parents on a regional basis; (b) provide assessment and educational planning services for seriously handicapped children referred by special education programs in local educational agencies, including, but not limited to, the severely emotionally disturbed and the neurologically handicapped; and (c) provide unique extended assessment and diagnostic services on a short-term residential basis.

## 10.60.050 Special Education—Local Assistance

## Element Component Statement

The objectives of the local assistance component are to apportion funds to local educational agencies to carry out program objectives at the school level. Local assistance funds include those appropriated from the General Fund for the Master Plan for Special Education and funds available under Title VI of the Federal Education for All Handicapped Children Act (Public Law 94-142).

## 10.60.060 Alternatives to Special Education

## Element Component Statement

Chapter 1530, Statutes of 1985 (SB 1256) established the Early Intervention for School Success Program. The primary goal of this program is to identify pupils between the ages of 4 to 7 who are at risk of becoming learning disabled so that those pupils will receive appropriate instructional programs in order to reduce the severity of learning disabilities in later years as well as the need for special education. It is anticipated that 200 public schools will participate in this program by 1991.

## 10.70 Vocational Education Programs

## Program Element Statement

The Vocational Education element provides students with the job/career guidance, and job specific skills necessary for entry level jobs, job advancement, and preparation for more advanced training. Federal vocational education funds are used to improve and expand vocational education programs, develop new programs, and eliminate sex discrimination and stereotyping in vocational education. State vocational education funds support vocational and technical education programs in regional occupational centers and programs to prepare students for an increasingly technological society.

The Department of Education also administers the State Education Coordination and Grants Funds which make up 8% of the allotment to the state under the Job Training Partnership Act (JTPA). These funds facilitate coordination and promote linkages among local educational agencies and administrative entities in service delivery areas to improve or develop occupational training programs which increase the employment opportunities for economically disadvantaged youth and adults.

The Partnership Academies Program serves educationally disadvantaged students. This is a three year dropout prevention "school within a school" program to prepare high risk youth for specific occupational fields. The program emphasizes partnerships between school districts, business/industry and the State Department of Education.

## Budget Adjustments

- \$200 thousand federal funds for the New Chance program (Chapter 931, Statutes of 1989). This program will assist teenage parents to achieve high school diplomas, gain work experience and job skills training, and obtain health services, child care, and counseling.
- \$130 thousand federal funds and 2 positions to expand the business education program.

\* Dollars in thousands, excluding salary range.

## 10.80 Special Instructional Programs

## Program Element Statement

The Special Instructional Programs element consists of the following components:

The Gifted and Talented Education program provides special services to gifted and talented pupils, including pupils from economically disadvantaged and varying cultural backgrounds.

The Driver Training program provides appropriate knowledge and skill training to students prior to obtaining drivers' licenses.

The University and College Opportunity program (UCO) is designed to increase the academic success of disadvantaged and minority students, and in particular, to assist secondary schools with high minority populations to increase the eligibility pool of qualified students for universities and state colleges.

## Budget Adjustment

- \$983 thousand General Fund to provide 3.57 percent in preferential growth funding for the Gifted and Talented Education program.

## 10.90 Education Consolidation and Improvement Chapter II

## Program Element Statement

The Education Consolidation and Improvement Act of 1981, which consolidated approximately 29 federal categorical programs into a federal block grant, was amended by HR 5, the Hawkins/Stafford Elementary and Secondary Amendments of 1988. Funds are allocated to states on the basis of each state's share of the school age population for the purpose of (1) implementing promising educational programs, (2) supporting library and instructional materials, and (3) meeting the needs of at risk and high cost students.

Up to 20% of the grant award may be used for state purpose discretionary projects. Of the 20% for state purposes, not more than 25% may be used for state administration and at least 20% shall be used for effective school programs.

The remaining 80% must be allocated to Local Educational Agencies (LEAs) on the basis of a formula which uses enrollment as the primary factor. Funds appropriated under the Act may be used for any of the purposes which were formerly authorized by the programs now included in the block grant. The enabling legislation also created a state advisory committee to be appointed by the Governor to advise the state educational agency on the percentage and use of funds retained for state use, and determine the formula for distributing the remaining allocation to local educational agencies.

Expenditures of the federal block grant are reflected in Program 10 and Program 20.

## 20.10 Curriculum Services

## Program Element Statement

The objective of the curriculum services element is to assist local educational agencies in improving the quality of educational instruction: To meet this objective, the element includes six major components.

● Mathematics and Science Education—The primary objective of this component is to: 1) support the development of effective mathematics programs in elementary and secondary schools through new curriculum, recruitment and preparation of teachers, and technical assistance to districts and schools; and 2) improve the amount and quality of science teaching in California through information dissemination, staff development, recognition of exemplary programs, and curriculum reform.

● Educational Technology—The primary objective of this component is to improve the effective use of computers and video forms of technology in instruction by: 1) providing materials and resources for curriculum planning and development to encourage the use of technology throughout the K-12 curriculum; 2) making available high quality software and instructional video programming; 3) providing funds to local educational agencies to foster equitable access to technology geographically, across gender and socioeconomic status, and for students at every level of achievement; and 4) making available sufficient training to ensure that available technology can be used effectively in the classroom. Funding for the Institute for Computer Technology is contained in this program element.

● Humanities Curriculum Services—This component is responsible for upgrading the quality of the curriculum and course content in English/language arts, foreign language, history/social science, and visual and performing arts.

● Health and Physical Education—This component is responsible for assisting local educational agencies in initiating and upgrading comprehensive health programs, which include health instruction, health services, nutrition and physical education.

● Environmental/Energy Education—This component encourages the development of effective local school-community programs at all grade levels in areas relating to the conservation of energy and other natural resources, and the improvement of environmental quality.

● Resource Delivery Component—This component is responsible for developing and supporting a statewide delivery system focusing on efficiency and maximum utilization of local and regional resources.

\* Dollars in thousands, excluding salary range.

6100 DEPARTMENT OF EDUCATION—Continued

Budget Adjustments

- \$36 million from the Tobacco Products Surtax Fund and seven positions for expansion of health and education related programs.
- \$250 thousand in 1989–90 from the Environmental License Plate Fund for the Environmental Education Project.
- \$75 thousand General Fund in 1989–90 to develop a human relations curriculum as provided by Chapter 735, Statutes of 1989.
- \$60 thousand in reimbursement authority and one limited-term position to assist in the development of a waste management curriculum for K–12 schools as provided by Chapter 1095, Statutes of 1989.
- Two positions to administer the federal Math/Science program.
- Two positions to administer the federal AIDS/HIV Prevention Education program.

20.20 Instructional Materials Management and Distribution

Program Element Statement

The primary objectives of the Instructional Materials Management and Distribution element are to assist in the state adoption of instructional materials for use in California's elementary schools and to ensure complete delivery of all materials to the schools before the start of the school year. To meet these objectives the department assists the State Board of Education and the Curriculum Development and Supplemental Materials Commission in the evaluation of material content and selection criteria. The department also processes the contracts for the adopted material and ensures compliance with the terms of the contracts.

**20.30 Administrative Services to Local Educational Agencies****Program Element Statement**

Local educational agencies look to the State for leadership, guidance, and technical expertise to manage operations consistent with all requirements. Further, by virtue of broad exposure, staff can provide consultant services to aid in improving operations and more efficiently using scarce resources.

Such services are particularly required in school facilities planning, attendance accounting, district governance and organization, transportation, insurance, accounting/budgeting, maintenance and operations and other areas of planning and administration. This element also includes publishing required documents such as attendance registers and other materials such as manuals for planning for school construction and rehabilitation, budgeting, accounting, transportation, attendance, maintenance and operations, student body funds and other advisory handbooks and materials. Management reviews covering a broad range of business services operations and organizational concerns also are conducted.

**Budget Adjustments**

- \$150 thousand General Fund to provide financial and managerial assistance to the Oakland Unified School District in order to improve the educational services to the students and general operations of the district, pursuant to Chapter 1438, Statutes of 1989.
- \$149 thousand in reimbursements and one position to review proposed school district reorganizations as required by the California Environmental Quality Act.
- \$88 thousand General Fund and one position to develop plans to coordinate earthquake awareness, disaster preparedness, and hazard reduction for public schools pursuant to Chapter 643, Statutes of 1989.

## 20.40 Supplementary Program Services

## Program Element Statement

The objectives of this element encompass identification, development, and dissemination of innovative and exemplary programs and practices to local educational agencies and nonpublic school systems; assistance in development of alternative/independent study educational programs; coordination of continuation/opportunity/summer school programs; as well as compliance, audit and other monitoring activities.

To meet these objectives, the Supplementary Program Services element includes the following components:

- Sex Equity in Education—This program provides information and conducts in-service training workshops to assist schools in promoting sex equity in education.
- Foster Youth Services—This component provides direct reimbursement to school districts operating Foster Youth Services programs.
- Alternative/Independent Study—Independent study provides individualized ways for students to pursue a course of study. This option was offered in 758 county and local school districts in 1987-88 with a statewide ADA of approximately 39,380.
- Alternative educational programs and schools fulfill attendance and credit requirements in various ways that allow for choice by parents, students and teacher to accommodate varied student needs. Over 1,150 alternative schools and programs were offered statewide in 1987-88.
- Continuation Education—Continuation education fulfills the compulsory part-time high school attendance requirement for students aged 16 and 17, with the major goal of meeting graduation requirements.
- Opportunity classes and programs provide adjustment services for the purpose of returning pupils to the regular educational programs of the district.
- Compliance and Grants Management—This component streamlines administration for all categorical programs, ensures that LEA's are in compliance with requisite laws or have State Board approved waivers, and ensures that agencies receiving child development/nutrition funds will not have paybacks after required audits.
- Pupil Dropout Prevention and Recovery—Chapter 1431, Statutes of 1985 (SB 65) initiated a new program aimed at dropout prevention and recovery. Component activities include motivation and maintenance programs, educational clinics, and dropout recovery programs.

## Budget Adjustments

- \$956 thousand General Fund to reflect growth in the Opportunity Schools Grant program.
- Three positions for the Pregnant Minors program to provide additional technical assistance to school districts.

## 20.40.080 Compliance and Grants Management

## Element Component Statement

This component includes the following activities:

- 1) Development of a coordinated compliance monitoring review process and manual which simplify and streamline the compliance reviews of adult education, consolidated programs, school based program, migrant education, special education, vocational education, and child development programs. This ensures that multifunded students are provided with the district's core curriculum and instructional delivery system as well as support from supplemental funds to help them successfully learn the core curriculum.
- 2) Coordination of compliance field reviews for all applicable program areas (above) through the use of LEA self-review and coordinated department compliance review teams.
- 3) Simplification and streamlining of the State Board approved waivers and complaint processes.
- 4) Development of a departmentwide compliance tracking system, consolidated programs description database, consolidated programs complaint investigation file, and the consolidated application.
- 5) Centralized processing of all general waivers and consolidated programs waivers.
- 6) Centralized processing of consolidated applications and provision of management assistance regarding compliance issues to LEAs.
- 7) Performance of consolidated programs complaint investigations, development of investigation reports, and follow-up on identified non-compliance issues.
- 8) Performance of all external audits, including bilingual census audits.

## 20.40.100 Dropout Prevention and Recovery

## Element Component Statement

The Dropout Prevention and Recovery element includes school-based pupil motivation and maintenance programs, alternative education and work centers, model programs and repository, and educational clinics. The primary objective of the pupil motivation and maintenance activity is to improve the ability of schools to keep students in school by increasing educational opportunities and reducing absenteeism, truancy, tardiness and dropout rates. The use of special outreach consultants and increased funding flexibility help schools achieve these goals.

The alternative education and work centers teach basic academic skills in order for the student to obtain employment or return to high school, operate clinics to diagnose students' abilities and provide appropriate instruction, and provide on-the-job training, vocational skills reflective of labor market demand, counseling and placement services.

The model programs repository identifies educational programs, strategies and interventions to assist at-risk/high risk children and youth to stay in school. Validated practices are entered into the repository. The programs and practices listed in the repository are made available to elementary, middle and high schools.

Educational clinics target youth who have dropped out of school, grades 7 through 12, and combine instruction in basic academic skills with motivational emphases to encourage school re-entry and/or employment. The clinics differ from most alternative school programs by providing a specified program for a limited period of time to youth who officially are classified as having dropped out of school. Three clinics are operated by private and community-based organizations and six are operated by public school districts.

## 20.60 Improving School Effectiveness

## Program Element Statement

The Improving School Effectiveness element consists of the following components:

- **School Leadership**—The primary objective of this component is to strengthen leadership of local school boards, superintendents and principals. Training is provided in instructional leadership, curriculum, instruction, performance, climate, staff development and supervision and evaluation.
- **School Climate**—The primary objective of this component is to assist school districts in providing a learning environment that encourages effective academic achievement. Major efforts include assisting local districts in improving attendance, providing safe orderly environments for students, developing student support services, developing student responsibility and encouraging students to take strong academic programs.
- **Intergroup Relations**—The primary objective of this component is to encourage and assist school districts in providing equal access to educational opportunities for all students. The Intergroup Relations Office seeks to end racial, ethnic, religious and sex discrimination in the operation of public schools in California by providing assistance in understanding civil rights laws and issues, and in planning and implementing programs and activities which promote educational equity.
- **School Improvement**—The primary objective of this component is to improve the instructional program for elementary and secondary schools through the development of a school-level plan which addresses student assessment, goal setting, improved curriculum and instruction, staff development and school climate. Local school site councils comprised of school personnel, parents, and in secondary schools, students, design and evaluate the improvement plan for their schools. The district master plan for school improvement outlines the policies and procedures for phasing in, developing, and reviewing school plans and programs for schools participating in the School Improvement Program. Triennial program quality reviews which include self studies and action plans for growth are a central part of the improvement process.
- **Parental Involvement**—The primary objective of this component is to assist local educational agencies in promoting and increasing parental involvement in the educational process as a means of improving student achievement and student success in education.
- **Staff Development**—The primary objective of the staff development component is to provide assistance and leadership in professional development, training and retraining of classroom teachers. Staff development is designed to: 1) provide in-depth, comprehensive training in curriculum content, instructional methods, and use of appropriate technologies in mathematics, science, English/language arts, history/social science, fine arts, foreign language, and physical education; 2) help school staff plan and implement site-focused professional development activities, recognizing that the best staff development is based on teacher collaboration around instructional issues; 3) provide teacher mentors to work with new and experienced teachers, develop special curricula, and provide incentives and reward for exemplary teaching; 4) provide training for language minority teachers to prepare them for bilingual certification and ensure that the curriculum is accessible and available to language minority students.

Staff development also includes the following sub-components:

- The California Mentor Teacher Program provides staff development for new and experienced teachers, and development of special curriculum by district-designated mentor teachers who receive an annual stipend over and above their regular salary.
- Bilingual Teacher Training provides training for teachers on language, culture, and methodology of the bilingual group.
- Federal Teacher Centers provide training for classroom teachers and school staff in curricular, instructional, and classroom management issues.

## Budget Adjustments

- \$11.8 million General Fund to fund preferential growth in the population served by the School Improvement Program.
- \$1.1 million General Fund for program in preferential growth in staff development activities and \$2.4 million for statutory growth in the Mentor Teacher program to provide stipends to five percent of the eligible teachers.
- \$194 thousand General Fund for the 10th Grade Counseling program to reflect projected 10th grade enrollment.

## 20.70 Evaluations and Assessment

## Program Element Statement

The department is responsible for evaluating all state and federal education programs. The department collects and analyzes annual statewide school demographic data through the California basic educational data system (CBEDS). School performance data is published in the *Performance Report for California Schools: Indicators of Quality*. Special evaluation studies of selected education programs are conducted at the request of the Legislature, and assistance in evaluation and research to department and local agency personnel is provided. The California Assessment Program (CAP), the California High School Proficiency Examination (CHSPE), and the Golden State Examination are also administered by the department.

The California Assessment Program is a set of achievement tests in reading, English usage, spelling, and mathematics administered each year to students in Grades 3, 6, 8, and 12. History-social science, science, and direct writing are also assessed at grades 8 and 12. Scores are computed relative to past years and to national norms.

The California high school proficiency examination provides an opportunity for persons 16 years or older to earn a Certificate of Proficiency equivalent to a high school diploma, by examination.

The Golden State Examination measures high school student achievement in academic subjects for the purpose of special honors designation upon graduation.

20.80 SUPPLEMENTAL GRANTS

Program Element Statement

The intent of the Supplemental Grants is to better equalize categorical funding among the school districts in the state in order that all students in California public schools have equal educational opportunities. To do this, Supplemental Grants are awarded to school districts that are receiving less than the average funding from existing state programs. Districts receiving the funds must use them to expand or initiate one or more of the 27 eligible categorical programs identified in the legislation.

30 SPECIALIZED PROGRAMS

Program Objectives Statement

Special programs include the following elements:

- Child development, which provides a full range of preschool education and child care services.
- Child nutrition, which distributes funds supporting a variety of child nutrition entities.
- Postsecondary education, which ensures that private institutions comply with educational standards mandated by statutes.
- Food distribution, which makes surplus USDA commodities available to local agencies.

## 30.10 Child Development

## Program Element Statement

The child development element provides part-time and full-time child care and educational services, including supportive services, to children from low income and other families with special needs. Several different program structures have been established over the years to target resources to specific populations and/or to address specific types of needs.

## 30.10.010 Preschool Education

## Element Component Statement

The preschool education component provides (a) a wide range of educational and related experiences and services in part-day settings for pre-kindergarten (three- and four-year-old) children from low-income families; and (b) parent education and training for the parents of eligible children.

The objective of the component is to help ensure a child's later success in formal school programs. Preschool programs are administered by 119 local educational agencies and by 64 private nonprofit agencies and institutions of higher education which have an average daily enrollment of approximately 21,240 children.

The preschool career incentive program (Chapter 795, Statutes of 1975) provides scholarships for preschool teachers and aides to assist them in continuing their professional development toward the attainment of full credentials.

This budget does not include funds for the Headstart Program administered directly by the federal government. However, in terms of program objectives, the two programs serve similar target populations with approximately the same type of program.

## 6100 DEPARTMENT OF EDUCATION—Continued

## 30.10.020 Child Care Services

The child care services component is designed (a) to assist families in becoming self-sufficient by enabling parents to work or receive training leading to employment by providing safe and appropriate environments for their children; (b) to enhance the physical, emotional, and developmental growth of participant children; and (c) to refer families in need of medical or family support services to appropriate agencies. There are 973 publicly subsidized child care programs in California serving approximately 120,000 children. Also, 59 resource and referral programs provide parents with information on existing child care and community services and provide technical assistance to child care providers.

The Child Development Division administers a variety of child care programs. The principal program types, along with specific program goals and outputs, are listed below:

- a. General child care—Provides comprehensive child development services for low-income parents in work or training situations.
- b. Campus—Provides child care for infants and children of low-income student parents who are working toward a vocational or professional goal.
- c. School age parenting and infant development (SAPID)—Provides supervised infant care to allow eligible adolescent parents to complete high school and provides training of students in parenting skills.
- d. Migrant—Provides child care and related services to children of migrant families working in fishing, agriculture or related industries.
- e. Handicapped—Provides child care services to assist families whose children are severely handicapped.
- f. Alternative payment—Provides reimbursement to private agencies for child care services for low-income families.
- g. Resource and Referral—Provides information to parents regarding child care placement as well as referrals to social and community services.
- h. Protective Services—Provides child care services to assist families whose children have been identified as being, or at risk of being, neglected, abused, or exploited.
- i. School Age Community Child Care—Provides child care services for school age children before and after school and when school is in session.

<sup>10</sup> Weighted average.

<sup>11</sup> Average daily enrollment: The average number of full-time equivalent children enrolled in a program on any given day of operation.

The SAPID Extended Day Care and the county welfare department programs do not operate on an average daily enrollment basis, and the Resource and Referral Program does not directly serve children; therefore, the totals for these elements are not included in the above table. Also, excluded are the Handicapped and Protective Services programs, which are monitored under different criteria.

## 30.20 Child Nutrition

## Program Element Statement

The objective of the child nutrition element is to assist participating school districts and private, nonprofit agencies in providing nutritious meals and nutrition education to children and adults.

This objective is met through subsidies received from the United States Department of Agriculture (USDA) to fund the National School Lunch Program (NSLP), School Breakfast Program (SBP), Special Milk Program (SMP), Child Care Food Program (CCFP), Adult Day Care Food Program (ADCFP), Nutrition and Food Services Education Section (NFSES) and from the state through the State Mandated Child Nutrition Programs (SMCNP) and the meal supplement for Pregnant and Lactating Students Program (PAL).

These programs provide subsidies for nutritious meals, milk and nutrition educational opportunities to children in public and non-profit private schools residential and non-residential child care institutions, including family day care homes and adults in non-residential adult day care centers.

The following programs are offered to assist participants in providing nutritious meals to children and adults:

## State-Mandated Child Nutrition Programs (SMCNP):

This program was created by Senate Bill 2020 (Chapter 1487/74) and Senate Bill 120 (Chapter 1277/75). Administered by the department, the program will provide a basic per meal reimbursement for breakfasts and lunches served in public and non-profit private schools and non-residential child care institutions, including day care homes to children who qualify for free and reduced price meals. Section 49550 of the Education Code requires that all school districts offer at least one nutritious meal to needy students each school day. This subsidy is a supplement to the Federal National School Lunch, School Breakfast, and Child Care Food Programs.

## National School Lunch Program (NSLP):

This program provides a subsidy for a nutritious lunch to all children and residents of residential child care programs under 21 years of age with a daily nutritious meal. In 1990-91 it is anticipated that over 1,154 public and private school districts and residential child care institutions will participate in the NSLP.

## School Breakfast Program (SBP):

This Program provides a subsidy for nutritious low-priced breakfasts to eligible children in public and private schools, including residents of residential child care institutions. In 1990-91, it is anticipated that over 493 public and private school districts and residential child care institutions will participate in the SBP.

## Child Care Food Program (CCFP):

This Program provides a subsidy for nutritious meals to eligible children enrolled in non-residential child care institutions, including family day care homes. The objective of the CCFP is to extend services to non-participating eligible child care institutions, placing priority on reaching institutions in low-income areas. In 1990-91 it is anticipated that over 612 sponsors for non-residential child care institutions, including family day care homes will participate in the CCFP.

## Adult Day Care Food Program (ADCFP)

1988 amendments to the CCFP regulations established the Adult Day Care Food Program (ADCFP). This program provides financial assistance to nonresidential adult day care centers serving nutritious meals to adults who are either functionally impaired or 60 years of age or older. During 1990-91 it is anticipated that 150 sponsors will participate in the ADCFP.

Special Milk Program (SMP)<sup>12</sup>:

This Program provides reimbursement for milk to children in eligible public and private non-profit institutions. Participation in the SMP is restricted to those sponsors who do not participate in any other food program at a given site. In 1990-91 approximately 550 sponsors are expected to participate in the SMP.

## Nutrition and Food Services Education Section (NFSES):

This Program provides comprehensive nutrition information and education programs to children, teachers, food service personnel, program administrators, and parents. Emphasis is on using meals served through child nutrition programs as a learning laboratory for selecting nutritious meals and to effect changes in eating patterns that will result in improved health and well-being of children. In addition, this section is participating in a new campaign. Shaping Healthy Choices, that is designed to help California Schools introduce students to dietary practices that promote health and reduce the risk of chronic disease.

## Pregnant and Lactating Students Program:

This program, created by Chapter 1482, Statutes of 1985 (SB 1179), allocates funds to participating school food authorities to provide pregnant or lactating students with daily nutritional supplements. In 1990-91, 58 sponsors will participate.

<sup>12</sup> Federally funded program only.

6100 DEPARTMENT OF EDUCATION—*Continued***Budget Adjustments**

- \$1.3 million General Fund to provide a statutory population adjustment for the Child Nutrition program.
- \$404 thousand federal funds and six positions to implement the new adult day care nutrition program authorized under federal law.
- \$80 thousand federal funds and one position to implement dietary changes in child nutrition programs specified in Chapter 614, Statutes of 1989.

**30.30 Postsecondary Education****Program Element Statement**

The objectives of the postsecondary education element are to:

- Ensure that privately supported institutions conferring diplomas, degrees and certificates have been (1) accredited by a national or regional accrediting agency; (2) approved by the Superintendent of Public Instruction; or (3) authorized by the Superintendent of Public Instruction.
  - Approve courses offered by private and public schools for the training of veterans.
  - Reimburse from the Student Tuition Recovery Fund the prepaid but unused tuition of a student enrolled in a private postsecondary school which closes prior to completion of the student's instructional program.
- Effective January 1, 1991, pursuant to Chapter 1239/89 (AB 1402), and Chapter 1307/89 (SB 190), the postsecondary education program and staffing will be transferred to the Council for Private Postsecondary and Vocational Education.

**Budget Adjustments**

- \$1.3 million and 25 positions to perform fiscal and program reviews pursuant to Chapter 1239/88 (AB 1402) and Chapter 1307/89 (SB 190).
- \$333 thousand and 10 positions are provided in 1989-90 to implement the fiscal and program review requirements pursuant to Chapter 1239/89 and Chapter 1307/89.

## 30.50 Food Distribution

## Program Element Statement

Surplus donated food from the federal government is available to certain California public, private, and nonprofit agencies; California law provides that the State Department of Education is designated as the California State Agency for Donated Food Distribution (Educ. Code Section 12110). The major program is the federal donated commodities (food) distribution program. The Food Distribution Section was established within the Department of Education for the distribution of these donated foods. The goal of this agency is to acquire and distribute efficiently to eligible agencies all surplus foods donated by the federal government that can be used effectively by these agencies. In addition, the agency coordinates the processing of surplus food items into other usable products (examples: surplus peanuts, peanut butter, flour and vegetable oil into peanut butter cookies; and surplus vegetable oil into mayonnaise). The total number of agencies served in 1990-91 will be approximately 2,750. The fair market value of the donated food commodities distributed will be approximately \$82 million.

## 41.10 Executive Management

## Program Element Statement

The objectives of this element are to provide leadership, policy direction and support services in the management of available resources for California public schools. Executive Management is composed of the following components:

Superintendent of Public Instruction—consists of the Superintendent and his key administrative assistants.

Executive Staff—consists of the Executive Deputy and the key management staff for each of the operating divisions.

## 50 CALIFORNIA STATE LIBRARY

## Program Objective Statement

The goal of the State Library is to make information available to users in a coordinated, effective, and efficient manner. The State Library also assists other California public libraries in providing timely, excellent, free library service for all State residents.

The library services program elements include: (a) reference and research for the Legislature and State agencies; (b) statewide library support and development; (c) special clientele services; and (d) State Library support services.

\* Dollars in thousands, excluding salary range.

## 50.10 Reference and Research for the Legislature and State Agencies

**Program Element Statement**

The State Library locates information for the Legislature and State agencies. Centralized library resources and services reduce costly duplication in other agencies. When onsite library services are required in State Agencies, the State Library provides back-up materials and services.

The State Library will continue to a) link users to library materials and sources of information to support the decision and policy-making functions of State government and b) provide access to sources of published and unpublished information for the Legislature and administrative agencies.

**Authority**

Education Code, Section 19320(k).

Input		88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

Federal Trust Fund <sup>†</sup>					148	140	141

**Budget Adjustments**

- Six positions are continued for the Library Automation Project, two permanent for systems operations work and four limited term for data conversion work.
- Three positions for the library to complete personnel and budgeting work which was previously completed under contract by the Department of Education.

## 50.20 Statewide Library Support and Development

**Program Element Statement**

The California State Library provides assistance for California public libraries to extend and improve local library services, as well as promote library resource sharing to enhance access to needed information by all citizens. The Library support and development element includes:

(1) Government Depository Program—The State Library acts as a coordinating authority for distribution of State and federal publications to libraries so local library users may have ready access to official government publications.

(2) Interlibrary Loan and Reference—Provides interlibrary services to supplement the collections of California Public Libraries and assists local libraries by answering reference questions and supplying information.

(3) Consultant and Research Services—Provides advisory and technical assistance to California libraries.

(4) Local Assistance—The State Public Library Foundation (PLF) provides for a 10% State match against local appropriations to operate public libraries. Libraries use the funds at local option to purchase additional books, films or recordings, employ extra staff for increased hours of public service, or buy needed equipment. The California Library Services Act (CLSA) helps public libraries and cooperative public library systems provide coordinated reference service, communications and delivery, loans to nonresident borrowers, and a computerized statewide data base of books they own. Special services provided by CLSA include the California Literacy Campaign (CLC) and the Families for Literacy Program. The CLC operates in 81 public libraries throughout the State and offers community-centered literacy assistance to adults who have otherwise missed the opportunity to learn to read English. The Families for Literacy Program seeks to break the cycle of illiteracy by engaging the children of functionally illiterate adults in family-oriented activities designed to promote reading readiness and the joy of reading. The federal Library Services and Construction Act (LSCA) is used for demonstration grants on a competitive basis to improve public library services, for assistance in local public library building construction, and for projects of cooperation among libraries.

**Budget Adjustment**

- \$409 thousand General Fund for increases in local library handling costs under the Direct Loan and Interlibrary Loan programs.
- —\$1.2 million General Fund reduction in the ongoing costs of the California Literacy Campaign to reflect that only five instead of fifteen new programs chose to participate in the program in 1989-90.

**Authority**

Education Code, Sections 12130, 18700-18767, 19320, and Government Code Sections 14901 and 14912.

\* Dollars in thousands, excluding salary range.

## 50.30 Special Clientele Services

## Program Element Statement

The Braille and Talking Book Library, a regional library designated by the Library of Congress National Library Service for the Blind and Physically Handicapped, provides braille materials and recorded materials (records and cassettes) with special playback equipment to blind and physically handicapped residents of Northern California who are unable to use standard print materials. Funds also are provided in this element for the Braille Institute of America in Los Angeles to operate the Southern California Regional Library.

## Budget Adjustment

- \$266 thousand General Fund to maintain services at the California Braille and Talking Book Library.

## Authority

Education Code, Sections 19320(j), 19323, and 19324.

## 50.40 State Library Support Services

## Program Element Statement

Support Services include (a) Administrative Services component and (b) Collection Management and Control component. The objectives of the Collection Management and Control component are to gather and catalog materials so that they may be used easily, and to preserve and to protect the materials. The objectives of Administrative Services component are to maintain leadership in planning library services at the local, State and national levels; administer the State Library and its programs efficiently; and coordinate State and federal grants for libraries according to law.

## Budget Adjustments

- \$175 thousand federal funds for the purchase of local history and genealogical materials to add to the library's collection.
- \$108 thousand federal funds for planning for a statewide library network that would foster cooperation between different types of libraries.

## Authority

Education Code, Sections 19320(j), 19323, and 19324.

## 97 SPECIAL ADJUSTMENTS

## Budget Adjustments

- \$543 million General Fund to reflect statutory cost-of-living increases of 3.0 percent and discretionary cost-of-living increases of 3.0 percent for preferential programs, including regional occupational centers and programs, apprenticeship, child care, gifted and talented programs, economic impact aid, mentor teachers and staff development.
- \$43 million General Fund is set aside for pending legislation to enact reforms to the \$125 per pupil year-round school incentive payment program (Education Code Section 42250.3). These funds are included as expenditures and counted toward Proposition 98 spending requirements.
- \$106 million General Fund in 1989-90 and \$210 million in 1990-91 are included for K-12 contingencies or emergencies. These funds are included as expenditures and counted toward Proposition 98 spending requirements. In the event the funds are not needed for contingencies or emergencies, funds shall be expended for other educational purposes.

\* Dollars in thousands, excluding salary range.

## 6255 CALIFORNIA STATE SUMMER SCHOOL FOR THE ARTS

## Program Objectives Statement

The California State Summer School for the Arts (CSSSA) was created pursuant to SB 45 (Chapter 1131, Statutes of 1985) and reauthorized pursuant to SB 2266 (Chapter 1515, Statutes of 1988) to provide California high school students who have demonstrated exceptional talent and excellence in the arts with intensive instruction through a multi-disciplinary, residential summer training program. The California State Summer School for the Arts allows students to choose from six major disciplines of study: Creative Writing, Dance, Film/Video, Music, Theatre Arts, and Visual Arts. The program provides a training ground for future artists aspiring to careers in the State's arts and entertainment industries. Funding for the program is based on a "public/private partnership" concept. No more than 50 percent of the actual costs of CSSSA may be paid with State funds. In 1989-90 State funding for CSSSA is provided by a transfer of funds from the Supplemental Summer School Program operated by the Department of Education. Beginning in 1990-91 State funding for CSSSA will be by a transfer from the support item for the Department of Education in lieu of the allocation provided by Chapter 1515, Statutes of 1988, in order to be consistent with the provisions of Proposition 98. Private donation funds are raised and managed by the California State Summer School for the Arts Non-Profit Foundation. During fiscal year 1988-89, private sector support for the program totaled more than \$445,000, which included private contributions, student fees, earned interest and in-kind services.

## 6300 CONTRIBUTIONS TO TEACHERS' RETIREMENT FUND

The objective of this program is to provide State financing of teacher retirement benefits which are not funded by employer and employee contributions, or income from investments.

Funding for the Teachers' Retirement Fund is derived from four separate sources: teacher members who contribute 8 percent of their salary; employing school districts who contribute 8.25 percent of member payroll; income from investments; and contributions from the General Fund. From 1972 to 1976 the State contributed \$135 million annually for the purpose of funding retirement benefits which were in effect on June 30, 1972. Chapter 323, Statutes of 1976, as amended by Chapter 991, Statutes of 1976, provided an additional amount of \$9.3 million to fund a one-time cost of living increase in benefits. The State continued to contribute \$144.3 million through fiscal year 1979–80.

Effective July 1, 1980, Chapter 282, Statutes of 1979, annually appropriates \$144.3 million from the General Fund for transfer to the Teacher's Retirement Fund, cumulatively increased or decreased by the June to June change in the composite California Consumer Price Index (CCPI) for the Los Angeles and San Francisco areas for the preceding year. This chapter also appropriated \$10 million in Fiscal Year 1980–81 and \$20 million in Fiscal Year 1981–82, with annual increases of \$20 million until the General Fund appropriation reaches \$280 million in Fiscal Year 1994–95. Thereafter this amount will be indexed to the CCPI. As a statutory appropriation, the state contribution is not included in the Budget Act.

Effective July 1, 1989, Chapters 115 and 116, Statutes of 1989, establish the Supplemental Benefit Maintenance Account to provide for purchasing power maintenance up to 68.2%. The General Fund provides a statutory transfer to the Teachers' Retirement Fund commencing with 0.50% of the teacher's salaries in 1990–91 fiscal year, and increasing to 2.5% in and after the 1994–95 fiscal year.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

6300 CONTRIBUTIONS TO TEACHERS' RETIREMENT FUND—*Continued*

## Major Budget Adjustments

1990-91 budget adjustments:

- This budget proposes an increase of \$31.3 million in General Fund to meet the statutory contribution requirements.
- This budget proposes a General Fund transfer of \$53 million for purchasing power protection which is provided to retired teachers from the Teachers' Retirement Fund. Purchasing Power Protection is a benefit for retired teachers to ensure that their original purchasing power does not fall below a specified level.

## 6330 CALIFORNIA OCCUPATIONAL INFORMATION COORDINATING COMMITTEE

## Program Objectives Statement

The California Occupational Information Coordinating Committee is funded annually by the National Occupational Information Coordinating Committee, which is responsible for improving and coordinating the development and implementation of occupational information systems at the national and state levels. Federal legislation (Carl D. Perkins Vocational Education Act of 1984) mandates state occupational information coordinating committees for states receiving vocational education funds.

The California Occupational Information Coordinating Committee (COICC) was established by AB 2020 (Chapter 972/78). In 1983, SB 178 stipulated that COICC annually report to the State Job Training Coordinating Council on the design and implementation of the occupational information system in California. COICC consists of representatives of the State Department of Education, State Department of Commerce, Chancellor's Office of the Community Colleges, State Job Training Coordinating Council, Council for Private Postsecondary Education Institutions, Employment Development Department and Department of Rehabilitation. COICC is responsible for fostering coordination between users and producers of occupational information and for coordinating the development of the California Occupational Information System (COIS), which provides labor market information to employment/training program planners, career counselors, and economic developers.

## 6350 SCHOOL FACILITIES AID PROGRAM

The objective of this program is to provide financing for construction and maintenance of classrooms for kindergarten through grade 12 public school pupils. Since the passage of Proposition 13 in 1978, school districts have been unable to generate sufficient local revenue to provide for their own capital outlay needs. Consequently, there has been an increasing reliance upon the State to provide funding for the construction and maintenance of local school facilities.

The State School Building Lease-Purchase Program of 1976 is funded through revenue obtained from the sale of State general obligation bonds authorized by the electorate.

The State School Building Lease Purchase Bond Act of 1984 (November) authorized \$450 million in general obligation bonds to be sold to provide resources for the purpose of school construction and reconstruction in accordance with the State School Building Lease Purchase Act of 1976. The first \$250 million of these bonds were issued and sold in 1985-86. Of the remaining \$200 million, \$117 million was issued and sold in 1988-89. It is anticipated that \$50 million will be issued and sold in 1989-90. The balance of \$33 million will be issued and sold in 1990-91.

Section 6217(f)(2) of the Public Resources Code provides that up to 5% of the amounts deposited in the State School Building Lease Purchase Fund may be utilized for the purchase of additional facilities for the Emergency Classroom Program. The full \$7,500,000 was made available for this purpose in 1984-85. The 1986 Budget Act appropriated \$15 million from the State School Building Lease Purchase Fund for the purchase of relocatable structures for this program. In addition, Section 4 of Chapter 887, Statutes of 1986, authorizes the State Allocation Board to expend up to \$15 million for the Allocation purchase of relocatable structures for the emergency classroom program. For 1987-88, the Budget Act increased the amounts authorized for the purchase of relocatables from \$15 million to \$35 million. The Board has fully expended the funds for 1985-86, 1986-87 and 1987-88. The School Facilities Bond Act of 1988 (June), Chapter 25, Statutes of 1988, authorized up to \$50 million for the acquisition of portable classrooms in 1988-89 and 1989-90.

Chapter 1751, Statutes of 1984 (AB 2377) enacted the School Facilities Asbestos Abatement Program and established the Asbestos Abatement Fund. \$10 million for the first year of this program, was reappropriated by Chapter 1749, Statutes of 1984 (SB 1297) from the Special Account for Capital Outlay (SAFCO) to the Asbestos Abatement Fund. Funding for the 1985-86 fiscal year was provided by a \$10 million appropriation of Tidelands Oil revenue from the SAFCO. For 1986-87, the Budget Act provided \$5 million for this program from the General Fund. During 1988-89, the electorate approved up to \$100 million in the 1988 School Facilities Bond Act (November) for asbestos identification, assessment and abatement in public schools. Of this amount, a total of \$25 million was available in 1989-90.

Chapter 1440, Statutes of 1985 (AB 1024) appropriated \$49.25 million of Federal Funds resulting from settlement of Section 8g of the Outer Continental Shelf Lands Act (OCSLA) to the State Allocation Board: \$28.5 million to the State School Building Lease/Purchase Fund for school construction; \$7.25 million for the purchase of relocatable facilities for use by child care and development programs and for loans to child care providers for renovation and repair of existing facilities; and \$13.5 million for allocation to school districts operating year-round school programs for purchase and installation of air conditioning systems and for insulation.

Chapter 1026, Statutes of 1985 (SB 303) provided \$36.5 million for the purchase of relocatable child care facilities for providers of extended day care programs. These funds may also be used for renovation and repair of such facilities.

Chapter 282, Statutes of 1979 (AB 8) appropriates the amount of repayments on loans that is in excess of the amount required to reimburse the General Fund for debt service for outstanding bonded indebtedness (Table 1) to the State School Deferred Maintenance Fund and the State School Building Lease-Purchase Program. For 1990-91, approximately \$53.7 million in excess bond repayments will be available for the State School Deferred Maintenance Program.

## Budget Adjustments

- For 1990-91, a total of \$1.6 billion is budgeted from the proposed June (\$800 million) and November (\$800 million) 1990 School Facilities Bond Acts. These measures would authorize the sale of general obligation bonds to be sold to provide resources for school construction/reconstruction and modernization of school facilities, portable classrooms, and abatement of hazardous asbestos in public schools.
- For 1990-91, an augmentation of \$23 million from Proposition 98 General Fund monies is proposed for the State School Deferred Maintenance Program.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## 6360 COMMISSION ON TEACHER CREDENTIALING

## 10 STANDARDS FOR THE PREPARATION AND LICENSING OF TEACHERS

## Program Objectives Statement

The Commission was established in 1970, with the specific charge of ensuring excellence in education by encouraging high standards of quality and diversity. The Commission carries out its program of standards for the preparation and licensing of teachers through four program elements: Credential Issuance/Information; Professional Services; Professional Standards; and Agency Administration.

Chapter 572, Statutes of 1986, raised the credential fee effective January 1, 1987 from \$40 to \$50 and authorized a maximum fee of \$65. The Commission increased credential fees by \$10 to \$60, effective July 1, 1988. Effective July 1, 1987, Chapter 572 also established within the Teachers' Credential Fund the Test Development and Administration Account through which all examination related revenues and expenditures will flow.

## Authority

Chapter 557, Statutes of 1970 (Education Code 44201 et seq.)

## Performance Measures

	1988-89	1989-90	1990-91
Institutions offering CTC-approved professional preparation programs for certified personnel .....	71	70	70
Approved preparation programs in effect (As of 6-30-89) .....	810	820	830

\* Dollars in thousands, excluding salary range.

## 6360 COMMISSION ON TEACHER CREDENTIALING—Continued

## 10.10 Credential Issuance and Information

## Program Element Statement

The basic objective of this element is to review and either issue or deny applications for public school teaching and services credentials and to conduct data collection, planning and research supportive of this area. This element also provides information to credential applicants and to credential personnel at the college, university and school district level and monitors colleges which issue credentials.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

Teacher Credentials Fund .....				3,663	4,449	4,372
Reimbursements .....				68	—	—

## 10.20 Professional Services

## Program Element Statement

The first basic objective of this element is to review and approve teacher preparation programs in 4-year public and private colleges and universities. Related activities are to establish standards for teacher education and training; and to conduct data collection, research and planning supportive of this area.

The other basic objective of this element is to develop and monitor examinations required in the process of licensing teachers. These examinations include: California Basic Educational Skills Tests; Single Subject examinations; Bilingual Certification of Competence; Language Development Specialist; and, other examinations as required by the Education Code. In addition to the development and monitoring of the various examination programs, the unit conducts research on the validity of its instruments, writes reports for the Commission and maintains statewide records on candidate performance.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing element costs .....	17.5	27.4	20.5	\$5,562	\$6,587	\$4,467

Test Development and Administration Account .....				2,878	3,540	2,956

## 10.30 Professional Standards

## Program Element Statement

The professional standards element, in concert with the Committee of Credentials, reviews the personal professional conduct of individual applicants and credential holders. Such reviews occur when there are allegations relating to arrest records, unprofessional conduct, mental health problems, or physical health problems. The basic objective of this element is to investigate allegations against credential applicants and holders, relating to immoral or unprofessional conduct or for persistent defiance of and refusal to obey the laws regulating the duties of persons serving in the public schools, and to determine whether probable cause exists for private admonition, denial, suspension, or revocation of the credentials of such persons.

Continuing element costs (Teacher Credentials Fund) .....	6.5	6.9	6.8	\$1,074	\$706	\$720

## 10.40.010 Administration

## Program Element Statement

The administration element, through the office of the Executive Secretary and the nineteen-member commission, provides the leadership, policy direction and administrative services required to support the operations of the Commission. Activities include administration, personnel, budget and business management services.

Element Components	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 6370 CALIFORNIA SCHOOL FINANCE AUTHORITY

The California School Finance Authority was established by Chapter 1438, Statutes of 1985, and is authorized to issue \$250,000,000 in revenue bonds for the provision of grades K-12 school facilities. Chapter 598, Statutes of 1987 (AB 370) increased the total revenue bond authority to \$400,000,000 and included community college districts within existing provisions. The proceeds from the sale of the bonds are made available to provide loans to assist school districts and community college districts in obtaining new school sites, constructing new facilities, reconstructing existing facilities and acquiring portable/relocatable buildings, and for maintenance. The proceeds of loan repayments provide necessary resources for bond debt service. As of June 30, 1989, \$49,300,000 in revenue bonds have been sold and deposited in the California School Finance Authority Fund for purposes of providing loans to eligible school districts and community college districts. Of this amount, approximately \$1,530,000 in loans have been made to various districts statewide. The Authority is authorized to issue up to \$350,000,000 in revenue bonds in 1989-90 and 1990-91.

All expenditures of the Authority for debt service and other expenses must be paid from revenues available to the Authority.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 6420 CALIFORNIA POSTSECONDARY EDUCATION COMMISSION

The California Postsecondary Education Commission is responsible for planning for and coordinating education beyond high school. The Commission provides policy analyses, advice and recommendations to the Legislature and the Governor on statewide policy and funding regarding colleges, universities and other postsecondary institutions. Among its major responsibilities are the review of proposed new academic and vocational education facilities and programs, recommendations on the need for and location of new campuses and off-campus centers, identification of potential barriers to diversification of students and faculty, the operation of a statewide postsecondary information system, selective evaluation of segmental budget requests, the development and annual update of a five-year plan for postsecondary education, publication of reports on the condition of independent institutions and other issues.

## 10.10 Director's Office

## Program Element Statement

The Director's Office provides leadership to the staff in the primary long-range planning and coordinating efforts of the Commission. Under general policies established by the Commission, the Director advises the Governor, the Legislature and other state agencies concerning policies and funding for California postsecondary education. The Director also works with a statutory advisory committee composed of the chief executive officers of each of the public education segments, the State Superintendent of Public Instruction and other representatives of postsecondary segments in reviewing Commission agenda items and associated documents.

6420 CALIFORNIA POSTSECONDARY EDUCATION COMMISSION—*Continued*

## 10.20 Commission

## Program Element Statement

The Commission has 15 members: one representative each of the Regents of the University of California, the Trustees of the California State University and the Board of Governors of the California Community Colleges, one representative of the independent colleges and universities, appointed by the Governor, the chairperson of the Council for Private Postsecondary Educational Institutions; the President of the State Board of Education or his/her designee and nine representatives of the general public. Three of the nine public representatives are appointed by the Governor, three by the Senate Rules Committee and three by the Speaker of the Assembly. The Commission selects its chairperson from among the public members.

The budget provides for stipends to Commission members of \$100 per day as authorized, together with necessary travel and expenses for Commission meetings.

Private Funds (contributions) .....				—	50	125

## 20 RESEARCH AND EVALUATION DIVISION

## Program Objectives Statement

The Research and Evaluation Division is responsible for conducting research on postsecondary education, reviewing proposals for new programs, campuses and facilities by public institutions. Projects continuing into 1990-91 include but are not limited to Long Range Enrollment and Facilities Planning, Educational Equity and Diversification of Faculty, Role of Independent Institutions, the Use of Part Time Faculty, student access and flow as well as a number of legislatively mandated activities.

## Budget Adjustments

- An augmentation of \$150,000 has been included to develop a comprehensive student information system which will include: (a) an eligibility study every four years of California high school graduates, (b) a six year cohort study of eligible students and (c) a student flow data base.

## Authority

## 50 WESTERN INTERSTATE COMMISSION FOR HIGHER EDUCATION

## Program Objectives Statement

The Western Interstate Commission for Higher Education (WICHE) is a nonprofit regional organization which helps California and 12 other member states cooperate in providing high quality cost-effective programs to meet the education and personnel needs of the West. Member states, in addition to California, are Alaska, Arizona, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming. Governors appoint three Commissioners from each state to govern the agency. California's annual assessment for organizational operations for 1990-91 will be \$68,000 according to the interstate compact.

WICHE has three primary goals: (1) to work toward improving access to higher education for students, (2) to assist member states to meet their technical and professional personnel needs, and (3) to improve the quality of higher education through greater effectiveness and efficiency. These goals are achieved through seven general program areas: student exchange, health resources, nursing education, mental health and human services, minority education, economic development and student internships.

WICHE is assuming administration of the Western Name Exchange, an association of 25 universities that circulates the names of senior-level minority students for recruitment into graduate programs in the West. Many schools within the exchange are located in California.

## 6440 UNIVERSITY OF CALIFORNIA

## 1990-91 BUDGET ADJUSTMENTS

The 1990-91 Governor's Budget proposes an overall University of California support budget of \$2,523.1 million. The proposal includes \$2,203.9 million from the State General Fund, \$62.0 million from State Special and Non-governmental Funds and \$257.2 from the University's General Fund income including the University of California Retirement deferral costs. Financial support for the University from other sources totals \$6,378.9 million for a total budget of \$8,902 million. The proposed funding level represents a total increase of \$489.0 million from all funding sources. The net General Fund proposed increase in 1990-91 represents a \$114.4 million increase over 1989-90.

## MAJOR BUDGET ADJUSTMENTS

The following display highlights all the major changes in the University of California Budget from the 1989-90 funded program level and the 1990-91 planning base in Instruction, Library, Financial Aid, Salary Increase and related benefits, Operation and Maintenance and the State contribution for the University of California Retirement System. See summary of Budget adjustment details for all changes in the University of California budget from the 1989-90 base year.

## INSTRUCTION

- In 1990-91, general campus enrollment is projected to be 142,079 FTE, an increase of 1,888 FTE undergraduate students. For 1990-91, an increase of \$9,991,000 over the 1989-90 budget is provided to fund the instructional costs associated with the 1,888 FTE enrollment increase, including 107.2 FTE faculty and 41.59 FTE teaching assistants.

## LIBRARIES

- An increase of \$634,000 is provided for 15.1 FTE reference-circulation staff associated with the enrollment related workload increases.

## FINANCIAL AID

- The 1990-91 Budget includes an increase of \$2,629,000 for financial aid related to enrollment growth and fee increase.

## OPERATION AND MAINTENANCE OF PLANT

- An increase of \$7,960,000 will provide basic workload support for 1,326,000 square feet of additional State-maintainable building area.

## PROGRAM MAINTENANCE: FIXED COSTS, ECONOMIC FACTORS AND SALARY INCREASE FUNDS

- \$37,230,000 General Fund for a 4.8 percent academic and a 3.9 percent staff salary increase effective January 1, 1991.
- \$45,892,000 General Fund for the continuation costs of salary increases and employee benefits effective January 1, 1990.
- \$15,930,000 General Fund for health, dental, and other insurance cost increases for faculty, staff and annuitants.
- \$16,517,000 General Fund for faculty merit salary adjustments.

## PROGRAMS AND PROVISIONS

- The 1989 Budget Act reduced the University's 1989-90 appropriation by \$68.0 million to defer the entire General Fund employer contribution to the University of California Retirement Plan (UCRP). This was a one-time reduction. It is also the intent of the Legislature and the Governor that this reduction be considered a deferral of the employer contribution, to be amortized by supplemental appropriations for the 1990-91 fiscal year and in each subsequent year thereafter, for a period not to exceed 30 years. These supplemental appropriations are to be in addition to other appropriations for the support of the University and in amounts which, in total, will be the actuarial equivalent of the amount deferred. The University has revised its actuarial assumptions and, thereby, has reduced the employer contribution rate from 5.92% to 4.03% effective January 1, 1990. This has produced a net savings of approximately \$25 million for the State by reducing the annual amount needed for UCRP from about \$80 million to about \$55 million. A 1990-91 appropriation to fund the UCRP retirement costs will be proposed in separate legislation with a provision that funds will be made available to the University over the period July 1, 1991 to September 30, 1991. Funds allocated will total \$55,629,000, of which \$5,305,000 is the first of 30 installments to pay back the amount deferred in 1989-90 and \$50,324,000 is to continue the annual employer contribution at a rate of 4.03%.

<sup>1</sup> General purpose expenditures are the total of the State General Fund and the University's General Fund. Restricted purpose expenditures includes the Tobacco Products Surtax Funds, California Water Fund, State Transportation Fund, California State Lottery Education Fund, Higher Education Facilities Bond Fund, University Funds and Extramural Funds.

## 1989-90 FUNDED PROGRAM LEVEL AND 1990-91 PLANNING BASE

The University of California was founded in 1868 as a public, State-supported land-grant institution. It was written into the State Constitution of 1879 as a public trust, to be administered under the authority of an independent governing board—the Regents of the University of California. Presently, the Board of Regents includes 28 members, seven ex officio, 20 appointed by the Governor with the approval of the Senate for staggered terms, and one student appointed by the board.

A master plan for the development of higher education in California, enacted in 1960 and referred to as the “Donahoe Higher Education Act,” designates the University of California as the primary State-supported academic agency for research with exclusive jurisdiction in public higher education over instruction in the professions of law, medicine, dentistry, and veterinary medicine. Sole authority is also vested in the university to award doctoral degrees in all fields, except that joint doctoral degrees with the California State University may be awarded.

The administrative structure of the university is headed by a president who is responsible for overall policy development, planning, and resource allocations. Chancellors have primary responsibility for the management of campus resource allocations as well as campus administrative activities.

The regents have delegated authority to the academic senate to determine conditions for admission (subject to constraints of the Master Plan for Higher Education), degree requirements, and approval of courses and curricula. Special faculty committees serve in an advisory capacity to the regents, the president, and the chancellors in a variety of matters. There are nine university campuses. Eight of them offer undergraduate and graduate instruction and professional education; the ninth is devoted exclusively to the health sciences. The university owns and operates teaching hospitals and clinics on the Los Angeles and San Francisco campuses, and in Sacramento, San Diego, and Orange counties. Approximately 150 university institutes, bureaus, centers, and laboratories operate in all parts of the state. The university's Agricultural Experiment Station, Cooperative Extension Offices in 54 counties, and the Natural Land and Water Reserves System serve people in all areas of California.

The University of California conducts higher education programs in four major areas:

1. Instruction of qualified individuals, by sharing with them knowledge and skills and by helping them to experience with their instructors the processes of developing and testing new hypotheses and fresh interpretations of knowledge. The university offers lower division, upper division, graduate, professional, and postdoctoral programs on each of its general campuses.

2. Research directed toward advancing the understanding of arts and sciences and the interpretation of human history. The university provides faculty time and the essential libraries, laboratories, and other resources necessary to further faculty research, which is intimately connected with teaching in the university—especially at the advanced graduate level.

3. Education for professional careers—education grounded in the understanding of relevant sciences, literature, and research methods by which the boundaries of knowledge are pushed back. Individuals are provided with the tools to continue intellectual development over a lifetime and to contribute to the needs of a changing society.

4. Public service contributing to the fulfillment of the university's obligation to disseminate knowledge and bring to faculty and students the stimulation of applying their knowledge and special skills to the problems of modern life.

## 05 INSTRUCTION AND DEPARTMENTAL RESEARCH

**Program Objectives Statement****General Campuses**

General Campus instruction includes most of the direct instructional resources associated with the schools and colleges located on the eight general campuses. These resources include faculty, teaching assistants, and various instructional support staff, supplies, and equipment needed to provide the breadth of courses and degree programs necessary to achieve the University's diverse instructional responsibilities. Included are classroom and laboratory instruction as well as joint scholarly research activities of students and faculty.

**Health Sciences**

The instructional program in the health sciences is carried on in 14 schools which provide education in various health fields to students preparing for careers in health care, teaching and research. The health science schools are located on six campuses and include five schools of medicine, two schools of dentistry, two schools of nursing, two schools of public health, one school of pharmacy, one school of veterinary medicine, and one school of optometry. In addition, four programs in medical education are conducted at Berkeley, Fresno, Riverside, and the Charles R. Drew University of Medicine and Science in Los Angeles. The physical, biological and behavioral science programs of the general campuses complement the programs of the health science schools. Professional students, residents, fellows, students in allied health programs and graduate students who will become teachers and researchers are participating in these programs.

## Summer Sessions

University of California summer sessions are self-supporting instructional programs offering courses for both degree credit and in selected specialized programs. The summer programs provide a broad spectrum of instructional offerings. The specialized programs include intensive courses conducted at several campuses which enable students to accelerate their progress toward degrees, and serve as refresher courses for new and continuing students. Programs in education are offered to improve instruction in California's schools and colleges. Courses to prepare prospective students are also offered.

## Program Requirements

Funding:				
Restricted Funds .....			15,276	16,222
Enrollments .....			45,224	46,900

## University Extension

University Extension is the largest institution of its kind—the nation's leading "noncampus university"—with an annual projected 1990-91 enrollment of 380,000 students participating in classes, short courses, seminars, field studies, and similar activities throughout California and in several foreign countries. It has open admissions, optional credit and free student selection of curriculum. University Extension is a self-supporting instructional unit and its offerings depend entirely on student fees.

Program organization varies among the campuses, depending on the size of the program and the characteristics of the campus. Programs have a disciplinary orientation; for example, arts and humanities, business administration, dentistry, education, engineering, health sciences, medicine, nursing, physical sciences, social sciences, and public affairs. Statewide programs, such as Continuing Education of the Bar, and correspondence courses, are established when there are valid reasons (e.g., when a single university unit can more effectively and economically serve the entire State).

\* Dollars in thousands, excluding salary range.

## Instructional Costs and Faculty Productivity

Tables 11 and 12 presents a display of instructional cost and student credit units per faculty. The cost data reflects all state general funded costs of instruction including a pro rata share of libraries, maintenance of plant and other institutional services. Unit costs by level are derived from faculty workload by level of instruction and from student loads by level of student. Table 11 displays unit costs data by level of student and reveals a significant difference in cost per unit of credit between levels. Table 12 displays student credit units per faculty according to the three levels of instruction and provides cost at each level. Interpretations of these data are only meaningful in the context of a full understanding of the differentiation of function among segments of public higher education in California and the resulting differences in educational approaches.

## 10 RESEARCH

## Program Objectives Statement

The University is designated by the Donahoe Act as "... the primary State-supported academic agency for research." Its research activities, both basic and applied, contribute to the social, economic, and technological progress of the State and the nation. More specifically, the university, through its research toward the solution of complex problems facing society, enables individuals to control their environment more effectively. In addition, the research process is essential to the training of scholars in the methodology of inquiry and the nature of the creative scholarly process, especially in the advanced graduate and professional instructional programs.

## 15 PUBLIC SERVICE

**Program Objectives Statement**

Activities funded within this function are campus public service, Cooperative Extension, the contract with the Charles R. Drew University of Medicine and Science, and the California College of Podiatric Medicine program conducted cooperatively with the UC San Francisco School of Medicine. Campus public service programs include the California Mathematics Project, California Writing Project, California Science Project, Puente California Articulation Number, University Schools, Community College Transfer Centers, EQUALS, MESA, ASSIST and the Teratogen Registry. These programs account for most of the State funds for public service, but the University also offers many activities which are almost completely supported by user fees and other non-State fund sources. Such activities include the Lawrence Hall of Science, arts and lecture programs, vocational education, and community service projects.

Cooperative Extension, previously known as Agricultural Extension, provides to the citizens of California information and education programs in agriculture and natural resources, family and consumer sciences, community resource development, and 4-H youth development. Its programs are designed to deliver the results of research and new knowledge to people located in communities beyond the campuses of the University and to bring problems and issues from individuals and communities back to campuses for exploration and research. The California Mathematics Project is a staff development program which strengthens the mathematics problem-solving skills and teaching techniques of K-14 teachers. The California Writing Project is a program designed to improve the writing skills of students from elementary school through community college levels. The program offers tenured teachers in-service training in the teaching of writing skills to students.

The California Science Project is administered by the University of California, in cooperation with the California State University and the State Department of Education. The project, established in 1988 and modeled after the California Mathematics Project, is designed to strengthen science education through K-12 faculty development activities and a statewide effort to update science instruction.

Community College Transfer Centers are an intersegmental effort designed to increase the number of students transferring from community colleges to four-year institutions, particularly minority, handicapped, low income, and other students who are underrepresented among transfer students.

ASSIST (The Articulation System Stimulating Interinstitutional Student Transfer) is an on-line microcomputer system designed to store and make accessible essential data concerning course requirements for students wishing to transfer from a Community College to a four-year institution. EQUALS is a training program to provide classroom teachers, counselors, and administrators with the tools to promote the participation of women and minority students in mathematics courses, thereby improving their opportunities for entry into math-based fields of study and employment.

Under the University/Schools Cooperative Research Extension Program in Education, research results and ideas for educational improvement will be brought to K-12 schools through extension programs and through work with K-12 teachers, counselors, administrators, and student teachers.

Under CAN (California Articulation Number), a series of common numbers is provided for courses within higher education which are comparable. Courses with the same CAN number are considered acceptable in lieu of one another for breadth, elective, and major prerequisite requirements.

MESA assists underrepresented minority students by preparing them to enter and complete math- and science-based courses of study in college.

The 1990-91 Budget includes a \$3.6 million appropriation to the University for support of a program of clinical health sciences education, research, and public service at the Charles R. Drew University of Medicine and Science, conducted with UCLA. Programs which are specified by the act to provide the greatest public benefits are: (1) continuing education of physicians and other health professionals and consumers of health services; (2) community medicine, designated to improve the health status of the citizenry, the health care delivery system and health sciences education; (3) residencies, including a family practice residency program at the Martin Luther King Hospital and other appropriate facilities and clinics; and (4) such other programs of clinical health sciences education, research, and public service as the Regents and the Charles R. Drew University of Medicine and Science deem in the public interest, provided that the above specified programs are first funded. State funding was originally authorized by the Legislature in 1973 (Chapter 1140/73—SB 1026).

Chapter 1497/74 appropriated \$541,000 to the University for the support of an educational program in podiatry operated in conjunction with the California College of Podiatric Medicine in San Francisco. The State has continued to support this program each year at its 1974-75 level, adjusted for inflation.

## 20 ACADEMIC SUPPORT—LIBRARIES

**Program Objectives Statement**

The University libraries provide ready access to books, documents, and other scholarly materials for the University's students, faculty, staff, and faculty from other California colleges and universities. In addition, the libraries may grant borrowing privileges to any California adult. University libraries service both instructional and research needs and thus must be diverse in nature and maintain comprehensive and historical information. The rapid expansion of knowledge requires an extensive effort to keep materials current.

## 20.10 Academic Support—Other

**Program Objectives Statement**

Academic Support—General Campus Programs: Other academic support on the general campuses is comprised of a number of partially self-supporting activities organized and operated in connection with educational departments and conducted as a basic support for the departments educational programs. These supporting services contribute greatly to the quality and effectiveness of the instructional programs.

Many diversified programs are included, the largest being the demonstration of new schools (university elementary schools, nursery schools, and a psychology clinic school) which serve as interdepartmental teaching laboratories for experimentation, research and teacher training. These programs receive part of their support from state funds. The demonstration schools not only educate hundreds of children, but contribute to the advancement of education through research efforts and application of results; through development of new programs of teacher education, and dissemination of new knowledge to public schools.

Academic Support—Health Sciences Programs: In support of programs in the health sciences, the University operates dental clinics and neuropsychiatric institutes at Los Angeles and San Francisco, a veterinary medicine teaching facility at Davis and one in the San Joaquin Valley (near Tulare), an optometry clinic at Berkeley and two occupational health centers: one in the northern part of the state and one located in the southern part of the state. These facilities are extension of the health sciences schools, and provide clinical experience essential to the educational process as well as valuable community health services.

\* Dollars in thousands, excluding salary range.

## 6440 UNIVERSITY OF CALIFORNIA—Continued

Other activities supporting both general campus and health sciences programs include vivaria, which provide centralized facilities for ordering, receiving and care of all animals necessary for teaching and research in the biological sciences; support for arts by direct sponsorship of performances and exhibits and funding for galleries and museums; support of specialized physical science and engineering projects which are of service to academic departments and to industry, support for intercollegiate athletics at the smaller campuses, and support for professional journals.

## 25 TEACHING HOSPITALS

## Program Objectives Statement

The University operates five teaching hospitals whose primary mission is to support the clinical teaching programs of the five schools of medicine located on the Davis, Irvine, Los Angeles, San Diego, and San Francisco campuses. This primary educational mission of the teaching hospitals also extends to the other health sciences schools operated by the University and to the many practicing health professionals who participate in the clinical instruction and continuing education programs offered at the five teaching hospitals. Concurrent with their educational mission, the hospitals provide health care to thousands of patients, who generally have more serious illnesses and less financial resources than patients at other community hospitals, and are also the sites for the development of new diagnosis and therapeutic health care technology. In their tripartite mission of education, service, and research, the five University teaching hospitals are a major resource for California and the nation.

The State appropriates funds, called Clinical Teaching Support (CTS), for the University teaching hospitals which are used chiefly to provide financial support for patients essential for the clinical teaching program but unable to pay the full cost of hospital care. CTS is also used for ambulatory care teaching costs in the hospitals. While less than 5 percent of the total 1989-90 operating budget for the five hospitals, CTS assists in providing a diverse patient population for instruction in health care.

In recent years, sharply rising health care costs, demographic changes, and economic conditions caused the California Legislature, the Congress, and the private sector to initiate fundamental changes in the method of paying for health care. Among those changes, the following have profoundly affected the University teaching hospitals: (1) the Medi-Cal Reform Act of 1982 authorized selective contracting for hospital inpatient services at prospectively determined per diem rates based on competitive bids and also transferred responsibility for health care of Medically Indigent Adult patients from Medi-Cal to the counties, but with reduced funding; (2) AB 3480 was passed in 1982 and authorized private group health insurance carriers also to selectively contract with hospitals on behalf of their beneficiaries for rates that are less than established charges; and (3) the Congress authorized the Medicare program to phase in over a three-year period a nationally established prospective payment system for hospital inpatient care at payments per case that are based on diagnosis rather than on per diem cost. The basic intent of these changes is to replace cost-based reimbursements and fee-for-service payment systems with prospectively determined fixed payment rates. For the University hospitals, the combined result has been inadequate reimbursement for operating costs and reduced opportunities for offsetting the resulting shortfall to charge-paying patients.

The University implemented programs to contain costs and increase revenue that were consistent with maintaining a high quality of care for all patients, including medically indigent patients, and a sufficient volume and balanced mix of patients necessary for a quality clinical teaching program. However, at the three former county hospitals operated by the Davis, Irvine, and San Diego campuses, which continue to treat high proportions of medically indigent patients, total operating losses of \$11.2 million and \$1.5 million were reported for 1984-85 and 1985-86, respectively.

As a means of resolving the fiscal problems of the hospitals, the University worked with the Governor to develop a plan in the 1985-86 Governor's Budget which included: (1) continued effort by the five hospitals to improve fiscal operations by controlling costs and increasing revenue while maintaining quality teaching and patient care programs; and (2) for the three former county hospitals, State funding over an eight-year period for special capital outlay and equipment projects that will improve the fiscal viability of those facilities through reduced operating costs or increased revenue plus an annual operating subsidy to be phased out over the eight-year period as the financial payback from those projects is realized. The Budget Act of 1985 included \$11.7 million for capital outlay projects involving major renovation of the intensive care units at the Irvine and San Diego hospitals plus \$15 million in special operating subsidy to alleviate projected 1985-86 operating losses at the three hospitals. Pursuant to language included in the Budget Act of 1986, \$9.6 million of the 1985-86 operating subsidy advanced was utilized by the University to offset the combined net loss at the Irvine teaching hospital for the 1983-84, 1984-85, and 1985-86 fiscal years. The Budget Act of 1986 also approved \$17.8 million for capital outlay projects, payable from the Higher Education Capital Outlay Bond Fund, and included a \$7.5 million operating subsidy plus the guarantee of another \$7.5 million as a deficiency appropriation if required for operating losses. Net gains were reported at each of three former county hospitals in 1986-87, therefore, the University returned to the State the \$7.5 million operating subsidy appropriated for that year and the \$7.5 million deficiency appropriation was not required. For 1987-88, the third year of the plan, the Budget Act of 1987 included \$16.4 million as continued support for the capital outlay projects approved in 1986-87 and \$3 million in operating subsidy plus budget language guaranteeing an additional \$5 million as a deficiency appropriation, if needed for operating losses. As part of the State budgetary adjustments required near the end of 1987-88, and in response to lowered tax revenues, the total \$8 million operating subsidy available in the Budget Act of 1987 was shifted to the Budget Act of 1988 and designated for 1987-88 losses. The entire \$8 million was required for 1987-88 losses at the Irvine hospital. The Budget Act of 1988 included \$49 million for capital outlay projects, of which, \$41.8 million was continued support for projects approved in 1986-87 and \$7.2 million was for two new projects. For

\* Dollars in thousands, excluding salary range.

## 6440 UNIVERSITY OF CALIFORNIA—Continued

1989-90, the fifth year of the plan, the University requested no additional funds for capital outlay projects. The Budget Act of 1989 provided an \$8 million subsidy for losses at the three hospitals in the prior (1988-89) fiscal year. The entire \$8 million was used to offset 1988-89 losses at the Irvine hospital as net gains were reported at the Davis and San Diego hospitals. In the current plan, funding is being provided earlier for capital outlay projects than in the initial 1985-86 plan in order to achieve financial paybacks from cost savings or revenue increases earlier and thereby reduce the total operating subsidy required by the plan. The current plan will require total operating subsidy and capital outlay funds of \$127.1 million, excluding \$11.1 million for code-required projects at San Diego, which is a savings of \$11.1 million from the initial 1985-86 plan that would have required a total operating subsidy and capital outlay of \$139 million.

## 30 STUDENT SERVICES

## Program Objectives Statement

Student Services programs support those activities whose primary purpose is to contribute to the student's emotional and physical well-being, including their intellectual, cultural and social development outside the context of the formal instruction program. It includes expenditures for organized Student Service administrative activities that provide assistance and support for the needs of students.

## Student Affirmative Action

The University's student affirmative action programs are a comprehensive effort designed to increase the enrollment of academically qualified students from underrepresented groups and to provide the necessary support to ensure academic success for these students. These programs support the movement of students from junior high school through high school into the completion of University undergraduate and graduate degree programs and assistance with career placement. Programs are funded at both the systemwide and the campus level. At the systemwide level, programs are

\* Dollars in thousands, excluding salary range.

## 6440 UNIVERSITY OF CALIFORNIA—Continued

supported under outreach, undergraduate student affirmative action, and graduate and professional school student affirmative action. The Outreach effort includes Early Academic, Immediate and Graduate Outreach programs. The Undergraduate Student Affirmative Action programs include Academic Support Services, Grants-in-Aid (financial aid), the Undergraduate Minority Scholars Program, and the Pregraduate Mentorship Program. The University's graduate and professional school student affirmative action programs are included under the title of the Academic Career Development Program. This Program includes the First-Year Graduate Mentorship Program, the Research Assistantship/Mentorship Program, and Dissertation-Year Fellowships.

## 45 STUDENT FINANCIAL AID

## Program Objectives Statement

There are four major sources of financial aid available to University of California students—the Federal Government, University Resources, Private Donors and Outside Agencies and the State of California. In 1988-89 approximately 68,000 students received assistance from one or more of these sources, at a total cost of \$268 million.

\* Dollars in thousands, excluding salary range.

6440 UNIVERSITY OF CALIFORNIA—Continued

The major sources for University program funds are student fee income and Regents' sources, including private gifts and scholarships and loan funds. The Federal government provides for loans, veterans benefits, and grants through various programs. In addition, graduate students receive traineeships and fellowships from numerous Federal sources. The California Student Aid Commission provides scholarships and grants directly to students. Private and outside agencies provide the remaining amounts of scholarships, grants, and loans available to University of California students.

50 AUXILIARY ENTERPRISES

Program Objectives Statement

Auxiliary enterprises are those noninstructional services provided to individuals, primarily students, in return for specific user charges. The organizational units providing these services, such as student housing, parking, intercollegiate athletics, food services, parking operations, and various others, are largely self-supporting and are not subsidized by the State.

## 55 PROVISIONS FOR ALLOCATION

## Program Objectives Statement

These budgetary provisions serve as a temporary repository for lump sum appropriations which are destined for allocation (1) from Systemwide provisions to campus provisions, and (2) campus provisions to operating programs and subprograms where expenditures will occur. The major provisions for allocation include funds for salary merit increases, academic position upgradings, staff reclassifications, price increases, employee benefits, and unallocated endowment income. These provisions are partially offset by the University budgetary savings target.

As authorized by Item 6440-490 of the 1989 Budget Act, \$9.2 million of 1988 University General Fund balances are reappropriated for expenditure in 1989-90 to meet the University's instructional equipment replacement, deferred maintenance and special repair project needs.

## 60 PROGRAM MAINTENANCE: FIXED COSTS, ECONOMIC FACTORS, AND SALARY INCREASE FUNDS

## Program Objectives Statement

The element of program maintenance includes funds for 1) merit increases for eligible academic employees, 2) rate and enrollment-related increases in employee benefit costs, and 3) the 1990-91 cost of salary and employee benefit changes implemented in 1989-90, and 4) the 1990-91 cost of salary and employee benefit changes to be implemented in 1990-91. See first two pages of the University of California budget for these provisions.

## 65 SPECIAL REGENTS' PROGRAMS

After provision for certain administrative costs, 55 percent of the Federal overhead on contracts and grants is used as part of the funding for the University's Budget for Current Operations; the other 45 percent supports special programs established by action of The Regents. For 1990-91, The Regents have allocated \$76,295,000 for special Regents' programs.

## General Analysis

The 1990-91 capital budget for the University of California focuses on the continued development of instruction and research facilities and library space to support campus academic programs. The capital budget also includes projects to renovate existing space, expand campus utility systems, and upgrade buildings to enhance seismic safety. The budget gives the highest priority to the equipping of buildings under construction and the completion of partially funded projects.

## Objectives

The University of California is a statewide institution of higher education with the following major functions:

1. Instruction
  - a. Broadly based instruction leading to the baccalaureate degree,
  - b. Graduate programs leading to master's degrees and doctoral degrees, and programs of postdoctoral instruction,
  - c. Instruction in professional fields,
  - d. Programs for the preparation of teachers, and
  - e. Joint doctoral programs with the state university and colleges.
2. Research

The University is designated by the Master Plan for Higher Education in California as the primary state-supported academic agency for research, both basic and applied, and as the primary public repository for scarce documents and other unique library resources needed for the doctor's degree and for research programs.

## 3. Public Service

Provide public service in areas related to the University's programs of instruction and research.

## UNIVERSITYWIDE

## Major Projects

99.00.010.90 Project programming and preliminary plans .....	\$200 <sup>Pu</sup>	—	\$1,000 <sup>Pv</sup>
These funds are to be used to prepare programs and preliminary plans for those future projects not large enough to warrant a line item appropriation for this purpose and for the development of cost/benefit analyses of planning alternatives for projects in future capital budgets.			
99.00.025.90 Southern regional library facility, phase 2 .....	—	—	413 <sup>Pv</sup>
Funds are requested for the second phase of a three-phase project which will house approximately 11 million library volumes in compact shelving. The purpose of the facility is to store, preserve, and provide access to low use materials of research value in an economical manner.			
Northern Regional Library Facility, phase 2 .....	7,836 <sup>Cu</sup>	\$314 <sup>Eu</sup>	—
Totals, Major Projects .....	\$8,036	\$314	\$1,413

## Minor Projects

99.00.005.90 Minor capital improvements .....	\$3,000 <sup>PWCt</sup>	—	—
	3,528 <sup>PWCu</sup>	\$1,000 <sup>PWCu</sup>	\$6,350 <sup>PWCv</sup>
Totals, Minor Projects .....	\$6,528	\$1,000	\$6,350

## TOTALS, EXPENDITURES, CAPITAL OUTLAY

Higher Education Capital Outlay Bond Fund <sup>t</sup> .....	\$14,564	\$1,314	\$7,763
Higher Education Capital Outlay Bond Fund of 1988 <sup>u</sup> .....	3,000	—	—

## BERKELEY CAMPUS

99.01.015.90 Life Sciences Building renovation for ecology and evolutionary biology .....	\$2,603 <sup>Wu</sup>	\$34,976 <sup>Cr</sup>	\$6,090 <sup>Cs</sup>
	913 <sup>Wci</sup>	17,488 <sup>Ci</sup>	3,045 <sup>Ei</sup>

Funds are requested for the second phase of a project for renovation of existing space to provide modern instruction and research facilities for programs in the biological sciences. Areas programmed for the renovated facility include research laboratories and offices for 46 faculty, 20 undergraduate and five graduate instructional laboratories, 9 classrooms, the biological sciences library, rooms for major collections and other support facilities. Approximately 264,000 asf will be provided. The project funding plan includes a combination of State (two-thirds) and gift (one-third) sources.

\* Dollars in thousands, excluding salary range.

<b>General Analysis—Continued</b>				
99.01.085.90	Doe and Moffitt Libraries addition and seismic improvements ...	—	\$1,600 <sup>Pu</sup>	\$2,640 <sup>Wv</sup>
Funds are requested for a 143,000 asf underground addition between Doe and Moffitt Libraries, the correction of seismic hazards in Moffitt, the demolition of the hazardous central shelving stack in Doe, and related alterations in both libraries. This project is the first step in a phased program to correct seismic and code deficiencies and upgrade and expand the main library complex.				
99.01.075.90	Handicapped access improvements, step 5 .....	\$87 <sup>Wu</sup>	—	1,399 <sup>Cv</sup>
Funds are requested to provide primary access for the physically handicapped to 17 campus buildings. The facilities were selected for improvements because they are used by all students, contain general assignment rooms, or have special academic or administrative functions not available elsewhere on campus.

## DAVIS CAMPUS

## General Campus

99.03.070	Electrical System Modification and Expansion .....	—	—	\$1,484 <sup>Cv</sup>
Funds are requested to construct a project to increase the capacity of the Electrical Distribution System. This includes expanding one substation adding two transformers and related switchgear and upgrading electrical feeders.				
99.03.075.90	Engineering unit 2 .....	\$1,315 <sup>Pu</sup>	\$1,664 <sup>Wu</sup>	37,859 <sup>Cs</sup>
Funds are requested for a 113,075 asf facility to house College of Engineering programs. This project is the first step of a two-phase program to provide additional teaching and research laboratory space. Engineering unit 2 will house the Departments of Agricultural Engineering (1,130 asf), Electrical and Computer Engineering (79,165 asf), Mechanical Engineering (20,131 asf), central administration for the College and electronic service units (12,649 asf).				
99.03.090.90	Social Science and Humanities building .....	—	—	840 <sup>Pv</sup>
Funds are requested for an 81,000 asf building that will house eight social sciences and humanities teaching and research departments and programs, four related academic centers, classrooms and the administrative offices of the Dean of Letters and Science. The facilities will include academic and administrative offices and office service space, conference rooms, departmental library/study rooms, student/faculty computer rooms, research project rooms, a lecture hall, and seminar rooms.				
99.03.095.90	Campus chilled water expansion, phase 3 .....	—	—	449 <sup>PWv</sup>
Funds are requested to increase the chilling capacity of the central plant from 9,400 tons to 10,750 tons by replacing an existing 2,400 ton chiller system with a new 3,750 ton system. Additional capacity is needed to support the chilled water requirements of the Engineering Unit 2 project which is scheduled for completion in January 1993.				
99.03.100.90	Bodega Marine Laboratory expansion .....	—	—	166 <sup>Pv</sup>
Funds are requested for an administrative services building of 15,554 asf and to remodel 2,713 asf in the existing Marine Science building. The new structure will include research laboratory and laboratory service facilities; academic, graduate student, and administrative offices; library facilities; classroom/meeting room facilities; and an emergency medical room. Spaces in the Marine Science building, presently used as offices and equipment rooms, will be remodeled to restore them to use as research laboratories.				

\* Dollars in thousands, excluding salary range.

## IRVINE CAMPUS

## General Campus

99.09.045.90 Biological Sciences Unit 2.....	\$273 <sup>Cr</sup>	—	\$3,924 <sup>Ev</sup>
Funds are requested to equip a 127,316 asf Biological Sciences building. The facility will house the Departments of Developmental Cell Biology, Molecular Biology and Biochemistry, and Psychobiology, all of which require high-technology space and equipment. The new facility will include laboratories for 56 faculty plus departmental research support space, instructional laboratories, School-wide laboratory support facilities, faculty offices, and departmental office and support space.			
99.09.050.90 Physical sciences unit 1 renovation.....	368 <sup>Wt</sup>	\$10,638 <sup>Cu</sup>	2,271 <sup>Ev</sup>
Funds are requested for equipment for a project to renovate Physical Sciences Unit 1 upon completion of the Physical Sciences Unit 2 project. Approximately 51,900 asf will be upgraded to provide additional chemistry teaching laboratories; improve chemistry, physics, and mathematics research space; provide faculty offices for chemistry and mathematics, adequate support space, and to correct mechanical and electrical system deficiencies and abate asbestos hazards.			
99.09.060.90 Steinhaus Hall renovation.....	—	944 <sup>PWu</sup>	12,037 <sup>Cv</sup>
Funds are requested to renovate Steinhaus Hall as the second phase of a plan to meet the needs of the School of Biological Sciences. Approximately 56,335 asf will be renovated to expand and consolidate undergraduate class laboratories, provide two new general assignment classrooms, improve research laboratories for faculty and add central laboratory support facilities, and provide academic and administrative offices. The project also includes upgrading of electrical and mechanical systems and improving the seismic resistance of the facility.			
99.09.065.90 Science Library.....	952 <sup>Pu</sup>	1,197 <sup>Wu</sup>	29,797 <sup>Cs</sup>
Funds are requested for a facility of 131,640 asf to consolidate library collections and services supporting the instruction and research programs of the Schools of Biological Sciences, Physical Sciences, Engineering, the Department of Information and Computer Science, and the College of Medicine. This project would provide space to consolidate the biomedical and technical collections, provide adequate space for users, and improve the effectiveness of library services.			
99.09.075.90 Central plant chiller, step 2.....	—	135 <sup>PWu</sup>	1,854 <sup>Cv</sup>
Funds are requested to increase the campus' chilled water system to 6,500 tons. The project includes replacement of a deteriorated 750-ton chiller in the Central Plant Building with a new chiller and thermal storage system providing a capacity of 2,000 tons. This is the second of a series of projects needed to support existing and anticipated loads.			

\* Dollars in thousands, excluding salary range.

## LOS ANGELES CAMPUS

## General Campus

99.04.020.90	School of Engineering and Applied Science retrofit.....	\$740 <sup>Wu</sup>	\$8,500 <sup>Cu</sup>	\$7,498 <sup>Cv</sup>
Funds are requested for the second phase of a project to remodel space in Boelter Hall upon completion of the School of Engineering and Applied Science expansion project. Approximately 106,187 asf will be upgraded to provide additional teaching and research laboratories, faculty offices, and administrative space for the Departments of Chemical Engineering, Computer Science and Materials Science. The project also includes expansion of mechanical and electrical systems; upgrading piped services; correction of life-safety and handicapped code deficiencies; and improvement of the shipping and receiving areas.				
99.04.060.90	Powell Library seismic renovation.....	—	1,542 <sup>Pu</sup>	1,951 <sup>Wv</sup>
Funds are requested to upgrade Powell Library and to provide life-safety protection. The reconstruction will include seismic strengthening, correction of code deficiencies, update of the mechanical and electrical systems, and provision of appropriate space for programs suited for undergraduate education and for the occupants of the building. Asbestos will be removed from the facility. Consideration will be given to preservation of the building's facade, main reading room, and sequence of interior spaces.				

\* Dollars in thousands, excluding salary range.

<p>Funds are requested for partial construction of a new 158,127 asf facility to house the Anderson Graduate School of Management, its executive management program, and a related seminar/conference program for professional continuing education. The building will include instructional laboratories and classrooms (22,276 asf), the management library (29,331 asf), computer services (10,978 asf), conference and seminar rooms (3,652 asf), academic offices and graduate student work areas (35,096 asf), and administrative offices and program support spaces (38,029 asf), and a 450-seat hall (18,765 asf). The proposed funding plan provides that more than half of the building's cost will be contributed by private donors.</p>				
99.04.065.90	Chemistry and Biological Sciences Young Hall East renovation ..	-	-	932 <sup>Pv</sup>
<p>Funds are requested to renovate the east wing of Young Hall for the Department of Chemistry. This project will consolidate the fume hoods of intensive organic and inorganic chemistry class laboratories on the sixth floor; upgrade biochemistry research laboratories on the fifth floor; consolidate, expand and improve physical chemistry laboratories in the basement and second through fourth floors; and consolidate lower division chemistry laboratories on the first floor. The building utilities systems will be upgraded to improve ventilation, electrical distribution, and laboratory piping. Life safety conditions such as handicapped access and fire code violations are also addressed.</p>				
99.04.070.90	Electrical distribution system expansion, step 3 .....	-	-	290 <sup>PWv</sup>
<p>Funds are requested for the third step of a multiphase program to expand and upgrade the high voltage electrical distribution system on the Los Angeles campus. Step 3 includes the construction of a 12 KV distribution switching facility in the northern part of the campus and the construction of underground conduit, cables and manholes from the main 12 KV substation to a switchboard facility. Upon completion of step 3, the north section of the main campus, now served with 4.8 KV power, will be upgraded to 12 KV power.</p>

## RIVERSIDE CAMPUS

99.05.040.90	Electrical distribution system, phase 1 .....	-	\$243 <sup>PWu</sup>	\$2,246 <sup>Cv</sup>
<p>Funds are requested to build a new electrical substation to receive power from the City of Riverside Department of Utilities, for installation of new conduit under the freeway to the campus, and for two new electrical feeders. The existing 9.7-MW campus substation and distribution system is operating at maximum capacity, with one transformer in an overload condition.</p>				

\* Dollars in thousands, excluding salary range.

<b>General Analysis—Continued</b>				
99.05.045.90	Soils and plant nutrition building seismic upgrade and remodel..	—	\$204 <sup>Pu</sup>	\$235 <sup>Wv</sup>
Funds are requested for structural upgrading of the center and south wings of the soils and plant nutrition building (SPN) and complete renovation of the interior of the building to house the Graduate School of Management. The two wings of the building have been unoccupied since 1967 because of a serious seismic structural problem and the space is needed because of increased enrollments. The renovation will provide 21,170 asf of usable space upon completion.				
99.05.050.90	Engineering Sciences building, unit 1 .....	—	—	1,381 <sup>Pv</sup>
Funds are requested to provide adequate space to meet the needs of programs in the College of Engineering and the Department of Mathematics and Computer Science. The building will provide instructional laboratories; academic offices for faculty, graduate students, and teaching assistants; research laboratories and support space; administrative space; and general assignment classrooms and seminar rooms.				
99.05.055.90	Central utility plant boiler renewal, phase 2 .....	—	—	1,802 <sup>Cv</sup>
Funds are requested to rehabilitate the four boilers in the central utility plant on the Riverside campus. Rehabilitation will include repairing or replacing the refractory furnace lining, safety and non-return valves, manhole and handhole plates, and boiler control systems. Additional items required for compliance with emission standards include installing emission control systems, low nitrogen oxide burner assemblies with flue gas recirculation, carbon monoxide trimming controls, and continuous monitoring equipment.

**SAN DIEGO CAMPUS****General Campus**

99.06.045.90	Central library addition .....	\$1,079 <sup>Wu</sup>	\$30,010 <sup>Ca</sup>	\$6,522 <sup>CEv</sup>
Funds are requested for an addition of 136,200 asf to the central library to meet the needs of both the central library and the Science and Engineering Library, improving the operating efficiency and correcting substantial space deficiencies in both. The project will provide the additional library space that is needed to support enrollment, staff and collection requirements projected through 1994-95.				
99.06.065.90	Undergraduate Sciences Building renovation and seismic corrections .....	404 <sup>PWu</sup>	5,189 <sup>Cu</sup>	1,332 <sup>Ev</sup>
Funds are requested to renovate and seismically strengthen the Undergraduate Sciences Building. The project includes renovation of 17,280 asf for expansion of biology teaching laboratories and 12,116 asf for expansion of chemistry teaching laboratories.				
99.06.070.90	Sciences building .....	1,530 <sup>Pu</sup>	1,902 <sup>Wu</sup>	42,072 <sup>Cv</sup>
Funds are requested for a 111,169 asf facility to provide modern instruction and research facilities for the Department of Chemistry and Biology. The facility will provide research laboratories for 40 faculty and support areas such as warm rooms, cold rooms, and instrument rooms (76,781 asf); a nuclear magnetic resonance facility (3,087 asf); animal facilities (5,936 asf); academic offices (13,511 asf); and administrative and support space (11,553 asf).				
99.06.080.90	Visual arts facility .....	—	343 <sup>Pu</sup>	405 <sup>Wv</sup>
Funds are requested for a visual arts facility of approximately 50,150 asf to accommodate program growth. The new facility will include graduate student studio space (11,475 asf); faculty studios (22,176 asf) and office space (1,859 asf); special photography, computing, electronics and media support laboratories (6,655 asf); wood, metal, and framing shops (3,800 asf); assembly/performance and exhibit facilities (2,844 asf); and seminar and study space (1,338 asf).				
99.06.060.90	Handicapped access improvements, step 2 .....	59 <sup>Wu</sup>	—	1,170 <sup>Cv</sup>
Funds are requested to remove architectural barriers to academic facilities on the main campus and at the Scripps Institution of Oceanography. This project includes the installation of elevators or lifts in four buildings, and improvements including restrooms, ramps, and handrails, doors, and emergency showers in 27 campus buildings.				

\* Dollars in thousands, excluding salary range.

EXPENDITURESActual  
1988-89\*Estimated  
1989-90\*Proposed  
1990-91\*

## General Analysis—Continued

99.06.085.90	Engineering building unit 2.....	-	-	\$937 <sup>Pv</sup>
Funds are requested for a building of approximately 80,000 asf to provide expansion space for the Department of Applied Mechanics and Engineering Sciences (AMES) and Electrical and Computer Engineering (ECE) of the Division of Engineering. The facility will include about 54,500 asf of instruction and research laboratories; 6,100 asf of laboratory support space; and 19,600 of office and office support space. The additional space is needed to support instruction and research in fields such as robotics, computer engineering, solid mechanics and materials science.				
99.06.090.90	Central plant equipment improvements 1.....	-	-	6,492 <sup>WCv</sup>
Funds are requested to resolve operational and safety problems in the central plant. The project includes the following elements: the installation of a 1,300 ton electric centrifugal chiller to meet chilled water temperature and capacity requirements; the installation of an 80,000 pounds/hour steam boiler with facility modifications to increase high temperature water production; replacement of the exterior curtain wall of the plant; and removal of asbestos. The modifications include the construction of an additional 3,000 square feet on two levels, or 6,000 square feet.				
99.06.095.90	Campus services complex, phase 2.....	-	-	258 <sup>Wv</sup>
Funds are requested for a facility of 61,000 asf to house shops, stores, and administrative space for physical plant services. Physical plant is currently housed in temporary structures on the Matthews campus on a site needed for future construction. The proposed facility will be constructed on five acres immediately west of Interstate 5 and north of Old Miramar Road.

## SAN FRANCISCO CAMPUS

99.02.040.90	Library release space improvements .....	—	—	\$1,905 <sup>PWv</sup>
	Funds are requested to renovate approximately 39,690 asf now being used as library space when the library function moves to new quarters. The space will be renovated to provide two lecture halls (3,165 asf), 20 seminar rooms (7,570 asf), pharmacy and chemistry laboratories (3,455 asf), student computer rooms (1,130 asf), and a student commons (1,000 asf). Four wet laboratories (23,370 asf) will be constructed for biological sciences research in cell biology, biochemistry and molecular biology, and human genetics.			
99.02.045.90	Medical Sciences building electrical system improvements .....	—	—	\$994 <sup>WCv</sup>
	Funds are requested to redistribute power among existing busways in the Medical Sciences building. This project includes converting a lighting busway to a receptacle busway to provide power where it is most needed. New lighting panels will be installed and lighting branch circuits will be transferred to the new panels, thereby removing all lighting loads from the busway and original panels. The free busway will be dedicated to supply power to receptacle panels, relieving the overload situation.			
99.02.050.90	Parnassus fire alarm and life safety system improvements .....	—	—	\$492 <sup>PWv</sup> 219 <sup>PWi</sup>
	Funds are requested to replace the outdated and unreliable campus fire alarm system with an electronic system that conforms to State and Federal codes. The project includes providing an expanded central receiving and monitoring unit in the power plant, shielded electronic cable circuits to campus buildings, building fire alarm control panels, internal building conduit and wiring, and electronic fire alarm devices and life safety equipment throughout most campus buildings.			
99.02.055.90	Parnassus fire protection water supply system .....	—	—	408 <sup>Pv</sup> 20 <sup>Pi</sup>
	Funds are requested for a project which will provide an adequate and reliable campus water supply and distribution system to meet the fire protection needs in the event of a fire emergency. This project includes the installation of a new water supply and distribution system solely for fire protection. New storage tanks, booster pumps, fire hydrants and distribution piping will be provided.

SANTA BARBARA CAMPUS				
99.08.040.90	Environmental health and safety facility, phase 2.....	-	-	\$91 PWv
Funds are requested for the second phase of a program to upgrade the hazardous materials handling facility. The first phase, constructed with University funds, provided 2,400 asf of hazardous materials handling space, 1,080 asf of laboratory space, and 825 asf of facility service space. This project (4,765 asf) will provide an additional 300 asf for the radiation protection laboratories, 625 asf for fire equipment processing, and 3,840 asf for offices and administrative support areas needed to meet increasingly stringent State and Federal requirements for hazardous materials operations.

SANTA CRUZ CAMPUS				
99.07.050.90	Colleges Nine and Ten academic facilities .....	-	\$919 Pu	\$8,911 WCv
Funds are requested for academic facilities associated with the development of two additional residential colleges. College Nine will be organized as a center for Pacific Studies and will provide space for anthropology and economics. College Ten will provide space for the psychology program and will bring together scholars engaged in the interdisciplinary study of human development and human cognition in social and educational contexts.				
99.07.055.90	Science library released space alterations.....	-	50 Pu	975 WCv
Funds are requested to convert the existing science library building into classrooms and offices following completion of the new library. The renovated facility will provide a total of 6,240 asf of general assignment classrooms (2,300 asf), offices for Lick Observatory and support space for astronomy students (2,840 asf), and equipment storage space for the Natural Sciences Division (1,100 asf). The project includes seismic structural upgrading of the library building.				
99.07.015.90	Handicapped access improvements, step 4.....	\$25 Wu	-	404 Cv
Funds are requested to remove architectural barriers from most classroom space and some faculty offices in the college buildings. This project includes providing elevators for Cowell and Porter College academic buildings. The availability of these elevators will increase the number of faculty offices accessible in every college and will complete the program of providing primary access on the campus.				
99.07.045.90	Meyer Drive extension, phase 1.....	-	\$204 PWu	-
99.07.060.90	Music facilities.....	-	-	\$692 Pv
Funds are requested for a project which will provide approximately 27,000 asf of teaching and teaching support space for the music program. The project will help address workload needs and provide properly designed space for instruction, performance, and research for existing and emerging programs. The music facility will provide 21,315 asf of teaching and teaching support space (class laboratories, a recital hall, and ensemble rehearsal room, studios, practice rooms); research and research support space (830 asf); academic offices (3,360 asf); and administrative and support space (1,495 asf).				

\* Dollars in thousands, excluding salary range.

## 6600 HASTINGS COLLEGE OF THE LAW

## University of California

The college was founded in 1878 by Serranus Clinton Hastings, the first Chief Justice of the State of California. On March 26, 1878, the Legislature provided for affiliation with the University of California. Policy for the college is established by the Board of Directors and is carried out by the Dean and other officers of the college. Vacancies on the Board, other than the position held by the heir or representative of S.C. Hastings, are filled by the Governor and approved by a majority of the Senate. Directors serve for a term of twelve years. The juris doctor degree is granted by The Regents of the University of California and is signed by the President of the University of California.

## MAJOR BUDGET ADJUSTMENTS

10 INSTRUCTION PROGRAM

Program Objectives Statement

The principal objectives are:

1. Develop in the students the required competency in substantive law demanded by the legal profession.
2. Develop students' skills in research and writing.
3. Provide students with an adequate background in the law through the study of comparative law, legal history, and jurisprudence.
4. Instill in students, through theory-practice clinical courses, a level of professional competence and skill that will shorten the period of training in the law office.
5. Develop special skills in advocacy for trial lawyers.

The instruction program is designed to provide thorough and systematic instruction in those branches of the law which will best prepare students for their responsibilities to the community as members of the legal profession. It is composed of three elements including the classroom, theory-practice, and instructional support. Through these elements it is planned that the student will receive a combination of theoretical instruction, practical experience, specialized training as lawyers, and necessary support services.

Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$348,000 to fund second phase of three year phase-in plan for enhancement of the clinical program which includes an additional 3.0 positions.
- \$87,000 to fund replacement of instructional equipment.

## 10.10 Classroom

## Program Element Statement

In this element, students receive instruction in classroom, seminar, lecture, and discussion sessions which are conducted by regular faculty members supplemented by an adjunct faculty comprised of outstanding legal specialists in special fields of practice.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures .....	64.2	64.2	64.2	\$5,528	\$6,018	\$6,622
General Purpose Funds .....				5,292	5,782	6,386
Restricted Funds .....				236	236	236

## 10.20 Theory-Practice

## Program Element Statement

In this element students receive training in the basic skills of legal practice. This includes most major aspects of the legal process from client interview and case preparation through the conduct of the trial and the management of an appeal. This training in the practical aspects of the law assists students in achieving proficiency in the skills of trial and appellate advocacy and gives students greater insight into and appreciation for the substantive law taught in the traditional lecture method.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Purpose Funds) .....	18.5	17.5	20.5	\$953	\$1,179	\$1,527

## 10.35 Instructional Support

## Program Element Statement

The Faculty Support Unit includes the following: 1) faculty secretaries; 2) a word processing center; and 3) a reprographics center. The purpose of the unit is to provide clerical support to the faculty, production of manuscripts and form correspondence, and duplication of materials.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

6600 HASTINGS COLLEGE OF THE LAW—*Continued*20 PUBLIC AND PROFESSIONAL SERVICES PROGRAM  
Trial and Appellate Advocacy

## Program Objectives Statement

The trial and appellate advocacy program is designed to provide specialized training to lawyers, legal educators, and judges through short-term intensified courses in civil and criminal law. The program is fully self-supporting.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing program costs ( <i>General Purpose Funds</i> ) .....	4.0	4.0	4.0	\$163	\$203	\$203

## 30 ACADEMIC SUPPORT PROGRAM—LEGAL INFORMATION CENTER

## Program Objectives Statement

The primary objective of the legal information center is to provide legal reference materials sufficient in number and scope to allow students and faculty members to research questions of law in preparation for classroom presentations and assignments, for moot court, trial practice, and legal clinic assignments.

At the present time, the Hastings Legal Information Center collection contains 335,000 bound volumes, 143,000 volume-equivalents on microfilm, and over 4,900 serial subscriptions. The legal information center also provides legal information through the use of computer-assisted legal research systems. Budgeted acquisitions add to the collection at the approximate rate of 10,000 volumes per year.

## 40 STUDENT SERVICES PROGRAM

## Program Objectives Statement

The Student Services Program includes Admissions, Records, Financial Aid, Health Services, Career Services, the Legal Education Opportunity Program (LEOP) and Disabled Student Services Program. Through these offices, students are provided a fair system for admittance to the law school and information about their academic performance. Students are also assisted in securing necessary financial assistance to complete the instructional program, and in identifying employment opportunities. Supportive services include tutoring, academic advising, disabled student accommodations, summer transitional programs, and the LEOP program which includes special courses supplementing regular instructional activities for the educationally, socially or economically disadvantaged. LEOP students number 279 in 1989-90 and comprise about 21% of the student body.

## Budget Adjustments

- The 1990-91 Budget includes an increase of \$30,000 for financial aid related to the increase in student fee levels.
- A reduction of \$43,000 is made to the 1990-91 Budget representing the one-time equipment costs of the Disabled Student Services Program.

\* Dollars in thousands, excluding salary range.

## 50 INSTITUTIONAL SUPPORT PROGRAM

## Program Objectives Statement

The principal objectives are:

1. Provide active leadership in meeting current administrative problems.
2. To provide personnel and other administrative services such as purchasing.
3. To provide management with fiscal information on resources used in relation to resources available and to provide business services.
4. To foster a continuing relationship between the alumni and the college including the involvement of alumni in campus community affairs.

This program is carried out through the activities of executive management, fiscal services, personnel, administrative services, security & safety, and community relations offices.

## 60 PROVISIONS FOR ALLOCATION

## Program Objectives Statement

These budgetary provisions serve as a temporary repository for funds destined for allocation to specific programs and subprograms where expenditures will occur. Major provisions for allocation include funds for employee compensation increases and employee benefits.

## Budget Adjustments

- \$175,000 General Fund for a 4.8 percent faculty salary increase effective January 1, 1991.
- \$101,000 General Fund for a 3.9 percent non-faculty salary increase effective January 1, 1991.
- \$106,000 General Fund for health and welfare increases for faculty, staff and annuitants.
- \$111,000 General Fund for faculty merit salary adjustments.
- —\$151,000 to reflect the University of California retirement system rate reduction.

## 6610 THE CALIFORNIA STATE UNIVERSITY

## Introduction

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became the California State University and Colleges (CSUC), and since then all 20 campuses have received the title of "university". Effective January 1982, the name of the system changed to the California State University (CSU).

The oldest campus, San Jose State University, was founded in 1857 and became the first institution of public higher education in California. The newest campus, California State University, San Marcos, will begin instruction in 1990.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor.

The trustees appoint the Chancellor, who is the chief executive officer of the system, and the presidents, who are the chief executive officers on the respective campuses.

The Trustees, the Chancellor, and the presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of the California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education programs. Each campus requires, for graduation, a basic program of "general education—breadth requirements" regardless of the type of bachelor's degree or major field selected by the student. A limited number of doctoral degrees are offered jointly with the University of California and with Claremont Graduate School.

The program objectives of the California State University are:

1. To provide instruction in the liberal arts and sciences, the professions, applied fields which require more than two years of college education, and teacher education—both for undergraduate students and graduate students through the master's degree.

2. To provide public services to the people of the State of California.

3. To provide services to students enrolled in the California State University.

4. To provide institutional services to support the primary functions of instruction, research, public services, and student services in the California State University and to ensure that legal obligations related to executive and business affairs are met.

The locations of the 20 campuses show the statewide coverage of this, one of the largest baccalaureate degree higher education systems in the nation.

To conform to Generally Accepted Accounting Principles, most of the student fees and other CSU fee monies are budgeted and accounted as General Fund revenues rather than as reimbursements. While not changing total expenditures, this practice increases the amounts reflected as General Fund expenditures. The additional revenues and expenditures offset each other; thus, there is no effect on the General Fund Balance.

## MAJOR BUDGET ADJUSTMENTS

The 1990-91 budget proposes a General Fund expenditure level of \$2,082,261,000 representing a \$113,628,000 increase (5.8%) over the 1989-90 operating budget. This expenditure level includes \$57,757,000 in General Fund employee compensation increase funds proposed for the 1990-91 budget year. Total expenditures are proposed to increase to \$2,781,766,000, a 5.5 percent increase over 1989-90. The following table identifies the more significant budgetary changes included in the 1990-91 Governor's Budget for CSU:

Highlights of the 1990-91 Governor's Budget  
for the California State University<sup>2</sup>

Program	Description	1990-91 Dollars*
01	Enrollment Increase .....	\$23,808
01	New Campus in San Marcos .....	8,336
05	Financial Aid .....	5,285
06	Asbestos Abatement .....	10,600
01,04	Faculty Merit Salary Adjustment .....	3,283
01,04,05,06	Budget Formula Adjustments .....	5,022
01,06,11	Program Reductions .....	-16,705
97.20	Faculty Salary Increase .....	24,108
97.20	Nonfaculty Salary Increase .....	13,313
97.20	Employee Benefits Maintenance .....	20,336

In addition to the changes listed above, the budget includes a 4.8 percent increase in the State University Fee. Mandatory systemwide fees for a full-time student will increase by \$36 to \$744.

<sup>2</sup> Please refer to the Governor's Budget Summary for additional information.

## 01 INSTRUCTION

## Program Objectives Statement

The California State University (CSU) educational program is designed to educate and grant degrees, credentials, or certificates to qualified students in the liberal arts and sciences, and certain applied fields and professions. Through regular classroom efforts and special supplemental programs, the CSU program attempts to prepare students for a profession, occupation, or advanced study, or to update knowledge and upgrade skills. Although teaching activity may take place in other programs (e.g., the academic support program), formal study for credit toward a degree or certificate at higher education institutions usually falls within the instruction program.

Currently, the instruction program consists of three subprograms: regular instruction, special session instruction, and extension instruction.

Table I displays the changes in FTE and head count students on each campus for the past, current, and budget years. Table II provides changes in FTE for other instruction program components: special session instruction (including summer session, external degree programs and special sessions) and extension instruction under the title Continuing Education.

\* Dollars in thousands, excluding salary range.

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$23,808,000 and 638.1 positions to accommodate a projected enrollment increase of 6,870 FTE students over the 1989-90 budgeted level, excluding the new campus in San Marcos.
- \$8,336,000 and 124.2 positions are proposed for the first year of operations for the new campus in San Marcos in northern San Diego County. This amount includes \$2,000,000 in reimbursements, which CSU plans to fund with Lottery Funds. The campus will serve 250 FTE students in the Fall of 1990, bringing the systemwide enrollment increase to 7,120 FTE students over the 1989-90 budgeted level.
- \$773,000 and 21.2 positions are included for the recomputation of faculty position requirements and related staff based upon a change in the mix of students by mode and level of instruction.
- \$188,000 and 5.1 positions are provided for additional teacher coordinators in response to the increased number of students planning for a career in teacher education. In addition, \$82,000 is included for Master Teacher contracts to supervise student teachers who are teaching in the classroom environment.
- \$119,000 and 3.5 positions are provided for additional faculty sabbaticals corresponding to the increased number of faculty.
- \$86,000 and 3.2 positions are provided for supplemental support for laboratory courses.
- \$421,000 and 11.9 positions are provided for the intensive learning program which provides entering freshmen with remedial instruction in writing and mathematics.
- \$1,491,000 was reduced from instructional equipment replacement, due to constraints on General Fund resources.

## 01.01 Regular Instruction

## Program Element Statement

The primary function of the California State University is the instruction of undergraduate and graduate students, through the master's degree level, in the liberal arts and sciences, applied fields, and certain professions. The regular instruction element includes those instructional programs operating during the academic year that are part of a formal degree or certificate curriculum and are managed by the regular academic departments.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures.....	20,001.7	20,203.0	20,815.4	\$1,084,826	\$1,229,631	\$1,251,701

University Lottery Education Fund, California State <sup>e</sup> .....				32,735	51,259	-
Reimbursements.....				1,785	2,000	4,000

## 01.02 Special Session Instruction

## Program Element Statement

The California State University operates summer sessions on all campuses except for the Pomona campus. (The Pomona campus is one of four campuses offering a state-supported summer quarter.) The special session instruction element includes all programs that offer residence credit toward a formal degree or certificate. This is an essentially self-supported institutional term. Special Session Instruction and Extension Instruction (below) together form the continuing education instruction program. Table II displays total continuing education full-time equivalent students.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (University and College Continuing Education Revenue Fund, State <sup>e</sup> ).....	156.7	167.6	176.8	\$16,924	\$19,116	\$18,763

## 01.03 Extension Instruction

## Program Element Statement

Extension instruction, primarily a nonstate-supported function and designed to serve a variety of needs, is offered year-round by the California State University. Within the field of continuing education, teacher education provides access for teachers to new techniques to improve instructional expertise. Courses are concentrated at the upper-division and graduate levels and are designed to satisfy school district and state credential requirements. The extension instruction element includes all program elements that are managed separately by an extension division or similar agency within the system.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 03 PUBLIC SERVICE

## Program Objectives Statement

The public service program contains all the program elements within the institution that are directed toward the benefit of the general public. Programs that are controlled or operated by outside agencies but are housed or otherwise supported by the institution fall within the public service program.

Program Requirements	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Continuing program costs (Reimburse- ments).....	-	-	-	\$1,130	\$1,251	\$1,251

## 04 ACADEMIC SUPPORT

## Program Objectives Statement

The academic support program provides the library, audiovisual, data processing, and ancillary (e.g., college farms, marine science facilities) activities that are required to display, retain, and preserve materials and in other ways to assist the academic functions of the system.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$59,000 and 1.7 positions are added to provide remedial instruction to first-time freshman and lower division transfer students who have not demonstrated college-level writing capability.
- \$119,000 is provided for contractual library services.
- \$98,000 and 3.9 positions are provided for campus farm operations.
- \$200,000 was transferred from the Department of Food and Agriculture for the Dairy Products Technology Center.

## 04.01 Libraries

## Program Element Statement

Library services consist of all activities which directly support the libraries of the 20 CSU campuses. The libraries provide the bibliographic and informational resources necessary to help carry out the teaching and research functions of the CSU. The expenditures required to support the library system include:

1. Collections—purchasing, processing (including cataloging and classifying), preserving, and exhibiting library materials which include: books, periodicals, kits, models, microforms, art objects, and a host of other items which comprise today's academic library.
2. Services—reference and referral services to students, faculty, and other system users, including institutions, i.e., interlibrary loans and other resource sharing.
3. Operations—management, supervision, training, planning, and equipment maintenance.

## 04.03 Audiovisual Services

## Program Element Statement

Audiovisual services facilitate use of such resources as communication satellites and instructional television by the primary programs of instruction, research, and public service. Audiovisual services include materials preparation, and technical services.

Television is being used in some form at nearly all of the CSU campuses in a variety of applications and for professional curricula in broadcasting.

University Lottery Education Fund, California State <sup>c</sup> .....				5	—	—

## 04.05 Computing Support

## Program Element Statement

Although support to instruction is the principal responsibility of this element, funds are included to support both academic and administrative computing activities. Students are the largest users of CSU computing facilities. Computer support for instruction takes two forms: (1) training in computer and information sciences; and (2) using the computer as a tool for instruction and research in virtually all academic programs.

The demand for specialists in computing technologies affords The California State University full opportunity to offer curricular programs in computer and information sciences at selected institutions serving large geographic areas. The goal of computing programs is to produce individuals both at the undergraduate and graduate level sufficiently competent in computer technology to meet the demand in this field.

Recognizing that computer support increases the quality of instruction in all fields, and that nearly all students need some knowledge of computing in order to enter a variety of occupations, CSU campuses will continue to make the instructional use of computers available to the largest possible number of students. The goal of instructional usage in CSU is to make students especially knowledgeable in the use of modern information systems technology.

University and College Continuing Education Revenue Fund, State <sup>c</sup> .....				134	152	154
University Lottery Education Fund, California State <sup>c</sup> .....				3,419	3,044	—

## 04.06 Ancillary Support

## Program Element Statement

Certain professional instructional programs are much more effective when there are facilities for practical application of the principles taught in the classroom. There are several clinics, bureaus, centers and institutes that provide for such practical experience. For example, there are nursery schools at San Diego and San Francisco and campus farms at Fresno, Chico, San Luis Obispo, and Pomona, operated in conjunction with campus instructional programs.

General Fund .....				24,917	29,474	30,205

## 05 STUDENT SERVICE

## Program Objectives Statement

The student service program includes all activities related to the student body except for degree-related activities and student records. Activities in this program are designed to contribute to the student's physical well-being and to his or her intellectual, cultural, and social development outside of the context of the formal instruction program. Self-supporting organizations provide food service, housing, and bookstores.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$5,285,000 in General Fund financial aid is provided to off-set the impact of the 4.8 percent student fee increase and to fund an increase in the number of students eligible to receive the State University Grant, based on the actual number of eligible students.
- \$622,000 and 18.6 positions to fund additional staff for the Educational Opportunity Program (EOP) attributed to an increase in the number of eligible EOP students. In addition, \$272,000 is provided to fund an additional 364 state EOP grants, and \$551,000 is provided to increase the amount of the grants.
- \$1,734,000 and 55.6 positions are provided to accommodate the increased staffing requirements associated with administering the Financial Aid program.
- \$592,000 and 18 positions are provided for support services, such as readers, notetakers and interpreters, to 1,828 additional disabled students.
- \$419,000 is redirected to increase the funding for the Graduate Equity program.

## 05.01 Social and Cultural Development

## Program Element Statement

Student activity programs in The California State University reflect the conviction that development of student potential in the social and cultural aspects of their lives is an important part of the overall educational objective. Opportunities are provided for students to educate themselves through active participation in college-sponsored activities. Informal programs of a cultural, social or recreational nature that complement and supplement academic disciplines are considered an essential part of this educational program because they foster an acceptance of responsibility and the development of effective human relations skills. Student self-government, for example, provides an opportunity to participate in representative government and obtain leadership training. Coordination of various student-sponsored events and special services to students is also a part of this program.

## 05.03 Counseling and Career Guidance

## Program Element Statement

Students needing professional counseling services may be aided in evaluating their educational objectives, strength of motivation, intellectual potential and vocational and professional goals through this program.

The placement program provides occupational information and placement of students in professions for which they have been prepared. This responsibility includes the careful articulation between instructional programs and the changing professional needs of the business and government communities and follow-up on the placement of graduates. The placement office provides services to the student from the time he or she enters college until he or she is ready to enter full-time employment. The Testing Office administers and interprets and, when necessary, develops tests used by Counseling, Career Planning and Placement, and other student support services. It also administers academic placement and advance placement tests and conducts student profile surveys used in assessing the need for specific student support programs.

## 05.04 Financial Aid

## Program Element Statement

Financial aid consists of information dissemination and counseling services, analyses of financial need, awarding and disbursement of funds, and other services established to provide financial assistance to students. This program reflects not only the cost of administering aid programs but also the amount of financial aid disbursed to students.

\* Dollars in thousands, excluding salary range.

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

Financial aid offices provide information regarding the costs of college attendance, sources of availability of financial aid and students' rights and responsibilities under various financial aid programs. They are responsible for the administration of a complex program of student awards including scholarships, grants, fellowships, loans and employment designed to make it possible for students with financial need to initiate or continue their academic programs.

## 05.05 Student Support

## Program Element Statement

Each campus maintains facilities for parking which are totally self-supporting. In addition, housing facilities are operated at all campuses. The special revenue funds are Dormitory Revenue-Housing and Dormitory Revenue-Parking.

As in all special fund operations, the parking program is maintained through the collection of revenue for the use of the facilities. Additional revenues are available from fines and forfeitures collected on the campuses. Construction of parking and housing facilities are financed by special revenue bond issues which are liquidated from operating revenues.

The health services element of student support is concerned with the health and medical needs of students. Accordingly, the campus health centers are part of a total approach to the provision of comprehensive medical and health care. Basic on-campus health services include: outpatient medical services; X-ray services; a clinical laboratory; physician-prescribed medicines; immunizations; first aid and emergency care; personal health supervision and counseling; health evaluation, and review; campus public health service; plus educational, and advisory, administrative, and supplementary services.

The Disabled Student program assists disabled students to realize educational goals and participate fully in campus programs and activities while maximizing their independence.

Included also within student support are special services such as the operation of bookstores, cafeterias, vending machines and other retail services which are provided to the student body. These services are tailored to the campus community and provide for student employment as well as contribute to the students' overall campus experience. All such services are provided on a self-supporting basis, at minimal cost to the students and others.

## 06 INSTITUTIONAL SUPPORT

## Program Objectives Statement

The institutional support program consists of those activities within the institution that provide institutionwide support to the other programs for the day-to-day functioning of the organization. Activities within this program maintain the institution's effectiveness and continuity and ensure that the CSU system's operations are consistent with the public higher education policy as developed by the Legislature, amplified and interpreted by the Governor, administered by the Board of Trustees, and implemented by the Chancellor and the campus presidents.

Development of management policies and provisions of communication, personnel, payroll, purchasing and inventory control, accounting, budgeting, legal, and other services are provided in this program.

## Budget Adjustments

In 1989-90, the following budget adjustments are proposed:

- \$1,000,000 is provided for clean-up and restoration costs related to the October 17, 1989, earthquake. In addition, the budget reflects 1989-90 expenditures of \$3,267,000 for costs related to the 1987 earthquake.

In 1990-91, the following budget adjustments are proposed:

- \$180,000 and 3 positions are provided for risk management.
- \$4,811,000 is added for revenue bond repayments. An additional \$595,000 will be made available through reappropriation of 1989-90 savings.
- \$747,000 is reduced from deferred maintenance and special repairs due to constraints on General Fund resources.
- \$10,600,000 is provided from bond funds for asbestos abatement.

## 06.01 Executive Management

## Program Element Statement

This element consists of all central executive-level activities concerned with the management and long-range planning of the entire system. Campus presidents, appointed by the Board of Trustees, have responsibility over all campus matters. The trustees' audit staff reports directly to the Board and is responsible for ongoing independent audit operations. Physical planning and development includes programming, planning, direction and operation of a statewide plan for the development of physical facilities. Budgeting is concerned with the planning, coordination, preparation and review of support budgets. Also included is legal services, the Academic Senate (faculty representation) and the institutional research unit.

## 06.04 Logistical Services

## Program Element Statement

Purchasing, inventory, and property control involve preparation of specifications, preliminary negotiation of contracts and leases, preparation of procurement documents, receiving and checking deliveries, preparing stock-received reports, identifying and labeling all equipment, maintaining adequate supply inventories, taking periodic physical inventories, and providing for the maintenance and repair of equipment. Also included is the maintenance and operation of campus utilities and motor vehicles and the environmental health and safety of the staff and students.

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

## 06.05 Physical Plant Operations

## Program Element Statement

The plant operation and maintenance element includes all activities necessary to maintain the physical facilities of the campuses. The total existing building square footage under custodial care for the system is 27 million square feet. Maintenance of electrical, heating, and plumbing systems, making repairs, painting, grounds maintenance and janitorial services are required for support.

## 06.06 Faculty and Staff Services

## Program Element Statement

This program element consists of the budget allotments for overtime, evening and night shift differential, and nonfaculty reclassifications and related faculty and staff service items. This also includes the staff benefits of OASDI, Retirement, Health and Welfare, Workers' Compensation, unemployment compensation, Industrial Disability Leave and Nonindustrial Disability Insurance. Identification of these expenditures facilitates budgetary control.

## 06.07 Community Relations

## Program Element Statement

The public affairs programs in the California State University maintain communication with the public, business, professional, governmental, cultural, alumni and other constituent groups. Excluded from this subprogram are activities which are designed primarily to provide public service to the community.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*

## 06.08 1989 Earthquake Relief

## Program Element Statement

The Loma Prieta earthquake of October 17, 1989, caused considerable damage at the San Francisco, San Jose and Hayward campuses, and the marine laboratory at Moss Landing was virtually destroyed. The preliminary estimate of restoration costs is \$18,000,000. The amount reflected in this element represents the first increment of funding for repair and restoration.

Expenditures (General Fund) .....	—	—	—	—	\$1,000	—

## 07 INDEPENDENT OPERATIONS

## Program Objectives Statement

This program contains special projects that are sponsored and financed by agencies of the federal government, state government (including CSU's State funds) local community, private and public foundations, and business and industry. The objectives of these projects are prescribed by the sponsoring agency and are independent of the education mission of The California State University. However, significant benefits do accrue to the campus community and the instructional program. These specialized services are provided on a fully reimbursed basis.

## Budget Adjustments

In 1990-91, the following budget adjustment is proposed:

- \$3,694,000 and 35 positions are added to reflect an increase in CSU's fully reimbursed special projects. In keeping with the conformance to Generally Accepted Accounting Principles (GAAP), \$1,367,000 of this increase is reflected in the General Fund.

\* Dollars in thousands, excluding salary range.

## 09 AUXILIARY ORGANIZATIONS

## Program Objectives Statement

Auxiliary organizations are campus-based separate legal entities authorized by the Legislature to perform functions that contribute to the educational mission of the university or college, as well as provide essential services to students and employees.

These organizations are governed by applicable laws and regulations of the federal and state governments. In addition, they operate within the policies established by the Board of Trustees, the Chancellor and campuses. There are 60 auxiliary organizations with two to five per campus. Most of these organizations can be grouped into four major functional categories:

- Associated student organizations
- Special educational projects which are typically administered by foundations
- Student union operations
- Commercial activities

The auxiliary organizations must be self-supporting and do not receive funding from General Fund sources. They derive revenue from various non-state sources such as contractual arrangements (e.g., federal government), general assessments (e.g., student body fees) and commercial operations (e.g., bookstore). Pursuant to existing laws and policy, materials facilities, or services provided by the campus to these separate entities are paid for by the auxiliary organization.

Revenue in excess of expenditures for a given fiscal period is used to establish working capital and reserves, and pay for capital expenditures or special campus programs.

## 11 PROVISIONS FOR ALLOCATION

## Program Objectives and Description

These budgetary provisions serve as a temporary repository for lump sum appropriations and other budgetary adjustments which are destined for allocation to operating programs where expenditures and adjustments will occur, such as salary savings, unallocated reductions, workers compensation and unemployment compensation. While some of the reductions are made on a permanent basis, many of them are allocated anew each year, based on consultation within the CSU. Thus, reductions related to past budgets continue to be reflected in this program.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$46,234,000 representing CSU's share of Lottery funds, for which CSU will identify expenditures by September 1990. CSU plans to allocate \$2,000,000 for supplemental costs at the new San Marcos campus.
- \$11,746,000 General Fund representing the cost of nonfaculty merit salary adjustments (MSAs), for which no new funding was provided, is reflected as an unallocated reduction.
- \$14,467,000 in unallocated reductions is included due to constraints on General Fund resources.
- This program also reflects an unallocated reduction of \$5,199,000; however, funding for these costs will be made available from 1989-90 savings to be reappropriated for 1990-91.

## 12 ADMINISTRATION

## Program Objectives and Description

The costs of administration consist of salaries and benefits of all California State University employees covered under the Management Personnel Plan. The Management Personnel Plan covers all employees who have been designated as "Management" or "Supervisory" in accordance with the provisions of the Higher Education Employer-Employee Relations Act (HEERA). Amounts shown for the past year are actual figures reflecting salary savings that were achieved; amounts shown for current and budget years are gross amounts which do not reflect salary savings that will be realized or decreases that will be made to meet unallocated reductions.

\* Dollars in thousands, excluding salary range.

<sup>1</sup> Includes positions administratively established for the San Marcos campus with funding reappropriated from 1988-89 savings.

<sup>2</sup> Includes full-year funding for the salary increase effective June 1, 1989 and six months funding for the salary increase effective January 1, 1990.

<sup>3</sup> Includes full-year funding for the salary increase effective January 1, 1990; does not reflect the salary increase effective January 1, 1991, nor the staff benefit increases for 1990-91.

## 97.20 Unallocated Employee Compensation Increase

## Program Objective Statement

This Program is to provide the CSU Board of Trustees with funding which will provide compensation programs that promote the development of an efficient work force and allow CSU to maintain its competitive position for faculty recruitment and retention. By providing significant salary increases and enhanced benefits, CSU will be able to retain and reward productive employees for their services.

## Budget Adjustments

In 1990-91, the following budget adjustments are proposed:

- \$24,108,000 is included to provide an average 4.9 percent faculty salary increase on January 1, 1991. Included in the Instruction and Academic Support programs are faculty merit salary adjustments (MSAs) for a total cost of \$3,283,000.
- \$13,313,000 for an average salary increase of up to 3.9 percent, January 1, 1991 for nonfaculty employees.
- \$20,336,000 for maintenance of health, dental, vision and life insurance benefits.

## 06.48 Trustees of the California State University—Systemwide

06.48.313 Preliminary Planning.....	\$238 <sup>Pu</sup>	\$400 <sup>Pu</sup>	\$400 <sup>Pv</sup>
Funds are proposed for preparation of preliminary plans and feasibility studies for selected projects scheduled for inclusion in 1991-92 and 1992-93.			
06.48.314 Architectural and Engineering Planning and Studies.....	188 <sup>Pu</sup>	200 <sup>Pu</sup>	500 <sup>Pv</sup>
These funds are requested for continuing architectural and engineering master planning, consulting services and technical studies. The funds will be allocated to the campuses based on need.			
06.48.322 Land Acquisition—North San Diego and Ventura Off-Campus Centers.....	347 <sup>At</sup>	8,076 <sup>At</sup>	—

\* Dollars in thousands, excluding salary range.

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
06.48.330	Contra Costa Off-Campus Center Infrastructure and Landscape/Initial Multi-Purpose Facility .....	\$146 <sup>PWt</sup>	—	—
06.48.315	Minor Projects .....	1,593 <sup>PWCEu</sup> 1,990 <sup>PWCEt</sup>	\$407 <sup>PWCEu</sup> 3,464 <sup>PWCEu</sup>	— \$6,000 <sup>PWCEv</sup>
These funds are for minor Capital Outlay construction for projects of \$250,000 or less at the various campuses.				
06.48.317	Statewide—Asbestos Abatement .....	2,571 <sup>PWt</sup>	1,471 <sup>PWt</sup>	—
06.48.318	Minor Projects—Energy Conservation Retrofits .....	356 <sup>PWCEt</sup>	—	2,382 <sup>PWCEv</sup>
Funds are requested for high priority energy conservation measures for the 20 CSU campuses. These funds will provide for a continuation of the ongoing program for the implementation of high priority energy conservation measures which were first initiated in 1979/80.				
06.48.321	Systemwide—Feasibility Studies for Energy Retrofits .....	120 <sup>Pu</sup>	120 <sup>Pu</sup>	120 <sup>Pv</sup>
Funds are requested for economic feasibility studies for cogeneration, energy management systems, alternate energy projects, building energy efficiency improvement projects, central plant efficiency projects, and utility distribution efficiency improvement projects. The studies will determine the most advantageous program for the implementation of the projects and will produce payback information necessary for the future funding of the projects.				
06.48.333	Campus Utilities Infrastructure Masterplanning .....	—	—	500 <sup>Pv</sup>
Funds are requested to develop Utilities Infrastructure Masterplans for the CSU Campuses in a phased multi-year approach. Many of the CSU campuses are scheduled to undergo major growth in the coming decade to accommodate their educational mission. The Utilities Masterplans will consider: existing utilities distribution, equipment condition, and remaining life, proposed growth based on the adopted academic masterplans, and establish a programmed approach defining major capital outlay projects for infrastructure replacement and enhancement at 3, 6, 12, and 24 year timeframes.

<b>06.62 California State University, Fullerton</b>				
06.62.066	Engineering Building Addition.....	\$181 <sup>Ct</sup>	\$976 <sup>Ct</sup>	—
		—	2,698 <sup>Eu</sup>	—
06.62.069	Science Building Addition and Renovation Phase I.....	—	22,431 <sup>WCr</sup>	—
06.62.070	Physical Education Addition.....	—	—	233 <sup>Pv</sup>
The Fullerton campus presently is 25.1% deficient in ASF for Physical Education as determined by CSU policy standards. This project will house 35,760 asf, including 20 offices, 2,300 asf of lecture classrooms, and gymnasium facilities.				
06.62.073	Classroom/Student and Academic Support Service/Faculty Office Building.....	—	307 <sup>Pu</sup>	\$390 <sup>Wv</sup>
Funds are requested for a new building to provide 54,500 asf to house 2004 FTE lecture, 100 faculty offices and related support space.				
06.62.074	Library Building Addition.....	—	—	359 <sup>Pv</sup>
Funds are requested to add approximately 101,400 asf to the current library facility. 1987-88 data on CSU library assignable square feet, shows the CSU Fullerton Library, for the target year of 1994-95, will possess only 55.9 percent of formula-generated space. With this addition, the library will meet 100% of space for the target year.				

\* Dollars in thousands, excluding salary range.

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
06.62.075	Central Plant, Phase V.....	-	-	\$357 <sup>PWv</sup>
Funds are requested to provide additional central plant cooling capacity and piping for the following projects: Science Building Addition, Performing Arts Auditorium, and Library Expansion. The project will provide two 1,200-ton chillers to service approximately 650,000 square feet of new building space.				
06.62.076	Science Building Addition Renovation, Phase II.....	-	-	258 <sup>Pv</sup>
Funds are requested to renovate approximately 60,000 asf of laboratory area in McCarthy Hall, which space will be vacated when the new Science Building Addition is occupied in fall 1992. The renovated space will provide for expansion of the Computer Center, Engineering and Computer Science space, lecture, and space for a variety of other Physical Science disciplines.				
Other Nonstate Projects.....		\$11,160 <sup>i</sup>	-	-

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
06.82.060	Physical Education Addition/and Renovation.....	-	-	\$266 <sup>Pv</sup>
Funds are requested to provide the additional indoor physical education space required for a student enrollment of 21,400 FTE. Included is 58,000 assignable square feet to be developed as an auxiliary gymnasium, specialized activity spaces, equipment issue and storage rooms, locker/shower/toilet facilities, training rooms and a graduate research laboratory, plus related administrative space.				
06.82.061	Ventura Site, Master Plan, Phase II.....	-	\$200 <sup>Pu</sup>	-
06.82.067	Science Building Renovation, Phase I.....	-	-	294 <sup>Pv</sup>
Funds are requested to accomplish the renovation and modernization of the existing Science Building to accommodate the biological, physical and health science programs and provide 53 faculty offices. The two major components are 1) renovation of 70,000 asf for the specific programs mentioned, and 2) correct health and safety code compliance items in the building systems.				
06.82.069	Engineering Addition, Renovation, Asbestos Abatement, Phase I (Addition).....	-	-	257 <sup>Pv</sup>
Funds are requested to construct an addition to the Existing Engineering Building of 53,700 asf, including 30 faculty office (4,610 asf), graduate research space (27,800) and miscellaneous shops (3,800 asf). The additional offices will reduce an existing campus deficit in office space.				
06.82.070	Upgrade, Renovate Electrical Infrastructure I.....	-	-	403 <sup>PWv</sup>
Funds are requested to address a critical need to renovate the campus' electrical infrastructure, which has experienced severe deterioration, and to meet the urgent need to provide additional electrical service to serve future development. The project will modernize and rehabilitate the existing electrical infrastructure and increase the capacity of electrical service by providing a needed new substation and infrastructure to serve new facilities to meet projected enrollment growth.

06.78 California State University, San Bernardino				
06.78.059	School of Business/Information Sciences Building .....	-	\$379 <sup>Pu</sup>	\$19,662 <sup>WCs</sup>
Funds are requested for a building which will house the school of Business and Public Administration plus information sciences. It will include 2,209 FTE lecture, 126 FTE laboratories, 288 self-instruction computer stations and 169 faculty offices.				
06.78.060	Library Addition/Site Development .....	-	348 <sup>Pu</sup>	523 <sup>Wv</sup>
Funds are requested for a facility to house an 82,749 asf library addition to the existing Pfau library. It will include library functions and 192 self-instructional computer stations. This addition will meet systemwide library standards for a campus of 9,750 FTE.				
06.78.061	Electical Feeder .....	-	11 <sup>Pu</sup>	619 <sup>WCv</sup>
Funds are requested to provide a second 12 KV feeder line from from off-campus to provide additional electrical capacity for existing and planned buildings.				
06.78.062	Plant Expansion .....	-	13 <sup>Pu</sup>	921 <sup>WCv</sup>
Funds are requested to provide the expansion (800 tons) of the chilled water system to provide additional capacity for the library and other new buildings.				
06.78.068	Classroom/Faculty Office/Student Services Building .....	\$50 <sup>Cu</sup>	16,314 <sup>Cu</sup>	2,770 <sup>Ev</sup>
Funds are requested to provide equipment for an 82,864 asf facility to house 2,470 FTE lecture, 74 FTE laboratory, 147 faculty offices and 168 self-instruction computer stations.				
06.78.069	Visual Arts Building .....	-	-	262 <sup>Pv</sup>
Funds are requested to provide a new 68,060 asf visual arts building which will include 405 lecture FTE and 143 laboratory FTE and 20 faculty offices. Following the completion of this project, the campus will have 94% of the projected need for lecture space and 92% of the projected need for laboratory space.				
06.78.070	Health, Physical Education Classroom and Faculty Office Complex .....	-	-	404 <sup>Pv</sup>
Funds are requested for a 103,641 asf addition (with 22,301 asf of instructional space, 78,680 asf of activity space and 2,660 asf of administrative offices), and renovation of 13,297 asf. This project will provide 8 faculty offices, an addition of 477 lecture FTEs, 23 laboratory FTEs, 24 self-instructional computer stations, eight indoor physical education student stations, and 17 acres of outdoor physical education space.

## 6610 THE CALIFORNIA STATE UNIVERSITY—Continued

STATE BUILDING PROGRAM EXPENDITURES		Actual 1988-89*	Estimated 1989-90*	Proposed 1990-91*
06.80.109	Chemistry/Geology Building Renovation and Addition—Chilled Water System Expansion, Phase I .....	\$120 <sup>Wu</sup>	—	\$4,855 <sup>WCv</sup>
	Funds are requested for a 10,837 asf addition with 687 FTE lecture capacity. Also included are two 400-ton chillers to be added to the chilled water system. A rock processing facility and 76 self-instructional computer stations will also be provided in the addition.			
06.80.110	Classroom/Student Services Building, Phase II.....	—	\$440 <sup>Wu</sup>	13,362 <sup>Cv</sup>
	Funds are requested for a facility of 63,494 asf which will provide 1,000 FTE lecture, 200 self-instructional computer stations and student service offices. The student service space will include Admissions/Records Offices, Financial Aid, Testing, Disabled Student Services and Fiscal Operations.			
06.80.115	CSU, San Marcos Campus, Infrastructure/Site Development.....	330 <sup>Wu</sup>	9,701 <sup>Cu</sup>	—
06.80.116	CSU, San Marcos Campus, Initial Facility.....	869 <sup>PWu</sup>	18,282 <sup>Cs</sup>	4,572 <sup>Ev</sup>
	Funds are requested to provide equipment for the initial facilities to house the campus library and audio visual services, administrative and student services, computer services and faculty office.			
06.80.117	CSU, San Marcos Campus, Academic Building I.....	291 <sup>Pu</sup>	18,107 <sup>Cu</sup>	—
06.80.118	CSU, San Marcos Campus, Physical Plant/Corporation Yard.....	105 <sup>PWu</sup>	1,485 <sup>Cu</sup>	604 <sup>Ev</sup>
	Funds are requested for equipment for the corporation yard and shops for the physical plant.			
06.80.136	Elevator for Handicapped.....	15 <sup>Ct</sup>	205 <sup>Ct</sup>	—
06.80.137	Engineering Building Renovation and Addition, Phase I.....	—	—	405 <sup>Pv</sup>
	Funds are requested to provide 66,056 asf to the existing building to house 19 teaching and research laboratories, five lecture classrooms serving 594 FTE, 72 single station faculty offices, and faculty-administration and clerical space.			
06.80.140	Library Addition.....	—	—	487 <sup>Pv</sup>
	Funds are requested for a project which will provide 110,594 asf new and renovate 20,348 asf of space. The building will include 2,025 reader stations, 30 group study rooms, compact shelving, support areas, special collections, and miscellaneous space. A part of the project is renovation of a portion of the existing library to recapture library materials storage space utilized by functions being moved into the new addition.			
06.80.142	Utilities Improvements I.....	—	—	3,900 <sup>WCv</sup>
	Funds are requested to a minimum of 1,000 tons of chilled water capacity and associated chill towers. The project anticipates that deactivation of three existing stand-alone systems will occur and that an overall gain will be made in energy savings, long term maintenance and operating costs. The improvements will provide service to buildings now under construction and in planning stages.			
	Other Nonstate Projects.....	41,375 <sup>i</sup>	13,138 <sup>i</sup>	1,500

## 6860 CALIFORNIA MARITIME ACADEMY

The California Maritime Academy was established in 1929 to educate officers for the United States Merchant Marine. The program has been broadened to provide well-trained, college-educated officers for the maritime industry.

The Academy offers a four-year academic program. Included in the eleven month academic year is a three-month dockside exercise and cruise aboard the Golden Bear training ship. Students operate the ship under the supervision of licensed merchant marine officers who comprise the majority of the faculty. These cruises enable students to meet U.S. Coast Guard regulations for licensing, and learn actual ship handling under operating conditions.

Responsibility for the Academy is vested in the Board of Governors who are appointed by the Governor. The Board has adopted the following statement as the goal of the Academy:

"To provide instruction in the marine transportation, marine engineering and related fields, including all those necessary to provide the highest quality officer for the American Merchant Marine and California industries and licensing therein."

Inherent in the goal of the Academy are the following objectives:

1. To educate each student in an accredited college program in marine transportation, marine engineering and related fields.
2. To train each student in the skills and knowledge essential to licensing in the American Merchant Marine.

## SUMMARY OF PROGRAM REQUIREMENTS

	1988-89*	1989-90*	1990-91*
10 Instruction .....	\$4,701	\$4,921	\$5,052
20 Academic Support .....	1,222	1,452	1,455

Personnel years .....	126.6	136.5	136.5

## MAJOR BUDGET ADJUSTMENTS

General Fund expenditures proposed for 1990-91 reflect a \$97,000 increase over 1989-90. The following table identifies significant budget changes for 1990-91:

## Highlights of the 1990-91 Governor's Budget for the California Maritime Academy

Program	Description	1990-91 Dollars*
10	Teacher Merit Salary Adjustments .....	44
10	Standard increase in fees for resident and non-resident students .....	41
40	Residence Hall roof replacement .....	60

## 10 INSTRUCTION

## Program Objectives Statement

The instruction program provides general education classes and specialized courses to prepare students for careers as licensed officers in the merchant marine and the maritime industry. The curriculum provides for specialization in either Marine Transportation, Marine Engineering Technology, Business Administration or Mechanical Engineering. A list of minors in related fields is available covering: Marine Business Management, Maritime Specialties, Computer Science, Instrumentation and Automation, Ocean Technology, Naval Architecture Technology, and Naval Science. Satisfactory completion of the academic program and successful performance on the U.S. Coast Guard license examination enables a student to graduate from the four-year program with a Bachelor of Science degree in one of the specialties. Graduates are eligible for reserve commissions in the U.S. Navy or U.S. Coast Guard and, after passing U.S. Coast Guard examinations, are licensed as third mates or third assistant engineers in the merchant marine.

The Academy has been granted academic accreditation by the Western Association of Schools and Colleges and professional accreditation by the Accreditation Board for Engineering and Technology and the National Association of Industrial Technology.

## Budget Adjustments

The Governor's Budget proposes the following 1990-91 adjustments:

- \$44,000 is provided for teacher merit salary adjustments.
- Reimbursements are increased by \$41,000 resulting from standard fee increases for resident and non-resident students.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

\* Dollars in thousands, excluding salary range.

## 20.10 Library

## Program Element Statement

The library develops, obtains and makes available to students and faculty the bibliographical and informational resources necessary to carry out the primary function of instruction.

Input	88-89	89-90	90-91	1988-89*	1989-90*	1990-91*
Expenditures (General Fund).....	4.1	4.3	4.3	\$306	\$339	\$344

## 20.20 Ship Operations

## Program Element Statement

Ship operations provides the basis for practical seamanship, navigation and marine engineering instruction to all students. This includes daily operation and maintenance of the training ship, waterfront facilities and all assigned small craft. An annual training-at-sea trimester is normally conducted in the months of January, February and March to provide the practical shipboard training necessary to meet Coast Guard licensing requirements. Annual shipyard overhaul and repair of the vessel is paid by the U.S. Maritime Administration (MARAD) and is not included in this budget. In recent years, expenditures for the ship's fuel have been reimbursed by MARAD.

Federal Trust Fund <sup>f</sup> .....				10	—	—

## 30 STUDENT SERVICES

## Program Objectives Statement

Included in this program are health support, housing and food. These are needed to support students, all of whom are required to live on campus. In addition, admissions, financial aid and registration are part of student support services.

The Academy's daily routine provides residence facilities and meals for the students on nearly a year-round basis. This continuing requirement is interrupted three times during the year: winter recess (two weeks); spring recess (one week); and summer recess (five weeks). Fourth-class students remain on campus during the sea training trimester to receive additional academic instruction.

Elimination of the Public Health Service by the Federal Government prompted the Academy to institute a health insurance plan. The cost of the program is covered through student fees.

## 6860 CALIFORNIA MARITIME ACADEMY—Continued

## 40 ADMINISTRATION

## Program Objectives Statement

The institution requires executive management to direct the activities of the various departments. The administrative staff and plant operation personnel provide the necessary ancillary services in support of the training program provided for students. The 67-acre campus contains a classroom building, faculty office building, two residence halls, student commons building, engineering and laboratory building, combination auditorium/lecture hall, dining hall, gymnasium, seamanship building, library, administration building, radar simulation laboratory, and a corporation yard, which require continuous maintenance and upkeep.

## Budget Adjustment

The Governor's Budget proposes the following 1990-91 adjustment:

- \$60,000 is provided to replace the roof on the residence hall. The total cost of the project is estimated to be \$100,000 with \$40,000 to be provided through a one-time redirection of funds from within existing resources of the Maritime Academy.

## 6870 BOARD OF GOVERNORS OF THE CALIFORNIA COMMUNITY COLLEGES

The Board of Governors of the California Community Colleges was established by Chapter 1549, Statutes of 1967, to provide statewide leadership to the public community college segment of California higher education.
